We were engaged to audit the accompanying statements of net assets available for benefits of Midwest Eye Consultants Retirement Savings Plan as of December 31, 2011 and 2010, and the related statement of changes in net assets available for benefits for the year ended December 31, 2011, and schedule of assets (held at end of year) as of December 31, 2011. These financial statements and supplemental schedule are the responsibility of the Plan's management

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investments which were certified by State Street Bank & Trust Company and Minnesota Life Insurance Company, the custodians of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that State Street Bank & Trust Company held the Plan's investment assets and executed investment transactions from March 1, 2011 to December 31, 2011 and that Minnesota Life Insurance Company held the Plan's investment assets and executed investment transactions as December 31, 2010, and for the period January 1, 2011 to February 28, 2011. The Plan Administrator has obtained certifications from the custodians as of December 31, 2011 and 2010, and for the year ended December 31, 2011, that the information provided to the Plan Administrator by the custodians is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for the purpose of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodians, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

MIDWEST EYE CONSULTANTS RETIREMENT SAVINGS PLAN

Notes to Financial Statements

December 31, 2011

Note 1. Plan Description

The Midwest Eye Consultants Retirement Savings Plan (the "Plan") is a defined contribution plan sponsored by Midwest Eye Consultants, P.C. (the "Company" or "Employer") for the benefit of its employees who are 21 years of age and have completed at least six months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, (ERISA). The provisions of the Plan are included in the official Plan document which legally governs the operations of the Plan and is available for more detailed information.

Plan Amendment

Effective January 1, 2011, the Plan was amended and restated, and a new custodian of the Plan was appointed. Changes to the Plan included a change to eligibility requirements from 12 months of service to six months of service, and loan interest rates were changed to a fixed interest rate of prime plus two percent. The plan assets transferred to the new custodian were transferred into funds comparable to those offered by the previous custodian. All Plan activity was maintained with the new custodian, while Plan assets were transferred effective February 28, 2011.

Contributions

Participants may make voluntary pre-tax, or after-tax Roth, contributions from 1% to 90% of compensation up to the dollar limits set by the Internal Revenue Code. Participants may enter the Plan on the first day of the month following the date that eligibility requirements are met. Participants may also contribute amounts representing distributions from other qualified plans. The Company may make a discretionary match as a percentage of salary deferrals, determined annually. The Company may also provide a discretionary profit sharing contribution. No Company contributions were made for the year ended December 31, 2011.

Participant Accounts

Each participant's account is credited with the participant's contribution, allocations of the Company's contribution and Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants direct the investment of their account balances into various investment options offered by the Plan. Participants can change their investment allocations as often as they choose.

Vesting

Participants are immediately vested in their voluntary contributions plus earnings thereon. Vesting in the Company's contributions portion of their accounts plus earnings thereon is based on years of continuous service. Participants become 20% vested in the Company's contribution after two years of service and increase by 20% each year until they become 100% vested after six years of service.

MIDWEST EYE CONSULTANTS RETIREMENT SAVINGS PLAN

Notes to Financial Statements (Continued)

December 31, 2011

Note 1. Plan Description (Continued)

Notes Receivable from Participants

The Plan allows participants to borrow from their accounts a maximum equal to the lesser of \$50,000 or 50% of their vested account balance, but no less than \$1,000. A participant may have one loan outstanding at a time. The duration of any loan shall be no more than five years, unless such loan is for the purchase of a participant's primary residence, in which case the repayment period may not exceed thirty years. Repayments are made through payroll deduction. The loans are secured by the balance in the participant's account and bear interest at a fixed rate of prime rate plus two percent as determined by the Plan Administrator at time of origination. Loans outstanding at December 31, 2011, have loan rates ranging from 5.25% through 7.00% and mature through 2016.

Forfeitures

If a participant terminates employment before being fully vested, a portion of the Company contributions will be forfeited. Forfeitures can be used to pay Plan expenses or to reduce Company contributions. The Company has never made a Plan contribution; therefore, there is no forfeiture activity at December 31, 2011.

Benefit Payments

Benefit payments are payable as a single lump-sum payment or as partial payments. The full value of a participant's account is payable upon retirement, death or disability. Hardship distributions are also permitted as defined by the Plan. The Plan Administrator is allowed to make involuntary distributions to participants who terminate with account balances of less than \$5,000.

Operating Expenses

Certain expenses of maintaining the Plan are paid by the Company.

Termination of the Plan

Although the Employer has not expressed any intent to terminate the Plan, it may do so at any time, subject to the provisions set forth in ERISA. In the event of plan termination, participants will become fully vested in their accounts.

Note 2. Significant Accounting Policies

Basis of Financial Statements

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

MIDWEST EYE CONSULTANTS RETIREMENT SAVINGS PLAN

Notes to Financial Statements (Continued)

December 31, 2011

Note 2. Significant Accounting Policies (Continued)

Basis of Financial Statements (Continued)

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by accounting principles generally accepted in the United States of America, the statements of net assets available for benefits should present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis. As of December 31, 2010, the custodian estimated that contract value approximates fair market value.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant notes receivable are reclassified as distributions based on the terms of the Plan document.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Payment of Benefits

Benefit payments to participants are recorded when paid.

Subsequent Events

Management of the Plan has evaluated events and transactions for possible recognition or disclosure through October 11, 2012, the date the financial statements were available to be issued.

Note 3. Information Certified by the Plan's Custodians

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Effective February 28, 2011, the assets transferred from Minnesota Life Insurance Company to State Street Bank & Trust Company. Accordingly, State Street Bank & Trust Company, as custodian, has certified to the completeness and accuracy of all investments and notes receivable from participants reflected on the accompanying statements of net assets available for benefits as of December 31, 2011, and the schedule of assets (held at end of year) as of December 31, 2011, and the related investment and notes receivable from participants activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2011. Minnesota Life Insurance Company, as previous custodian, has certified to the completeness and accuracy of all investments and notes receivable from participants reflected on the accompanying statements of net assets available for benefits as of December 31, 2010, and the related investment and notes receivable from participants activity reflected in the statement of changes in net assets available for benefits for the period from January 1, 2011 through February 28, 2011.

Note 4. Significant Investments

The market value of investments that represent 5% or more of the Plan's net assets are summarized below:

As of December 31, 2011:

MIDWEST EYE CONSULTANTS RETIREMENT SAVINGS PLAN

Notes to Financial Statements (Continued)

December 31, 2011

Note 5. Fair Value Measurements

The Plan utilizes the Fair Value Measurements framework which defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date and establishes a hierarchy which prioritizes inputs to valuation techniques used to measure fair value into three broad levels. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy are as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	Inputs to the valuation methodology include: <ul style="list-style-type: none">• quoted prices for similar assets or liabilities in active markets;• quoted prices for identical or similar assets or liabilities in inactive markets;• inputs other than quoted prices that are observable for the asset or liability;• inputs that are derived principally from or corroborated by observable market data by correlation or other means. <p>If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.</p>
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Pooled separate accounts: Share prices/net asset values are calculated daily by the fund administrator.

Guaranteed investment contract: Fair value is estimated based on the fair value of the General Account Assets of Minnesota Life Insurance Company.

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

Common collective trusts: Valued at amortized cost, which approximates fair value.

Note 5. Fair Value Measurements (Continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments measured at fair value on a recurring basis as of December 31, 2011 and 2010.

Note 6. Investment Contract with Insurance Company

The Plan had a fully benefit-responsive investment contract with Minnesota Life Insurance Company ("Minnesota Life"). Due to the change in custodian, this investment option was no longer offered effective January 1, 2011. Minnesota Life maintained the contributions in a general account. The credited interest rates could be changed quarterly. The minimum guaranteed rate was 1.5%. The guarantee was based on Minnesota Life's ability to meet its financial obligations from the general assets of the company. Discontinuance of the contract would result in certain surrender charges and market value adjustments as defined by the contract. Contract value represents deposits made under the contract, plus earnings at guaranteed crediting rates, less withdrawals and administrative expenses.

	<u>2010</u>
Average yields:	
Based on actual earnings	2.63 %
Based on interest rate credited to participants	2.28

Note 7. Related Party Transactions

The Company provides administrative services to the Plan at no cost to the Plan. The Plan invests in certain funds sponsored by the Custodians. Fees were paid by the Plan to parties-in-interest, which were included as a deduction from investment income.

Note 8. Income Tax Status

The Plan, which is a prototype plan of ADP, Inc., obtained its latest opinion letter on March 31, 2008, stating the Plan is a qualified plan under Section 401 of the Internal Revenue Code. The Internal Revenue Service stated that the prototype plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, the Plan Administrator believes that the Plan was qualified and the related trust was tax exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRC. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2008.

Note 9. Risks and Uncertainties

The Plan may invest in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for plan benefits.

Note 10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2011 to Form 5500:

	<u>2011</u>
