Independent Auditors' Report

To the Board of Trustees
Texas de Brazil Savings Plan
Dallas, Texas

We were engaged to audit the financial statements of the Texas de Brazil Savings Plan as December 31, 2011 and 2010 and for the year ended December 31, 2011, and the supplemental schedule as of December 31, 2011 as listed in the accompanying table of contents. These financial statements and the supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information described in Note 4, which was certified by Union Central Life Insurance Company, the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of and for the years ended December 31, 2011 and 2010, that the information provided to the plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for the purpose of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1 – Description of plan

The following brief description of the Texas de Brazil Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Texas de Brazil Holding Corporation (the "Company" or "Plan sponsor") who have attained eighteen years of age and completed three months of service as defined by the Plan. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Effective January 1, 2010, the Plan was amended to comply with current regulations.

Contributions

Participants may elect to contribute a percentage of their salary pre-tax to the plan each year, subject to annual limits as prescribed by the Internal Revenue Code. Participants may also elect to contribute on an after-tax basis as a Roth 401(k) deduction, subject to annual limits as prescribed by the Internal Revenue Code. Participants are one hundred percent vested in all of their contributions. The Company makes matching contributions up to the first three percent of the participants' eligible compensation, and then an additional fifty percent match of up to the next two percent of eligible compensation.

Participant accounts

Each participant's account is credited with their contributions, an allocation of the Company's contribution and the Plan's earnings as stated in the Plan Document. The Plan offers various investment fund accounts for participants to select.

Notes receivable from participants

Participants may borrow from their fund accounts at a minimum of $1,000. The notes receivable are secured by the balance in the participant's account and bear interest. Notes receivable repayments and related interest are deducted from participant's paychecks over installment periods.

Investments

Participants may direct employee contributions in money market, bonds, and mutual fund investments, as provided by the Plan's trustees. The Participant may change their investment options and transfer previously contributed amounts between investments at any time.

Vesting

Effective January 1, 2008, all participants were immediately one hundred percent vested in both participant and Company match contributions under the safe harbor guidelines. For contributions made prior to January 1, 2008, participants were immediately vested in their voluntary contributions plus actual earnings thereon and are vested in the Company contributions portion of their accounts plus earnings thereon as follows:

Years of vesting service	Nonforfeitable percentage
2	20%
3	40%
4	60%
5	80%
6	100%

Note 1 – Description of plan (continued)

Payment of benefits

Upon termination by death, disability or retirement, the participant or the participant's beneficiary may receive the vested account balance in periodic installments, in the form of a joint and survivor, pre-retirement or life annuity, or a lump sum if the account balance is less than $5,000. Benefit payments to participants are recorded when paid.

Forfeitures

Forfeitures are used to reduce the employer's contribution. Forfeitures during the year ended December 31, 2011 totaled $419.

Note 2 – Summary of significant accounting policies

Basis of accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

Investment valuation and income recognition

The Plan's investments are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 5 for further discussion of fair value measurements.

Realized and unrealized appreciation (depreciation) in the fair value of investments is based on the difference between the fair value of the assets at the beginning of the year, or at the time of purchase for assets purchased during the year, and the related fair value on the day investments are sold with respect to realized appreciation (depreciation), or on the last day of the year for unrealized appreciation (depreciation). See Note 4 for further discussion of net appreciation.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the Plan document.

Plan expenses

The Company pays certain administrative expenses of the Plan.

Payment of benefits

Benefit payments to participants are recorded when paid.

Subsequent events

Management has evaluated subsequent events through October 15, 2012, which was the date the financial statements were available to be issued, for possible recognition of disclosure in the financial statements. The Plan sponsor has determined that there are no events or transactions that would require disclosure in the Plan's financial statements.

Note 2 – Summary of significant accounting policies (continued)

Use of estimates in the preparation of financial statements

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Note 3 – Separated participants

At December 31, 2011, the Plan held balances for participants who have terminated totaling $231,957.

Note 4 – Investments

The Plan's investments are held in pooled separate accounts by the Union Central Life Insurance Company, custodian for the Plan. The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by the custodian. The information was not audited by independent auditors. Investments that represent five percent or more of the Plan's net assets are separately identified:

	December 31, 2011	2010

Other Investments (<5%)	202,590	147,650
	$ 2,138,626	$ 1,821,280

During 2011, the Plan's investments in pooled separate and unallocated accounts (including gains and losses on investments bought and sold, as well as held during the year) depreciated in value by $40,581.

Note 5 – Fair value measurements

FASB Accounting Standards Codification ("ASC") 820, *Fair Value Measurement and Disclosures*, provides a common definition of fair value and establishes a framework for measuring fair value. ASC 820 defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. ASC Topic 820 also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value, and describes three levels of inputs that may be used to measure fair value.

Note 5 – Fair value measurements (continued)

Level 1- Quoted prices for identical assets in active markets that the entity has the ability to access as of the measurement date.

Level 2- Significant other observable inputs other than Level 1 prices, such as quoted prices for similar assets, quoted prices in markets that are not active, and other inputs that are observable or can be correlated by observable market data.

Level 3- Significant unobservable inputs that reflect a plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The following is a description of the valuation methodologies used for assets and liabilities measured at fair value. There have been no changes in the methodologies used as of December 31, 2011 and 2010.

Pooled separate accounts: Investments in pooled separate accounts are valued at the net asset value (NAV) of the shares held by the Plan in the applicable Union Central Life Insurance Company sub-accounts held by the Plan at the end of the reporting period and are classified in Level 2 of the fair value hierarchy.

These funds are considered open-end mutual funds, meaning that the fund is ready to redeem its shares at any time and offers its shares for sale to the public, either through retail outlets or through institutional investors continuously. For institutional funds, NAV's are received daily from fund managers, and the managers stand ready to transact at these quoted amounts.

Union Central Life Insurance Company transacts in these funds on a daily basis as part of the separate account trading activity.

Money market funds: Money market funds are based on quoted prices in active markets for identical securities and are classified in Level 1 of the fair value hierarchy.

Unallocated insurance contracts: Interest rate guarantees of the deposit account are backed by assets of the custodian. The fair value for the unallocated insurance contracts is determined as the present value of future guaranteed account values and participant benefit withdrawals, assuming an annual benefit withdrawal rate of 9%. Benefit withdrawals are assumed to occur on the contract anniversary date. Present values are derived by discounting future guaranteed account values and benefit withdrawals by the appropriate market interest rates. Market interest rates are deemed to be the same rates to be credited to new issues of the same contract with like guarantees issued as of the date of the fair value determination. The market interest rates used have interest guarantee periods that match the guarantee periods remaining as of the valuation date for the contract.

Interest rate guarantees of the deposit account are backed by assets of the custodian. Credited rates are set based on yields earned on new purchases of fixed income securities for the general account. Credited rates are guaranteed for the duration of the guaranteed period elected by the plan sponsor and do not vary with the subsequent performance of assets of the general account that back these guarantees. Due to the nature of these contracts, specific underlying assets are not assigned and there is no market (quoted prices or observable inputs) and as such the valuation includes significant inputs based on assumptions about market participant assumptions and the assets are classified in Level 3 of the fair value hierarchy.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 5 – Fair value measurements (continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31:

Note 6 – Tax status

The Internal Revenue Service has determined that the Plan is qualified and the trust established under the Plan is tax-exempt, under the appropriate sections of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Service.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be substantiated upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

Note 7 – Plan termination

Although the Company has not expressed any intent to do so, it has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts and Plan assets will be used solely to provide benefits for participants.

Note 8 – Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9 – Related party transactions

The Plan trustee is an employee of Texas de Brazil Holding Corporation.

Participants may choose to have their contributions directed to various pooled separate accounts made available by Union Central Life Insurance Company, custodian for the Plan.

Schedule C, Line 2(h) Formula Description

Description of Unit Value Calculations

Separate account investments are record kept using unit values.

The pooled separate accounts are invested in mutual funds at NAV. The allocation of these funds is based on the units and unit value for each product and plan invested in the pooled separate account.

Both the number of units, and unit value is available for any plan's funds and can be produced from the system. When multiplied, these will balance to the fair value disclosed on trust reports.

The unit value can and does vary by contract depending on the product invested in. The unit value is determined under the following formula, and is the same calculation for all contracts invested in the pooled separate accounts.

It is through this calculation of the unit value that both earnings and expenses are applied.

Industry Standard Method – Unit Value Calculation

t = current business date
t-1 = prior business date
NAV = Net asset value provided by mutual fund company
MTD daily dividend factor(t) = dividends month to date as provided by the mutual fund company
Declared dividend rate(t) = as provided by the mutual fund company
Short and long term capital gains (t) = S&LT(t) = as provided by the mutual fund company
Gross Investment Factor (GIF) = daily rate change in the NAV including dividends and capital gains
Daily Expense Factor = the expense rate specific to a contract
Net Investment Factor = the daily rate change in the gross investment factor after application of contract specific expenses
Unit Price = the contract specific price in which units are purchased and redeemed for a specific fund

$$\text{Gross Investment Factor(GIF)} = \frac{\text{NAV(t) + MTD daily div factor (t) + declared dividend rate (t) + S\&LT (t)}}{\text{NAV(t-1) + MTD daily dividend factors(t-1)}}$$

Net Investment Factor(t) = Gross Investment Factor - Daily Expense Factor

Unit Price (t) = Unit Price (t-1) times Net Investment Factor (t)

In order to ensure that each contract has a correct proportionate value of the underlying pooled separate account, each contract's units are multiplied by their contract's unit value and summed across all contracts invested in a particular mutual fund. This is then balanced to the pooled separate account and to the mutual fund company on a daily basis.

The Daily Expense Factor is based on the provisions of the contract, with all investments held by Ameritas Life Insurance Corp being charged the same annualized rate.
