Report of Independent Certified Public Accountants

To the Employee Benefit Trust Administrative Committee of the
Johnsonite Retirement Savings Plan

We were engaged to audit the financial statements of the Johnsonite Retirement Savings Plan (the "Plan") as of December 31, 2011 and 2010 and for the year ended December 31, 2011, as listed in the accompanying index. These financial statements are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by the Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the certified Plan assets and executes the related transactions. The plan administrator has obtained certifications from the trustee as of December 31, 2011 and 2010 and for the year ended December 31, 2011, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to express, and we do not express, an opinion on the accompanying financial statements taken as a whole. The form and content of the information included in the financial statements, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America as established by the American Institute of Certified Public Accountants and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTES TO FINANCIAL STATEMENTS

December 31, 2011 and 2010

NOTE 1 – SUMMARY OF PLAN

The following description of the Johnsonite Retirement Savings Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General

The Plan, formerly known as the Duramax Retirement Savings Plan and Trust, as restated and amended, was established by Duramax, Inc. as of April 1, 1989. In December 2005, Duramax, Inc. spun off the Johnson Rubber and Norbalt Rubber divisions to the previous shareholders of Duramax, Inc. Subsequent to the spin off of the Johnson Rubber and Norbalt Rubber divisions, Duramax, Inc. was acquired by Tarkett AG and renamed Johnsonite Inc. (the “Company”).

Effective December 31, 2011, the Plan merged with and into the Tarkett 401(k) Plan. In connection with the merger, net assets of the Plan aggregating \$24,066,390 were transferred to the Tarkett 401(k) Plan. On January 1, 2012, all participants began participating in the Tarkett 401(k) Plan.

The purpose of the Plan was to provide retirement benefits, savings features and tax advantages to all salaried employees as defined by the Plan document. Any salaried employee could become a participant on the first day of the first payroll period of the calendar month following any applicable probationary period which will not be longer than 90 days. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Contributions

Upon entry into the Plan, each participant could elect to contribute, on a before-tax basis, up to 50% of their compensation to the Plan, provided such contribution did not exceed Internal Revenue Code (IRC) limitations. The Company could, at its discretion, contribute 10% of its annual profits, as defined by the Plan document, to the Plan. Such contribution would be used to match participants' tax deferred contributions up to a maximum of 6% of their compensation on a pro rata basis. In addition, the Company would also make a basic employer contribution equal to 2% of each participant’s compensation for the Plan year and an employer match of .25% of pay if the participant contributes at least 1% of their annual pay to the Plan.

Vesting

All participants were 100% vested in their employee tax-deferred contributions and in all Company contributions.

Payment of Benefits

Participants or their beneficiaries would automatically receive their vested interest as a lump-sum distribution if they retired after reaching age 65, die, terminate employment or become totally disabled. Withdrawals could also be made as a lump-sum distribution from a participant's account under certain hardship provisions, as defined by the Plan document.

NOTE 1 – SUMMARY OF PLAN – CONTINUED

Administration

The Plan was administered by the Company, while an Employee Benefit Trust Administrative Committee was responsible for discharging the administrative duties and exercising the administrative powers under the Plan.

Participant Accounts

Each participant account was credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations were based on participant earnings or account balances, as defined. The benefit to which a participant was entitled is the benefit that could be provided from the participant's vested account.

Notes Receivable from Participants

Participants could borrow from their vested fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balance. The loans were secured by the balance in the participant's account. The loans bore interest at rates that were commensurate with local prevailing rates at the date of issuance, as determined quarterly by the Plan Administrator. Principal and interest was paid ratably through payroll deductions over periods ranging up to 60 months with longer periods available if the loan was used to purchase the primary residence of the participant. Interest rates on loans outstanding at December 31, 2010 ranged from 4.25% to 10.50%.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The December 31, 2010 statement of net assets available for benefits presents the fair value of investment contracts as well as the adjustment from fair value to contract value for the fully benefit-responsive investment contracts. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The Plan invested in the KeyBank EB Managed Guaranteed Investment Contract Fund (the "Fund"), a stable value collective fund. The underlying investments of the fund are guaranteed investment contracts (GIC) and Synthetic GIC's. GICs are valued based on estimated fair value, computed using discounted cash flows. The fair value of SICs is calculated by using market-corroborated discount rates, with the applicable wrapper contracts valued at estimated fair value based on a replacement cost approach. As required, the fair value of a fully benefit-responsive investment contract is adjusted to contract value. Certain events or conditions could potentially limit the ability of the Fund to transact at contract value. Such events or conditions include, but are not limited to, (1) amendments to the Plan document (including partial or complete termination or merger with another plan) (2) changes to the Plan's prohibition on competing investment options (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events that cause a significant withdrawal from the Plan (plant closings, mergers, early retirement incentives) (4) changes of qualification status of employer or Plan or (5) employer communications designed to induce participants to transfer from the Fund. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with participants are probable of occurring.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions, at any time and to terminate the Plan subject to the provisions of ERISA. In the event of a termination, the total balance in each participant's account becomes immediately distributable in accordance with the terms of the Plan.

Contributions

Company contributions were made to the accounts of participants who are employed as of December 31 or have attained age 55 and were employed during the fiscal year and were deemed to have been paid as of the last day of the Plan year. Included in Company contributions of \$1,416,607 is a discretionary match contribution of \$985,018 for the year ended December 31, 2011.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are reclassified as distributions based upon the terms of the Plan document.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Payments of Benefits

Benefits are recorded when paid.

Administrative Expenses

Administrative expenses of the Plan are reflected in the accompanying financial statements when incurred by the Plan. The Company also paid certain administrative expenses related to the Plan.

Recently Issued and Adopted Accounting Standards

In January 2010, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) No. 2010-06, *Fair Value Measurements and Disclosures (Topic 820) - Improving Disclosures About Fair Value Measurements* (ASU 2010-06), to add new disclosures about transfers into and out of Levels 1 and 2 and separate disclosures about purchases, sales, issuances and settlements relating to Level 3 measurements. ASU 2010-06 also clarifies existing fair value disclosures about the level of disaggregation and about inputs and valuation techniques used to measure fair value. This ASU was effective for periods beginning after December 15, 2009, except for the requirement to provide separate Level 3 activity on a gross basis, which was effective for fiscal years beginning after December 15, 2010. Applicable provisions of the ASU were adopted in 2010 or 2011, as required. The adoption of this guidance had no effect on the statement of net assets available for benefits or the statement of changes in net assets available for benefits.

NOTE 3 – INVESTMENTS

The following investments represent 5% or more of the Plan’s net assets at either December 31, 2011 or 2010:

NOTE 3 – INVESTMENTS – CONTINUED

During 2011, the Plan's investments (including investments bought and sold, as well as held during the year) depreciated in value by \$819,445 as follows:

Mutual funds	\$ (842,871)
Pooled separate accounts	<u>23,426</u>
	<u>\$ (819,445)</u>

NOTE 4 – FAIR VALUE MEASUREMENTS

FASB Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes to the methodologies used at December 31, 2011 and 2010.

Mutual funds: Valued at the closing price reported on the active market on which the individual securities are traded.

Johnsonite Retirement Savings Plan

NOTES TO FINANCIAL STATEMENTS – CONTINUED

December 31, 2011 and 2010

NOTE 4 – FAIR VALUE MEASUREMENTS – CONTINUED

Stable value collective trust: Stated at fair value and then adjusted to contract value. Fair value is the net asset value (NAV) per unit based on the fair value of the underlying investments (primarily guaranteed investment contracts and synthetic investment contracts) and contract value is principal plus accrued interest. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value daily without any redemption notice or restrictions. Plan level initiated transactions require a twelve month redemption notice in order to withdrawal at full book value. Plan level initiated transactions with less than a twelve month redemption notice may incur an adjustment to book value. There are no unfunded commitments at December 31, 2011 or 2010.

Pooled separate accounts: Valued at the NAV per unit as determined by Principal on the last day of the Plan year based primarily on the quoted market price of the respective fund's underlying assets. All investments in this category can be redeemed daily, have a daily redemption notice period and have no unfunded commitments.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010:

	Assets at Fair Value as of December 31, 2010

NOTE 4 – FAIR VALUE MEASUREMENTS – CONTINUED

- (a) Fixed income pooled separate accounts invest primarily in intermediate term, fixed income investments such as public and private corporate bonds, commercial and residential mortgages, asset-backed securities, and U.S. government and agency-backed securities.
- (b) Balanced pooled separate accounts seek a total return consisting of long-term capital growth of capital and current income and include investments in underlying Principal domestic and foreign equity, hybrid, and fixed income funds according to an asset allocation strategy designed for investors having an investment time horizon comparable to that of the fund. It allocates the assets more conservatively over time.
- (c) Large U.S. equity pooled separate accounts seek long-term growth of capital and invest in the common stocks of companies that compose the S&P 500 Index or at least 80% of assets in equity securities of companies with market capitalizations within the range of companies in the Russell 1000 Growth index at the time of purchase and less than 25% of total assets in foreign companies. The accounts may also purchase futures and options.
- (d) Small/Mid U.S. equity pooled separate accounts seek long-term growth of capital and invest in at least 80% of assets in a diversified portfolio of equity investments in mid-cap issuers with a medium market capitalization (those with market capitalizations similar to companies in the Russell MidCap Value index) at the time of purchase or at least 80% of assets in common stocks of companies with small market capitalizations (those with market capitalizations equal to or smaller than the greater of \$2.5 billion or the highest market capitalization of the companies in the Russell 2000 Growth index) at the time of purchase.
- (e) The Fund's objective is a reasonable level of income together with stability of principal. The Fund achieves this objective by investing in synthetic GICs, which are high quality debt securities that are insulated from market volatility by a bank issued or insurance company issued wrap contract; guaranteed investment contracts (GICs), which are obligations of credit worthy life insurance companies; and cash and equivalents. The effective average maturity of the Fund is 3.5 years or less, and the Fund targets maintaining an average S&P credit quality of "AA" to stay above the current minimum requirement of "A".

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2011:

NOTE 5 – INFORMATION CERTIFIED BY THE TRUSTEE

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Delaware Charter Trust Company d/b/a Principal Trust Company, the trustee of the Plan, has certified that the following data included in the accompanying financial statements is complete and accurate:

- Investments and notes receivable from participants, as shown in the statements of net assets available for benefits as of December 31, 2011 and 2010.
- Total investment income (loss) and interest income on notes receivable from participants, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2011.
- Investment information in Note 3.

No audit procedures have been performed on the information provided by the trustee except to compare such information to the related information included in the accompanying financial statements.

NOTE 6 – RISKS AND UNCERTAINTIES

The Plan invested in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 7 – TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by letter dated October 11, 2011, that the Plan and related trust are in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently operating in compliance in all material respects with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011 and 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

NOTE 8 – TRANSACTIONS WITH PARTIES-IN-INTEREST

The Plan invested in several pooled separate accounts which are managed by the trustee. As a result, these transactions qualify as party-in-interest transactions for which a statutory exemption exists under the Department of Labor Regulations.

NOTE 9 – RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31, 2010:
