Independent Auditors' Report

Plan Administrator
Baldwin-Wallace College
Tax Deferred Annuity Plan:

We were engaged to audit the accompanying statements of net assets available for benefits of the Baldwin-Wallace College Tax Deferred Annuity Plan (the Plan) as of December 31, 2011 and 2010, and the related statements of changes in net assets available for benefits for the years ended December 31, 2011 and 2010, and the supplemental schedule H line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2011. These financial statements and supplemental schedule are the responsibility of the Plan's management.

The Department of Labor in its Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans*, allows the Plan to exclude from these financial statements certain annuity and custodial accounts issued to current and former employees prior to January 1, 2009. As described in note 2, the annuity and custodial accounts of the Plan were historically maintained as individual participant accounts and consequently the Plan has not maintained sufficient accounting records and supporting documents. Because of the lack of historical records, the amounts of any excluded annuity and custodial accounts and the related income and distributions that may have been excluded are not determinable. Accordingly, we were unable to apply auditing procedures sufficiently to determine the extent to which the financial statements may have been affected by these conditions.

As further described in note 3, as permitted, the Plan Administrator has received certifications from Teachers Insurance Annuity Association/College Retirement Equity Fund Individual & Institutional Services, Inc. (TIAA-CREF), and TIAA-CREF as agent for JP Morgan Chase Bank with respect to the investment information provided by them. Accordingly, we were instructed not to perform and we did not perform, any auditing procedures with respect to investments or the investment activity included in these financial statements and supplemental schedule.

Because of the matters discussed in the preceding paragraphs, the scope of our work was not sufficient to enable us to express, and we do not express, an opinion on the Plan's net assets available for benefits as of December 31, 2011 and 2010 and the changes in net assets available for benefits for the years ended December 31, 2011 and 2010.

We were engaged to audit the basic financial statements. The supplemental schedule, Schedule H, line 4i – Schedule of Assets (Held at End of Year) at December 31, 2011, is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan management. Because of the significance of the matters described in the second and third paragraphs of this report, it is inappropriate to and we do not express an opinion on the supplemental schedule.

TAX DEFERRED ANNUITY PLAN**

Notes to Financial Statements

December 31, 2011 and 2010

(1) Description of Plan

The following brief description of the Baldwin-Wallace College Tax Deferred Annuity Plan (the Plan) is provided for general information purposes only. Participants should refer to the plan agreement for more complete information.

(a) General

The Plan became effective March 1, 1966 and is a defined contribution plan sponsored by Baldwin-Wallace College (Plan Sponsor or College). The Plan covers substantially all employees of the College. There are no service or age requirements of employees to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan is administered by the Plan Sponsor, which consists of certain members in the Plan Sponsor's Finance and HR Department. TIAA-CREF Individual & Institutional and Services, Inc. (TIAA-CREF) and JP Morgan Chase Bank (JP Morgan) are the Trustees of the Plan.

(b) Contributions

Each year participants may defer and contribute up to 50% of pretax annual compensation as defined in the Plan, up to the maximum allowed under the Internal Revenue Code (IRC). The Plan does not allow for matching employer contributions.

(c) Participant Rollovers

The Plan permits rollover contributions, which represent distributions from another qualified retirement plan or 457(b) plan of a former employer. The Plan may accept rollover contributions at the direction of the Plan Sponsor. Rollover contributions can be contributed from i) a trust under a qualified plan described in IRC Sections 401(a) or 403(a), ii) an annuity contract described in Section 403(b) of the IRC, iii) an eligible deferred compensation plan described IRC Section 457(b) that is maintained by a state, political subdivision of a state, or any agency or instrumentality of a state or political subdivision of the state or iv) an individual retirement account described in Section 408(d)(3)(A)(ii) of the IRC.

(d) Participant Accounts

Each participant's account is credited with the employee's contributions, investment earnings, and appreciation or depreciation in the fair value of assets. The investment balances are participant directed. Participants may change their investment options at any time. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(e) Vesting

Participants are immediately vested as there are no matching employer contributions.

Notes to Financial Statements

December 31, 2011 and 2010

(f) *Payment of Benefits*

Benefits are recorded when paid. Upon termination of service, a participant will be entitled to receive the balance of his or her account.

(g) *Forfeitures*

There are no forfeitures as all participants are immediately fully vested in the Plan.

(h) *Plan Loans*

Loans are available to participants through TIAA-CREF, subject to certain limitations. Plan loans are issued directly from funds owned by TIAA-CREF and loan proceeds are not removed from a participant's account balance. However, a portion of the participant's TIAA Traditional Annuity account balance is reserved, or held in collateral, to cover the outstanding loan amount for the period of time the loan is outstanding. See note 6 for discussion of TIAA Traditional Annuity. For active loans, investments equal to the outstanding loan amounts are reflected in the statements of net assets available for benefits and serve as collateral for the loan. Investments underlying defaulted loan balance are reflected in the statements of net assets available for benefits until a distribution event occurs.

Participants may borrow a minimum of \$1,000 up to a maximum amount equal to the lesser of \$50,000, reduced for participants with prior loans by the highest outstanding balance of loans from the Plan during the one-year period ending on the day before the date the loan is made, or 50% of their vested pre-tax and rollover account balance. Loans must be repaid within five years with the exception if the loan is used to acquire any dwelling unit which, within a reasonable time, is used as the principal residence of the Participant, the specified repayment period may be longer than five years or such other period as may be specified by TIAA-CREF. The loans are secured by the balance in the participant's account and bear interest rates ranging from 4.60% to 6.62% which are commensurate with local prevailing rates as determined by the plan administrator. Principal and interest are repaid in equal installments over the term of the loan, with payments occurring at least quarterly. The loans mature at various dates through January 1, 2018. Participant loans are valued at amortized cost, which represents the unpaid principal. The fair value of loans does not differ materially from carrying value.

At December 31, 2011 and 2010, participants had outstanding Plan loan balances due to TIAA-CREF of \$167,170 and \$177,064, respectively.

(i) *Expenses*

Administrative expenses are reflected in the fair value of the investment balances at year end as investment and trading fees are deducted from the participants investment account. Other administrative expenses, such as audit, legal, and trustee fees are also paid out the investment balances. However, for reporting purposes these amounts have been shown separately in the statement of changes in net assets available for benefit.

Notes to Financial Statements

December 31, 2011 and 2010

(j) *Investment Options*

Participants may direct their account balance into investment options offered under the Plan in any increment. Investment options are shares in registered investment company funds, pooled and separate accounts, and annuity contracts held and managed by the Trustees. Participants may change their investment elections and make transfers between investment options as frequently as permitted under the individual agreements.

(2) Summary of Significant Accounting Policies

(a) *Basis of Accounting*

The accompanying financial statements are prepared on the accrual basis of accounting in accordance with U.S. generally accepted accounting principles.

As discussed in note 1, the Plan was established in 1966 and historically was viewed as an amalgamation of individual annuity and custodial accounts and the Plan and its Trustees did not maintain financial information at a Plan level. As of December 31, 2008, the Plan's Trustees began to provide the plan administrator with annual certified statements summarizing the Plan's activities and holdings. Because of the lack of historical records, the amounts of any excluded annuity and custodial accounts and the related income and distributions that may have been excluded prior to January 1, 2009 are not determinable.

(b) *Use of Estimates*

The preparation of financial statements, in conformity with U.S. generally accepted accounting principles, requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(c) *Investment Valuation and Income Recognition*

Under the terms of a trust agreement between TIAA-CREF (the Trustee) and the Plan, the Trustee maintains a trust fund on behalf of the Plan. The participant accounts are credited with actual earnings on the underlying investments and charged for plan withdrawals.

Investments of the Plan are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 5 for a discussion of fair value measurements.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. Certain TIAA Traditional Annuity contract types, including the Supplemental Retirement Annuities (SRA) and the Group Supplemental

**BALDWIN-WALLACE COLLEGE
TAX DEFERRED ANNUITY PLAN**

Notes to Financial Statements

December 31, 2011 and 2010

Retirement Annuities (GSRA), are considered fully benefit-responsive, and fair value approximates contract value for the years ended December 31, 2011 and 2010. See note 6 for further discussion of the TIAA Traditional Annuity.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date and interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

(3) Information Certified by the Plan's Trustees

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosures under ERISA. Accordingly, TIAA-CREF, and TIAA-CREF as agent for JP Morgan Chase Bank, the Trustees of the Plan have certified as being complete and accurate the investments on the statements of net assets available for benefits and the investment activity reflected in the statements of changes in net assets available for benefits as of and for the years ended December 31, 2011 and 2010, and the investment information included in the supplemental schedule of the financial statements as of December 31, 2011. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information certified as complete and accurate by the Plan's Trustees for their respective periods.

(4) Investments

The following table presents investments as certified to be complete and accurate by the Trustee of the Plan as of December 31, 2011 and 2010. Individual investments representing 5% or more of the Plan's total net assets available for benefits are separately identified (*).

	<u>(23,228)</u>	<u>1,595,083</u>
Total investment income	<u>\$ 27,632</u>	<u>1,618,755</u>

(5) Fair Value Measurements

FASB *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities. Level 1 yields the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities. A quoted price in an active market provides the most reliable evidence of fair value and shall be used to measure fair value whenever available.

Level 2 – Observable inputs other than quoted prices in Level 1. Inputs such as quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar liabilities that are not active, or other inputs that are observable or can be corroborated by observable inputs.

Level 3 – Unobservable inputs that are significant to the valuation of assets or liabilities and are supported by little or no market data. This includes discounted cash flow methodologies, pricing models and similar techniques that use significant unobservable inputs.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

**BALDWIN-WALLACE COLLEGE
TAX DEFERRED ANNUITY PLAN**

Notes to Financial Statements

December 31, 2011 and 2010

The categorization of an investment within the fair value hierarchy is based upon the pricing transparency of the investment and does not necessarily correspond to Plan management's perceived risk of that investment.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011, and 2010.

- The fair values of TIAA-CREF are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).
- The fair values of accumulation units held by the Plan in CREF accounts (registered investment companies) are based on each account's daily Net Asset Value (NAV), which is considered by Plan management to be the best approximation of fair value. CREF accounts are not exchange traded and are classified within Level 2 of the fair value hierarchy. Data for NAVs are available daily to Plan Administrators and client investors on TIAA-CREF's website, and provides sufficient corroborative evidence to ascertain the relationship between each fund's NAV and the values of individual underlying holdings. Underlying holdings are primarily valued using market quotations or prices obtained from independent pricing sources. There are no unfunded commitments from participants in the Plan who invest in these accounts.
- The fair value of the Plan's interest in the TIAA Real Estate Account (a pooled separate account) is based on the fund's daily NAV, which is considered by Plan management to be the best approximation of fair value. This investment is classified within level 2 of the fair value hierarchy. The unit value of the fund is calculated daily and available to Plan Administrators and client investors on TIAA-CREF's website. Underlying holdings are primarily valued using independent appraisals or independent pricing sources. There are no unfunded commitments from participants in the Plan who invest in this account.
- Investments in TIAA Traditional Annuity contracts are reported at contract value, which approximates fair value. As these investments are contract based, observable prices for identical of similar investments do not exist, and accordingly, these investments are valued using unobservable inputs (Level 3). The contract value equals the accumulated cash contributions and interest credited to the contract, less any withdrawals. Liquidity restrictions apply to certain types of contracts that could impact the value realized upon exiting the contract. See also note 6 for discussion of the TIAA Traditional Annuity.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. While Plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

TAX DEFERRED ANNUITY PLAN**

Notes to Financial Statements

December 31, 2011 and 2010

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. We evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2011, there were transfers of \$0 out of level 1 into level 2. There were no other transfers in or out of level 3.

The following tables present the Plan's fair value hierarchy for those assets measured at fair value as of December 31, 2011 and 2010:

Notes to Financial Statements

December 31, 2011 and 2010

- (b) Funds in this category invest in various types of debt securities to achieve a long-term rate of return while preserving capital. These funds invest heavily in U.S. Government bonds.
- (c) This fund invests in domestic and foreign equities and in fixed income securities to achieve a long-term rate of return while giving special consideration to certain social criteria.
- (d) This fund invests in high-quality, short-term instruments to achieve high current income and capital preservation. This account primarily invests in commercial paper, bank obligations, and U.S. Government-issued securities that are classified as first-tier securities.
- (e) This fund invests in real estate properties, other real estate-related investments, and securities. Underlying real estate holdings are valued principally using external appraisals. Underlying securities are generally priced using values obtained from independent pricing sources.

(6) TIAA Traditional Annuity

The TIAA Traditional Annuity is a guaranteed fixed annuity contract available as an investment option to Plan participants. Each contract is fully and unconditionally guaranteed by TIAA. The Traditional Annuity is offered through a variety of contract types, including Retirement Annuities (RA), SRA, and GSRA. The type of contract through which a participant invests in the TIAA Traditional Annuity determines the applicability of certain account features, such as the guaranteed minimum interest rate, additional interest declarations, the degree of liquidity of the participant's account, and the options for receiving income upon retirement.

When participants choose to allocate a portion of their retirement savings to the TIAA Traditional Annuity during the accumulation phase of the contract, their contributions purchase a specific amount of lifetime income based on the contractual rate schedule in effect at the time the premium is paid. The participant's principal, plus a specified minimum rate of interest, is guaranteed by TIAA's claims-paying ability. The TIAA Traditional Annuity also provides the potential for additional interest if declared by TIAA's Board of Trustees. Additional interest, when declared, remains in effect for the declaration year, which begins each March 1 for accumulating annuities, and January 1 for lifetime payout annuities. Additional interest is not guaranteed for future years. Together, the guaranteed minimum and additional amounts make up the crediting interest rate. For accumulating RA, SRA and GSRA contracts, the crediting interest rate is between 1-3% depending on the contract.

The RA contract does not allow lump-sum cash withdrawals and transfers must be spread over 10 annual installments. The SRA and GSRA contracts provide for full participant-directed liquidity. When a participant's accumulation in the TIAA Traditional Annuity is converted to a lifetime payout annuity, the present value of the stream of payments is equal to the accumulated balance, and the entire amount is recorded as a distribution in the statement of changes in net assets available for benefits.

(7) Plan Termination

Although it has not expressed any intention to do so, the Plan Sponsor has the right under the Plan to terminate the Plan, subject to the provisions of ERISA. Participants will remain 100% vested in their accounts.

(8) Tax Status

The Plan administrator adopted a prototype nonstandardized profit sharing plan with a cash or deferral arrangement. The Plan is intended to comply with the applicable requirements of Section 403(b) of the Internal Revenue Code of 1986, as amended (IRC). A tax determination letter program is not yet available for IRC Section 403(b) plans through the Internal Revenue Service. The Plan administrator believes that the Plan is currently designed and being operated in compliance with applicable requirements of the IRC and as such is exempt from Federal income taxes.

U.S. generally accepted accounting principles require plan management to evaluate tax positions taken by the Plan. The financial statement effects are recognized when the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2011 and 2010, there are no uncertain tax positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2007.

(9) Plan Compliance

The College identified certain operational issues with respect to the Plan in the year ending December 31, 2010 and corrected these issues under the Employee Plans Compliance Resolution System (EPCRS). The Plan Administrator corrected the issue by amending the employee deferral and contribution limits within the plan document. Additionally, the correction included a transfer out of contributions received by highly compensated participants in the amount of \$235,185 during the year ended December 31, 2011 and did not have an adverse impact on the tax exempt status or the financial statements of the plan.

(10) Related-Party Transactions

Certain plan investments and shares of mutual funds are managed by the Trustee of the Plan. Therefore, transactions in these mutual funds qualify as party-in-interest transactions. The amount of investment management fee in these funds was \$77,150 and \$78,181 for the years ended December 31, 2011 and 2010.

(11) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

(12) Subsequent Events

The Plan has evaluated subsequent events through October 12, 2012, the date the financial statements were available to be issued. No events were noted as a result of this review.
