LAFARGE NORTH AMERICA INC. THRIFT SAVINGS PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2011 AND 2010

Note 1 – Description of plan

The following is a brief description of the Lafarge North America Inc. Thrift Savings Plan (the “Plan”) and is provided for general purposes only. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General – The Plan is a defined contribution plan and was created by Lafarge North America Inc. (the “Company” or “Plan Sponsor”) on January 1, 1982. The Plan was amended and restated in its entirety effective January 1, 2008. The Plan covers salaried and certain hourly non-bargaining employees. Eligible employees may elect to participate in the Plan on the first day of any month coinciding with or following the filing of such election. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended.

The plan was most recently amended effective October 3, 2011, to adjust its special service crediting rules for eligible participants acquired under asset exchange agreements that occurred during the year. The Plan’s assets are held in the custody of Vanguard Fiduciary Trust Company (the “Trustee”) and ING Life Insurance and Annuity Company, the custodian of certain Plan assets.

The Plan consists of a basic Plan Document and several supplements relating to certain locations and groups of employees. Supplements to the Plan document addresses eligibility, employer contributions and allocations, vesting, etc. provisions which are different from the basic Plan document.

Administrative expenses – The Plan is administered by the Plan Sponsor. Certain administrative functions are performed by officers or employees of the Plan Sponsor. No such officer or employee receives compensation from the Plan. Administrative expenses are paid either directly by the Plan Sponsor or by the account of the participant.

Participant Contributions – The Plan consists of a basic Plan document and several supplements relating to certain locations. Each salaried and hourly employee who becomes eligible to participate in the Plan may contribute to the Plan on a pretax or after-tax basis. Pretax contributions of 1% to 6% and voluntary after-tax contributions of 1% to 19% of annual compensation may be made by the participant. Qualified distributions from other qualified retirement plans can also be contributed to the Plan and retained as a rollover contribution.

Company Contributions – Under the basic Plan document, the Company matches 100% of the first 3% and 50% of the next 3% of pretax and after-tax compensation contributed to the Plan by each participant for all participants who have completed a six-month period of service and attained age 21. Additional amounts may be contributed at the option of the Benefit Plan Design Committee of the Company. The sum of the Company’s contributions and the participant’s contributions allocated to the participant’s account cannot exceed the lesser of \$49,000 or 100% of a participant’s annual compensation for the year ended December 31, 2011.

Under the Plan document, certain participants who are either employed by the Company on the last day of the year or retire, become disabled, or die while employed by the Company during the year and do not receive credit for benefits under a defined benefit pension plan of the Company may be entitled to an employer core contribution. Core contribution amounts are determined based on each participant’s age, length of service, and compensation.

LAFARGE NORTH AMERICA INC. THRIFT SAVINGS PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2011 AND 2010
(Continued)

Participant accounts – Each participant's account is credited with the participant's contribution, an allocation of Company contributions, and Plan investment results. Earnings and losses of the Plan are proportionately allocated to the Plan participants based on account balances. Employer-matching contributions are credited to the participant's account no later than 30 days after the end of each month. Employer discretionary contributions are allocated to those employed on the last day of the Plan year or any participant who has attained the age of 65 or terminated employment during the year due to death or disability based on compensation as defined.

In accordance with the Plan's provisions, participants may change investments by contacting the Trustee directly. Participants may also change their withholding percentage on the first of any month by providing proper notice. All contributions are participant-directed.

Forfeited accounts – Forfeitures arising with respect to former non-fully vested participants are first applied to restore any forfeited amounts, which are to be credited, then to pay for any administrative expenses. Any remaining forfeitures may be used to reduce future employer contributions. During the year ended December 31, 2011, forfeitures used to reduce administrative expenses totaled \$175,506. At December 31, 2011 and 2010, forfeited non-vested accounts totaled \$354,734 and \$597,211, respectively.

Vesting – Participants are immediately vested in their voluntary contributions and rollover contributions plus actual earnings thereon. All participants (excluding those specifically identified in the Plan's special service crediting rules) become vested in employer contributions prior to January 1, 2010 and earnings thereon over five years of service in accordance with the following schedule:

<u>Years of Service</u>	<u>Vested Percentage</u>
Less than 1 year	0%
1	20%
2	40%
3	60%
4	80%
5 or more	100%

Effective January 1, 2010, all participants become vested in employer contributions and earnings made after December 31, 2009 in accordance with the following schedule:

<u>Years of Service</u>	<u>Vested Percentage</u>
Less than 2 years	0%
2	100%

Payment of Benefits – Distributions to participants or their beneficiary are made after retirement, termination of service, disability, death, attainment of age 65, or in certain hardship situations, generally in the form of a lump sum distribution. No distribution will be made to a participant upon retirement or permanent disability prior to the participant's attainment of age 65 unless the participant so elects. However, if a participant separates from the Company and has a vested interest of less than \$5,000, have the option of receiving a lump sum distribution or a direct rollover into an eligible retirement plan; if no direction is given by the participant, the funds are automatically transferred via a direct rollover to an Individual Retirement Account.

LAFARGE NORTH AMERICA INC. THRIFT SAVINGS PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2011 AND 2010
(Continued)

Minimum distributions are mandatory for participants who are age 70.5 or older, in accordance with IRS provisions.

Notes receivable from participants – The Plan currently does not offer loans to participants. The notes receivable from participants amount included in receivables on the statements of net assets available for benefits relates to loans of participants formerly in the Redland Aggregates North America 401(k) Plan and Lafarge North America Inc. Savings Plan for Blue Circle Heritage Employees, separate plans administered by the Company, which were transferred into the Plan in December 1998 and October 2007, respectively. Loan terms range from 1 to 5 years or up to 15 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator. Interest rates range from 9.00% to 10.50% at December 31, 2011 and from 7.50% to 10.50% at December 31, 2010. Principal and interest are paid ratably through payroll deductions.

Hardship withdrawals– The Plan also allows, in certain hardship situations as defined in the Plan, participants to withdraw from their account balances while actively employed. These hardship withdrawals are subject to IRC restrictions and penalties.

Note 2 – Significant accounting policies

Basis of accounting – The financial statements of the Plan are prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment valuation and income recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statement of net assets available for benefits presents the fair value of the investment contracts, as well as the adjustment of the fully benefit responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

The Plan's investment in the Vanguard Retirement Savings Trust, a common/collective trust, has underlying investments in fully benefit responsive investment contracts. The fair value of this investment is based on

LAFARGE NORTH AMERICA INC. THRIFT SAVINGS PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2011 AND 2010
(Continued)

the expected future cash flows for each underlying contract discounted to present value, and the fair value of other underlying securities.

Risks and uncertainties – The Plan provides for various investment securities. Investments are exposed to various risks such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Notes receivable from participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Benefits paid to participants – Benefits paid to participants are recorded when paid.

Fair value measurement – Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurement and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are quoted prices available in active markets for identical investments as of the reporting date;

Level 2 – Inputs to the valuation methodology are other than quoted prices in active markets, which are either directly or indirectly observable as of the reporting date, and fair value can be determined through the use of models or other valuation methodologies; and

Level 3 – Inputs to the valuation methodology are unobservable inputs in situations where there is little or no market activity for the asset or liability and the reporting entity makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following is a description of the valuation methodologies used for instruments measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy.

Mutual funds – These investments are public investment vehicles valued using the Net Asset Value ("NAV") provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and classified within level 1 of the valuation hierarchy.

Pooled separate accounts ("PSA") – PSAs are made up of a variety of underlying investments such as equities, preferred stock, bonds, real estate and mutual funds. The NAV of a PSA is based on the market

LAFARGE NORTH AMERICA INC. THRIFT SAVINGS PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2011 AND 2010
(Continued)

value of its underlying investments. The PSA NAV is not a publicly-quoted price in an active market, and is therefore classified within level 2 of the valuation hierarchy.

Common/collective trust – These investments are public investment vehicles valued using the NAV provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is classified within level 2 of the valuation hierarchy because the NAV's unit price is quoted on a private market that is not active; however, the unit price is based on underlying investments which are traded on an active market.

General accounts – General accounts are valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. The NAV is not a publicly-quoted price in an active market, and are therefore classified within level 2 of the valuation hierarchy.

New accounting pronouncements – In January 2010, FASB issued guidance to improve disclosures regarding fair value measurements. This update requires entities to (i) disclose separately the amounts of significant transfers in and out of Level 1 and Level 2 fair value measurements and describe the reasons for the transfers and (ii) present separately (i.e., on a gross basis rather than as one net number), information about purchases, sales, issuances, and settlements in the roll forward of changes in Level 3 fair value measurements. For the gross presentation of activity in the Level 3 roll forward, this guidance is effective for fiscal years beginning after December 15, 2010. As this guidance is only disclosure related, it did not have any changes to the carrying value of the investments on the statements of net assets as of December 31, 2011 and 2010.

In May 2011, the FASB issued guidance to provide a consistent definition of fair value and ensure that the fair value measurement and disclosure requirements are similar between GAAP and International Financial Reporting Standards. This update changes certain fair value measurement principles and enhances the disclosure requirements particularly for Level 3 fair value measurements. This guidance is effective for annual periods beginning after December 15, 2011 and should be applied prospectively. Plan management is currently evaluating the impact of the pending adoption of this update on the Plan's financial statements.

Note 3 – Investments

The individual investments that represent 5% or more of the Plan's net assets as of December 31, 2011 and 2010 are as follows:

	December 31,	
	2011	2010
Vanguard Windsor II Fund	\$ 57,822,480	\$ 64,522,842
Vanguard 500 Index Fund	56,480,509	60,671,099
Vanguard Retirement Savings Trust (contract value)	66,589,069	64,879,439
Vanguard Wellington Fund	19,339,549	20,776,141
Vanguard Total Bond Market Index Fund	27,062,458	24,783,974
Vanguard International Growth Fund	*	20,546,651

* Investment <5% of Plan net assets at end of the Plan year.

LAFARGE NORTH AMERICA INC. THRIFT SAVINGS PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2011 AND 2010
(Continued)

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, the common/collective trust is included in the financial statements at contract value as reported to the Plan by the Trustee. There are no reserves against the common/collective trust for credit risk of the contract issuer or otherwise. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Specific coverage provided by each contract may be different from each issuer and can be found in the contract of the common/collective trust. Examples of such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the Trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable. The average interest crediting rate, which is the blended contract yield of the Trust for the guaranteed investment, was 3.31% and 3.58% for the years ended December 31, 2011 and 2010, respectively.

Note 4 – Information certified by Plan trustee and custodian

The Trustee and ING Life Insurance and Annuity Company, the custodian of certain plan assets, have supplied the Plan administrator with certifications as to the completeness and accuracy of all investment information presented in the accompanying statements of net assets available for benefits as of December 31, 2011 and 2010, and the statement of changes in net assets available for benefits for the year ended December 31, 2011.

The following information and related data included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by the Trustee and ING Life Insurance and Annuity Company:

	<u>2011</u>	<u>2010</u>

LAFARGE NORTH AMERICA INC. THRIFT SAVINGS PLAN
NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2011 AND 2010
(Continued)

During the years ended December 31, 2011 and 2010, substantially all of the net depreciation in fair value of investments is attributable to mutual funds.

All information included in the Schedule of Assets (Held at End of Year) except for the fair value of the investment in the Vanguard Retirement Savings Trust has been certified as complete and accurate by the Trustee and ING Life Insurance and Annuity Company.

Note 5 – Tax status

The plan adopted by the Plan has received its latest determination letter from the IRS dated September 2, 2008 stating that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (the “Code”). The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code and has no unrelated business income. Therefore, no provision for income taxes has been included in the Plan’s financial statements.

GAAP requires Plan Management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan Management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to audit by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Plan Management believes it is no longer subject to income tax examinations for years prior to 2008.

Note 6 – Plan termination

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan subject to the provisions of ERISA. In the event of the Plan’s termination, participants will become fully vested in their accounts.

Note 7 – Party-in-interest transactions

Certain Plan investments are shares of mutual funds managed by the Trustee, and therefore, these transactions qualify as parties-in-interest transactions for which a statutory exemption exists. Total fees paid by the Plan to the Trustee amounted to \$146,409 for the year ended December 31, 2011.

Note 8 – Fair value measurements

Below are the Plan’s financial instruments carried at fair value on a recurring basis by the Fair Value hierarchy levels described in Note 2.
