Note 1 - Description of the Plan and Significant Accounting Policies

The following description of CES 401(k) Plan (the "Plan") provides only general information. Participants and all others should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established March 1, 2006 and most recently amended December 31, 2009. The Plan is available to employees who have completed one month of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Board of Directors of Customer Engineering Services (the "Company") administers the Plan. Automatic Data Processing, Inc. ("ADP") maintains the Plan's records. State Street and Trust Company ("State Street") serves as trustee, custodian, and manages Plan investments. State Street offers Plan participants a variety of investment options through various pooled separate accounts and a common/collective trust. Individual accounts are invested in the various investment options at the direction of the participants.

Contributions

Participants may make before-tax contributions from 1% to 90% of their annual compensation, not to exceed annual limitations established by the Internal Revenue Service ("IRS"), which are adjusted annually by the Secretary of the Treasury for inflation. The Plan also permits rollover contributions from other qualified retirement plans. Employee contributions to the Plan are made through regular payroll deductions. Employees who are at least age 50, or will attain age 50 before the end of a calendar year, may elect to defer additional amounts to the Plan. The Company may contribute matching contributions as determined each Plan year by the Company. Additionally, the Company may, at its discretion, make a profit-sharing contribution to the Plan. The Company made no matching or profit-sharing contributions for the year ended December 31, 2011.

Participants' Accounts

Each participant's account is credited or charged with the participant's contribution, rollover contributions, an allocation of the Company's contribution, if any, Plan earnings or losses, forfeitures, and administrative expenses. The benefit to which a participant is entitled is the vested portion of the participant's account. Participant-elective deferrals are deposited into the investment options selected by the participants.

Vesting

Participants are 100% vested in their voluntary contributions, rollover contributions, allocation of administrative expenses, forfeitures, and allocated earnings or losses thereon.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Vesting (continued)

Any employer contributions (including forfeitures) and the earnings or losses thereon not fully vested when contributed will vest as follows:

Years of Service	Vested Interest
Less than 1 year	0%
1	20%
2	40%
3	60%
4	80%
5 or more	100%

A participant's account becomes 100% vested upon death, attaining normal retirement age (the age of 65), retirement due to disability, or if the Plan is terminated.

Participant Loans Receivable

Participants may borrow from their vested accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balances. Participants may not initiate more than two loans in one calendar year and may not have more than two loans outstanding at any time. The loans are secured by the balances in the participants' vested accounts. The loans shall be repaid over a period not to exceed five years, unless the purpose of the loan is for purchase of a principal residence of the participant, in which the loan repayment period may not exceed ten years. Loans bear interest at rates that range from 3.25% to 7.75%, which are commensurate with local prevailing rates at the time a loan is originated as determined quarterly by the Plan administrator and mature at various dates through January 2019. Principal and interest is paid ratably through payroll deductions.

Payments of Benefits

Upon termination of service, death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested account balance or annual installments over a fixed period of time. Terminated participants with account balances of $1,000 or less will automatically receive a distribution in one lump sum. If a participant's vested account balance is greater than $1,000 but not more than $5,000 and an election to distribute benefits is not made within a stated time, the vested balance will be automatically rolled into an individual retirement account. Benefits are recorded when paid.

Participant Termination and Forfeitures

If at the time of termination of employment the participant is not 100% vested, the non-vested portion ("forfeitures") of the participant's account shall be placed in a separate account and will be used to offset administrative expenses and employer contributions. The balance of this account at December 31, 2011 and 2010 was $0, and no amounts were used during the year ended December 31, 2011.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Investment Valuation and Income Recognition

The assets of the Plan are primarily comprised of pooled separate accounts, which are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Investments in pooled separate investment accounts are valued by State Street based upon the fair value of the investments comprising the separate funds. See Note 2 for a discussion of fair value measurements.

The net realized and unrealized investment gain or loss (net appreciation or depreciation in fair value of investments) is reflected in the accompanying statement of changes in net assets available for benefits and is determined as the difference between fair value at the beginning of the year (or date purchased if during the year) and selling price (if sold during the year) or year-end fair value. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recognized on the accrual basis. Dividends are recognized on the ex-dividend date.

The Plan invests in a common/collective trust, which contains fully benefit-responsive investment contracts. According to generally accepted accounting principals in the United States of America ("GAAP"), common/collective trusts held by a defined contribution plan are required to be reported at fair value. However, contract value is a relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As of December 31, 2011 and 2010, an adjustment was recorded in order to adjust fair value to contract value.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with GAAP.

Risk and Uncertainties

The Plan provides for various investments that, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Risk and Uncertainties (continued)

Additionally, some investments held by ADP are invested in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than securities of comparable U.S. companies.

Reclassifications

Certain amounts in the 2010 financial statements have been reclassified to conform to the 2011 presentation.

Note 2 - Fair Value Accounting

GAAP requires disclosure about how fair value is determined and establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Note 2 - Fair Value Accounting (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's investment assets measured at fair value, on a recurring basis, as of December 31, 2011:

Description	Level 1	Level 2	Level 3	Total
Pooled separate accounts

The following table sets forth by level, within the fair value hierarchy, the Plan's investment assets measured at fair value, on a recurring basis, as of December 31, 2010:

Description	Level 1	Level 2	Level 3	Total
Pooled separate accounts				
Intermediate	$ -	$ 124,102	$ -	$ 124,102

Total	$ -	$ 2,662,484	$ 727,851	$ 3,390,335

The Plan's investments held in pooled separate accounts are stated at fair value. The fair value of these investments is based upon Net Asset Values ("NAV") reported by the fund managers as of the financial statement dates and recent transaction prices. These investments provide for daily redemptions by the Plan at reported NAV with no advance notice requirement.

Note 2 - Fair Value Accounting (continued)

Common/collective trusts and insurance company general accounts are valued by discounting the estimated future cash flows based upon current yields of similar instruments with comparable durations considering the creditworthiness of the issuer.

There were no changes to the valuation techniques used during the period.

Level 3 Changes

The following is a reconciliation of the beginning and ending balances for assets measured at fair value on a recurring basis using significant unobservable inputs (Level 3) during the year ended December 31, 2011:

	Common/ Collective Trusts
Beginning balance	$ 727,851
Interest income	15,269
Contributions	188,075
Exchanges	8,517
Distributions	(28,404)
Fees	(3,989)
Change in adjustments from fair value to contract value	7,953
Ending balance	$ 915,272

Note 3 - Assets Certified by State Street

State Street has certified in writing to the Plan administrator that the stated amounts for investments at fair value as of December 31, 2011 and the income earned for the year ended December 31, 2011, as reflected in the accompanying financial statements and the supplemental schedule, are complete and accurate.

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's auditors not to perform any auditing procedures with respect to the information certified by State Street, except for comparing the information contained therein to information included in the financial statements and the supplemental schedule.

Note 4 - Income Taxes

The Plan did not obtain a Plan-specific determination letter as it operates under State Street's advisory letter dated March 31, 2008, which was issued on the volume submitter specimen Plan document. The Plan has been amended since the date of the advisory letter; however, the Plan administrator believes that the Plan continues to be designed and operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Plan management evaluates tax positions taken by the Plan and recognizes a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

Note 5 - Administration of the Plan

The Company provides, at no cost to the Plan, certain administrative, accounting, and legal services to the Plan and also pays the cost of certain outside services for the Plan.

Note 6 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. If the Plan is terminated for any reason, all participants become 100% vested, and the Plan administrator is to distribute each participant's interest to the participant or beneficiary.

Note 7 - Party-in-Interest

Plan investments include pooled separate accounts managed by State Street. State Street is the custodian, as defined by the Plan document; therefore, these transactions qualify as party-in-interest, which are exempt from the prohibited transaction rules.

Note 8 - Reconciliation to Form 5500

Total net assets available for benefits and changes in net assets available for benefits differ from amounts shown on the Plan's Form 5500 for the years ended December 31, 2011 and 2010 due to the adjustment from fair value to contract value for fully benefit-responsive investment contracts and for the accrual of corrective distributions.

Note 9 - Subsequent Events

The Company has evaluated subsequent events through October 12, 2012, the date the financial statements were available to be issued.
