Omnicare Employees' Savings and Investment Plan

Notes to Financial Statements December 31, 2011 and 2010

Note 1 - Plan Description

The following description of Omnicare Employees' Savings and Investment Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all full-time employees of Omnicare, Inc. (the "Company"). The Plan was amended effective July 1, 2011 and again on October 1, 2011, and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Prior to July 1, 2011, employees became eligible to participate in the Plan after six months of service. The July 1, 2011 amendment allows each employee to become eligible to participate in the Plan as of the first day of the month following the date of employment. The October 1, 2011 amendment changed the Company match contribution to a uniform amount across all divisions.

Contributions - The Plan provides that participants may contribute up to 100 percent of their base compensation, as defined by the Plan. Employee contributions are subject to the limitations set forth by the Internal Revenue Service. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants may direct the investment of their contributions into various investment options offered by the Plan. In addition, participants may direct contributions to self-directed brokerage accounts (the Personal Choice Retirement Accounts (PCRA)).

The Company matches participant contributions in accordance with the plan agreement, which was last amended October 1, 2011. Prior to the October 1, 2011 amendment, all eligible employees received a Company match based on the option elected by their division of the Company. The amendment changed the Company match contribution to a uniform amount across all divisions. The matching Company contribution is invested directly in Omnicare, Inc. common stock or cash as determined by the Company. Participants are allowed to diversify their Omnicare common stock investment after three years of service, based on the participant's age. Additional profit-sharing amounts may be contributed at the option of the Company's board of directors and are invested in a portfolio of investments as directed by the Company based on the participant's compensation. There were no additional profit-sharing contributions made in 2011.

During 2011, the Company remitted certain employee deferrals to the Plan after the Department of Labor's required timeframe. A contribution of the lost earnings will be made subsequent to year end.

Omnicare Employees' Savings and Investment Plan

Notes to Financial Statements December 31, 2011 and 2010

Note 1 - Plan Description (Continued)

Participant Accounts - Employee contributions are made through regular payroll deductions and paid into the Plan on a bi-weekly basis. Each participant's account is credited with the participant's contribution and allocations of the Company's contributions and plan earnings and charged with an allocation of administrative expenses. Allocations are based on participants' account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately 100 percent vested in employee salary and rollover contributions and any income or loss thereon. Vesting in the Company's contribution portion of their accounts, plus actual earnings thereon, is based on years of service. Until October 1, 2011, participants vested in contributions made by the Company 20 percent after two years of service and an additional 20 percent after each additional year of service, until they became fully vested after six years of service. On October 1, 2011 the vesting schedule was amended, and Participants vest in contributions made by the Company 20 percent after one year of service and an additional 20 percent after each additional year of service, until they become fully vested after five years of service.

Benefit Payments - Distributions are payable upon retirement, death, disability, or termination of employment in the form of a lump-sum amount or annuity equal to the vested balance of a participant's account.

Forfeitures - If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future employer contributions or to pay plan expenses at the discretion of the Company. At December 31, 2011 and 2010, forfeited account balances totaled \$375,603 and \$54,964, respectively. During 2011, plan expenses paid with forfeitures were \$345,997.

Party-in-interest Transactions - Certain plan assets are in investment funds managed by Charles Schwab Bank or its affiliates. Charles Schwab Bank is the trustee of the Plan and, therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Termination - While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Notes to Financial Statements December 31, 2011 and 2010

Note 2 - Summary of Significant Accounting Policies

Investment Valuation - The Plan's investments are stated at fair value. The common collective trust funds are valued at net asset value per share (or its equivalent) of the funds, which are based on the fair value of the funds' underlying assets. All other investments are valued based on quoted market prices. See Note 6 for additional information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Benefit Payments - Benefits are recorded when paid. At December 31, 2011 and 2010, \$215,942 and \$223,404, respectively, of distributions had been approved but not paid.

Administrative Expenses - Various administrative costs are paid by the Plan. Other administrative costs are paid by the Company, on behalf of the Plan.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including October 5, 2012, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

Charles Schwab Bank (the "Trustee") holds the Plan's investments and executes all investment transactions. The investment balances and related investment income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year is based solely on information provided by the Trustee.

Note 5 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Although, the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax position and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The plan administrator believes the Plan is no longer subject to tax examinations for years prior to 2008.

Note 6 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2011 and 2010 and the valuation techniques used by the Plan to determine those fair values.

Level 1 - In general, fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

(1) This class represents investments in an actively managed common collective trust fund that invests primarily in equity and fixed-income which may include corporate bonds and both U.S. and non-U.S. municipal securities. There were no unfunded commitments or redemption restrictions.

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the end of the reporting period. There were no significant transfers between levels of the fair value hierarchy during 2011 and 2010.

The Plan also holds other assets and liabilities not measured at fair value on a recurring basis, including employer and employee contributions receivable, participant notes receivable, cash, accrued income, accrued liabilities and payables, and unsettled trades. The fair value of these assets approximates the carrying amounts in the accompanying financial statements due to either the short maturity of the instruments or the use of interest rates that approximate market rates for instruments of similar maturity.
