INDEPENDENT AUDITOR'S REPORT

To the Trustees of
Clarmil Manufacturing Corporation Retirement Savings Plan

We have audited the accompanying statements of net assets available for benefits of Clarmil Manufacturing Corporation Retirement Savings Plan as of December 31, 2011 and the related statement of changes in net assets available for benefits for the year then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Clarmil Manufacuring Corporation Retirement Savings Plan as of December 31, 2011, and the changes in net assets available for benefits for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Clarmil Manufacturing Corporation Retirement Savings Plan

Notes to Financial Statements for Calendar Year Ended 2011

A. Description of Plan

The following description of Clarmil Manufacturing Corporation (company) 401(k) Retirement Savings Plan (plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the plan's provisions:

1. *General.* The plan is a defined contribution plan covering all full-time employees of the company who have one year of service and are age twenty-one or older. The plan is subject to the provisions of ERISA.

2. *Contributions.* Each year, participants may contribute up to 25 percent of pretax annual compensation, as defined in the plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants direct the investment of their contributions into various investment options offered by the plan. The plan currently offers various mutual funds and an insurance investment contract as investment options for participants. The company has discontinued employer matching contributions to the plan due to continuing net operating losses.

3. *Participant Accounts.* Each participant's account is credited with the participant's contribution and allocations of plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

4. *Vesting.* Participants are vested immediately in their contributions plus actual earnings thereon. When the company was making company contributions, vesting in the company's contribution portion of their accounts is based on years of continuous service. A participant is 100 percent vested after 5 years of credited service.

5. *Participant Loans.* Participants may borrow from their fund accounts up to 30% of their account balance. The loans are secured by the balance in the participant's account and bear interest at 5% which is commensurate with local prevailing rate as determined quarterly by the plan administrator. Principal and interest is paid ratably through payroll deductions.

6. *Payment of Benefits.* On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a 5 year period. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

B. Summary of Accounting Policies

Basis of Accounting

The financial statements of the plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as of the end of the plan year.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded o the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation and loss includes the plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Operating Expenses

All expenses of maintaining the plan are paid by the company.

Subsequent Events

The plan has evaluated subsequent events through October 14, 2012, the date the financial statements were available to be issued.

C. Investments

The following presents investments of the Plan's net assets as reported by Transamerica:

See Attachment to 2011 Form 5500, as prepared by Transamerica.

D. Fair Value Measurements

FASB ASC 820 provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The investments of net assets of the plan are reported using level 1 measurements – unadjusted quoted prices in active markets for identical assets for the period in question.

E. Related-Party Transactions

Certain plan investments are shares of mutual funds managed by Transamerica. Transamerica Life Insurance is the trustee as defined by the plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the plan for the investment management services amounted to $5,991 for the year ended December 31, 2011.

F. Plan Termination

Although it has not expressed an intent to do so, the company has the right under the plan to discontinue its contributions at any time, (which it has done), and to terminate the plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100 percent vested in their employer's prior year contributions.

G. Tax Status

The IRS has determined and informed the company by a letter dated January 1, 2005, that the plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the plan has been amended since receiving the determination letter, the plan administrator and the plan's tax counsel believe that the plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

H. Risks and Uncertainties

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant's account balances and the amounts reported in the statement of net assets available for benefits.
