Carolina Handling, LLC 401(k) Plan and Trust

Notes to Financial Statements

Note 1. Plan Description

The following description of the Carolina Handling, LLC 401(k) Plan and Trust (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all employees of Carolina Handling, LLC (the "Plan Sponsor") who have completed one month of service. An employee will become automatically enrolled after meeting the eligibility requirement at January 1, April 1, July 1 or October 1 of each Plan year unless they have opted out of participation. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Participants may contribute from 1% to 100% of their pre-tax and after-tax compensation up to the annual limit defined by the Internal Revenue Service and as defined by the Plan. The Plan Sponsor will contribute a matching contribution up to 6% of a participant's compensation based on the participant's length of service as listed below. In addition, the Plan Sponsor may contribute a discretionary contribution based on either a fixed amount or a formula.

Participant accounts: Each participant's account is credited with the participant's contribution and the Plan Sponsor's matching contribution and allocations of (a) any company discretionary contributions and (b) the Plan earnings and charged with an allocation of losses and administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their contributions plus earnings thereon. Vesting in the Plan Sponsor contributions plus earnings thereon is based on years of continuous service. A participant is 100% vested after attaining age 65, becoming disabled, death, or after six years of credited service. The following is the vesting schedule for years of continuous service:

Years of Continuous Service	Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Investment options: Upon enrollment in the Plan, a participant may direct all contributions to selected investments as made available and determined by the Plan Administrator. Participants may change their investment options daily.

Payment of benefits: Upon termination of service due to death, disability or other reasons, a participant or designated beneficiary may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount or an annuity if the vested account balance exceeds $1,000. If the vested account balance does not exceed $1,000, a participant will receive a lump-sum amount as soon as administratively feasible. Upon termination of service due to retirement, a participant may elect to receive a lump-sum amount or an annuity if the vested account balance exceeds $5,000. If the vested account balance does not exceed $5,000 upon retirement, a lump-sum distribution will occur as soon as administratively feasible. A participant may also receive a distribution upon attaining age 59 1/2 or in the event of financial hardship, as defined by the Plan.

Note 1. Plan Description (Continued)

Forfeitures: Forfeitures of terminated participants' non-vested accounts are used to reduce future Company contributions. Forfeited non-vested accounts totaled $40,627 and $57,823 at December 31, 2011 and 2010, respectively. During 2011, $57,542 was used to reduce employer matching contributions.

Notes receivable from participants: Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of 50% of their vested account balance or $50,000. Loan terms range up to 5 years or over a reasonable period of time for the purchase of a primary residence, as established by the Plan Administrator at the time of the loan. The loans are collateralized by the vested balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined quarterly by the Plan Administrator. These rates range from 4.25% to 9.25% on loans outstanding at December 31, 2011 and mature through 2024. Principal and interest are paid ratably through monthly payroll deductions.

Note 2. Summary of Significant Accounting Policies

Accounting records: The accounting records of the Plan are maintained by the trustee, EMJAY Corporation.

Basis of accounting: The financial statements of the Plan are maintained on the accrual basis of accounting.

Investment valuation and income recognition: The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

The Plan has funds invested in the Wells Fargo Stable Return Fund M, a collective trust fund, which is invested in investment contracts. Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Note 2. Summary of Significant Accounting Policies (Continued)

Investment securities are exposed to various risks, such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near-term and such changes could materially affect participant account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Participant loans receivable: Participant loans are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the plan document.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires the Plan's management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Contributions: Contributions from Plan participants and matching contributions from the Plan sponsor are recorded in the year in which the participant contributions are withheld from amounts paid. All participant and employer contributions are participant-directed.

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: As provided by the Plan agreement, certain administrative expenses are paid by the Plan sponsor, and the remainder is paid out of Plan assets.

Subsequent events: The Plan has evaluated subsequent events (events occurring after December 31, 2011) through October 9, 2012, the date the financial statements were available to be issued.

Income taxes: GAAP requires Plan management to evaluate tax positions taken by the Plan, and recognize a tax liability (or asset) if the Plan has taken any uncertain tax positions that more likely than not would not be sustained upon examination by a tax authority. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for years before 2008.

Accounting pronouncements adopted: In January 2010, the FASB issued Accounting Standards Update ("ASU") 2010-06, *Fair Value Measurements and Disclosures: Improving Disclosures about Fair Value Measurements,* which requires new disclosures about transfers of financial assets and liabilities between Levels 1 and 2. ASU 2010-06 also clarifies that fair value measurement disclosures are required for each class of financial assets and liabilities, and disclosures about inputs and valuation techniques are required for both Level 2 and Level 3 measurements. These requirements were implemented in 2010. It further clarifies that the reconciliation of Level 3 measurements should separately present purchases, sales, issuances, and settlements instead of netting these changes. The guidance related to Level 3 reconciliation measurements is effective for periods beginning on or after December 15, 2010, and had no impact on the Plan.

Note 2. Summary of Significant Accounting Policies (Continued)

Accounting pronouncements not yet effective: In May 2011, the FASB issued ASU 2011-04, "Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS". ASU 2011-04 amended ASC 820, "Fair Value Measurement", to converge the fair value measurement guidance in GAAP and International Financial Reporting Standards (IFRS). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management is currently evaluating the effect that the provisions of ASU 2011-04 will have on the Plan's financial statements.

Note 3. Information Certified or Provided by EMJAY Corporation (the "Trustee")

The following is a summary of the plan's asset information as of December 31, 2011 and 2010, and for the year ended December 31, 2011, included in the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that the information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information which appears throughout the financial statements and supplemental schedule related to the following assets:

	December 31,	
	2011	2010

** Investment did not comprise 5% or more of the Plan's net assets available for benefits as of the date indicated.

Note 5. Fair Value Measurements

GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlations or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 5. Fair Value Measurements (Continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Collective trust funds: Valued based on information provided by the trustee and using the audited financial statements of the collective trust fund at year end. The fund determines the fair value using observable inputs described above.

Mutual funds: Valued at the quoted market prices of the shares held by the Plan at year end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011 and 2010:

(a) The objective of the stable investment fund is to provide a relatively high income rate of return consistent with the preservation of principal. The trustee will invest and reinvest primarily in guaranteed income contracts, guaranteed investment contracts, group annuity contracts issued by insurance companies and bonds.

Note 6. Related Party Transactions

EMJAY Corporation is the trustee of the Plan; therefore, transactions with the trustee qualify as party-in-interest transactions. Fees paid by the Plan to the trustee totaled $60,278 for the year ended December 31, 2011. The Plan Sponsor also paid certain administrative expenses of the Plan.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 8. Income Tax Status

Effective December 18, 2008, the Plan adopted a non-standardized form of a prototype plan sponsored by EMJAY Corporation. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan has been amended since receiving the opinion letter. However, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.
