FINELITE, INC. 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2011

NOTE 1 – DESCRIPTION OF THE PLAN

The following description of the Finelite, Inc. 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General – The Plan was established on January 1, 1998 to provide retirement benefits for employees of Finelite, Inc. (the “Company”). The Plan is a defined contribution plan covering all eligible employees who have attained age 21 and are not covered by a collective bargaining agreement and are not nonresident aliens. Eligible employees become participants following 90 days of employment with the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”) and certain provisions of the Internal Revenue Code (“IRC”).

The Plan provides for a Plan administrator who is responsible for keeping accurate and complete records with regard to the Plan’s operations, informing participants of changes or amendments to the Plan, ensuring that the Plan conforms to the law and to government regulations, and providing participants with any reports and documents required by law.

Participant Contributions – Participants may contribute up to 100% of pre-tax annual compensation, as defined in the Plan, limited to an annual maximum (\$16,500 for the year ended December 31, 2011). A participant may increase or decrease the amount of contributions at any time. Additionally, participants who are 50 years of age or older by the end of the calendar year may also make additional “catch-up” contributions limited to an annual maximum (\$5,500 for the year ended December 31, 2011). Participants may also make after-tax “Roth” contributions to the Plan. The aggregate of pre-tax and after-tax contributions are subject to the annual maximums discussed above.

Effective April 1, 2010, upon becoming eligible to participate in the Plan and unless an election to not participate or to contribute a different amount is made, the Company will automatically defer 5% of each new participant’s eligible pre-tax compensation each payroll period into the ING Solution Portfolio, which best reflects the participant’s anticipated retirement date.

Employer Contributions – Effective January 1, 2009, the Company amended the Plan to provide for “Safe-Harbor” contributions in accordance with the provisions of the IRC. Under the Safe-Harbor contribution rules, the Company makes mandatory matching contributions of each participant’s contributions up to an amount equal to 100% of the first three percent, and 50% of the next two percent of each participant’s annual compensation, as defined in the Plan. These matching contributions are contributed to the Plan each payroll period. The Company may also make additional discretionary matching and nonelective contributions; however, none were made for the year ended December 31, 2011.

FINELITE, INC. 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2011

NOTE 1 – DESCRIPTION OF THE PLAN (Continued)

Participant Accounts – Each participant's account is credited with the participant's contributions, the Company's matching contributions and allocations of (a) the Company's discretionary nonelective contributions and (b) Plan investment earnings or losses. Allocations are based on participant earnings or account balances, as defined by the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Investment Options – Upon enrollment in the Plan, a participant may direct the investment of his or her account balance into the various investment funds offered by ING Life Insurance and Annuity Company ("ING"), the custodian of the Plan.

Vesting – Participants are immediately vested in their voluntary contributions, rollover contributions and employer contributions, plus actual earnings thereon.

Notes Receivable from Participants – Participants may borrow from their vested account balances provided they meet the Plan's eligibility requirements. The minimum loan amount is \$1,000 and the maximum amount is the lesser of one-half of the participant's vested account balance or \$50,000. Loan terms range up to five years, except for loans used to help finance the purchase of a primary residence. The loans are secured by the balance in the participant's account. Interest is charged at a fixed rate equal to the 120% of the mid-term applicable federal rates on the date of the loan. Effective June 1, 2012, interest rates on new loans are determined based on the prime rate as published in the Wall Street Journal. Principal and interest are paid ratably through payroll deductions and loans are due immediately upon termination of employment. At December 31, 2011, interest rates on outstanding loans ranged from 1.45% to 10.25% and the maturity dates ranged from September 2012 to December 2024.

Payment of Benefits – Upon termination of service due to death, disability, or retirement, a participant may receive a lump-sum distribution or a direct rollover distribution into a qualified plan. For termination of service for other reasons, a participant may receive the value of the vested interest in their account as a lump-sum distribution. Terminated participants with account balances over \$5,000 may delay receipt of distributions. If the participant's account balance is between \$1,000 and \$5,000, and no distribution instructions have been received from such participant, the account may be rolled over into an individual retirement account as determined by the plan administrator. Accounts of terminated participants with balances of less than \$1,000 will be distributed directly to the participant in the form of a lump-sum payment.

Administrative Expenses – The Company has elected to fund substantially all administrative costs other than those associated with certain participant directed transactions, such as participant loan fees.

NOTES TO FINANCIAL STATEMENTS

December 31, 2011

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The Plan prepares its financial statements under the accrual basis of accounting, in conformity with accounting principles generally accepted in the United States of America.

Adoption of New Accounting Policies – In January 2010, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2010-06, *Improving Disclosures about Fair Value Measurements*. ASU 2010-06 amended the Accounting Standards Codification (“ASC”) topic 820, *Fair Value Measurements and Disclosures*, to clarify certain existing fair value disclosures and to require a number of additional disclosures. These requirements were effective for the year ended December 31, 2010; however, the requirement to present changes in Level 3 measurements on a gross basis was effective for the year ended December 31, 2011. Since ASU 2010-06 only affects fair value measurement disclosures, adoption of ASU 2010-06 did not have an effect on the Plan’s net assets available for benefits or its changes in net assets available for benefits.

In May 2011, the FASB issued ASU 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. Generally Accepted Accounting Principles (“GAAP”) and International Financial Reporting Standards (“IFRSs”)*. ASU 2011-04 amended ASC topic 820 to converge the fair value measurement guidance in U.S. GAAP and IFRSs. Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle or requirement for measuring fair value. In addition, ASU 2011-04 requires additional fair value disclosures, although certain of these new disclosures will not be required for nonpublic entities. The amendments are to be applied prospectively and are effective for the year ending December 31, 2012. Plan management is currently evaluating the effect that the provisions of ASU 2011-04 will have on the Plan’s financial statements.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results may differ from those estimates.

FINELITE, INC. 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2011

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for further discussion of fair value measurements.

As described in the *Plan Accounting – Defined Contribution Pension Plans* topic of the FASB ASC, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. Accordingly, the statements of net assets available for benefits are required to present the fair value of the investment in fully benefit-responsive investment contracts as well as the adjustment of the investment from fair value to contract value. The statement of changes in net assets available for benefits is required to be prepared on a contract value basis. The Plan invests in a fully benefit-responsive investment contract through a guaranteed investment contract, the ING Fixed Account. Because the contract value of this investment was not materially different than its fair value as of December 31, 2010, no adjustment of the investment is reflected in the statement of assets available for benefits as of December 31, 2010.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits – Benefits are recorded when paid.

NOTE 3 – FAIR VALUE MEASUREMENTS

The *Fair Value Measurements and Disclosures* topic of the FASB ASC establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Pooled Separate Accounts: Stated at fair value based on quoted market prices of the underlying assets.

Guaranteed Investment Contract: Stated at fair value based on contract value adjusted for any market value adjustment or surrender charge that would have applied on that date. The calculation of contract value generally considers a treasury bond interest rate, the fixed account interest rate, and the date of contract issuance.

NOTE 3 – FAIR VALUE MEASUREMENTS (Continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

NOTE 4 – INFORMATION CERTIFIED BY THE CUSTODIAN OF THE PLAN

All investments are in participant-directed funds. ING, the custodian of the Plan, maintains the contributions in separate participant accounts, which are invested in various fund options as directed by each participant (see Note 1). The accounts are credited with contributions, actual earnings and unrealized appreciation on the investments and charged for Plan withdrawals, miscellaneous expenses, actual losses and unrealized depreciation on the investments.

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, ING has certified the completeness and accuracy of the investment information reflected on the accompanying statements of net assets available for benefits as of December 31, 2011 and 2010, the supplemental Schedule H, line 4i: Schedule of Assets (Held at End of Year) as of December 31, 2011, except for information related to participant loans, and the investment information included in the notes to financial statements, and the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2011.

The following is a summary of the certified information prepared by ING, furnished to the Plan administrator and included in the Plan's financial statements and supplemental schedule at December 31. Investments representing greater than 5% of net assets are individually identified:

NOTE 4 – INFORMATION CERTIFIED BY THE CUSTODIAN OF THE PLAN (Continued)

- * Represents investments that are less than 5% of the Plan's net assets but are included for comparative purposes.
- ** Contract value of \$456,618 and \$208,176 at December 31, 2011 and 2010, respectively, was certified by ING, the custodian. The contract value as of December 31, 2010 was not materially different than fair value.

Investment income information certified by ING for the year ended December 31, 2011 is as follows:

Net Depreciation in Pooled Separate Accounts	<u>\$ (183,772)</u>
Interest Income on Guaranteed Investment Contract	<u>\$ 7,602</u>

NOTE 5 – GUARANTEED INVESTMENT CONTRACT

The Plan has entered into a benefit-responsive guaranteed investment contract ("GIC") with ING. ING maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals. The issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The average yield and crediting interest rates were 3.20% and 3.30% for the years ended December 31, 2011 and 2010, respectively. The contract is credited with an annual interest rate of no less than 3.00% for as long as the contract remains in force. Each calendar year ING will set a floor interest rate which will be declared in writing, to the contract holder prior to its effective date.

ING may terminate the contract by providing the contract holder a 90 day written notice to pay out the full value without fees, charges or Market Value Adjustment ("MVA").

Certain events may limit the ability of the Plan to transact at contract value with ING. No surrender charge is assessed against contract withdrawals taken for reasons of participant retirement, severance from employment, death, disability, hardship, loan or in-service withdrawals after age 59 ½. There are restrictions on transfers to and from the GIC and a positive or negative MVA may apply if the contract were terminated by either ING or the Plan sponsor. The Plan administrator does not believe that the occurrence of any such termination of the contract is probable.

NOTES TO FINANCIAL STATEMENTS

NOTE 5 – GUARANTEED INVESTMENT CONTRACT (Continued)

As described in Note 2, because the GIC is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the GIC. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals.

NOTE 6 – TAX STATUS

The Plan obtained its latest determination letter on March 11, 2011 in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (“IRC”). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Accordingly, no provision for income taxes has been recorded in the Plan’s financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the federal and state taxing authorities. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

NOTE 7 – RELATED PARTY TRANSACTIONS

Certain Plan investments are managed by ING, who also serves as the custodian of the Plan and therefore, these transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transaction rules under ERISA.

NOTES TO FINANCIAL STATEMENTS

December 31, 2011

NOTE 8 – PLAN TERMINATION

The Company has established the Plan with the expressed intention and expectation that it will continue the Plan. However, if circumstances make it impossible or inadvisable to continue the Plan, the Company reserves the right to terminate it at any time subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in any unvested portions of their accounts. Benefits will be held in the trust fund which will remain in existence until the Company requests the discontinuance of the trust agreement.

NOTE 9 – RISKS AND UNCERTAINTIES

The Plan provides for various investment options. Investment securities are exposed to various risks, such as interest rate, market fluctuation and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in investment value in the near term would materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits and in the statement of changes in net assets available for benefits.

The underlying securities of the Plan's investments could include securities with contractual cash flows, such as, but not limited to, asset backed securities, collateralized mortgage obligations, and commercial mortgage backed securities and real estate. The value, liquidity and related income of these securities may be particularly sensitive to changes in economic conditions, including real estate value, delinquencies or defaults, or both, and may be adversely affected by real or perceived difficulties of the issuers, changes in interest rates and conditions in financial markets.

NOTE 10 – SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through October 10, 2012, the date the financial statements were available to be issued.
