SUMMIT ENERGY SERVICES, INC. 401K PROFIT SHARING PLAN

Notes to the Financial Statements

1. Description of the Plan

The following description of Summit Energy Services, Inc. 401K Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established on January 1, 1995 covering virtually all employees of Summit Energy Services, Inc. (the Sponsor and Plan Administrator) who are age 21 or older and provides eligibility to participants in the Plan upon three months of employment with the Sponsor. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Plan Merger

In March 2011, the Plan Sponsor was acquired by Schneider Electric SA, a global provider of energy management. On November 15, 2011, the Plan Sponsor's Board of Directors unanimously approved the merger of the Plan into the Schneider Electric 401K Plan (the Schneider Plan). The merger was effective on December 31, 2011. On December 30, 2011 the Plan sold all of its investments. The statement of net assets available for benefits as of December 31, 2011 reflects $10,437,787 due from broker because the sale of investments was executed on December 30, 2011 but was not settled until January 2012. In addition, the statement of net assets available for benefits as of December 31, 2011, reflects a transfer due to the Schneider Plan of $10,437,787 related to the proceeds from the sale of investments and other assets being in transit at year end.

Contributions

Each year participants may contribute an amount of pre-tax annual compensation as defined in the Plan, not to exceed the limits of Internal Revenue Service Code Sections 401K, 404 and 415. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. At the discretion of the Sponsor's Board of Directors, the Sponsor may make matching contributions equal to 50% of participants' elective deferrals per payroll period, not to exceed 6% of compensation as well as additional profit sharing contributions. Contributions are subject to certain limitations. During the years ended December 31, 2011 and 2010, the Sponsor matched 50% of elective deferrals per payroll, not to exceed 6% of compensation.

Participant Accounts

Each participant's account is credited with the participant's and the Sponsor's contributions and allocations of Plan earnings (losses). Allocations are based on the taxable wage base of Plan participants, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. Description of the Plan, continued

Vesting

Participants are immediately vested in their contributions plus actual earnings (losses) thereon. Vesting of the Sponsor's discretionary contributions, plus actual earnings (losses) thereon, is based on years of continuous service. The Sponsor's discretionary contributions and the actual earnings (losses) thereon, vest in 20% increments over five years of a participant's credited service. Former employees of another company acquired by the Plan Sponsor joined the Plan effective July 1, 2008. The Plan credited them for vesting purposes with their service at the acquired company.

Investment Options

Upon enrollment in the Plan, a participant may direct employee and employer contributions in any of several investment options. Participants may change their investment options at their discretion.

Forfeited Accounts

Forfeitures may be used to reduce Plan administration expenses or to reduce future employer contributions. During the year ended December 31, 2011, the Plan used $10,997 in forfeitures to reduce employer contributions. At December 31, 2011 and 2010, there were no forfeited nonvested accounts.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant or their beneficiaries may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. Other forms of benefit payments may be selected including periodic installments or partial distributions, subject to limitations as defined in the Plan agreement.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Management's Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4, Fair Value Measurements, for discussion of fair value measurements.

2. Summary of Significant Accounting Policies, continued

Investment Valuation and Income Recognition, continued

The fair value of certain alternative investments is determined using the net asset value (NAV) per share as a practical expedient when the fair value is not readily determinable, unless it is probable the investment will be sold at something other than NAV. See Note 4, Fair Value Measurements, for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded when paid.

Administrative Expenses

The Plan is responsible for its administrative expenses unless paid by the Sponsor.

Subsequent Events

Management has evaluated subsequent events for recognition or disclosure in the financial statements through October 10, 2012, which was the date at which the financial statements were available to be issued.

3. Information Certified or Provided by Reliance Trust Company (Reliance)

The Plan's investment information included in this note and throughout the Plan's financial statements was prepared by or derived from information provided by Reliance, the custodian of the Plan, and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from Reliance that information provided to the Plan Administrator by Reliance related to the following investments is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to investment information in this note which appears throughout the financial statements.

3. Information Certified or Provided by Reliance Trust Company (Reliance), continued

The following table presents the fair value of the assets in the Plan that were certified by Reliance. Single investments representing more than 5% of the Plan's net assets as of December 31, 2010 are separately identified.

For the year ended December 31, 2011, Reliance also certified the completeness and accuracy of $431,422 of net realized and unrealized depreciation in the fair value of mutual funds and common trust funds, $213,882 of dividends in mutual funds, and $391 of interest income on money market funds.

4. Fair Value Measurements

Accounting standards have established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan had the ability to access.

Level 2 Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

4. Fair Value Measurements, continued

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets at fair value. There have been no changes in methodologies used to determine fair value at December 31, 2011 and 2010.

Money market and mutual funds: Valued at the net asset value NAV of units held by the Plan at year end.

Common trust funds: Valued based on the NAV of the units of participation in the funds. The common trust funds are valued at fair value as determined based on audited financial information provided by the fund on the fair value of the underlying assets. Units of participation are issued and redeemed daily at the NAV.

The preceding methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010:

	Level 1	Level 2	Level 3	Total
Money market funds	$ 756,493	$ -	$ -	$ 756,493
Mutual funds				
Fixed income	735,588	-	-	735,588
Balanced	1,308,475	-	-	1,308,475
Large Cap	2,950,050	-	-	2,950,050
Mid Cap	1,365,427	-	-	1,365,427
Small Cap	727,823	-	-	727,823
International	720,052	-	-	720,052
Common trust funds	-	525,524	-	525,524
Total assets at fair value	$ 8,563,908	$ 525,524	$ -	$ 9,089,432

5. Tax Status

Effective September 2004, the Plan adopted a specimen plan from Standard Insurance Company, the record keeper of the Plan. Standard Insurance Company received a volume submitter approval letter from the Internal Revenue Service ("IRS") dated July 5, 2005, in which the IRS determined the specimen plan was acceptable under Section 401(a) of the Internal Revenue Code, and therefore the Plan is exempt from taxation. Although the Plan has been amended since the volume submitter approval letter was received, the Plan Administrator believes the Plan is designed and is being operated in compliance with the Internal Revenue Code.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2011 and 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2008.

6. Related Party Transactions, Including Party-In-Interest Transactions

Certain Plan investments are shares of funds administered by Reliance. Reliance served during the year as the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid to Reliance totaled $108,401 for the year ended December 31, 2011.

7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that the changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

8. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of certain differences between the financial statements and the amounts reported on the Plan's Form 5500 at December 31, 2011:

	Per the Financial Statement	Per Schedule H of Form 5500	Difference
Receivables:			
Due from broker	$ 10,437,787	$ -	$ 10,437,787
Liabilities:			
Transfer due to other plan	10,437,787	-	10,437,787
Net assets available for benefits	$ -	$ -	$ -
