1. PLAN DESCRIPTION

The following description of the Fab Corp, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General – The Plan is a trusteed, defined contribution plan which benefits the eligible employees of Fab Corp, Inc. (the "Company" or "Employer" or "Sponsor"). It was established effective January 1, 2005 and last amended on October 1, 2008. It is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Effective, July 1, 2011, the 401(k) Committee voted to merge the assets of the Hammonds Technical Services, Inc. Retirement Savings Plan into the Plan. The assets were transferred on July 29, 2011.

Trustee and Administration – Transamerica Life Insurance Company ("Transamerica") is the trustee of the Plan ("Trustee") and holds all Plan assets in a trust account. Duties of the Trustee include, among others, receiving contributions, collecting income, reinvesting the trust fund and making payments from the trust fund as directed by the sponsor's management. Transamerica Retirement Services ("Recordkeeper") is the recordkeeper of the Plan. The term "trust fund" refers to all assets of whatever kind or nature held from time to time by the Recordkeeper under the trust without distinction between contributions and income.

The Plan is administered by a 401(k) Committee, which consists of four members. The 401(k) Committee is given all power necessary to carry out its duties including, but not limited to, the power to interpret the Plan and decide on all questions of eligibility and the status and rights of participants.

Eligibility – Employees of the Company who have completed one year of service and are 21 years of age are eligible to participate in the Plan. The entry dates of the Plan for eligible participants are on January 1st or July 1st of the Plan year that coincides with, or next follows, the date that a participant first satisfies the age and service requirements.

1. PLAN DESCRIPTION (continued)

Contributions – Employees choosing to defer a portion of their salary or wages may elect to contribute up to 70 percent of their compensation, as defined, up to a maximum annual contribution in accordance with the provisions of the Internal Revenue Code ("IRC") pertaining to retirement savings which was $16,500 for 2011. Participants who are aged 50 before December 31, 2011 are eligible to make additional catch-up contributions of up to $5,500 for the 2011 Plan year.

The Employer makes qualified non-elective matching contributions to the Plan to satisfy certain 401(k) safe harbor requirements. The non-elective matching contribution made by the Company is equal to 100 percent of the employee's elective deferral that does not exceed 3 percent of the employee's eligible compensation for the Plan year, plus 50 percent of the amount of the employee's elective deferral that exceed 3 percent of the employee's compensation, but do not exceed 5 percent of the employee's compensation.

The Company may also make a discretionary profit sharing contribution in an amount to be determined annually. The Company did not make additional discretionary profit sharing contributions during 2011.

Participant's Accounts − Each participant's account is credited with the participant's contribution, the Employer's safe harbor matching contributions, the Employer's discretionary matching contributions, an allocation of Plan earnings and an allocation of the Plan's administrative expenses, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participant contributions and Employer safe harbor contributions are fully vested at all times. Discretionary profit sharing contributions vest according to the following schedule:

FULL YEARS OF SERVICE	VESTED PERCENTAGE
Less than 1 year	0%
1 years	20%
2 years	40%
3 years	60%
4 years	80%
5 years	100%

1. PLAN DESCRIPTION (continued)

In addition, participants are considered fully vested upon attainment of the normal retirement age of 65, disability, or death.

In the event of termination of service because of retirement, termination of employment or upon disability or death of a participant, the entire vested amount of the participant's account shall be distributed to the participant or the participant's beneficiary.

Forfeitures – Forfeitures may offset the Employer's discretionary matching contributions to the extent they exceed the amounts required to reinstate the accounts of reemployed or reinstated participants. There were no forfeitures applied to discretionary matching contributions in 2011. As of December 31, 2011 and 2010, there were $6,095 and $3,601, respectively, of unallocated forfeitures in the Plan.

Notes Receivable from Participants − Participants may borrow from their fund accounts up to a maximum equal to the lesser of 50 percent of their vested account balance or $50,000 reduced by the balance of any outstanding loans. Such loans are secured by a pledge of the participant's vested account balance in the trust fund and bear interest at the prevailing interest rate charged by banks for similar loans. At December 31, 2011, interest rates ranged from 4.25 percent to 6.25 percent. Notes receivable from participants are carried at cost, which approximates fair value.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the Plan document.

Benefit Payments – A participant is eligible to receive benefit payments in the amount equal to the value of the participant's vested interest in their account upon attaining age 59½, termination of service due to retirement, or prior to retirement, or death, disability, or proven hardship. Participants may elect to receive either a lump-sum amount equal to his or her account, or as a rollover to another qualified plan that shall not exceed the life expectancy of the employee or designated beneficiary. All payments made under the Plan are paid by the Trustee.

If the value of the participant's account is less than $1,000, the payment will be made in cash as a single lump sum regardless of consent. If the value of the participant's account is between $1,000 and $5,000, and the participant does not affirmatively consent to receive a distribution, the balance will be rolled into an individual retirement account designated by the Plan administrator on behalf of the participant.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The accompanying financial statements have been prepared on the accrual basis of accounting.

Expenses − All reasonable expenses, which are necessary to operate and administer the Plan, may be deducted from the net assets of the Plan or at the election of the Company, paid directly by the Company. During the year ended December 31, 2011, administrative expenses and investment consulting expenses paid by the Company totaled approximately $11,000.

Investment Valuation and Income Recognition − Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Notes receivable from participants are valued at amortized cost, which approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The Financial Accounting Standards Board ("FASB") established a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

- Inputs other than quoted prices that are observable for the asset or liability;

- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Pooled Separate Accounts: These investments are valued daily at the net asset value of shares or units held by the Plan based on the quoted market value of the underlying assets.

Stable Value Fund: Valued at contract value, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurement at the reporting date.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Stable Value Fund − The stable value fund, which is provided as an investment option to participants in the Plan, holds fully benefit-responsive guaranteed investment contracts. The Trustee maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by the Trustee, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract value and fair value of the investment contract at December 31, 2011 and 2010 was $648,141 and $122,782, respectively.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The average interest rate credited to participants on these accounts, which approximated the average effective yield, was approximately 2.45 percent for 2011 and 2.5 percent for 2010.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's administrator to make estimates and assumptions that affect the amounts reported in the accompanying statements of net assets available for benefits and changes therein. Actual results could differ from these estimates.

Payment of Benefits – Benefits are recorded when paid. Accordingly, benefits payable to persons who have elected to withdraw from the Plan, but have not been paid have not been accrued in the Plan. At December 31, 2011 and 2010, there were no amounts payable to participants.

Risk and Uncertainties – The Plan provides for investments that are exposed to various risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits, and therefore, could affect participants' account balances.

3. INFORMATION CERTIFIED BY TRANSAMERICA

The following is a summary of the Plan's asset information as of December 31, 2011 and 2010, and for the year ended December 31, 2011, included throughout the Plan's financial statements and supplemental schedules, that was prepared by or derived from information provided by the Trustee and furnished to the Plan administrator. The Plan administrator has obtained a certification from the Trustee that information provided to the Plan administrator by the Trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedules related to the following assets:

INVESTMENTS, at fair value:		
Pooled separate accounts	$ 1,067,707	$ 776,251

5. TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the provisions of the Plan to discontinue its contributions at any time and to terminate the Plan subject to the terms of ERISA.

In the event of termination of the Plan, the investments of the Plan shall be reduced to cash as soon as it may be expeditious. Any administrative costs or expenses incurred incidental to the final liquidation shall be paid by the Company, except in the case of the Company's bankruptcy or insolvency, at which time such costs shall be charged to the Plan. Upon reduction of the fund to cash, all assets would be allocated among the participants of the Plan in accordance with the provisions of the Plan.

6. INTERNAL REVENUE SERVICE DETERMINATION

Effective January 1, 2005, the Plan adopted a standardized form of a prototype plan sponsored by Transamerica. The prototype plan has received an opinion letter from the Internal Revenue Service ("IRS") as to the prototype plan's qualified status as of May 30, 2008. The prototype plan opinion letter has been relied upon by this Plan. The Plan administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Therefore, no provision for income taxes has been included in the Plan's financial statements.

7. PARTY-IN-INTEREST TRANSACTIONS

The Plan records notes from participants as receivables on the balance sheet. These transactions qualify as party-in-interest transactions as defined by ERISA. Consequently, such transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party-in-interest transactions under ERISA.

Certain Plan investment assets represent funds invested in, or maintained by, Transamerica; therefore, these investments represent exempt party-in-interest transactions. These transactions are identified in a supplemental schedule.

8. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31:

	2011	2010
Net assets available for benefits per the financial statements	$ 1,829,344	$ 968,853
Less: contributions receivable	(22,276)	(1,820)
Net assets available for benefits per Form 5500	$ 1,807,068	$ 967,033

The following reconciliation of the net change in net assets available for benefits per the financial statements to the Form 5500 for the year ended December 31, 2011:

Net change in net assets per the financial statements	$ 860,491
Less: contributions receivable, December 31, 2011	(22,276)
Add: contributions receivable, December 31, 2010	1,820
Net change in net assets available for benefits per Form 5500	$ 840,035

9. NONEXEMPT PARTY-IN-INTEREST TRANSACTIONS

As reported on the Form 5500, Schedule H, Line 4a – Schedule of Delinquent Participant Contributions, $74,261 of participant contributions were not remitted to the Plan within the time frame specified by the DOL, thus constituting nonexempt transactions between the Plan and the Company for plan year 2011. The Company corrected the untimely remittances, including the remittance of lost earnings due to these delays through its October 2012 filing with the DOL.

During 2010 the Company inadvertently failed to deposit approximately $1,494 of participant deferrals within the required timeframe as interpreted by the United States DOL. The DOL considers late deposits to be prohibited transactions. The Company filed Form 5530 and paid applicable excise tax and lost earnings for all 2010 late deposits. The excise tax payments were made from the Company's assets and not from assets of the Plan.

10. SUBSEQUENT EVENTS

Subsequent events have been evaluated through October 15, 2012, the date which the financial statements were available to be issued.
