DARREN A. FREIHAGE 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2011 AND 2010

NOTE 1 – DESCRIPTION OF PLAN

The following description of the Darren A. Freihage ("the Company") 401(k) Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan sponsored by Darren A. Freihage d/b/a McDonalds. The Plan covers all employees who have reached 21 years of age, completed one year of service, and 1,000 hours. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may contribute up to 15% of pretax annual compensation, plus up to 100% of any cash bonus, as defined in the Plan up to the maximum dollar amount allowable as established by the Internal Revenue Service. Participants may also contribute amounts representing distributions from other qualified benefit or contribution plans. Participants direct the investment of their contributions and employer matching contributions into various investment options offered by the Plan. The Plan currently offers investment choices through State Street Bank & Trust, the trustee of the Plan's investments that include interest bearing money market accounts and mutual funds through various registered investment companies. The Plan also allows for discretionary employer matching contributions.

Participant Accounts

Each participant's account is credited with the participant's contribution, including any rollovers from other plans, and allocations of the Company's contributions, if any, Plan earnings, and charged with an allocation of administrative expenses incurred by the plan, as described in the agreement with the trustee. Allocations are based upon participant earnings or account balances, as defined. Forfeited balances of terminated participant's nonvested accounts are first made available to reinstate previously forfeited account balances of former participants. Any remaining forfeitures are then added to the employer's contribution and allocated to participants. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their salary deferral contributions plus actual earnings thereon. Vesting in employer matching contributions allocated to individual participants, plus actual earnings thereon is based upon years of continual service as defined in the Plan. A participant is 100% vested after six years of service.

NOTE 1 – DESCRIPTION OF PLAN (continued)

Notes Receivable From Participants

Participants may borrow from their fund accounts a minimum of $500 up to a maximum equal to the lessor of $50,000 or 50% of their vested account balance. Loan terms range from 1 to 5 years up to 30 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 5.25% to 9.25%. Principal and interest are paid ratably through regular payroll deductions.

Payment of Benefits

On termination of service due to death, disability, retirement or any other reason, a participant will receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. In addition, hardship withdrawals and in-service distributions are permitted if certain criteria are met.

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the plan are prepared under the modified cash basis of accounting, which is a comprehensive basis of accounting other than generally accepted accounting principles. Under the modified cash basis of accounting, participant and employer contributions are recorded in the period received rather than when they become receivable by the Plan, investment income and interest income from loans to participants are recorded when received rather than when earned, investments are recorded at fair value, and expenses are recorded when paid rather than when incurred.

Cash and cash equivalents

Cash and cash equivalents include deposits in financial institutions and short term investments with maturities of 90 days or less when acquired.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES (continued)

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest and dividend income are recorded when received. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the plan's gains and losses on investments bought and sold as well as held during the year.

Management fees and operating expenses charged to the Plan for investments in mutual funds are deducted from income earned on a daily basis and not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Administrative expenses of the Plan, including recordkeeping and trustee fees, are paid by the Company, except for participant loan fees and certain investment management fees.

Subsequent Events

The plan has evaluated subsequent events through October 10, 2012, the date the financial statements were available to be issued.

NOTE 3 – INVESTMENTS (UNAUDITED)

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

ADP Retirement Services, the Plan's third party administrator, is responsible for the maintenance of all accounting records and the preparation of reports of activity relative to these accounts. State Street Bank & Trust is the trustee of all participant investment accounts and has certified to the Plan Administrator the completeness and accuracy of the investment information.

The following table presents investments that represent 5% or more of the Plan's net assets as of December 31:

Investments at Fair Value as Determined by Quoted Market Price	**2011**	**2010**
Common/Collective trusts		
SSgA S&P 500 Index Fund	$ 57,016	$ 84,333
Registered investment companies		
DWS Large Cap Value Fund – Class A	16,397	16,130
Pimco Total Return Fund – Class A	48,456	85,894
Neuberger Berman Large Cap Value Fund – Advisor Class	15,135	17,164
Franklin Rising Dividends Fund – Class A	17,387	**

**Amount was less than 5% of Plan's net assets

During 2011, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) depreciated in value by $9,245 as follows:

Common/Collective trusts	$ 1,841
Registered investment companies	(11,086)
	$ (9,245)

NOTE 4 – FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

NOTE 4 – FAIR VALUE MEASUREMENTS (continued)

Level 2 - Inputs to the valuation on methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Common/collective trusts (level 2): Valued based upon underlying trust agreements and market value of collective investment trusts which generally invest in affiliated and unaffiliated mutual funds. The underlying funds are audited by independent qualified accounting firms.

Registered investment companies: Valued at the net asset value (NAV) of shares held by the Plan at year end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 4 – FAIR VALUE MEASUREMENTS (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011 and 2010:

	Assets at Fair Value as of December 31, 2011

Total mutual funds	173,224	-	-	173,224
Total assets at fair value	$ 179,990	$ 107,241	$ -	$ 287,231

NOTE 5 – COMMON/COLLECTIVE INVESTMENT TRUSTS

Common/collective trusts are fully benefit-responsive investment contracts. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the collective trusts because contract value is the amount participants would receive if they were to initiate permitted transactions. Because the common/collective trusts are always available to pay benefits, contract value is deemed to be fair value for these investments. Contract value, as reported to the Plan by State Street Bank and Trust Company, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract value of the investment contracts at December 31, 2011 and 2010 was $91,238 and $107,241, respectively. The crediting interest rate in the investments are based on a formula agreed upon with the issuer, but it may not be less than 1%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the plan, or (4) the failure of the trust to qualify for the exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events which would limit the plan's ability to transact at contract value with participants are probable of occurring.

NOTE 6 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

NOTE 7 – TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2008 that the Plan and related trust were designed in accordance with applicable regulations of the Internal Revenue Code (IRC). Although, the Plan has not received a determination letter specific to the Plan itself, and the plan has been amended since the prototype plan was adopted; the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is being operated in compliance with the applicable requirements of the IRC. Therefore, the plan administrator believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

NOTE 8 – RISKS AND UNCERTANTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate risk, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
