DAVIS KINARD & CO, P.C. 401(k) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Plan Description

The following description of Davis Kinard & Co, P.C. 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was adopted January 25, 1997 as a defined contribution plan covering all employees of Davis Kinard & Co, P.C. (the Company). The Plan was later amended effective January 1, 2010. The Plan year is the twelve months ending December 31. The Plan is established to comply with Internal Revenue Code Sections 401 and 501. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Eligibility

An employee is eligible to participate in the plan after attaining the age of 21.

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting. Accordingly, revenue is recognized when earned and expenses are recognized when incurred.

Contributions

Participants can make elective contributions through salary deductions of their compensation, as defined in the Plan, not to exceed the maximum IRS limits. Each year, the employer can make matching contributions equal to a discretionary percentage of the participant's salary reductions. In addition to matching contributions the employer can elect to make profit sharing contributions. In order to receive the employer's matching and profit sharing contributions an employee must have worked 1,000 hours of service during the Plan year and be employed on the last day of the Plan year. The Company has elected to operate the Plan as a safe harbor 401(k) plan and the employer makes a 3% nonelective contribution for each eligible employee. Rollover contributions are allowed if they meet certain requirements of the Plan.

Forfeitures

Forfeitures will be used to reduce future employer contributions to the Plan. The amount of forfeitures for the year ended December 31, 2011 was \$2,698.

Participant Accounts

Each participant's account is credited with contributions and earnings from their investments. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

DAVIS KINARD & CO, P.C. 401(k) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

Vesting

Participants are immediately vested in their contributions, matching contributions and safe harbor contributions. Vesting in additional employer profit sharing contributions is based on years of service, as follows:

Less than 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years or more	100%

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Quoted market prices are used to value investments. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year end. Participant loans are valued at their outstanding balances, which approximate fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date.

Participant Loans

Loans to participants may be made up to \$50,000 or 50% of their vested interest. The minimum loan is \$1,000. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant loan fund. Loan terms range from 1-5 years. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

Benefits are recorded when paid. On termination of service, a participant will receive benefits as a lump-sum amount equal to the value of his or her account. If the vested benefit upon termination of employment in the Plan does not exceed \$1,000, then the balance will be distributed automatically. If the vested balance is between \$1,000 and \$5,000 an automatic distribution will be made to an individual retirement account. Otherwise, distributions are made at the participant's election.

If a participant has reached age 70 ½, distributions may be made, at the participant's election, from accounts that are 100% vested, without requiring the participant to terminate employment. Hardship distributions may be made under certain circumstances from accounts that are 100% vested.

NOTES TO FINANCIAL STATEMENTS

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Plan Expenses

All reasonable administration expenses may be paid from the assets of the Plan. The Plan sponsor may, in its discretion, pay any or all Plan expenses.

DAVIS KINARD & CO, P.C. 401(k) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE 3: CERTIFIED INFORMATION

For the Plan year ended December 31, 2011, the financial information included in the Plan financial statements and required supplemental schedule, except for contributions receivable, contributions and distributions for withdrawals and terminations, has been derived from information certified as complete and accurate by Charles Schwab Bank, in accordance with Section 2520.103-5 of the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Security Act of 1974 (ERISA).

NOTE 4: PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become fully vested in their employer contributions.

NOTE 5: INCOME TAX STATUS

The Plan obtained its latest determination letter on August 17, 2009, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the plan administrator, the plan administrator's record keeper and trustee believe that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the U.S. Department of Labor and the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011 and 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

NOTE 6: RISKS AND UNCERTAINTIES

The Plan provides for various investment options in any combination of mutual funds and other investment securities offered by the Plan. Investment securities are exposed to various risks, such as interest rate risk, market fluctuations, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 7: RELATED PARTY TRANSACTIONS

Certain Plan investments are in mutual funds managed by Charles Schwab Bank, the custodian of the Plan's assets. Any purchases and sales of these funds are performed in the open market at fair value. Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.

DAVIS KINARD & CO, P.C. 401(k) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE 8: FAIR VALUE MEASUREMENTS

Authoritative guidance defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market for the asset or liability. The price in the principal (or most advantageous) market used to measure the fair value of the asset or liability shall not be adjusted for transaction costs. An orderly transaction is a transaction that assumes exposure to the market for a period prior to the measurement date to allow for marketing activities that are usual and customary for transactions involving such assets and liabilities; it is not a forced transaction. Market participants are buyers and sellers in the principal market that are (i) independent, (ii) knowledgeable, (iii) able to transact and (iv) willing to transact.

Authoritative guidance requires the use of valuation techniques that are consistent with the market approach, the income approach and/or the cost approach. The market approach uses prices and other relevant information generated by market transactions involving identical or comparable assets and liabilities. The income approach uses valuation techniques to convert future amounts, such as cash flows or earnings, to a single present amount on a discounted basis. The cost approach is based on the amount that currently would be required to replace the service capacity of an asset (replacement costs). Valuation techniques should be consistently applied. Inputs to valuation techniques refer to the assumptions that market participants would use in pricing the asset or liability. Inputs may be observable, meaning those that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from independent sources, or unobservable, meaning those that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances.

In that regard, authoritative guidance establishes a fair value hierarchy for valuation inputs that gives the highest priority to quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. The fair value hierarchy is as follows:

Level 1 Inputs - Unadjusted quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date.

Level 2 Inputs - Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the asset or liability (for example, interest rates, volatilities, prepayment speeds, loss severities, credit risks and default rates) or inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 Inputs - Significant unobservable inputs that reflect an entity's own assumptions that market participants would use in pricing the assets or liabilities.

A description of the valuation methodologies used for assets and liabilities measured at fair value, as well as the general classification of such instruments pursuant to the valuation hierarchy, is set forth below.

DAVIS KINARD & CO, P.C. 401(k) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE 8: FAIR VALUE MEASUREMENTS – continued

In general, fair value is based upon quoted market prices, where available. If such quoted market prices are not available, fair value is based upon internally developed models that primarily use, as inputs, observable market-based parameters. Valuation adjustments may be made to ensure that financial instruments are recorded at fair value. While management believes the Company's valuation methodologies are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date.

Mutual funds - Investments are reported at fair value utilizing Level 1 inputs. For these investments, the Company obtains fair value measurements from an independent pricing service. The fair value measurements consider observable data that may include dealer quotes, market spreads, cash flows, the U. S. Treasury yield curve, live trading levels, trade execution data, market consensus prepayments speeds, credit information and the bond's terms and conditions, among other things.

The following table summarizes financial assets measured at fair value on a recurring basis as of December 31, 2011 and 2010, segregated by the level of the valuation inputs within the fair value hierarchy utilized to measure fair value:

Assets at Fair Value as of December 31, 2011				
	Level 1 Inputs	Level 2 Inputs	Level 3 Inputs	Total Fair Value
Mutual funds	\$ 3,744,812	\$ _____	\$ _____	\$ 3,744,812
	<u>\$ 3,744,812</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 3,744,812</u>

Unaudited Assets at Fair Value as of December 31, 2010				
	Level 1 Inputs	Level 2 Inputs	Level 3 Inputs	Total Fair Value
Mutual funds	\$ 4,460,416	\$ _____	\$ _____	\$ 4,460,416
	<u>\$ 4,460,416</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 4,460,416</u>

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the years ended December 31, 2011 are reported in net depreciation in fair value of investments.

NOTES TO FINANCIAL STATEMENTS

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Plan Description

The following description of Davis Kinard & Co, P.C. 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was adopted January 25, 1997 as a defined contribution plan covering all employees of Davis Kinard & Co, P.C. (the Company). The Plan was later amended effective January 1, 2010. The Plan year is the twelve months ending December 31. The Plan is established to comply with Internal Revenue Code Sections 401 and 501. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Eligibility

An employee is eligible to participate in the plan after attaining the age of 21.

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting. Accordingly, revenue is recognized when earned and expenses are recognized when incurred.

Contributions

Participants can make elective contributions through salary deductions of their compensation, as defined in the Plan, not to exceed the maximum IRS limits. Each year, the employer can make matching contributions equal to a discretionary percentage of the participant's salary reductions. In addition to matching contributions the employer can elect to make profit sharing contributions. In order to receive the employer's matching and profit sharing contributions an employee must have worked 1,000 hours of service during the Plan year and be employed on the last day of the Plan year. The Company has elected to operate the Plan as a safe harbor 401(k) plan and the employer makes a 3% nonelective contribution for each eligible employee. Rollover contributions are allowed if they meet certain requirements of the Plan.

Forfeitures

Forfeitures will be used to reduce future employer contributions to the Plan. The amount of forfeitures for the year ended December 31, 2011 was \$2,698.

Participant Accounts

Each participant's account is credited with contributions and earnings from their investments. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

NOTES TO FINANCIAL STATEMENTS

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

Vesting

Participants are immediately vested in their contributions, matching contributions and safe harbor contributions. Vesting in additional employer profit sharing contributions is based on years of service, as follows:

Less than 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years or more	100%

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Quoted market prices are used to value investments. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year end. Participant loans are valued at their outstanding balances, which approximate fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date.

Participant Loans

Loans to participants may be made up to \$50,000 or 50% of their vested interest. The minimum loan is \$1,000. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant loan fund. Loan terms range from 1-5 years. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

Benefits are recorded when paid. On termination of service, a participant will receive benefits as a lump-sum amount equal to the value of his or her account. If the vested benefit upon termination of employment in the Plan does not exceed \$1,000, then the balance will be distributed automatically. If the vested balance is between \$1,000 and \$5,000 an automatic distribution will be made to an individual retirement account. Otherwise, distributions are made at the participant's election.

If a participant has reached age 70 ½, distributions may be made, at the participant's election, from accounts that are 100% vested, without requiring the participant to terminate employment. Hardship distributions may be made under certain circumstances from accounts that are 100% vested.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Plan Expenses

All reasonable administration expenses may be paid from the assets of the Plan. The Plan sponsor may, in its discretion, pay any or all Plan expenses.

NOTES TO FINANCIAL STATEMENTS

NOTE 3: CERTIFIED INFORMATION

For the Plan year ended December 31, 2011, the financial information included in the Plan financial statements and required supplemental schedule, except for contributions receivable, contributions and distributions for withdrawals and terminations, has been derived from information certified as complete and accurate by Charles Schwab Bank, in accordance with Section 2520.103-5 of the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Security Act of 1974 (ERISA).

NOTE 4: PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become fully vested in their employer contributions.

NOTE 5: INCOME TAX STATUS

The Plan obtained its latest determination letter on August 17, 2009, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the plan administrator, the plan administrator's record keeper and trustee believe that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the U.S. Department of Labor and the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011 and 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2007.

NOTE 6: RISKS AND UNCERTAINTIES

The Plan provides for various investment options in any combination of mutual funds and other investment securities offered by the Plan. Investment securities are exposed to various risks, such as interest rate risk, market fluctuations, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 7: RELATED PARTY TRANSACTIONS

Certain Plan investments are in mutual funds managed by Charles Schwab Bank, the custodian of the Plan's assets. Any purchases and sales of these funds are performed in the open market at fair value. Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.

NOTES TO FINANCIAL STATEMENTS

NOTE 8: FAIR VALUE MEASUREMENTS

Authoritative guidance defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market for the asset or liability. The price in the principal (or most advantageous) market used to measure the fair value of the asset or liability shall not be adjusted for transaction costs. An orderly transaction is a transaction that assumes exposure to the market for a period prior to the measurement date to allow for marketing activities that are usual and customary for transactions involving such assets and liabilities; it is not a forced transaction. Market participants are buyers and sellers in the principal market that are (i) independent, (ii) knowledgeable, (iii) able to transact and (iv) willing to transact.

Authoritative guidance requires the use of valuation techniques that are consistent with the market approach, the income approach and/or the cost approach. The market approach uses prices and other relevant information generated by market transactions involving identical or comparable assets and liabilities. The income approach uses valuation techniques to convert future amounts, such as cash flows or earnings, to a single present amount on a discounted basis. The cost approach is based on the amount that currently would be required to replace the service capacity of an asset (replacement costs). Valuation techniques should be consistently applied. Inputs to valuation techniques refer to the assumptions that market participants would use in pricing the asset or liability. Inputs may be observable, meaning those that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from independent sources, or unobservable, meaning those that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances.

In that regard, authoritative guidance establishes a fair value hierarchy for valuation inputs that gives the highest priority to quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. The fair value hierarchy is as follows:

Level 1 Inputs - Unadjusted quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date.

Level 2 Inputs - Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the asset or liability (for example, interest rates, volatilities, prepayment speeds, loss severities, credit risks and default rates) or inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 Inputs - Significant unobservable inputs that reflect an entity's own assumptions that market participants would use in pricing the assets or liabilities.

A description of the valuation methodologies used for assets and liabilities measured at fair value, as well as the general classification of such instruments pursuant to the valuation hierarchy, is set forth below.

DAVIS KINARD & CO, P.C. 401(k) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE 8: FAIR VALUE MEASUREMENTS – continued

In general, fair value is based upon quoted market prices, where available. If such quoted market prices are not available, fair value is based upon internally developed models that primarily use, as inputs, observable market-based parameters. Valuation adjustments may be made to ensure that financial instruments are recorded at fair value. While management believes the Company's valuation methodologies are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date.

Mutual funds - Investments are reported at fair value utilizing Level 1 inputs. For these investments, the Company obtains fair value measurements from an independent pricing service. The fair value measurements consider observable data that may include dealer quotes, market spreads, cash flows, the U. S. Treasury yield curve, live trading levels, trade execution data, market consensus prepayments speeds, credit information and the bond's terms and conditions, among other things.

The following table summarizes financial assets measured at fair value on a recurring basis as of December 31, 2011 and 2010, segregated by the level of the valuation inputs within the fair value hierarchy utilized to measure fair value:

Assets at Fair Value as of December 31, 2011				
	Level 1 Inputs	Level 2 Inputs	Level 3 Inputs	Total Fair Value
Mutual funds	\$ 3,744,812	\$ _____	\$ _____	\$ 3,744,812
	<u>\$ 3,744,812</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 3,744,812</u>

Unaudited Assets at Fair Value as of December 31, 2010				
	Level 1 Inputs	Level 2 Inputs	Level 3 Inputs	Total Fair Value
Mutual funds	\$ 4,460,416	\$ _____	\$ _____	\$ 4,460,416
	<u>\$ 4,460,416</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 4,460,416</u>

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the years ended December 31, 2011 are reported in net depreciation in fair value of investments.
