RAILROAD CONTROLS, L.P. 401(k) SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS

NOTE 1. PLAN DESCRIPTION

The following description of the Railroad Controls, L.P. 401(k) Savings Plan (the Plan) provides only general information. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provisions.

General

Effective August 1, 1996, Railroad Controls, L.P. (the Company) adopted a defined contribution plan covering all employees who have at least three months of service and are at least age 18. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

American United Life Insurance Company is the custodian and record keeper of the Plan.

Contributions

Participants may defer up to 100% of their compensation, as defined, up to specified limits allowed by law. The Company may match a percentage of each participant's salary deferral contributions. Effective August 1, 1996, the Company matches 50% of the first 6% of participant salary deferrals.

Vesting

Participants are immediately vested in their contributions to the Plan and allocated earnings thereon. Participants are fully vested in employer contributions and allocated earnings thereon with three years or more of credited service. Additionally, a participant becomes 100% vested upon death, disability, or attainment of normal retirement. Effective August 1, 1996, the balance of forfeited contributions and earnings are used to reduce future employer contributions. Unallocated forfeitures at December 31, 2011 and 2010 were \$8,233 and \$3,682, respectively. Forfeitures of \$8,233 and \$3,682 were used to reduce the employer's contribution in 2011 and 2010, respectively.

Investment Options

Participants have the option of transferring their funds between investment options daily. Each participant's account is credited with his/her contributions and allocations of (a) the employer's contribution and (b) Plan earnings, and charged with the participant's distribution (when applicable) and an allocation of administrative expenses. Participants can direct contributions to any investment option.

**RAILROAD CONTROLS, L.P. 401(k) SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS**

NOTE 1. PLAN DESCRIPTION – CONTINUED

Distributions to Participants

Upon retirement, death, disability or termination of employment, a participant (or the participant's beneficiary, if applicable) will receive a lump sum distribution equaling their vested account balance. Participants may receive a hardship distribution from their vested account balances subject to certain limitations, as defined in the Plan. Included in net assets available for benefits at December 31, 2011 and 2010 is \$435,840 and \$646,361, respectively, related to participants that had withdrawn from the Plan whose accounts have not been liquidated.

Plan Termination

Although it has not expressed intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions and all Plan assets would, at the discretion of the Company, either be distributed to the participants in the form of lump sum distributions in cash or would continue to be held in a trust fund to be distributed to each participant upon retirement, death, permanent disability, or termination of employment.

Income Tax Status

The underlying standardized prototype plan has received an opinion letter from the Internal Revenue Service dated March 31, 2008, stating that the written form of the underlying prototype document is qualified under Section 401(a) of the Internal Revenue Code (the Code) and that any employer adopting this form of the Plan will be considered to have a plan qualified under Section 401(k) of the Code. Therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Company believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting. Distributions to participants are recorded when paid.

**RAILROAD CONTROLS, L.P. 401(k) SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS**

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Investment Income

The net appreciation (depreciation) in fair value of investments includes realized and unrealized investment gains and losses. Realized gains or losses on the disposal of securities are determined on the basis of the average cost of securities sold, while unrealized gains or losses are determined on the basis of the cost of securities held at the end of the year.

Interest income is recorded as earned on the accrual basis. Dividend income is recorded on the ex-dividend date.

Investment Valuation

All investments at December 31, 2011 and 2010 are stated at fair value. The group annuity contracts are stated at contract value which approximates fair value.

Nature of Investment Contracts

The Plan provides an investment option to invest in a benefit-responsive guaranteed interest account with American United Life Insurance Company (AUL). AUL maintains the contributions in a general account. The contract is included in the financial statements at contract value as reported to the Plan. Contract value represents contributions made under the contracts, plus interest accrued at the current rate, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are no reserves against the contract value of the group annuity contract-fixed option for credit risk of the contract issuer or otherwise. The average yield and crediting interest rates were approximately 4.02% and 4.00%, and 4.00% and 4.00% for 2011 and 2010, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than a specified rate, which was 4.0% for both 2011 and 2010. Such interest rates are reviewed on an annual basis for resetting.

**RAILROAD CONTROLS, L.P. 401(k) SAVINGS PLAN
NOTES TO FINANCIAL STATEMENTS**

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Nature of Investment Contracts – Continued

The group annuity contract promises contract value for a benefit event, such as termination, death, disability or retirement. However, there is a market value adjustment, which is also called a surrender charge, when funds are withdrawn prior to their maturity or for a non-benefit event, such as withdrawal from the account for a change in investment option. The fair values of these contracts as of December 31, 2011 and 2010 approximate the contract values.

Administrative Expenses

Substantially all administrative expenses of the Plan are paid by the Company.

Recently Adopted Accounting Guidance

In January 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2010-06, *Improving Disclosures about Fair Value Measurements* (ASU 2010-06). ASU 2010-06 requires additional disclosures about fair value measurements including transfers in and out of Levels 1 and 2 as well as the reasons for the transfers and a greater level of disaggregation for each class of assets and liabilities. For the reconciliation of Level 3 fair value measurements, information about purchases, sales, issuances, and settlements are presented separately rather than one net number. This standard is effective for interim and annual reporting periods beginning after December 15, 2009 with the exception of revised Level 3 disclosure requirements, which are effective for interim and annual reporting periods beginning after December 15, 2010. The Plan adopted the provisions of this standard to its financial statement disclosure for the year ended December 31, 2010.

Uncertain Tax Positions

The Plan has implemented accounting guidance related to accounting for uncertainties in income taxes. Accounting standards relating to the accounting for uncertainties in income taxes prescribes a minimum recognition threshold that a tax position is required to meet before being recognized in the financial statements. The Plan is required to recognize in its financial statements the financial effects of a tax position if that position is more likely than not of being sustained upon examination, including resolution of any appeals or litigation, based upon the technical merits of the position. Accordingly, the Plan has not recorded an income tax liability for uncertain tax benefits. The Plan files annual informational tax returns. The Plan's tax years 2008 through 2010 remain subject to examination.

NOTES TO FINANCIAL STATEMENTS

NOTE 3. INVESTMENTS

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

The Plan held the following investments in a trust fund administered and certified by American United Life Insurance Company. In addition, the custodian certified net investment income (loss) of \$(43,537) and \$241,131 for the years ended December 31, 2011 and 2010, respectively. All investments are participant-directed.

NOTE 4. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) ASC 820-10, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; or
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Separate account: Amounts allocated to the separate account are credited to a participant's account in the form of accumulation units. The value of an accumulation unit of any investment account is determined at the close of each business day and is directly related to the net asset value of the shares of the underlying investment adjusted for any dividends or distributions.

Guaranteed investment contract: Valued at the contributions made under the contracts, plus interest accrued at the current rate, less participant withdrawals and administrative expenses.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at that reporting date.

Revenue Sharing Formula:

The investment options of the Plan include various portfolios within an AUL separate account. The separate account in turn invests in investment portfolios of certain open-end management investment companies. AUL receives indirect compensation from these investment companies for the services provided by AUL.

The compensation received by AUL is computed by each investment company by multiplying the daily account balance of the AUL separate account's interest in a particular portfolio by a predetermined percentage rate negotiated with the investment company. This indirect compensation is not charged to the plan or participants accounts but is paid directly by the investment company.

The investment company, the underlying investment portfolio, and the annual compensation percentages are shown below.
