Participant Contributions

An eligible employee may elect to contribute up to a maximum of 75% of compensation, not to exceed current IRS regulations. These contributions are not subject to federal income tax until withdrawn. Eligible employees may also contribute, with the consent of the plan administrator, amounts representing distributions from other qualified defined benefit or defined contribution plans, including ROTH contributions. Participants direct the investment of their contributions into various investment options offered by the Plan. The participants are able to change their investment options on a daily basis.

Employer Contributions

The Plan does not provide for employer matching contributions. The Company may make a discretionary contribution, which is not limited to its current or accumulated net profit, for eligible participants. The discretionary contribution is equivalent to an amount not to exceed 5.7% of a participant's compensation plus their excess compensation.

The Company did not make a discretionary contribution for the year ended December 31, 2011. The Company's discretionary contribution for the year ended December 31, 2010 was 0.4% of compensation, which amounted to \$150,434.

Participant Accounts

Each participant's account is credited with the participant's contribution, and allocations of (a) the Company's discretionary contribution and (b) Plan earnings, and charged with an allocation of administrative expenses and Plan losses. Allocations are based on participant earnings or account balances, as defined. The benefit to which the participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are 100% vested in their employee 401(k) deferral. Participants are also fully vested upon their early or normal retirement date.

Participants vest in the Company's discretionary contribution accounts in accordance with the following table:

Completed Years of Service	Percentage of Account Balance Vested
1	20 %
2	40
3	60
4	80
5	100

Forfeitures

Any funds from forfeited non-vested accounts are used to add to the future Company contributions. The total amount of forfeitures for the years ended December 31, 2011 and 2010 amounted to \$19,892 and \$18,014, respectively. During the year ended December 31, 2010, forfeitures of \$19,336 were reallocated to participants.

Notes Receivable from Participants

Participants may borrow from their salary deferral and rollover accounts a minimum of \$500 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance, whichever is less. Loan terms range from one to five years. Loans for the purchase of a principal residence can be paid over a reasonable period of time, which may exceed five years. The loans are secured by the balance in the participant's account and generally bear interest commensurate with local prevailing rates as determined by the plan administrator. A participant may have no more than 2 outstanding loans at one time. Principal and interest is paid ratably through monthly payroll deductions. The balance of participant loans at December 31, 2011 and 2010 was \$203,293 and \$107,320, respectively.

Benefits

Upon death, permanent total disability or termination of service, a participant may elect to receive the value of the participant's vested interest in his or her account. If the vested account balance does not exceed \$5,000, then the balance may only be distributed in the form of a lump sum payment. If the vested account balance exceeds \$5,000, then the participant may elect to receive either a lump sum payment or partial withdrawals of at least \$1,000.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Significant accounting policies are described below and have been consistently applied.

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Notes Receivable from Participants

Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair values are determined by the custodian based upon quoted market prices as of December 31, 2011 and 2010, and along with cost data, are summarized from the verified annual report of the custodian, which included the following:

- Current year-end values of each class of investment;
- Changes for the year in the fair value of each class of investment;
- Receipts;
- Disbursements;
- Realized gains and losses

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions from net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Subsequent Events

Subsequent events were evaluated through October 15, 2012, which is the date the financial statements were available to be issued.

NOTE 3 – INFORMATION PREPARED AND CERTIFIED BY TRUSTEE (UNAUDITED)

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Nationwide Financial Services, Inc., the custodian of the Plan, has certified to the completeness and accuracy of the following data included in the accompanying financial statements and supplementary schedule is complete and accurate:

NOTE 5 – FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurement and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes that inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 – Inputs to the valuation methodology include

ACCELERATED HEALTH SYSTEMS, LLC
401(K) PROFIT SHARING PLAN
Notes to Financial Statements (Continued)
December 31, 2011 and 2010

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2010 and 2009.

Common stocks, corporate bonds and U.S. Government securities: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year-end.

Pooled separate accounts: valued at the NAV of shares held by the Plan at year-end as provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of units outstanding. The NAV's unit price is quoted on a private market that is not active; however, the unit price is based on the underlying investments which are traded on an active market.

Guaranteed investment contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of

certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2011 and 2010:

Assets at Fair Value as of December 31, 2011

NOTE 6 – CONTRACT WITH INSURANCE COMPANY

In 1999, the Plan entered into a fully guaranteed investment contract with Nationwide Life Insurance Company. Nationwide maintains the contributions in a pooled account.

The account is credited with earnings on the underlying investments (Guaranteed Fixed Fund) and charged with plan withdrawals and administrative expenses charged by Nationwide.

The contract is included in the financial statements at fair market value, which represents contributions made under the contract, plus earnings, less Plan withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at fair market value.

The fair value of the investment contract approximates contract value as of December 31, 2011. There are no allowances against the contract value for credit risk of the contract issuer or otherwise. The average yield and crediting interest rate was approximately 0.09% and 0.28% for 2011 and 2010, respectively.

NOTE 7 – TERMINATION

Although it has not expressed any intent to do so, the company has the right to discontinue contributions and to terminate the Plan at any time, subject to the provisions of ERISA. In the event of plan terminations, participants will become 100% vested in all of their account balances.

NOTE 8 – REFUND OF EXCESS CONTRIBUTION

The Plan did not pass the Average Deferral Percentage Test for the year ended December 31, 2011. As a result, a portion of the contributions made by “highly compensated employees” has to be refunded to them in order for the Plan to maintain its status with the Internal Revenue Service as a qualified retirement plan. Earnings and losses on the excess contributions have also been included / deducted in the refund.

NOTE 9 – PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are mutual funds managed or administered by Nationwide Life Insurance Company, the custodian of the Plan, and therefore, these transactions qualify as party-in-interest transactions.

NOTE 10 – TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated May 15, 2001, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan’s tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

NOTE 11 - PLAN MERGER

During the year ended December 31, 2011, the Company merged the Burkam & Associates 401(k) Plan (“Burkam Plan”) into the Plan and transferred all assets from the Burkam Plan to the Plan and assigned all participants account balances in the Burkam Plan to the Plan.

NOTE 13 – RISK AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
