TECHNOLOGY RESEARCH CORPORATION RETIREMENT SALARY SAVINGS PLAN
NOTES TO THE FINANCIAL STATEMENTS
December 31, 2011 and 2010

NOTE 1 - DESCRIPTION OF THE PLAN

The following brief description of the Technology Research Corporation Retirement Salary Savings Plan ("the Plan") is provided for general informational purposes only. Participants should refer to the plan document for more complete information regarding the Plan's provisions.

General: The Plan was merged with the Coleman Cable 401(k) Plan effective December 31, 2011, and as a result assets in the amount of \$2,640,081 were transferred to the Coleman Cable 401(k) Plan. The following is a description of the Plan just prior to the merger.

The Plan is a defined contribution retirement plan covering all eligible employees of the Technology Research Corporation ("the Company"). Employees become eligible to participate in the Plan immediately if they are at least twenty-one years of age. Eligible employees enter the Plan on the first day of the month after they have met the eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions: Each participant may elect to contribute from 1% up to 100% of their pretax compensation, subject to certain Internal Revenue Code ("IRC") limitations. Effective August 7, 2011, the Company makes matching contributions, pursuant to a collective bargaining agreement, of 100% of the first 1% and 50% of the next 5% of eligible compensation, as defined, that a participant contributes to the Plan. Additional amounts may be contributed at the discretion of the Company's Board of Directors. The Company elected to make dollar for dollar matching contributions up to \$400 from January 1, 2011 through August 7, 2011.

Participant Accounts: Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's own contributions, the Company's matching contribution and allocations of (a) the Company's discretionary contributions, (b) Plan earnings, (c) and charged with withdrawals and an allocation of Plan losses and certain administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are fully vested in their contributions, rollovers, and the earnings thereon. Vesting in employer matching and discretionary contributions is based on years of continuous service. Participants vest according to the following schedule:

<u>Years of Service</u>	<u>Vested Percentage</u>
One	25%
Two	50%
Three	75%
Four or more	100%

Forfeitures: Forfeited balances of terminated participants are used to reduce future Company contributions in accordance with the Plan. There were forfeited balances of \$37 and \$562 at December 31, 2011 and 2010, respectively, included in the Plan's net assets. During the year ended December 31, 2011, \$0 of forfeited non-vested accounts were used to reduce employer contributions.

Investments: Participants may direct the investment of their account balance into the various investment options (collectively, "the Funds") offered by the Plan. Investment selections are made by the participants in multiples of whole percentages.

NOTES TO THE FINANCIAL STATEMENTS
December 31, 2011 and 2010

NOTE 1 - DESCRIPTION OF THE PLAN (Continued)

Retirement, Death, and Disability: A participant will become fully vested if termination occurs as a result of death, retirement, or disability.

Notes Receivable from Participants: Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of \$50,000 or 50 percent of their vested account balance, whichever is less. Loan repayment terms are not to exceed 5 years. The loans are secured by the balance in the participant's account and bear interest at a rate equal to the Prime rate plus one percent as published in *The Wall Street Journal* on the first working day of the month. Principal and interest is paid ratably through payroll deductions; however, lump-sum repayments are permitted.

Payment of Benefits: On termination of service upon attaining 65 years of age, retirement, disability, or death, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, partial payments, or systematic installments as the participant elects. Upon attaining age 59½ years of age, a participant has the option to take an in-service distribution for any reason. The Plan allows participants to take hardship withdrawals.

Unaudited Information: Amounts reported as of December 31, 2010 have not been audited by independent accountants.

Expenses: Expenses of administering the Plan may be paid by the Company.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The accompanying financial statements of the Plan are prepared under the accrual basis of accounting.

Risks and Uncertainties: The Plan holds various investments. Investments are exposed to various risks, such as interest rate, market, liquidity, and credit risks. Due to the level of risk associated with certain investments and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the fair values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Investment Valuation and Income Recognition: The Plan's investments are reported at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investment bought and sold as well as held during the year.

Notes Receivable from Participants: Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balances.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires plan management to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from these estimates.

Payment of Benefits: Benefits are recorded when paid.

NOTE 3 - TAX STATUS

The Plan is a prototype non-standardized profit sharing 401(k) plan ("Prototype Plan") sponsored by Minnesota Life Insurance Company and adopted by the Company. The Prototype Plan obtained its latest opinion letter on March 31, 2008, in which the Internal Revenue Service ("IRS") stated that the Prototype Plan, as then designed was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). The Plan itself has not received a determination letter from the IRS. However, the Plan's management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

NOTE 4 - UNAUDITED INFORMATION – CERTIFIED INVESTMENTS AND NOTES RECEIVABLE FROM PARTICIPANTS

Substantially all information pertaining to the Plan's investments and notes receivable from participants included in the financial statements, including the associated investment income and interest earned on notes receivable from participants, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Minnesota Life Insurance Company, the custodian of the Plan. This information has not been audited by independent accountants

The following table represents the fair values of the Plan's investments which represented 5% or more of the Plan's net assets available for benefits before the transfer on December 31, 2011 and 2010 are as follows:

	<u>2011</u>	<u>2010</u> (Unaudited)
Minnesota Life Insurance Company pooled separate accounts:

Large Equity Index I	335,847	365,241

NOTE 5 - FAIR VALUE MEASUREMENTS

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. Fair value measurements are determined by maximizing the use of observable inputs and minimizing the use of unobservable inputs. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

Pooled Separate Accounts: The fair values of participation units held in pooled separate accounts are based on the net asset values reported by the fund managers as of the financial statement dates and recent transaction prices (Level 2 inputs). Each of the pooled separate accounts invests in a single, open-ended mutual fund which is generally identified in the name of the pooled separate account. The investment strategies of these pooled separate accounts are consistent with each of the mutual funds identified in the name of the fund. Each pooled separate account provides for daily redemptions by the Plan with no advance notice requirements, and has redemption prices that are determined by the fund's net asset value per unit.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis are summarized below:

NOTE 6 - PARTY-IN-INTEREST TRANSACTIONS

Parties in interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering services to the Plan, the employer, and certain others. Certain administrative functions are performed by officers or employees of the Company. No such officer or employee received compensation from the Plan. Some administrative expenses of the Plan are paid directly by the Company. The Plan holds units of pooled separate accounts issued by Minnesota Life Insurance Company ("MLIC"). MLIC is the Plan's custodian, therefore, these transactions and the Plan's payment of custodian fees and investment management fees to MLIC qualify as party-in-interest transactions. Securian, an affiliate of the Plan's custodian, is the Plan's record keeper. The payment of record keeping fees to Securian qualify as party-in-interest transactions. Notes receivable from participants also reflect party-in-interest transactions.

NOTE 7 - SUBSEQUENT EVENTS

Plan management has evaluated subsequent events for recognition and disclosure through October 12, 2012, which is the date the financial statements were available to be issued.
