Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Actuarial methods

Asset methods

The asset valuation method is an average of the adjusted market value for each year during the last 24 months preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110 percent and no less than 90 percent of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

The market value is the amount reported in the year-end trustee statement plus discounted receivable contributions.

Participant methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.
- **Transferred participants:** The liabilities for employees who have transferred into another plan of the plan sponsor have been included with the liabilities for terminated vested participants.

Minimum funding methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Maximum deductible contribution method

The funding target for maximum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

Schedule SB, Part V — Summary of Plan Provisions**Benefits included or excluded**

Unless noted below, all benefits provided by the plan, as restated and amended through January 1, 2011, are included in this valuation.

- **Plan amendments excluded:** None
- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits (if any) that occurred before the valuation date but includes contingent event benefits (if any) which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
 - *Plan amendments:* See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Scheduled benefit increases:** Scheduled benefit increases effective after the end of the current plan year (if any) are excluded from minimum funding requirements.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.
- **IRC Section 415(b) benefit limitations:** The limitations of Internal Revenue Code Section 415(b) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60 percent of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Schedule SB, Part V — Summary of Plan Provisions**Summary of major plan provisions**

Schedule SB, Line 11 — Prior Year's Excess Contributions

As of December 31, 2010, the Ogilvy Public Relations Worldwide Cash Balance Pension Plan ("OPR") merged into the Ogilvy & Mather Account Balance Defined Benefit Pension Plan ("O&M"), resulting in a transfer of all assets and liabilities. A contribution for the 2010 plan year for OPR in the amount of \$1,160,000 was made on September 8, 2011. Because it was allocated toward the OPR minimum required contribution, it was reported on the 2010 Schedule SB for the Ogilvy Public Relations Worldwide Cash Balance Pension Plan (EIN/PN: 13-2903744/004) and thus excluded from the 2010 O&M Schedule SB. However, this contribution is included in line 11a as an excess contribution since it represents a contribution receivable regarding O&M plan assets as of January 1, 2011; therefore, line 11a this year does not match line 38 from the prior year.

OGILVY & MATHER ACCOUNT BALANCE DEFINED BENEFIT PENSION PLAN

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2011 AND 2010

1. DESCRIPTION OF THE PLAN

The following brief description of the Ogilvy & Mather Account Balance Defined Benefit Pension Plan (the “Plan”) is provided for general information only. Participants should refer to the Plan agreement for more complete information.

General—The Plan is a noncontributory defined benefit plan sponsored by Ogilvy Group, Inc., a wholly-owned subsidiary of WPP Group plc. The Plan provides retirement and death benefits for all participating employees of Ogilvy & Mather Agency, A. Eicoff and Company, Ogilvy One, Ogilvy & Mather Graphic Services, Ogilvy and Mather Hawaii, BEN Marketing Group LLC, Soho Square Inc., 141 Group LLC, Speech Dynamics, Leopard Communications, Inc. and Shire Health International Inc., (the “Companies”). The Ogilvy Public Relations Worldwide Cash Balance Pension Plan (“OPRW”) merged into the Plan on December 31, 2010. The Plan has been amended and restated, effective January 1, 2011, to comply with the Heroes Earnings and Assistance Relief Tax Act of 2008 (the “HEART Act”), to incorporate amendments adopted since the prior restatement. JP Morgan Chase Bank (“JPMC”) is the Plan trustee and Mercer Human Resource Consulting (“Mercer”) is the actuary for the Plan.

Plan Administration—The Plan is administered by the Retirement Plan Committee (the “Plan Administrator”) that is appointed by the Board of Directors. All administrative expenses except legal, accounting and consulting fees, are paid by the Plan. Brokerage fees are included in the cost of investments when purchased and deducted from the proceeds when investments are sold.

Eligibility—Prior to January 1, 2002, full-time employees were eligible to participate in the Plan on January 1 or July 1 after completing one year of service. As of January 1, 2002, full-time employees are eligible to participate in the Plan on the first of the month coincident with or following one year of service. Part-time employees are eligible after one year of service if they work more than 1,000 hours per year.

Vesting—Effective January 1, 2008, participants are fully vested after attaining three years of service. Participants are credited with vesting service for service provided to any employer of the WPP controlled group.

Benefits—The retirement benefit is the accumulation of 10% of the participant’s monthly eligible compensation plus interest. Each participant begins to receive retirement benefits from the Plan upon retirement. For Plan purposes, retirement is as follows:

Early Retirement—Early retirement can begin on or after age 55, if vested, or if the participant has 20 years of service at termination.

Normal Retirement—Normal retirement can begin on or after age 62 if the participant has at least three years of service with the Companies or upon attaining age 65, whichever is earlier. Participants with balances less than \$5,000 receive single lump sum payments. For participants with balances in excess of \$5,000, the Plan offers a choice of five different payment options: a single lump-sum payment, a lifetime annuity, a qualified joint/survivor annuity, joint/survivor annuity or installment payments over a period of one or more years not to exceed 10 years. The Plan also provides for benefits to the beneficiaries of deceased participants as well as to permanently disabled participants.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting—The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (“GAAP”).

Recent Accounting Pronouncements— In May 2011, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and International Financial Reporting Standards* (ASU 2011-04). ASU 2011-04 was issued to provide a consistent definition of fair value and common requirements for measurement of, and disclosure about, fair value between U.S. GAAP and International Financial Reporting Standards. It also expands the disclosures for fair value measurements that are estimated using significant unobservable (Level 3) inputs. This pronouncement is effective for periods beginning after December 15, 2011 with early adoption prohibited. The Plan does not expect the adoption of this pronouncement to have a material effect on its financial statements.

Use of Estimates—The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition—Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 7 for a discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/depreciation includes the Plan’s gains and losses on investments bought and sold as well as held during the year.

Actuarial Present Value of Accumulated Plan Benefits—Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan’s provisions to the service employees have rendered. Accumulated Plan benefits include benefits expected to be paid to: (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on the participant’s account balance as defined under the Plan. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2011 AND 2010

2. SIGNIFICANT ACCOUNTING POLICIES (continued)-

Actuarial Present Value of Accumulated Plan Benefits (continued)- The actuarial present value of accumulated plan benefits is determined by an actuary from Mercer Human Resource Consulting ("Mercer"), and is that amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations as of January 1, 2011 and 2010 were: (a) life expectancy of participants Section 430(h)(3) prescribed separate static annuitant and nonannuitant mortality tables; (b) retirement age assumptions (varying retirement rates based on graduated scale of retirement ages from age 55 to age 70 and above. Retirement rates range from 10% to 20% through age 64, then 100% thereafter; and (c) investment return. The 2011 and 2010 valuations included assumed average rates of return of 6.24% in 2011 and 6.23% in 2010. An expense assumption has been added equal to the rounded value of the prior year administrative expenses. The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Payment of Benefits—Benefit payments to participants are recorded upon distribution.

Subsequent Events—The Plan's management evaluated subsequent events through October 2, 2012, the date the financial statements were available to be issued and no additional disclosures were required.

3. FUNDING POLICY

Contributions to provide benefits under the Plan are made solely by the Company. The Company's funding policy is to make cash contributions to the Plan in amounts as determined by the Plan's independent actuary that are estimated to remain a constant percentage of employees' compensation each year (approximately 10%), such that all employees' benefits will be fully provided for by the time they retire. The Company's contributions for 2011 and 2010 exceeded the minimum funding requirements of ERISA.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the Plan and ERISA.

4. ACCUMULATED PLAN BENEFITS AND CHANGES IN ACCUMULATED PLAN BENEFITS

Mercer, the actuary for the Plan, determined the actuarial present value of accumulated plan benefits.

5. PLAN TERMINATION

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Benefits attributable to employee contributions, taking into account those paid out before termination.
2. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
3. Other vested benefits insured by the Pension Benefit Guaranty Corporation ("PBGC"), (a U.S. government agency), up to the applicable limitations.
4. All other vested benefits (that is, vested benefits not insured by the PBGC).
5. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, a statutory ceiling exists, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or Plan termination (whichever comes later).

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations, and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2011 AND 2010

6. INVESTMENTS

The Plan's investments that represented five percent or more of the Plan's net assets available for benefits as of December 31, 2011 and 2010 are as follows:

	<u>2011</u>	<u>2010</u>
PIMCO Total Return Institutional Fund	\$ 73,489,728	\$ 72,835,293
JPMorgan Prime Money Market Fund	40,117,986	*
PIMCO Real Return Bond Fund	16,646,416	14,920,819
Dodge & Cox Stock Fund	*	14,245,260
Artio International Equity Fund	*	17,787,250
The Growth Fund of America	*	13,537,819

* This investment did not represent 5% or more of the Plan's net assets available for benefits at December 31, 2011 or 2010.

During the year ended December 31, 2011, the entire depreciation in the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) of \$7,064,981 was attributable to investments in mutual funds.

7. FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows: Level 1 inputs consist of unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access; Level 2 inputs include quoted prices for similar assets or liabilities in active markets, quoted prices in markets that are not active or other inputs that are derived principally from, or corroborated by, observable market data by correlation or other means. If the asset or liability has a specific (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability. Level 3 inputs are unobservable and reflect the entity's own assumptions about the assumptions that market participants would use in pricing the asset or liability.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2011 AND 2010

7. FAIR VALUE MEASUREMENTS (continued)-

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's fair value measurements at December 31, 2011 and 2010.

8. RELATED-PARTY TRANSACTIONS

Certain Plan investments are managed by JPMC. JPMC is the trustee of the Plan and, therefore, these transactions qualify as permitted party-in-interest transactions, which are exempt from the prohibited transaction rules of ERISA.

9. TAX STATUS

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated May 4, 2004, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

10. INFORMATION CERTIFIED BY THE TRUSTEE (UNAUDITED)

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2011 AND 2010

11. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

Plan contributions are made and the actuarial present value of accumulated Plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.
