SEALED AIR CORPORATION 401(K) THRIFT PLAN FOR FORMPAC PRODUCTION EMPLOYEES

NOTES TO FINANCIAL STATEMENTS

Note 1 - Description of Plan:

The following brief description of the Sealed Air Corporation 401(k) Thrift Plan For Formpac Production Employees (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan covering certain employees of Sealed Air Corporation (the "Company"). The Plan was formed on January 1, 2011 and the account balances of certain covered employees of the Company who were hourly paid in production positions at the Reading, Pennsylvania or Indianapolis, Indiana plants were transferred to the Plan from the Sealed Air Corporation 401(k) Thrift Plan. The transfer totaled \$13,354,118 and was comprised of \$12,658,874 in investments and \$695,244 in notes receivable from participants.

A covered employee becomes eligible to participate in the Plan on the first day of employment, except for certain part-time employees who must complete 1,000 hours of service before becoming eligible to participate. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions:

Each year, participants may contribute from 1% to 20% of their annual compensation, as defined in the Plan. Participant contributions may be made on a before-tax basis by salary reduction. Newly hired employees are automatically enrolled at an employee contribution rate of 3% on a pre-tax basis unless the participant elects otherwise. If a participant does not elect an investment, contributions are deposited into the Fidelity Freedom Fund which most closely corresponds with the participant's retirement date. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company will make matching contributions equal to 100% of each participant's contributions up to a maximum of 2% of each participant's compensation, and an amount equal to 30% of each participant's contributions up to the next 4% of each participant's compensation, as defined. Contributions are subject to certain limitations.

**SEALED AIR CORPORATION 401(K) THRIFT PLAN FOR
FORMPAC PRODUCTION EMPLOYEES**

NOTES TO FINANCIAL STATEMENTS

Note 1 - Description of Plan (concluded):

Participant accounts:

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's matching contributions and (b) Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting:

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested upon the earliest of the employee's attainment of age 60, disability, death or completion of 24 months of service.

Notes receivable from participants:

Participants may borrow from their fund accounts a minimum of \$500 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates that range from 3.25% to 10%, which are commensurate with local prevailing rates as determined quarterly by the Plan sponsor. Principal and interest is paid ratably through payroll deductions.

Payment of benefits:

Upon termination of employment, as defined, or at certain later times provided for in the Plan, a participant may elect to receive either a lump sum cash payment equal to the value of the participant's vested interest in his or her account, or in the form of monthly, semi-annual or annual cash installment payments. When being paid a lump sum, participants with an account balance that has an investment in the Sealed Air Common Stock Fund, participants may only elect to receive the investment distributed in whole shares of Sealed Air Corporation common stock rather than cash.

Forfeited accounts:

At December 31, 2011, forfeited non-vested accounts totaled \$656. During 2011, there were no forfeitures used to reduce employer contributions.

Note 2 - Summary of accounting policies:

Basis of accounting:

The accompanying financial statements are prepared under the accrual method of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

The Plan invests in investment contracts through the Sealed Air Corporation Master Trust ("Master Trust"). The statement of net assets available for benefits presents the fair value of the investment in the Master Trust as well as the adjustment of the investment in the Master Trust from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition:

The fair value of the Plan's interest in the Master Trust is based on the beginning of the year value of the Plan's interest in the Master Trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. Investments held by the Master Trust are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Master Trust's gains and losses on investments bought and sold, as well as held during the year.

NOTES TO FINANCIAL STATEMENTS

Note 2 - Summary of accounting policies (concluded):

Notes receivable from participants:

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of benefits:

Benefits are recorded when paid.

Subsequent events:

The Plan has evaluated subsequent events through October 15, 2012, the date the financial statements were available to be issued.

Note 3 - Interest in Master Trust:

A portion of the Plan's investments are in the Master Trust which was established for the investment of assets of the Plan, the Sealed Air Corporation 401(k) Thrift Plan and the Profit-Sharing Plan of Sealed Air Corporation. Each participating retirement plan has an undivided interest in the Master Trust. The assets of the Master Trust are held by Fidelity Management Trust Company ("Fidelity"). At December 31, 2011, the Plan's interest in the net assets of the Master Trust was approximately 1.7%. Investment income and administrative expenses relating to the Master Trust are allocated to the Plan based upon the monthly balances invested by each plan.

The following table presents the investments of the Master Trust:

Investments at fair value:	
Mutual funds	\$463,398,982

Note 4 - Fair value measurements:

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets and liabilities in active markets that the Master Trust has the ability to access.

Level 2: Inputs to valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

FORMPAC PRODUCTION EMPLOYEES**

NOTES TO FINANCIAL STATEMENTS

Note 4 - Fair value measurements (continued):

The asset and liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used during 2011.

Common stock is valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds are valued at the net asset value of shares held by the Master Trust at year end.

Common/collective trusts are valued based on information reported by the investment advisor using the audited financial statements of the common/collective trust at year end. The net asset value is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Master Trust believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Master Trust also invests in shares of Sealed Air Corporation Common Stock Fund. Therefore, these transactions qualify as exempt party-in-interest transactions.

Note 6 - Plan termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. NOTES TO FINANCIAL STATEMENTS

Note 7 - Tax status:

The Plan has applied for a determination letter by the Internal Revenue Service (the "IRS") that the Plan is designed in accordance with the applicable sections of the Internal Revenue Code (the "Code"). The determination letter has not yet been received. The Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8 - Administrative expenses:

All administrative expenses relating to the Plan are paid by the Master Trust.

Note 9 - Certification by the trustee:

The following account balances and transactions were obtained from a statement certified by Fidelity:

Statement of net assets available for benefits:

Plan interest in Master Trust

Notes receivable from participants

Statement of changes in net assets available for benefits:

Plan interest in Master Trust investment loss, net

Interest income on notes receivable from participants

Schedule of assets (held at end of year)

Note 10- Risks and uncertainties:

The Master Trust invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
