INDEPENDENT AUDITORS' REPORT

To the Trustees of and Participants in
the EDO Corporation Employees Pension Plan:

We have audited the accompanying statements of net assets available for pension benefits of the EDO Corporation Employees Pension Plan (the "Plan") as of December 31, 2011 and 2010, and the related statements of changes in net assets available for pension benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such financial statements referred to above present fairly, in all material respects, information regarding the Plan's net assets available for pension benefits as of December 31, 2011, and the changes therein for the year then ended and its financial status as of December 31, 2010, and the changes therein for the year then ended in conformity with accounting principles generally accepted in the United States of America.

EDO CORPORATION EMPLOYEES PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2011 AND 2010

(In thousands)

1. DESCRIPTION OF THE PLAN

The following description of the EDO Corporation Employees Pension Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

On October 31, 2011, ITT Corporation (ITT) completed the previously announced spin-off (the “Spin-off”) of Exelis Inc. (the “Company” or “Exelis” or the “Plan Sponsor”) and Xylem Inc. (“Xylem”), formerly ITT’s Defense & Information Solutions and Fluid Technology segments, respectively. Prior to October 31, 2011, ITT sponsored the Plan. The sponsorship of the Plan was transferred from ITT to the Company at Spin-off and the Company became the new sponsor of the Plan. All assets in the Master Trust related to plans that continued to be sponsored by ITT and Xylem after the Spin-off were transferred to the Master Trusts of ITT and Xylem, respectively.

General — The Plan is a defined benefit plan covering substantially all employees of EDO Corporation, a subsidiary of Exelis. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Master Trust — Effective October 31, 2011, the Investment Master Trust of ITT Corporation was transferred from ITT to Exelis and renamed as the Investment Master Trust of Exelis Inc. (the “Master Trust”). Under a trust agreement dated July 1, 1977, The Northern Trust Company (the “Trustee” or “Northern Trust”) serves as trustee of the Plan and administers the Plan’s investment assets. The Plan’s assets consist of an undivided interest in an investment account of the Master Trust, EIN 36-6668234. The Master Trust includes the combined assets of the Plan as well as several other employee benefit plans of the Company. Although assets of the Plan are commingled in the Master Trust, the Trustee maintains supporting records for the purpose of allocating the net gain (loss) of the investment account to the participating plans. The net investment income (loss) of the investment assets is allocated by the Trustee to each participating plan based on the relationship of the interest of each plan to the total of the interests of the participating plans. A schedule of the Master Trust assets has been filed with the U.S. Department of Labor and includes the Plan’s proportionate share of such assets at December 31, 2011 and 2010.

Eligibility — For covered employees, the participation date is the first day of the month coincident with or immediately following the attainment of age 21 and the completion of 12 months of service. No new participants entered the Plan after December 31, 2002.

Pension Benefits — The Plan provides for regular, early retirement, death, and disability benefits. These pension benefits have different eligibility requirements as to age and/or vesting service as outlined in the Plan document. The amount of the pension benefit (service credits) accrued under the Plan as of December 31, 2002, is frozen as of that date.

Prior to January 1, 2008, participants in active employment with the Company become fully vested upon completion of five years of service. Effective January 1, 2008, participants shall be fully vested upon the completion of three years of vesting service. The normal retirement date is age 65; however, participants may elect to retire at age 55 if they meet the vesting requirements.

Death and Disability Benefits — A married employee who is a vested participant is automatically covered by the preretirement death benefit option, which will provide a benefit for the surviving spouse upon death prior to retirement, unless coverage is waived. The benefit would be equal to the benefit the employee would have received had the employee retired on the date of death, computed under the normal form of payment, and subject to certain limitations.

An employee who has completed 10 years of continuous service and who becomes totally and permanently disabled is eligible to receive a disability retirement benefit. The amount of the benefit is computed as it would be for normal retirement based on the employee's years of credited service as of the date of disability.

Plan Amendments — Effective January 1, 2010, the Plan was amended to reflect certain provisions of the Heroes Earnings Assistance and Relief Tax Act of 2008 and the Worker, Retiree, and Employer Recovery Act of 2008.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting — The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates — The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits and changes therein at the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties — The Plan, through the Master Trust, utilizes various investment instruments, including common stock, U.S. government securities, corporate debt instruments, limited partnerships, collective trust funds, registered investment companies, and derivatives. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the financial statements.

Investment Valuation and Income Recognition — Investments are stated at fair value. Fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for description of valuation methods.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Payment of Benefits — Benefit payments to participants are recorded upon distribution.

Administrative Expenses — Administrative expenses of the Plan are paid by the Master Trust on behalf of the Plan, as provided in the Plan document and the Master Trust agreement. Administrative expenses generally consist of consulting fees, auditing fees, recordkeeping fees, and investment management fees. The Plan Sponsor provides accounting and other administrative services to the Plan and the Master Trust at no charge.

New Accounting Standards

ASU No. 2010-06 — In January 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2010-06, *Fair Value Measurements and Disclosures*, which amends Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, adding a new disclosure requirement to provide Level 3 activity of purchases, sales, issuances, and settlements on a gross basis. This requirement is effective for fiscal years beginning after December 15, 2010. The adoption in 2011 did not materially affect the Plan's financial statements.

ASU No. 2011-04 — In May 2011, the FASB issued ASU No. 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs*, which amends ASC 820. ASU No. 2011-04 also requires the categorization by level for items that are only required to be disclosed at fair value and information about transfers between Level 1 and Level 2. In addition, the ASU provides guidance on measuring the fair value of financial instruments managed within a portfolio and the application of premiums and discounts on fair value measurements. The ASU requires additional disclosure for Level 3 measurements regarding the sensitivity of fair value to changes in unobservable inputs and any interrelationships between those inputs. The new guidance is effective for reporting periods beginning after December 15, 2011. The Company does not believe the standard will have a material effect on the statements of net assets available for pension benefits and statements of changes in net assets available for pension benefits.

3. FAIR VALUE MEASUREMENTS

The Plan's investments are measured at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price).

ASC 820, *Fair Value Measurements and Disclosures*, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value, as follows: Level 1, which refers to securities valued using unadjusted quoted prices from active markets for identical assets; Level 2, which refers to securities not traded on an active market, but for which observable market inputs are readily available; and Level 3, which refers to securities valued based on significant unobservable inputs. Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

The Plan's policy is to recognize significant transfers between levels at the beginning of the reporting period.

The following is a description of the valuation methodologies used for the Master Trust and inputs used to measure fair value for major categories of investments in the Master Trust:

- *Common Collective Trusts* — Common collective trusts (CCTs) are arrangements in which the funds of individual trusts are pooled to avail themselves of professional investment management and achieve greater diversification of investment, stability of income, or other investment objectives. CCTs invest in debt, public and private equity securities, commodity future, cash equivalents, and

other securities, the mix of which varies by fund, and report net asset value (NAV) as of the measurement date. Fair value is estimated based on the NAV practical expedient described below. CCTs are generally classified in Level 2 of the fair value hierarchy but can be classified as Level 3, depending on the investments held.

- *Common and Preferred Stocks* — Equities (including common and preferred shares, domestic and foreign-listed stocks, and exchange-traded funds) are generally valued at the closing price reported on the major market on which the individual securities are traded at the measurement date. All equity securities held directly by the Master Trust (i.e., not held through a commingled trust or limited partnership vehicle) and publicly traded in active markets are classified within Level 1 of the fair value hierarchy.
- *Absolute Returns (Hedge Funds)* — The valuation of limited partnership interests in hedge funds may require significant management judgment. The NAV reported by the asset manager is adjusted when management determines that NAV is not representative of fair value. In making such an assessment, a variety of factors are reviewed by management, including, but not limited to, the timeliness of NAV as reported by the asset manager and changes in general economic and market conditions subsequent to the last NAV reported by the asset manager. Depending on how quickly the Master Trust can redeem these investments and the extent of any adjustments to NAV, hedge funds are classified within either Level 2 (redeemable within 90 days) or Level 3 (redeemable beyond 90 days) of the fair value hierarchy.
- *Other* — Cash equivalents are money market commingled trust vehicles that are classified as Level 2. Cash and adjustments to cash are classified as Level 1. Real estate is invested through an illiquid limited partnership vehicle, and accordingly, is classified as Level 3. The Guaranteed Investment Contracts (GICs) are valued at cash surrender value using nonbinding broker quotes and proprietary models and are categorized as Level 3.
- *Partnerships/Joint Ventures* — Limited partnerships and joint ventures can invest in a wide variety of assets, including private equity, venture capital, commodities, mezzanine debt, distressed securities, public equities, and debt. The valuation of partnerships/joint ventures funds may require significant management judgment due to the absence of quoted market prices at the measurement date, the inherent lack of liquidity, and the long-term nature of the underlying assets, and the terms of the investment vehicle. The Plan's investments in limited partnerships are valued at estimated fair value based on their proportionate share of the limited partnerships' fair value as recorded in the limited partnerships' audited financial statements. The limited partnerships invest primarily in readily marketable securities. The limited partnerships allocate gains, losses, and expenses to the partners based on the ownership percentage as described in the partnership agreements.
- *Registered Investment Companies* — Registered investment companies can include money market mutual funds and open- and closed-end mutual funds. Money market funds are valued at NAV of shares held by the Plan at year-end. Open-ended mutual funds are valued using NAV reported by the fund manager. NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. Closed-ended mutual funds, which frequently trade at a premium or discount, are valued using adjusted market prices. All registered investment companies are valued as Level 2.

The following tables sets forth by level within the fair value hierarchy a summary of the Master Trust's investments measured at fair value on a recurring basis at December 31, 2011 and 2010:

(b) As of December 31, 2010, it was probable that certain funds would be redeemed at a value other than NAV due to pending sales in the secondary market. As a result, the funds were measured based on evidence of the price a market participant would pay in an orderly transaction. As there were no significant unobservable inputs in determining fair value, these funds were reclassified from Level 3 to Level 2.

Note: There were no unfunded commitments related to the investments valued at NAV.

- (a) Absolute returns fund of funds include partnership investment vehicles that invest in a diversified portfolio of other hedge funds that employ a range of investment strategies.
- (b) Fixed income/multi-strategy absolute return funds are partnership investment vehicles that invest in multiple investment strategies, such as macro, equity long/short, convertible arbitrage and event driven, often with the intent to diversify risk and reduce volatility.
- (c) Equity long/short absolute return funds include partnership investment vehicles that can purchase both long and short positions of publicly traded equities. Management of the fund has the ability to shift investments from value to growth strategies, from small to large capitalization companies, and from a net long position to a net short position.
- (d) Macro absolute return funds include partnership investment vehicles that make investments predicated on the managers’ views, either fundamentally or quantitatively derived, on different global factors, such as asset allocation (e.g., stocks vs. bonds) interest rates, currency, sovereign risk, and commodities over a span of different time frames.
- (e) Commodities are partnership investment vehicles that invest in businesses engaged in commodity related sectors, including energy, natural resources, and agriculture. Investments are realized through the sale of the underlying assets to a strategic or financial buyer.
- (f) Arbitrage is an investment approach that aims at exploiting price differentials that exist as a result of market inefficiencies.
- (g) Redemption restrictions vary by investment management agreement but are based on the initial investment date and take into account liquidity terms, notice periods, redemption schedules, withdrawal with or without penalties and lock-ups, if any.

The following table presents information regarding the unfunded commitments and redemption restrictions for partnerships and joint ventures held by the Plan as of December 31, 2011 and 2010:

	Unfunded Commitments		Redemption	Redemption
	2011	2010	Frequency	Notice Period
			(if Eligible)	
Partnerships/joint ventures:

- (a) Buyout funds are partnership investment vehicles that take a controlling interest primarily in private companies with the intent of developing them for future sale at a higher price to a strategic or financial buyer or through an initial public offering. The nature of the investments in this category is that distributions are received through the liquidation of the underlying assets of the fund. These partnership vehicles are expected to be liquidated over the next three to 10 years.
- (b) Distressed funds are partnership investment vehicles that purchase debt or preferred equity instruments of companies that are distressed, near bankrupt, or bankrupt. The nature of the investments in this category is that distributions are received through the liquidation of the underlying assets of the fund. These partnership vehicles are expected to be liquidated over the next seven to nine years.
- (c) Venture and growth private equity funds are partnership investment vehicles that provide seed or growth capital to start-ups and early stage companies, usually in high growth industries, such as information and clean technology, health care and biotechnology. The nature of the investments in this category is that distributions are received through the liquidation of the underlying assets of the fund. These partnership vehicles are expected to be liquidated over the next six to nine years.
- (d) Mezzanine private equity funds provide mezzanine loans to companies that need capital but do not want to sell or dilute their equity interests. Mezzanine loans are subordinated debt or preferred equity securities that represent a claim on the borrower's assets, which is senior to the common equity but subordinate to senior secured and unsecured debt. The nature of the investments in this category is that distributions are received through coupon payments and the liquidation of the underlying assets of the fund. These partnership vehicles are expected to be liquidated over the next eight to 10 years.
- (e) Commodities are partnership investment vehicles that invest in businesses engaged in commodity related sectors, including as energy, natural resources, and agriculture. Investments are realized through the sale of the underlying assets to a strategic or financial buyer, or through an initial public offering
- (f) Real estate investments are partnership investment vehicles that invest in commercial, industrial, and residential real estate. Investments are realized through the sale of the underlying assets to a strategic or financial buyer.

- (g) Partnerships/Joint Venture assets are “redeemed” via a secondary sale market where a broker is contracted to bid out the assets in question.

4. FUNDING POLICY

Contributions to provide benefits under the Plan are made solely by the Company. The Company’s funding policy is to make cash contributions to the Plan in amounts as determined by the Plan’s independent actuary. The Company met the minimum funding requirements of ERISA for the years ended December 31, 2011 and 2010.

5. ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan’s provisions to service rendered by employees as of the valuation date. Accumulated plan benefits include benefits expected to be paid to: (1) retired or terminated employees, (2) beneficiaries of employees who have died, and (3) present employees or their beneficiaries. The actuarial present value of accumulated plan benefits is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The following amounts were calculated as of the latest actuarial valuation date, which was January 1, 2011.

The actuarial present value of accumulated plan benefits as of January 1, 2011 and 2010, is as follows:

	2011	2010
Vested accumulated plan benefits:		
Retired participants and/or beneficiaries currently receiving benefits	\$ 91,456,803	\$ 95,480,095
Other participants	<u>63,020,420</u>	<u>61,997,992</u>
Total vested accumulated plan benefits	154,477,223	157,478,087
Nonvested accumulated plan benefits	<u>1,315,532</u>	<u>1,538,680</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 155,792,755</u>	<u>\$ 159,016,767</u>

The changes in the actuarial present value of the Plan’s accumulated plan benefits for the year ended January 1, 2011, are as follows:

Actuarial present value of accumulated plan benefits at January 1, 2010	\$ 159,016,767
Increase (decrease) during the year attributable to:	
Benefits accumulated	605,068
Assumption changes	(943)
Benefits paid	(17,374,630)
Interest	<u>13,546,493</u>
Actuarial present value of accumulated plan benefits at January 1, 2011	<u>\$ 155,792,755</u>

The actuarial cost method used to measure the present value of accumulated plan benefits is the accrued benefit method. The significant actuarial assumptions used in the January 1, 2011 and 2010, valuations were:

- Mortality: UP-94 mortality table (scale AA projected 16 years) with special mortality table used for the period after disability in 2011 and 2010.
- Retirement age: Age 65.
- Investment return was 9.0% per annum for 2011 and 2010.
- Discount rate was 9.0% per annum for 2011 and 2010.

Actuarial assumptions for the period before normal retirement include factors for mortality, termination of employment, early retirement, and disability.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

6. INTEREST IN MASTER TRUST

Securities Lending Transactions — The Master Trust participated in a securities lending program through the Trustee. Under this program, the Master Trust's investment securities were loaned to investment brokers for a fee. As of November 23, 2010, the Master Trust exited the securities lending program. Securities loaned were fully collateralized by cash, which was invested in common collective trust funds. Income from the program was immaterial for the year ended December 31, 2010. Fees from security lending activities were \$862 for the year ended December 31, 2010.

7. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain Master Trust investments are shares of registered investment companies managed by the Trustee. In addition, the Master Trust entered into a securities lending agreement with the Trustee as described in Note 6. These assets and related transactions qualify as exempt party-in-interest transactions.

Certain administrative functions are performed by officers and employees of the Company (who may also be a participant in the Plan) at no cost to the Plan or Master Trust. These transactions are not deemed prohibited party-in-interest transactions because they are covered by the statutory administrative exemptions from the IRC and ERISA's rules on prohibited transactions.

8. FEDERAL INCOME TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated September 27, 2011, that the Plan and related trust are designed in accordance with the applicable sections of the IRC. The Plan has been amended since receiving the determination letter; however, the plan administrator believes that the Plan is currently designed and is currently being operated in compliance with the applicable requirements of the IRC and the Plan and related trust continue to be tax exempt. Therefore, no provision for income taxes have been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011 because of the Spin-off. The Company became the Plan's sponsor effective October 31, 2011. ITT Corporation, the prior sponsor of the plan, may be subject to income tax examinations for years prior to 2011. The Company and ITT entered into a Tax Matters Agreement, which generally provides that ITT shall indemnify Exelis for consolidated income taxes relating to any pre Spin-off period up to a certain amount.

9. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of Plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations there under and the Plan document.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation ("PBGC") if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the existing assets and the PBGC guaranty while other benefits may not be provided for at all.

10. SUBSEQUENT EVENTS

For the year ended December 31, 2011, subsequent events were evaluated through August 28, 2012, the date the financial statements were available to be issued.

Schedule SB, Part 22 – Description of Weighted-Average Retirement Age

This age is derived by applying, for an employee with the characteristics of an average new entrant to the plan, the following formula, modified so that the “½” is not used for t = FRA-ERA.

$$\sum_{t=0}^{FRA-ERA} ({}_t p_{ERA}) * (q_{ERA+t}^r) * (ERA + t + \frac{1}{2})$$

$$\sum_{t=0}^{FRA-ERA} ({}_t p_{ERA}) * (q_{ERA+t}^r)$$

where

FRA = age by which everyone is assumed to retire
 ERA = age before which nobody is assumed to retire
 ${}_t p_{ERA}$ = probability of surviving at work to age ERA + t
 q_{ERA+t}^r = probability of retiring at age ERA + t

Asset valuation method

The Actuarial Value of Assets is Market Value as of the valuation date, including discounted receivable contributions, reduced by 2/3 and 1/3 of the of the gain/(loss) in the prior 2 years, respectively. The gain/(loss) for each period is determined as the actual return on Market Value during the period less the expected return on Market Value based on an assumed earnings rate chosen by the actuary but required by PPA to be not greater than the applicable third segment rate. The resulting value is constrained to be within a corridor of 90% to 110% of Market Value, including discounted receivable contributions.

The expected return on plan assets is 9.00% per annum, limited by PPA to the applicable Third Segment Rate as follows:

2010 measurement period:	6.76%
2009 measurement period:	6.69%

Schedule SB, Part V – Summary of Plan Provisions

Effective Date

December 31, 1952.

Last Amended

January 1, 2008.

Covered Employees

An employee of EDO or any other Employer which has adopted the Plan. No leased employee.

Eligibility for Participation

All active Participants as of December 31, 2000 are Participants as of January 1, 2001. For employees hired on or after January 1, 2002, the participation date is the first day of the month coincident with or immediately following the attainment of age 21 and the completion of twelve months of service. No new Participants enter the plan after December 31, 2002.

Vesting Service

Each calendar month during employment. The aggregate calendar months shall be reduced by one calendar month for each calendar month no employment relationship exists as a result of quitting, discharge, retirement or death.

Credited Service

Each calendar month following the date of at least 12 months of service. The aggregate calendar months shall be reduced by one calendar month for each calendar month no employment relationship exists as a result of quitting, discharge, retirement or death. A maximum of 44 years. Frozen as of December 31, 2002.

Actuarial Equivalent

The determination of actuarially equivalent annuity benefits is based on the mortality table UP-1984 and interest at 8% per annum.

Compensation

Base salary.

Final Average Compensation

Highest consecutive 60 months of compensation out of the preceding 120 months of employment.

EDO CORPORATION EMPLOYEES PENSION PLAN
EIN / PN: 11-0707740 / 001

Schedule SB, Part V – Summary of Plan Provisions

Normal Retirement Pension

Eligibility

Age 65 and 5 years of service.

Basic Monthly Benefit

For all employees:

A Cash Accumulation Allocation of 1% of compensation will be credited for each plan year from January 1, 2001 through December 31, 2002. On the last day of each plan year, interest will be credited on the Cash Accumulation Balance in effect as of the first day of the plan year. The interest crediting rate is based on the annual 30-year Treasury rate in effect for the November prior to the start of the plan year.

Additional Prior Plan Benefit for employees hired on or before December 31, 2000:

For service from January 1, 2001 through December 31, 2002:

The product of (A) 1.0% of the Final Average Compensation of such Participant that is equal to or less than one-half of the Taxable Wage Base, multiplied by (B) such Participant's Credited Service from January 1, 2001 through December 31, 2002; and

The product of (A) 1.5% of the Final Average Compensation of such Participant that is greater than one-half of the Taxable Wage Base, multiplied by (B) such Participant's Credited Service from January 1, 2001 through December 31, 2002.

Note that Final Average Compensation only considers compensation through December 31, 2002.

For service prior to January 1, 2001:

The benefit accrued as of December 31, 2000 based on the relevant Appendices to the Plan is converted to an Accrued Benefit Percentage by dividing by Annual Compensation for the plan year ending December 31, 2000. The benefit payable at retirement is the Accrued Benefit Percentage times the Compensation for the 2002 plan year.

Certain individual employees have specified minimum benefit formulas as specified in the appendices.

Early Retirement Pension

Eligibility

Age 55 and 5 years of service.

Schedule SB, Part V – Summary of Plan Provisions

Benefit

Cash Accumulation Benefit – Annuity that can be purchased by the Cash Accumulation Balance as of the date of retirement.

Prior Plan Benefit earned prior to January 1, 2001 – subject to the AIL or EDO reduction factors that were in effect prior to January 1, 2001.

Prior Plan Benefit earned on or after January 1, 2001 – Unreduced upon attainment of age 62 and 30 years of service. Otherwise, benefits are reduced 4% for each year (i.e., 1/3% for each month) by which benefit commencement precedes normal retirement age.

Disability Retirement Pension

Eligibility

10 years of vesting service.

Benefit

Benefits are determined as if the participant continued to be employed for ten years (or until age 65, if earlier), based on the compensation level in the year in which the participant became disabled. Benefits are payable at normal retirement age.

Deferred Vested Pension

Eligibility

5 years of vesting service.

Benefit

A vested Participant may elect to receive his Prior Plan Benefit at any time on or after age 55. Benefits are reduced 6% for each year by which benefit commencement precedes normal retirement age.

Spouse's Benefit

(1) Eligibility

Death in active service upon completion of 5 years of service but prior to age 55.

Benefit

50% of benefit which would have been payable to deceased participant under the 50% joint and survivorship annuity option. Benefits begin when participant would have been age 65 or any time after participant would have been age 55 with reduction for early commencement, at spouse's election.

Schedule SB, Part 22 – Description of Weighted-Average Retirement Age

This age is derived by applying, for an employee with the characteristics of an average new entrant to the plan, the following formula, modified so that the “½” is not used for t = FRA-ERA.

$$\sum_{t=0}^{FRA-ERA} ({}_t p_{ERA}) * (q_{ERA+t}^r) * (ERA + t + \frac{1}{2})$$

$$\sum_{t=0}^{FRA-ERA} ({}_t p_{ERA}) * (q_{ERA+t}^r)$$

where

FRA = age by which everyone is assumed to retire
 ERA = age before which nobody is assumed to retire
 ${}_t p_{ERA}$ = probability of surviving at work to age ERA + t
 q_{ERA+t}^r = probability of retiring at age ERA + t

	First Segment Rate	3.78%
	Second Segment Rate	6.31%
	Third Segment Rate	6.57%
	Effective Interest Rate	6.22%
Prior Year:	Segment Rates with no lookback:	
	First Segment Rate	4.60%
	Second Segment Rate	6.65%
	Third Segment Rate	6.76%
	Effective Interest Rate	6.54%

Mortality

Mortality tables mandated by PPA as specified in IRS Regulation 1.430(h)(3)-1, applied on a static basis, projected 7 years from the valuation date for annuitants and 15 years for non-annuitants.

Actuarial cost method

The Funding Target is the present value of accrued benefits and based on compensation and service to date. The Target Normal Cost is the present value of benefits expected to be accrued during the current plan year, reflecting the effect of expected compensation increases during the year and including expected plan related expenses to be paid from plan assets during the year.

Asset valuation method

The Actuarial Value of Assets is Market Value as of the valuation date, including discounted receivable contributions, reduced by 2/3 and 1/3 of the of the gain/(loss) in the prior 2 years, respectively. The gain/(loss) for each period is determined as the actual return on Market Value during the period less the expected return on Market Value based on an assumed earnings rate chosen by the actuary but required by PPA to be not greater than the applicable third segment rate. The resulting value is constrained to be within a corridor of 90% to 110% of Market Value, including discounted receivable contributions.

The expected return on plan assets is 9.00% per annum, limited by PPA to the applicable Third Segment Rate as follows:

2010 measurement period:	6.76%
2009 measurement period:	6.69%

Schedule SB, Part V – Summary of Plan Provisions

Effective Date

December 31, 1952.

Last Amended

January 1, 2008.

Covered Employees

An employee of EDO or any other Employer which has adopted the Plan. No leased employee.

Eligibility for Participation

All active Participants as of December 31, 2000 are Participants as of January 1, 2001. For employees hired on or after January 1, 2002, the participation date is the first day of the month coincident with or immediately following the attainment of age 21 and the completion of twelve months of service. No new Participants enter the plan after December 31, 2002.

Vesting Service

Each calendar month during employment. The aggregate calendar months shall be reduced by one calendar month for each calendar month no employment relationship exists as a result of quitting, discharge, retirement or death.

Credited Service

Each calendar month following the date of at least 12 months of service. The aggregate calendar months shall be reduced by one calendar month for each calendar month no employment relationship exists as a result of quitting, discharge, retirement or death. A maximum of 44 years. Frozen as of December 31, 2002.

Actuarial Equivalent

The determination of actuarially equivalent annuity benefits is based on the mortality table UP-1984 and interest at 8% per annum.

Compensation

Base salary.

Final Average Compensation

Highest consecutive 60 months of compensation out of the preceding 120 months of employment.

EDO CORPORATION EMPLOYEES PENSION PLAN

Schedule SB, Part V – Summary of Plan Provisions

Normal Retirement Pension

Eligibility

Age 65 and 5 years of service.

Basic Monthly Benefit

For all employees:

A Cash Accumulation Allocation of 1% of compensation will be credited for each plan year from January 1, 2001 through December 31, 2002. On the last day of each plan year, interest will be credited on the Cash Accumulation Balance in effect as of the first day of the plan year. The interest crediting rate is based on the annual 30-year Treasury rate in effect for the November prior to the start of the plan year.

Additional Prior Plan Benefit for employees hired on or before December 31, 2000:

For service from January 1, 2001 through December 31, 2002:

The product of (A) 1.0% of the Final Average Compensation of such Participant that is equal to or less than one-half of the Taxable Wage Base, multiplied by (B) such Participant's Credited Service from January 1, 2001 through December 31, 2002; and

The product of (A) 1.5% of the Final Average Compensation of such Participant that is greater than one-half of the Taxable Wage Base, multiplied by (B) such Participant's Credited Service from January 1, 2001 through December 31, 2002.

Note that Final Average Compensation only considers compensation through December 31, 2002.

For service prior to January 1, 2001:

The benefit accrued as of December 31, 2000 based on the relevant Appendices to the Plan is converted to an Accrued Benefit Percentage by dividing by Annual Compensation for the plan year ending December 31, 2000. The benefit payable at retirement is the Accrued Benefit Percentage times the Compensation for the 2002 plan year.

Certain individual employees have specified minimum benefit formulas as specified in the appendices.
