Report of Independent Certified Public Accountants

To the Investment Committee of the
Fiberweb Washougal, Inc. Retirement Plan
for Hourly Employees at Washougal:

We were engaged to audit the financial statements of the **Fiberweb Washougal, Inc. Retirement Plan for Hourly Employees at Washougal** (the Plan) as of December 31, 2011 and 2010, and for the years then ended, and the supplemental schedule of assets (held at end of year) as of December 31, 2011, and supplemental schedule of reportable transactions for the year ended December 31, 2011. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by New York Life Trust Company (NYL), the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2011 and 2010 and for the years then ended that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to express, and we do not express, an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The supplemental schedules are presented for purposes of additional analysis and are not a required part of the financial statements, but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America established by the American Institute of Certified Public Accountants and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1 Description of the Plan

The following description of the Fiberweb Washougal, Inc. Retirement Plan for Hourly Employees at Washougal (the Plan) is provided for general informational purposes only. Participants should refer to the plan document for a complete description of the Plan's provisions.

The Plan was established on April 4, 1990, and was amended and restated on January 1, 2000, as the result of a spin-off from the James River II, Inc. Retirement Plan in connection with the acquisition of the James River Corporation Nonwovens Division by Holvis USA, Inc. In 1996, BBA Group PLC purchased the business from Holvis USA, Inc. On November 17, 2006, BBA Group PLC's Fiberweb division demerged from the parent company and listed its shares separately on the London Stock Exchange. Fiberweb Washougal, Inc. (the Company) is a wholly-owned subsidiary of Fiberweb PLC.

Effective January 31, 2010, the Plan's management approved an amendment to freeze plan operations. This amendment resulted in a cessation of benefit accruals under the Plan, and no additional participants are allowed to enter or re-enter the Plan as of the effective date.

The Plan is a noncontributory, defined benefit plan that provides pension, disability and death benefits to those hourly employees at the Washougal, Washington (Washougal) location whose terms and conditions of employment are governed by a collective bargaining agreement, which specifies the employees' participation in this plan. Eligible employees include all hourly employees at Washougal who have completed one year of service and have attained the age of 21 by January 31, 2010.

The Company makes contributions to the Plan in order to fund the normal cost and amortization of prior service cost, based on actuarial determinations. The Plan has met the Employee Retirement Income Security Act of 1974 (ERISA) minimum funding requirements for the plan years ended December 31, 2011 and 2010.

The Plan generally provides for normal retirement at age 65; however, at the request of the Company, a participant may remain in the employment of the Company after his or her normal retirement date, thereby deferring his or her retirement benefits. The Plan also provides for early retirement at age 55 if the participant has completed at least 15 years of service.

The Plan provides for payments of retirement, disability and death benefits to participants or beneficiaries under various payment options. The determination of benefit payments depends primarily on rate of pay at the time of retirement and years of service by the employee, as outlined in the plan document.

The Plan provides for 100% vesting of participants' benefits after five years of service.

2 Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and accumulated plan benefits and changes therein. Actual results could differ from those estimates.

Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, “Fair Value Measurements and Disclosures,” establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The fair value measurement level of the assets or liabilities within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The valuation methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan’s investments at fair value as of December 31, 2011:

Valuation of Investments

The Plan's investments are stated at fair value as determined by the trustee. Quoted market prices are used by the trustee to value investments. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year-end. Investments in the money market fund and mutual funds are valued based on quoted market prices in an active market. Mutual fund assets are redeemable securities, which permit the shareholder to present, redeem and receive a proportionate share of the current value of the fund's assets during normal trade hours. Investments in bonds are valued based on quoted market prices for similar assets in active markets.

Net gain (loss) from investment activity is comprised of realized, as well as unrealized, gains or losses resulting from investment transactions. Realized gains and losses represent the difference between sales proceeds of plan investments and the fair market value of such investments at the beginning of the year, or cost if such investments were purchased during the current year. Unrealized gains and losses represent the difference between the fair market value of investments at the beginning of the year, or cost if such investments were purchased during the year, and the fair market value at the end of the reporting period.

Changes in economic conditions or valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. For the years ended December 31, 2011 and 2010, there were no transfers in or out of Levels 1, 2 or 3.

Income Recognition

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned on the accrual basis. Dividends are recorded on the ex-dividend date.

Non-interest Bearing Cash

The Plan's trustee places temporary cash with high credit quality financial institutions. At times such investments may be in excess of the Federal Deposit Insurance Corporation (FDIC) insurance limit.

Administrative Expenses

The majority of administrative expenses are paid by the Plan, as provided in the plan document.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the near term could materially affect the funded status of the Plan and amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Benefits Paid to Participants

Benefits are recorded when paid.

Recent Accounting Pronouncements

In January 2010, the FASB issued Accounting Standards Update (ASU) No. 2010-06, "Improving Disclosures About Fair Values (ASC) 820," to add new disclosures about transfers into and out of Levels 1 and 2 and separate disclosures about purchases, sales, issuances and settlements relating to Level 3 measurements. ASU 2010-06 also clarifies existing fair value disclosures about the level of disaggregation and about inputs and valuation techniques used to measure fair value. This ASU is effective for the first reporting period beginning after December 15, 2009, except for the requirement to provide Level 3 activity of purchases, sales, issuances and settlements on a gross basis, which will be effective for fiscal years beginning on or after December 15, 2010. The adoption of this guidance did not have a material impact on the Plan's financial statements and disclosures.

In May 2011, the FASB issued ASU 2011-04, "Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and International Financial Reporting Standards (IFRSs)." ASU 2011-04 amended Accounting Standards Codification (ASC) 820, "Fair Value Measurements and Disclosures," to converge the fair value measurement guidance in U.S. GAAP and IFRSs. Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. The Plan does not anticipate that this guidance will have a significant impact on its financial statements.

3 Information Certified by the Trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee has certified that the following data included in the accompanying financial statements is complete and accurate:

- Non-interest bearing cash, investments and accrued income receivable, as shown in the statements of net assets available for benefits as of December 31, 2011 and 2010
- Interest and dividend income and net gain from investment activity, as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2011 and 2010, respectively
- Schedule H, Line 4i – Schedule of assets (held at end of year) as of December 31, 2011
- Schedule H, Line 4j – Schedule of reportable transactions for the year ended December 31, 2011

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements.

4 Investments

Investments that represented 5% or more of the Plan's net assets available for benefits as of December 31, 2011 and 2010 are as follows:

Investment	2011	2010
	\$	\$
Vanguard 500 Index (Signal)	1,321,157	1,172,361
Artisan International Fund	864,631	750,147
Dodge & Cox International Stock Fund	823,536	760,849

The net gain (loss) from investment activity for the plan years ended December 31, 2011 and 2010, resulted from the following types of investments:

Net Gain (Loss)	2011	2010
	\$	\$
Mutual funds	(258,678)	684,122
Bonds	791,460	749,505
	532,782	1,433,627

5 Accumulated Plan Benefits

Accumulated plan benefits represent the estimated future periodic payments, including lump-sum distributions, under the Plan's provisions that are attributable to the services rendered by the employees through the valuation date. Accumulated plan benefits include benefits expected to be paid to the following: (a) retired or terminated employees or their beneficiaries, (b) present employees or their beneficiaries and (c) designated beneficiaries of deceased employees. In 2010, the Plan changed presentation of actuarial present value of accumulated plan benefits from end-of-period reporting to beginning-of-period reporting. Actuarial computations were made by the Plan's actuary using the traditional unit credit actuarial cost method and are based on the following assumptions for the plan years ending January 1, 2011 and 2010:

Mortality basis	IRS 2008 Generational Mortality Table
Retirement	Age 65, adjusted for early retirement
Termination	50% of the Crocker Sarason T-7 Turnover Table
Rate of return	6.00%

These actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefits at January 1, 2011 and 2010 was as follows:

At January 1	2011	2010
	\$	\$
Vested benefits:		
Participants currently receiving payments	12,322,123	12,337,995
Participants entitled to deferred benefits	963,769	1,085,241
Other participants	2,850,915	2,663,928
	16,136,807	16,087,164
Nonvested benefits	189,200	183,014
Total actuarial present value of accumulated plan benefits	16,326,007	16,270,178

The change in the actuarial present value of accumulated plan benefits for the years ended January 1, 2011 and 2010, consisted of the following:

For the years ended January 1	2011	2010
	\$	\$
Actuarial present value of accumulated plan benefits, beginning of year	16,270,178	16,531,202
Increase (decrease) attributable to:		
Decrease in discount period	940,292	955,256
Benefits paid	(1,232,818)	(1,238,596)
Additional benefits earned, including experience gains and losses	348,355	22,316
Actuarial present value of accumulated plan benefits, end of year	16,326,007	16,270,178

The calculation of the accumulated plan benefit as of January 1, 2010 does not include the impact of the January 31, 2010 amendment to freeze benefit accruals and participation discussed in Note 1. However, such impact was determined to not have a material effect on the financial statements.

6 Income Tax Status

The Internal Revenue Service (IRS) issued a determination letter dated August 6, 2001, stating that the Plan and related trust were designed to be tax exempt in accordance with the applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan was qualified, the related trust was tax exempt and the Plan was operating in accordance with the IRC. The plan administrator requested a new determination letter in 2010.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more-likely-than-not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011 and 2010, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations prior to 2008.

7 Plan Termination

While it has not expressed any intention to do so, the Company has the right, as presented in the plan document, to terminate the Plan subject to the provisions set forth in ERISA. In the event of termination, the net assets of the Plan shall be allocated in accordance with provisions as outlined in the plan document. Any balance remaining after satisfaction of all liabilities of the Plan shall be returned to the Company. Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal-age retirement benefits, early retirement benefits and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan and the amount of benefit protection are subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the maximum amount of an individual's monthly benefit that the PBGC guarantees. For terminations occurring during 2011, this ceiling was \$4,500 per month. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

8 Party-in-interest Transactions

Certain plan investments are shares of mutual funds managed by New York Life Investment Management, an affiliate of NYL. NYL is the trustee as defined by the Plan and, therefore, transactions in investments managed by the NYL and its affiliates qualify as party-in-interest transactions.

During the years ended December 31, 2011 and 2010, the Company provided the Plan with certain accounting and administrative services for which no fees were charged.

9 Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2011, and the changes in net assets available for benefits for the year ended December 31, 2011, to the financial information reported in the Plan's Form 5500 filing:

Plan Name Fiberweb Washougal, Inc. Retirement Plan for Hourly
Employees at Washougal

EIN: 62-1421310

Plan Sponsor's Name Fiberweb Washougal, Inc.

PN: 003

Actuarial Cost Method

Funding Target / Target Normal Cost

An Actuarial Cost Method is an allocation of the expected cost of a pension plan on a year-by-year basis. The primary objective of an Actuarial Cost Method is to accumulate enough assets prior to each participant's retirement to provide the promised pension benefits.

The Pension Protection Act of 2006 (PPA) mandates the use of the Traditional Unit Credit Actuarial Cost Method. Under this method, the accrued benefit is estimated based upon service and, if applicable, earnings as of the valuation date. The Funding Target is equal to the actuarial present value of all accrued benefits as of the valuation date. The Target Normal Cost is the actuarial present value, as of the valuation date, of the expected increases in projected accrued benefit attributable to service expected to be completed during the plan year (i.e. if applicable, one year's salary growth is reflected in the determination of Target Normal Cost).

For tax deduction purposes, the Funding Target may reflect the value of future pay increases on accrued benefits, if applicable.

PPA Discounting Method

The plan sponsor is responsible for making the following decisions with regard to the discounting method:

- Full yield-curve spot rates or a segmented yield-curve of a 24-month average rates of corporate bond rates
- If the segmented yield curve is used, the rates as of the month of the valuation may be used or as of a lookback month up to 4 months prior to the valuation date (the full yield curve must use the rates as of the month of the valuation starting in 2010)

For purposes of this valuation, the following discounting method was used and is assumed to be approved by the plan sponsor:

- Rates for the month of December preceding the valuation date.
- Segment Rates

Asset Valuation Method

The Plan Assets for purposes of this Actuarial Valuation are valued under the asset averaging method, including, if applicable, discounted receivable contributions. The value of plan assets is set equal to the average of the fair market value of assets on the valuation date and the adjusted fair market value of assets (including expected earnings) determined for the two earlier annual determination dates. Expected earnings are calculated using the third segment rate of the segmented yield-curve in effect at the beginning of each valuation year. The resulting average value must be constrained so that it falls between 90 and 110 percent of the fair market value of assets on the valuation date.

Summary of Plan Provisions

Accrued Benefit

The Monthly Accrued Benefit, with respect to the formula above, as of any date but no later than January 31, 2010.

Delayed Retirement

A participant may continue in employment after his normal retirement age and will accrue benefits until the late retirement date.

Early Retirement

A participant's optional early retirement date shall be upon the attainment of age 55 and service as indicated below:

Age	Service
55-57	15
58	14
59	10
60 or over	5

If the payment date precedes the normal retirement date, the benefit will be reduced by 3% for each year early. However, if payments begin after a participant attains age 62 with 15 years of service, there will be no reduction for early payment.

Pre - Retirement Death Benefit

If a vested active participant should die prior to retirement, his spouse shall be entitled to the vested accrued benefit as of the date of death, but payable as if the participant had elected payment to begin on his earliest retirement date in the form of a Joint and 100% Survivor benefit.

In no event shall a participant receive less than the employee contributions with interest.

Post - Retirement Death Benefit

If a participant dies after retirement and at the time of retirement they were an eligible employee, the beneficiary will receive \$1,000.

Summary of Plan Provisions

Methods of Payments

The normal form of retirement benefit payable to a retired participant is a straight life annuity. If the participant is married, the pension is paid as an actuarial equivalent Joint and 50% Survivor benefit unless the participant and his spouse elect otherwise.

Other than the normal form of payment, a participant may elect to receive an annuity under one of the following actuarially equivalent optional modes:

- a. A reduced benefit is paid to the participant for life, with 120 monthly payments guaranteed. If the participant dies within the guarantee period, the payments continue to be paid to a beneficiary until the balance of payments has been paid.
- b. A reduced benefit is paid to the participant for life, with such benefit (50%, 75% or 100% of such benefit thereof) continued after death for the subsequent lifetime of the surviving spouse.
- c. An increased benefit is paid to the participant prior to age 62, with such benefit being reduced at age 62 to reflect the Social Security income for the life of the participant, or for the life of the participant with reduction by 50% after death for the subsequent lifetime of the surviving spouse.

Contributions

No employee contributions are required.

Amendments

The Employer reserves the right to amend or terminate the Plan at any time. Generally, the Pension Benefit Guaranty Corporation reserves the right to terminate the Plan if the Employer fails to meet the minimum funding standards, or is unable to pay benefits when due. If the Plan is terminated, the Plan assets will be distributed among the Plan Participants based upon a priority allocation procedure and the Employer shall be liable for any unfunded vested benefits to the extent required by law.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Report of Independent Certified Public Accountants

To the Investment Committee of the
Fiberweb Washougal, Inc. Retirement Plan
for Hourly Employees at Washougal:

We were engaged to audit the financial statements of the **Fiberweb Washougal, Inc. Retirement Plan for Hourly Employees at Washougal** (the Plan) as of December 31, 2011 and 2010, and for the years then ended, and the supplemental schedule of assets (held at end of year) as of December 31, 2011, and supplemental schedule of reportable transactions for the year ended December 31, 2011. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by New York Life Trust Company (NYL), the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2011 and 2010 and for the years then ended that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to express, and we do not express, an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The supplemental schedules are presented for purposes of additional analysis and are not a required part of the financial statements, but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America established by the American Institute of Certified Public Accountants and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Notes to financial statements

1 Description of the Plan

The following description of the Fiberweb Washougal, Inc. Retirement Plan for Hourly Employees at Washougal (the Plan) is provided for general informational purposes only. Participants should refer to the plan document for a complete description of the Plan's provisions.

The Plan was established on April 4, 1990, and was amended and restated on January 1, 2000, as the result of a spin-off from the James River II, Inc. Retirement Plan in connection with the acquisition of the James River Corporation Nonwovens Division by Holvis USA, Inc. In 1996, BBA Group PLC purchased the business from Holvis USA, Inc. On November 17, 2006, BBA Group PLC's Fiberweb division demerged from the parent company and listed its shares separately on the London Stock Exchange. Fiberweb Washougal, Inc. (the Company) is a wholly-owned subsidiary of Fiberweb PLC.

Effective January 31, 2010, the Plan's management approved an amendment to freeze plan operations. This amendment resulted in a cessation of benefit accruals under the Plan, and no additional participants are allowed to enter or re-enter the Plan as of the effective date.

The Plan is a noncontributory, defined benefit plan that provides pension, disability and death benefits to those hourly employees at the Washougal, Washington (Washougal) location whose terms and conditions of employment are governed by a collective bargaining agreement, which specifies the employees' participation in this plan. Eligible employees include all hourly employees at Washougal who have completed one year of service and have attained the age of 21 by January 31, 2010.

The Company makes contributions to the Plan in order to fund the normal cost and amortization of prior service cost, based on actuarial determinations. The Plan has met the Employee Retirement Income Security Act of 1974 (ERISA) minimum funding requirements for the plan years ended December 31, 2011 and 2010.

The Plan generally provides for normal retirement at age 65; however, at the request of the Company, a participant may remain in the employment of the Company after his or her normal retirement date, thereby deferring his or her retirement benefits. The Plan also provides for early retirement at age 55 if the participant has completed at least 15 years of service.

The Plan provides for payments of retirement, disability and death benefits to participants or beneficiaries under various payment options. The determination of benefit payments depends primarily on rate of pay at the time of retirement and years of service by the employee, as outlined in the plan document.

The Plan provides for 100% vesting of participants' benefits after five years of service.

2 Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and accumulated plan benefits and changes therein. Actual results could differ from those estimates.

Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, “Fair Value Measurements and Disclosures,” establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The fair value measurement level of the assets or liabilities within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The valuation methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan’s investments at fair value as of December 31, 2011:

Valuation of Investments

The Plan's investments are stated at fair value as determined by the trustee. Quoted market prices are used by the trustee to value investments. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year-end. Investments in the money market fund and mutual funds are valued based on quoted market prices in an active market. Mutual fund assets are redeemable securities, which permit the shareholder to present, redeem and receive a proportionate share of the current value of the fund's assets during normal trade hours. Investments in bonds are valued based on quoted market prices for similar assets in active markets.

Net gain (loss) from investment activity is comprised of realized, as well as unrealized, gains or losses resulting from investment transactions. Realized gains and losses represent the difference between sales proceeds of plan investments and the fair market value of such investments at the beginning of the year, or cost if such investments were purchased during the current year. Unrealized gains and losses represent the difference between the fair market value of investments at the beginning of the year, or cost if such investments were purchased during the year, and the fair market value at the end of the reporting period.

Changes in economic conditions or valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. For the years ended December 31, 2011 and 2010, there were no transfers in or out of Levels 1, 2 or 3.

Income Recognition

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned on the accrual basis. Dividends are recorded on the ex-dividend date.

Non-interest Bearing Cash

The Plan's trustee places temporary cash with high credit quality financial institutions. At times such investments may be in excess of the Federal Deposit Insurance Corporation (FDIC) insurance limit.

Administrative Expenses

The majority of administrative expenses are paid by the Plan, as provided in the plan document.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the near term could materially affect the funded status of the Plan and amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Benefits Paid to Participants

Benefits are recorded when paid.

Recent Accounting Pronouncements

In January 2010, the FASB issued Accounting Standards Update (ASU) No. 2010-06, "Improving Disclosures About Fair Values (ASC) 820," to add new disclosures about transfers into and out of Levels 1 and 2 and separate disclosures about purchases, sales, issuances and settlements relating to Level 3 measurements. ASU 2010-06 also clarifies existing fair value disclosures about the level of disaggregation and about inputs and valuation techniques used to measure fair value. This ASU is effective for the first reporting period beginning after December 15, 2009, except for the requirement to provide Level 3 activity of purchases, sales, issuances and settlements on a gross basis, which will be effective for fiscal years beginning on or after December 15, 2010. The adoption of this guidance did not have a material impact on the Plan's financial statements and disclosures.

In May 2011, the FASB issued ASU 2011-04, "Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and International Financial Reporting Standards (IFRSs)." ASU 2011-04 amended Accounting Standards Codification (ASC) 820, "Fair Value Measurements and Disclosures," to converge the fair value measurement guidance in U.S. GAAP and IFRSs. Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. The Plan does not anticipate that this guidance will have a significant impact on its financial statements.

3 Information Certified by the Trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee has certified that the following data included in the accompanying financial statements is complete and accurate:

- Non-interest bearing cash, investments and accrued income receivable, as shown in the statements of net assets available for benefits as of December 31, 2011 and 2010
- Interest and dividend income and net gain from investment activity, as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2011 and 2010, respectively
- Schedule H, Line 4i – Schedule of assets (held at end of year) as of December 31, 2011
- Schedule H, Line 4j – Schedule of reportable transactions for the year ended December 31, 2011

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements.

4 Investments

Investments that represented 5% or more of the Plan's net assets available for benefits as of December 31, 2011 and 2010 are as follows:

Investment	2011	2010
	\$	\$
Vanguard 500 Index (Signal)	1,321,157	1,172,361
Artisan International Fund	864,631	750,147
Dodge & Cox International Stock Fund	823,536	760,849

The net gain (loss) from investment activity for the plan years ended December 31, 2011 and 2010, resulted from the following types of investments:

Net Gain (Loss)	2011	2010
	\$	\$
Mutual funds	(258,678)	684,122
Bonds	791,460	749,505
	532,782	1,433,627

5 Accumulated Plan Benefits

Accumulated plan benefits represent the estimated future periodic payments, including lump-sum distributions, under the Plan's provisions that are attributable to the services rendered by the employees through the valuation date. Accumulated plan benefits include benefits expected to be paid to the following: (a) retired or terminated employees or their beneficiaries, (b) present employees or their beneficiaries and (c) designated beneficiaries of deceased employees. In 2010, the Plan changed presentation of actuarial present value of accumulated plan benefits from end-of-period reporting to beginning-of-period reporting. Actuarial computations were made by the Plan's actuary using the traditional unit credit actuarial cost method and are based on the following assumptions for the plan years ending January 1, 2011 and 2010:

Mortality basis	IRS 2008 Generational Mortality Table
Retirement	Age 65, adjusted for early retirement
Termination	50% of the Crocker Sarason T-7 Turnover Table
Rate of return	6.00%

These actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefits at January 1, 2011 and 2010 was as follows:

At January 1	2011	2010
	\$	\$
Vested benefits:		
Participants currently receiving payments	12,322,123	12,337,995
Participants entitled to deferred benefits	963,769	1,085,241
Other participants	2,850,915	2,663,928
	16,136,807	16,087,164
Nonvested benefits	189,200	183,014
Total actuarial present value of accumulated plan benefits	16,326,007	16,270,178

The change in the actuarial present value of accumulated plan benefits for the years ended January 1, 2011 and 2010, consisted of the following:

For the years ended January 1	2011	2010
	\$	\$
Actuarial present value of accumulated plan benefits, beginning of year	16,270,178	16,531,202
Increase (decrease) attributable to:		
Decrease in discount period	940,292	955,256
Benefits paid	(1,232,818)	(1,238,596)
Additional benefits earned, including experience gains and losses	348,355	22,316
Actuarial present value of accumulated plan benefits, end of year	16,326,007	16,270,178

The calculation of the accumulated plan benefit as of January 1, 2010 does not include the impact of the January 31, 2010 amendment to freeze benefit accruals and participation discussed in Note 1. However, such impact was determined to not have a material effect on the financial statements.

6 Income Tax Status

The Internal Revenue Service (IRS) issued a determination letter dated August 6, 2001, stating that the Plan and related trust were designed to be tax exempt in accordance with the applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan was qualified, the related trust was tax exempt and the Plan was operating in accordance with the IRC. The plan administrator requested a new determination letter in 2010.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more-likely-than-not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011 and 2010, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations prior to 2008.

7 Plan Termination

While it has not expressed any intention to do so, the Company has the right, as presented in the plan document, to terminate the Plan subject to the provisions set forth in ERISA. In the event of termination, the net assets of the Plan shall be allocated in accordance with provisions as outlined in the plan document. Any balance remaining after satisfaction of all liabilities of the Plan shall be returned to the Company. Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal-age retirement benefits, early retirement benefits and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan and the amount of benefit protection are subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the maximum amount of an individual's monthly benefit that the PBGC guarantees. For terminations occurring during 2011, this ceiling was \$4,500 per month. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

8 Party-in-interest Transactions

Certain plan investments are shares of mutual funds managed by New York Life Investment Management, an affiliate of NYL. NYL is the trustee as defined by the Plan and, therefore, transactions in investments managed by the NYL and its affiliates qualify as party-in-interest transactions.

During the years ended December 31, 2011 and 2010, the Company provided the Plan with certain accounting and administrative services for which no fees were charged.

9 Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2011, and the changes in net assets available for benefits for the year ended December 31, 2011, to the financial information reported in the Plan's Form 5500 filing:

Report of Independent Certified Public Accountants

To the Investment Committee of the
Fiberweb Washougal, Inc. Retirement Plan
for Hourly Employees at Washougal:

We were engaged to audit the financial statements of the **Fiberweb Washougal, Inc. Retirement Plan for Hourly Employees at Washougal** (the Plan) as of December 31, 2011 and 2010, and for the years then ended, and the supplemental schedule of assets (held at end of year) as of December 31, 2011, and supplemental schedule of reportable transactions for the year ended December 31, 2011. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by New York Life Trust Company (NYL), the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2011 and 2010 and for the years then ended that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to express, and we do not express, an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The supplemental schedules are presented for purposes of additional analysis and are not a required part of the financial statements, but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America established by the American Institute of Certified Public Accountants and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1 Description of the Plan

The following description of the Fiberweb Washougal, Inc. Retirement Plan for Hourly Employees at Washougal (the Plan) is provided for general informational purposes only. Participants should refer to the plan document for a complete description of the Plan's provisions.

The Plan was established on April 4, 1990, and was amended and restated on January 1, 2000, as the result of a spin-off from the James River II, Inc. Retirement Plan in connection with the acquisition of the James River Corporation Nonwovens Division by Holvis USA, Inc. In 1996, BBA Group PLC purchased the business from Holvis USA, Inc. On November 17, 2006, BBA Group PLC's Fiberweb division demerged from the parent company and listed its shares separately on the London Stock Exchange. Fiberweb Washougal, Inc. (the Company) is a wholly-owned subsidiary of Fiberweb PLC.

Effective January 31, 2010, the Plan's management approved an amendment to freeze plan operations. This amendment resulted in a cessation of benefit accruals under the Plan, and no additional participants are allowed to enter or re-enter the Plan as of the effective date.

The Plan is a noncontributory, defined benefit plan that provides pension, disability and death benefits to those hourly employees at the Washougal, Washington (Washougal) location whose terms and conditions of employment are governed by a collective bargaining agreement, which specifies the employees' participation in this plan. Eligible employees include all hourly employees at Washougal who have completed one year of service and have attained the age of 21 by January 31, 2010.

The Company makes contributions to the Plan in order to fund the normal cost and amortization of prior service cost, based on actuarial determinations. The Plan has met the Employee Retirement Income Security Act of 1974 (ERISA) minimum funding requirements for the plan years ended December 31, 2011 and 2010.

The Plan generally provides for normal retirement at age 65; however, at the request of the Company, a participant may remain in the employment of the Company after his or her normal retirement date, thereby deferring his or her retirement benefits. The Plan also provides for early retirement at age 55 if the participant has completed at least 15 years of service.

The Plan provides for payments of retirement, disability and death benefits to participants or beneficiaries under various payment options. The determination of benefit payments depends primarily on rate of pay at the time of retirement and years of service by the employee, as outlined in the plan document.

The Plan provides for 100% vesting of participants' benefits after five years of service.

2 Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and accumulated plan benefits and changes therein. Actual results could differ from those estimates.

Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, “Fair Value Measurements and Disclosures,” establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The fair value measurement level of the assets or liabilities within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The valuation methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan’s investments at fair value as of December 31, 2011:

Valuation of Investments

The Plan's investments are stated at fair value as determined by the trustee. Quoted market prices are used by the trustee to value investments. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year-end. Investments in the money market fund and mutual funds are valued based on quoted market prices in an active market. Mutual fund assets are redeemable securities, which permit the shareholder to present, redeem and receive a proportionate share of the current value of the fund's assets during normal trade hours. Investments in bonds are valued based on quoted market prices for similar assets in active markets.

Net gain (loss) from investment activity is comprised of realized, as well as unrealized, gains or losses resulting from investment transactions. Realized gains and losses represent the difference between sales proceeds of plan investments and the fair market value of such investments at the beginning of the year, or cost if such investments were purchased during the current year. Unrealized gains and losses represent the difference between the fair market value of investments at the beginning of the year, or cost if such investments were purchased during the year, and the fair market value at the end of the reporting period.

Changes in economic conditions or valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. For the years ended December 31, 2011 and 2010, there were no transfers in or out of Levels 1, 2 or 3.

Income Recognition

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned on the accrual basis. Dividends are recorded on the ex-dividend date.

Non-interest Bearing Cash

The Plan's trustee places temporary cash with high credit quality financial institutions. At times such investments may be in excess of the Federal Deposit Insurance Corporation (FDIC) insurance limit.

Administrative Expenses

The majority of administrative expenses are paid by the Plan, as provided in the plan document.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the near term could materially affect the funded status of the Plan and amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Benefits Paid to Participants

Benefits are recorded when paid.

Recent Accounting Pronouncements

In January 2010, the FASB issued Accounting Standards Update (ASU) No. 2010-06, "Improving Disclosures About Fair Values (ASC) 820," to add new disclosures about transfers into and out of Levels 1 and 2 and separate disclosures about purchases, sales, issuances and settlements relating to Level 3 measurements. ASU 2010-06 also clarifies existing fair value disclosures about the level of disaggregation and about inputs and valuation techniques used to measure fair value. This ASU is effective for the first reporting period beginning after December 15, 2009, except for the requirement to provide Level 3 activity of purchases, sales, issuances and settlements on a gross basis, which will be effective for fiscal years beginning on or after December 15, 2010. The adoption of this guidance did not have a material impact on the Plan's financial statements and disclosures.

In May 2011, the FASB issued ASU 2011-04, "Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and International Financial Reporting Standards (IFRSs)." ASU 2011-04 amended Accounting Standards Codification (ASC) 820, "Fair Value Measurements and Disclosures," to converge the fair value measurement guidance in U.S. GAAP and IFRSs. Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. The Plan does not anticipate that this guidance will have a significant impact on its financial statements.

3 Information Certified by the Trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee has certified that the following data included in the accompanying financial statements is complete and accurate:

- Non-interest bearing cash, investments and accrued income receivable, as shown in the statements of net assets available for benefits as of December 31, 2011 and 2010
- Interest and dividend income and net gain from investment activity, as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2011 and 2010, respectively
- Schedule H, Line 4i – Schedule of assets (held at end of year) as of December 31, 2011
- Schedule H, Line 4j – Schedule of reportable transactions for the year ended December 31, 2011

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements.

4 Investments

Investments that represented 5% or more of the Plan's net assets available for benefits as of December 31, 2011 and 2010 are as follows:

Investment	2011	2010
	\$	\$
Vanguard 500 Index (Signal)	1,321,157	1,172,361
Artisan International Fund	864,631	750,147
Dodge & Cox International Stock Fund	823,536	760,849

The net gain (loss) from investment activity for the plan years ended December 31, 2011 and 2010, resulted from the following types of investments:

Net Gain (Loss)	2011	2010
	\$	\$
Mutual funds	(258,678)	684,122
Bonds	791,460	749,505
	532,782	1,433,627

5 Accumulated Plan Benefits

Accumulated plan benefits represent the estimated future periodic payments, including lump-sum distributions, under the Plan's provisions that are attributable to the services rendered by the employees through the valuation date. Accumulated plan benefits include benefits expected to be paid to the following: (a) retired or terminated employees or their beneficiaries, (b) present employees or their beneficiaries and (c) designated beneficiaries of deceased employees. In 2010, the Plan changed presentation of actuarial present value of accumulated plan benefits from end-of-period reporting to beginning-of-period reporting. Actuarial computations were made by the Plan's actuary using the traditional unit credit actuarial cost method and are based on the following assumptions for the plan years ending January 1, 2011 and 2010:

Mortality basis	IRS 2008 Generational Mortality Table
Retirement	Age 65, adjusted for early retirement
Termination	50% of the Crocker Sarason T-7 Turnover Table
Rate of return	6.00%

These actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefits at January 1, 2011 and 2010 was as follows:

At January 1	2011	2010
	\$	\$
Vested benefits:		
Participants currently receiving payments	12,322,123	12,337,995
Participants entitled to deferred benefits	963,769	1,085,241
Other participants	2,850,915	2,663,928
	16,136,807	16,087,164
Nonvested benefits	189,200	183,014
Total actuarial present value of accumulated plan benefits	16,326,007	16,270,178

The change in the actuarial present value of accumulated plan benefits for the years ended January 1, 2011 and 2010, consisted of the following:

For the years ended January 1	2011	2010
	\$	\$
Actuarial present value of accumulated plan benefits, beginning of year	16,270,178	16,531,202
Increase (decrease) attributable to:		
Decrease in discount period	940,292	955,256
Benefits paid	(1,232,818)	(1,238,596)
Additional benefits earned, including experience gains and losses	348,355	22,316
Actuarial present value of accumulated plan benefits, end of year	16,326,007	16,270,178

The calculation of the accumulated plan benefit as of January 1, 2010 does not include the impact of the January 31, 2010 amendment to freeze benefit accruals and participation discussed in Note 1. However, such impact was determined to not have a material effect on the financial statements.

6 Income Tax Status

The Internal Revenue Service (IRS) issued a determination letter dated August 6, 2001, stating that the Plan and related trust were designed to be tax exempt in accordance with the applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan was qualified, the related trust was tax exempt and the Plan was operating in accordance with the IRC. The plan administrator requested a new determination letter in 2010.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more-likely-than-not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011 and 2010, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations prior to 2008.

7 Plan Termination

While it has not expressed any intention to do so, the Company has the right, as presented in the plan document, to terminate the Plan subject to the provisions set forth in ERISA. In the event of termination, the net assets of the Plan shall be allocated in accordance with provisions as outlined in the plan document. Any balance remaining after satisfaction of all liabilities of the Plan shall be returned to the Company. Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal-age retirement benefits, early retirement benefits and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan and the amount of benefit protection are subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the maximum amount of an individual's monthly benefit that the PBGC guarantees. For terminations occurring during 2011, this ceiling was \$4,500 per month. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

8 Party-in-interest Transactions

Certain plan investments are shares of mutual funds managed by New York Life Investment Management, an affiliate of NYL. NYL is the trustee as defined by the Plan and, therefore, transactions in investments managed by the NYL and its affiliates qualify as party-in-interest transactions.

During the years ended December 31, 2011 and 2010, the Company provided the Plan with certain accounting and administrative services for which no fees were charged.

9 Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2011, and the changes in net assets available for benefits for the year ended December 31, 2011, to the financial information reported in the Plan's Form 5500 filing:

Report of Independent Certified Public Accountants

To the Investment Committee of the
Fiberweb Washougal, Inc. Retirement Plan
for Hourly Employees at Washougal:

We were engaged to audit the financial statements of the **Fiberweb Washougal, Inc. Retirement Plan for Hourly Employees at Washougal** (the Plan) as of December 31, 2011 and 2010, and for the years then ended, and the supplemental schedule of assets (held at end of year) as of December 31, 2011, and supplemental schedule of reportable transactions for the year ended December 31, 2011. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by New York Life Trust Company (NYL), the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2011 and 2010 and for the years then ended that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to express, and we do not express, an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The supplemental schedules are presented for purposes of additional analysis and are not a required part of the financial statements, but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America established by the American Institute of Certified Public Accountants and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1 Description of the Plan

The following description of the Fiberweb Washougal, Inc. Retirement Plan for Hourly Employees at Washougal (the Plan) is provided for general informational purposes only. Participants should refer to the plan document for a complete description of the Plan's provisions.

The Plan was established on April 4, 1990, and was amended and restated on January 1, 2000, as the result of a spin-off from the James River II, Inc. Retirement Plan in connection with the acquisition of the James River Corporation Nonwovens Division by Holvis USA, Inc. In 1996, BBA Group PLC purchased the business from Holvis USA, Inc. On November 17, 2006, BBA Group PLC's Fiberweb division demerged from the parent company and listed its shares separately on the London Stock Exchange. Fiberweb Washougal, Inc. (the Company) is a wholly-owned subsidiary of Fiberweb PLC.

Effective January 31, 2010, the Plan's management approved an amendment to freeze plan operations. This amendment resulted in a cessation of benefit accruals under the Plan, and no additional participants are allowed to enter or re-enter the Plan as of the effective date.

The Plan is a noncontributory, defined benefit plan that provides pension, disability and death benefits to those hourly employees at the Washougal, Washington (Washougal) location whose terms and conditions of employment are governed by a collective bargaining agreement, which specifies the employees' participation in this plan. Eligible employees include all hourly employees at Washougal who have completed one year of service and have attained the age of 21 by January 31, 2010.

The Company makes contributions to the Plan in order to fund the normal cost and amortization of prior service cost, based on actuarial determinations. The Plan has met the Employee Retirement Income Security Act of 1974 (ERISA) minimum funding requirements for the plan years ended December 31, 2011 and 2010.

The Plan generally provides for normal retirement at age 65; however, at the request of the Company, a participant may remain in the employment of the Company after his or her normal retirement date, thereby deferring his or her retirement benefits. The Plan also provides for early retirement at age 55 if the participant has completed at least 15 years of service.

The Plan provides for payments of retirement, disability and death benefits to participants or beneficiaries under various payment options. The determination of benefit payments depends primarily on rate of pay at the time of retirement and years of service by the employee, as outlined in the plan document.

The Plan provides for 100% vesting of participants' benefits after five years of service.

2 Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and accumulated plan benefits and changes therein. Actual results could differ from those estimates.

Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, “Fair Value Measurements and Disclosures,” establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The fair value measurement level of the assets or liabilities within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The valuation methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan’s investments at fair value as of December 31, 2011:

Valuation of Investments

The Plan's investments are stated at fair value as determined by the trustee. Quoted market prices are used by the trustee to value investments. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year-end. Investments in the money market fund and mutual funds are valued based on quoted market prices in an active market. Mutual fund assets are redeemable securities, which permit the shareholder to present, redeem and receive a proportionate share of the current value of the fund's assets during normal trade hours. Investments in bonds are valued based on quoted market prices for similar assets in active markets.

Net gain (loss) from investment activity is comprised of realized, as well as unrealized, gains or losses resulting from investment transactions. Realized gains and losses represent the difference between sales proceeds of plan investments and the fair market value of such investments at the beginning of the year, or cost if such investments were purchased during the current year. Unrealized gains and losses represent the difference between the fair market value of investments at the beginning of the year, or cost if such investments were purchased during the year, and the fair market value at the end of the reporting period.

Changes in economic conditions or valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. For the years ended December 31, 2011 and 2010, there were no transfers in or out of Levels 1, 2 or 3.

Income Recognition

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned on the accrual basis. Dividends are recorded on the ex-dividend date.

Non-interest Bearing Cash

The Plan's trustee places temporary cash with high credit quality financial institutions. At times such investments may be in excess of the Federal Deposit Insurance Corporation (FDIC) insurance limit.

Administrative Expenses

The majority of administrative expenses are paid by the Plan, as provided in the plan document.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the near term could materially affect the funded status of the Plan and amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Benefits Paid to Participants

Benefits are recorded when paid.

Recent Accounting Pronouncements

In January 2010, the FASB issued Accounting Standards Update (ASU) No. 2010-06, "Improving Disclosures About Fair Values (ASC) 820," to add new disclosures about transfers into and out of Levels 1 and 2 and separate disclosures about purchases, sales, issuances and settlements relating to Level 3 measurements. ASU 2010-06 also clarifies existing fair value disclosures about the level of disaggregation and about inputs and valuation techniques used to measure fair value. This ASU is effective for the first reporting period beginning after December 15, 2009, except for the requirement to provide Level 3 activity of purchases, sales, issuances and settlements on a gross basis, which will be effective for fiscal years beginning on or after December 15, 2010. The adoption of this guidance did not have a material impact on the Plan's financial statements and disclosures.

In May 2011, the FASB issued ASU 2011-04, "Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and International Financial Reporting Standards (IFRSs)." ASU 2011-04 amended Accounting Standards Codification (ASC) 820, "Fair Value Measurements and Disclosures," to converge the fair value measurement guidance in U.S. GAAP and IFRSs. Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. The Plan does not anticipate that this guidance will have a significant impact on its financial statements.

3 Information Certified by the Trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee has certified that the following data included in the accompanying financial statements is complete and accurate:

- Non-interest bearing cash, investments and accrued income receivable, as shown in the statements of net assets available for benefits as of December 31, 2011 and 2010
- Interest and dividend income and net gain from investment activity, as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2011 and 2010, respectively
- Schedule H, Line 4i – Schedule of assets (held at end of year) as of December 31, 2011
- Schedule H, Line 4j – Schedule of reportable transactions for the year ended December 31, 2011

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements.

4 Investments

Investments that represented 5% or more of the Plan's net assets available for benefits as of December 31, 2011 and 2010 are as follows:

Investment	2011	2010
	\$	\$
Vanguard 500 Index (Signal)	1,321,157	1,172,361
Artisan International Fund	864,631	750,147
Dodge & Cox International Stock Fund	823,536	760,849

The net gain (loss) from investment activity for the plan years ended December 31, 2011 and 2010, resulted from the following types of investments:

Net Gain (Loss)	2011	2010
	\$	\$
Mutual funds	(258,678)	684,122
Bonds	791,460	749,505
	532,782	1,433,627

5 Accumulated Plan Benefits

Accumulated plan benefits represent the estimated future periodic payments, including lump-sum distributions, under the Plan's provisions that are attributable to the services rendered by the employees through the valuation date. Accumulated plan benefits include benefits expected to be paid to the following: (a) retired or terminated employees or their beneficiaries, (b) present employees or their beneficiaries and (c) designated beneficiaries of deceased employees. In 2010, the Plan changed presentation of actuarial present value of accumulated plan benefits from end-of-period reporting to beginning-of-period reporting. Actuarial computations were made by the Plan's actuary using the traditional unit credit actuarial cost method and are based on the following assumptions for the plan years ending January 1, 2011 and 2010:

Mortality basis	IRS 2008 Generational Mortality Table
Retirement	Age 65, adjusted for early retirement
Termination	50% of the Crocker Sarason T-7 Turnover Table
Rate of return	6.00%

These actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefits at January 1, 2011 and 2010 was as follows:

At January 1	2011	2010
	\$	\$
Vested benefits:		
Participants currently receiving payments	12,322,123	12,337,995
Participants entitled to deferred benefits	963,769	1,085,241
Other participants	2,850,915	2,663,928
	16,136,807	16,087,164
Nonvested benefits	189,200	183,014
Total actuarial present value of accumulated plan benefits	16,326,007	16,270,178

The change in the actuarial present value of accumulated plan benefits for the years ended January 1, 2011 and 2010, consisted of the following:

For the years ended January 1	2011	2010
	\$	\$
Actuarial present value of accumulated plan benefits, beginning of year	16,270,178	16,531,202
Increase (decrease) attributable to:		
Decrease in discount period	940,292	955,256
Benefits paid	(1,232,818)	(1,238,596)
Additional benefits earned, including experience gains and losses	348,355	22,316
Actuarial present value of accumulated plan benefits, end of year	16,326,007	16,270,178

The calculation of the accumulated plan benefit as of January 1, 2010 does not include the impact of the January 31, 2010 amendment to freeze benefit accruals and participation discussed in Note 1. However, such impact was determined to not have a material effect on the financial statements.

6 Income Tax Status

The Internal Revenue Service (IRS) issued a determination letter dated August 6, 2001, stating that the Plan and related trust were designed to be tax exempt in accordance with the applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan was qualified, the related trust was tax exempt and the Plan was operating in accordance with the IRC. The plan administrator requested a new determination letter in 2010.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more-likely-than-not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011 and 2010, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations prior to 2008.

7 Plan Termination

While it has not expressed any intention to do so, the Company has the right, as presented in the plan document, to terminate the Plan subject to the provisions set forth in ERISA. In the event of termination, the net assets of the Plan shall be allocated in accordance with provisions as outlined in the plan document. Any balance remaining after satisfaction of all liabilities of the Plan shall be returned to the Company. Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal-age retirement benefits, early retirement benefits and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan and the amount of benefit protection are subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the maximum amount of an individual's monthly benefit that the PBGC guarantees. For terminations occurring during 2011, this ceiling was \$4,500 per month. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

8 Party-in-interest Transactions

Certain plan investments are shares of mutual funds managed by New York Life Investment Management, an affiliate of NYL. NYL is the trustee as defined by the Plan and, therefore, transactions in investments managed by the NYL and its affiliates qualify as party-in-interest transactions.

During the years ended December 31, 2011 and 2010, the Company provided the Plan with certain accounting and administrative services for which no fees were charged.

9 Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2011, and the changes in net assets available for benefits for the year ended December 31, 2011, to the financial information reported in the Plan's Form 5500 filing:

Report of Independent Certified Public Accountants

To the Investment Committee of the
Fiberweb Washougal, Inc. Retirement Plan
for Hourly Employees at Washougal:

We were engaged to audit the financial statements of the **Fiberweb Washougal, Inc. Retirement Plan for Hourly Employees at Washougal** (the Plan) as of December 31, 2011 and 2010, and for the years then ended, and the supplemental schedule of assets (held at end of year) as of December 31, 2011, and supplemental schedule of reportable transactions for the year ended December 31, 2011. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by New York Life Trust Company (NYL), the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2011 and 2010 and for the years then ended that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to express, and we do not express, an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The supplemental schedules are presented for purposes of additional analysis and are not a required part of the financial statements, but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America established by the American Institute of Certified Public Accountants and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1 Description of the Plan

The following description of the Fiberweb Washougal, Inc. Retirement Plan for Hourly Employees at Washougal (the Plan) is provided for general informational purposes only. Participants should refer to the plan document for a complete description of the Plan's provisions.

The Plan was established on April 4, 1990, and was amended and restated on January 1, 2000, as the result of a spin-off from the James River II, Inc. Retirement Plan in connection with the acquisition of the James River Corporation Nonwovens Division by Holvis USA, Inc. In 1996, BBA Group PLC purchased the business from Holvis USA, Inc. On November 17, 2006, BBA Group PLC's Fiberweb division demerged from the parent company and listed its shares separately on the London Stock Exchange. Fiberweb Washougal, Inc. (the Company) is a wholly-owned subsidiary of Fiberweb PLC.

Effective January 31, 2010, the Plan's management approved an amendment to freeze plan operations. This amendment resulted in a cessation of benefit accruals under the Plan, and no additional participants are allowed to enter or re-enter the Plan as of the effective date.

The Plan is a noncontributory, defined benefit plan that provides pension, disability and death benefits to those hourly employees at the Washougal, Washington (Washougal) location whose terms and conditions of employment are governed by a collective bargaining agreement, which specifies the employees' participation in this plan. Eligible employees include all hourly employees at Washougal who have completed one year of service and have attained the age of 21 by January 31, 2010.

The Company makes contributions to the Plan in order to fund the normal cost and amortization of prior service cost, based on actuarial determinations. The Plan has met the Employee Retirement Income Security Act of 1974 (ERISA) minimum funding requirements for the plan years ended December 31, 2011 and 2010.

The Plan generally provides for normal retirement at age 65; however, at the request of the Company, a participant may remain in the employment of the Company after his or her normal retirement date, thereby deferring his or her retirement benefits. The Plan also provides for early retirement at age 55 if the participant has completed at least 15 years of service.

The Plan provides for payments of retirement, disability and death benefits to participants or beneficiaries under various payment options. The determination of benefit payments depends primarily on rate of pay at the time of retirement and years of service by the employee, as outlined in the plan document.

The Plan provides for 100% vesting of participants' benefits after five years of service.

2 Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and accumulated plan benefits and changes therein. Actual results could differ from those estimates.

Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, “Fair Value Measurements and Disclosures,” establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The fair value measurement level of the assets or liabilities within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The valuation methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan’s investments at fair value as of December 31, 2011:

Valuation of Investments

The Plan's investments are stated at fair value as determined by the trustee. Quoted market prices are used by the trustee to value investments. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year-end. Investments in the money market fund and mutual funds are valued based on quoted market prices in an active market. Mutual fund assets are redeemable securities, which permit the shareholder to present, redeem and receive a proportionate share of the current value of the fund's assets during normal trade hours. Investments in bonds are valued based on quoted market prices for similar assets in active markets.

Net gain (loss) from investment activity is comprised of realized, as well as unrealized, gains or losses resulting from investment transactions. Realized gains and losses represent the difference between sales proceeds of plan investments and the fair market value of such investments at the beginning of the year, or cost if such investments were purchased during the current year. Unrealized gains and losses represent the difference between the fair market value of investments at the beginning of the year, or cost if such investments were purchased during the year, and the fair market value at the end of the reporting period.

Changes in economic conditions or valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. For the years ended December 31, 2011 and 2010, there were no transfers in or out of Levels 1, 2 or 3.

Income Recognition

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned on the accrual basis. Dividends are recorded on the ex-dividend date.

Non-interest Bearing Cash

The Plan's trustee places temporary cash with high credit quality financial institutions. At times such investments may be in excess of the Federal Deposit Insurance Corporation (FDIC) insurance limit.

Administrative Expenses

The majority of administrative expenses are paid by the Plan, as provided in the plan document.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the near term could materially affect the funded status of the Plan and amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Benefits Paid to Participants

Benefits are recorded when paid.

Recent Accounting Pronouncements

In January 2010, the FASB issued Accounting Standards Update (ASU) No. 2010-06, "Improving Disclosures About Fair Values (ASC) 820," to add new disclosures about transfers into and out of Levels 1 and 2 and separate disclosures about purchases, sales, issuances and settlements relating to Level 3 measurements. ASU 2010-06 also clarifies existing fair value disclosures about the level of disaggregation and about inputs and valuation techniques used to measure fair value. This ASU is effective for the first reporting period beginning after December 15, 2009, except for the requirement to provide Level 3 activity of purchases, sales, issuances and settlements on a gross basis, which will be effective for fiscal years beginning on or after December 15, 2010. The adoption of this guidance did not have a material impact on the Plan's financial statements and disclosures.

In May 2011, the FASB issued ASU 2011-04, "Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and International Financial Reporting Standards (IFRSs)." ASU 2011-04 amended Accounting Standards Codification (ASC) 820, "Fair Value Measurements and Disclosures," to converge the fair value measurement guidance in U.S. GAAP and IFRSs. Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. The Plan does not anticipate that this guidance will have a significant impact on its financial statements.

3 Information Certified by the Trustee

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee has certified that the following data included in the accompanying financial statements is complete and accurate:

- Non-interest bearing cash, investments and accrued income receivable, as shown in the statements of net assets available for benefits as of December 31, 2011 and 2010
- Interest and dividend income and net gain from investment activity, as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2011 and 2010, respectively
- Schedule H, Line 4i – Schedule of assets (held at end of year) as of December 31, 2011
- Schedule H, Line 4j – Schedule of reportable transactions for the year ended December 31, 2011

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements.

4 Investments

Investments that represented 5% or more of the Plan's net assets available for benefits as of December 31, 2011 and 2010 are as follows:

Investment	2011	2010
	\$	\$
Vanguard 500 Index (Signal)	1,321,157	1,172,361
Artisan International Fund	864,631	750,147
Dodge & Cox International Stock Fund	823,536	760,849

The net gain (loss) from investment activity for the plan years ended December 31, 2011 and 2010, resulted from the following types of investments:

Net Gain (Loss)	2011	2010
	\$	\$
Mutual funds	(258,678)	684,122
Bonds	791,460	749,505
	532,782	1,433,627

5 Accumulated Plan Benefits

Accumulated plan benefits represent the estimated future periodic payments, including lump-sum distributions, under the Plan's provisions that are attributable to the services rendered by the employees through the valuation date. Accumulated plan benefits include benefits expected to be paid to the following: (a) retired or terminated employees or their beneficiaries, (b) present employees or their beneficiaries and (c) designated beneficiaries of deceased employees. In 2010, the Plan changed presentation of actuarial present value of accumulated plan benefits from end-of-period reporting to beginning-of-period reporting. Actuarial computations were made by the Plan's actuary using the traditional unit credit actuarial cost method and are based on the following assumptions for the plan years ending January 1, 2011 and 2010:

Mortality basis	IRS 2008 Generational Mortality Table
Retirement	Age 65, adjusted for early retirement
Termination	50% of the Crocker Sarason T-7 Turnover Table
Rate of return	6.00%

These actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefits at January 1, 2011 and 2010 was as follows:

At January 1	2011	2010
	\$	\$
Vested benefits:		
Participants currently receiving payments	12,322,123	12,337,995
Participants entitled to deferred benefits	963,769	1,085,241
Other participants	2,850,915	2,663,928
	16,136,807	16,087,164
Nonvested benefits	189,200	183,014
Total actuarial present value of accumulated plan benefits	16,326,007	16,270,178

The change in the actuarial present value of accumulated plan benefits for the years ended January 1, 2011 and 2010, consisted of the following:

For the years ended January 1	2011	2010
	\$	\$
Actuarial present value of accumulated plan benefits, beginning of year	16,270,178	16,531,202
Increase (decrease) attributable to:		
Decrease in discount period	940,292	955,256
Benefits paid	(1,232,818)	(1,238,596)
Additional benefits earned, including experience gains and losses	348,355	22,316
Actuarial present value of accumulated plan benefits, end of year	16,326,007	16,270,178

The calculation of the accumulated plan benefit as of January 1, 2010 does not include the impact of the January 31, 2010 amendment to freeze benefit accruals and participation discussed in Note 1. However, such impact was determined to not have a material effect on the financial statements.

6 Income Tax Status

The Internal Revenue Service (IRS) issued a determination letter dated August 6, 2001, stating that the Plan and related trust were designed to be tax exempt in accordance with the applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan was qualified, the related trust was tax exempt and the Plan was operating in accordance with the IRC. The plan administrator requested a new determination letter in 2010.

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more-likely-than-not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011 and 2010, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations prior to 2008.

7 Plan Termination

While it has not expressed any intention to do so, the Company has the right, as presented in the plan document, to terminate the Plan subject to the provisions set forth in ERISA. In the event of termination, the net assets of the Plan shall be allocated in accordance with provisions as outlined in the plan document. Any balance remaining after satisfaction of all liabilities of the Plan shall be returned to the Company. Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal-age retirement benefits, early retirement benefits and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan and the amount of benefit protection are subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the maximum amount of an individual's monthly benefit that the PBGC guarantees. For terminations occurring during 2011, this ceiling was \$4,500 per month. Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

8 Party-in-interest Transactions

Certain plan investments are shares of mutual funds managed by New York Life Investment Management, an affiliate of NYL. NYL is the trustee as defined by the Plan and, therefore, transactions in investments managed by the NYL and its affiliates qualify as party-in-interest transactions.

During the years ended December 31, 2011 and 2010, the Company provided the Plan with certain accounting and administrative services for which no fees were charged.

9 Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2011, and the changes in net assets available for benefits for the year ended December 31, 2011, to the financial information reported in the Plan's Form 5500 filing:
