PROFIT-SHARING PLAN OF SEALED AIR CORPORATION

NOTES TO FINANCIAL STATEMENTS

Note 1 - Description of Plan:

The following brief description of the Profit-Sharing Plan of Sealed Air Corporation (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:

The Profit-Sharing Plan of Sealed Air Corporation is both a nonparticipant-directed and participant-directed noncontributory defined contribution plan covering substantially all employees of Sealed Air Corporation (the "Company") and subsidiaries. Eligible employees include all full-time and part-time employees, except those who are covered by certain collective bargaining agreements, certain nonresident aliens, leased employees or independent contractors, temporary or part-time employees who are scheduled to work less than 1,000 hours per year and do not complete 1,000 hours of service in a prescribed 12 month period, and employees working at specific divisions, departments or other business units of the Company that are not covered by the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions:

The Company contributes to the trust fund annually an amount determined by the Board of Directors, if any. The contribution is allocated to participants if they are an employee of the Company on the last day of the calendar year or if the participant retires, dies or becomes disabled during the calendar year. The Board of Directors also determines whether the contribution will be made in cash, in shares of Sealed Air Corporation's common stock, or in a combination of cash and such shares. Contributions made by the Company in the form of common stock are nonparticipant directed and must be invested in the Sealed Air Corporation Common Stock Fund. Contributions made in the form of cash may be directed by the participant into one or more of the Plan's investment funds.

Participant accounts:

Each participant's account is credited with an allocation of contributions, forfeitures and earnings and losses on investments held by the Plan. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1 - Description of Plan (continued):

Investment in Sealed Air Corporation Common Stock Fund:

The Plan has one investment fund held through a master trust ("Master Trust") that primarily holds Sealed Air Corporation ("Sealed Air") stock. This fund is the required investment fund for all shares of Sealed Air common stock that the Company contributes to the Plan. A participant may transfer this part of their account balance out of the Sealed Air Corporation Common Stock Fund into the other funds.

This fund is also one of the investment funds available for the investment of the Company's cash contributions to the Plan. Subject to Plan limits, participants may direct investment of the Company's cash contributions for investment in this fund. Fidelity Management Trust Company ("Fidelity" or "Trustee") purchases and sells the common stock at fair value in transactions effected on the open market. No more than 25% of an employee's account balance that is attributable to Sealed Air's cash contributions to the Plan and Sealed Air's contributions of its common stock can be invested in the Sealed Air Corporation Common Stock Fund.

Vesting:

Vesting in the Company's contribution portion of their accounts is based on years of continuous service. Participants gradually vest in their account during their first 60 months of continuous service. A participant also becomes fully vested upon retirement, disability or death while in continuous employment.

Payment of benefits:

Participants may receive their entire vested interest in the Plan following termination of employment after age 60 or upon their death or disability, and their vested interest following any other termination of employment. Benefits are paid in the form of either a lump-sum or monthly, quarterly or annual cash installment payments. Participants may also directly transfer to another eligible retirement plan the amount of any lump-sum distribution that is qualified to be held in such a plan. Fully vested participants whose account has an investment in the Sealed Air Common Stock Fund that is attributable to certain post-2001 contributions when being paid in a lump-sum may elect to have that investment distributed in whole shares of Sealed Air common stock rather than cash. During employment, participants may withdraw all or part of their vested interest in the Plan in the event of certain financial hardships or after age 59-1/2 and fully vested.

Note 1 - Description of Plan (concluded):

Forfeited accounts:

At December 31, 2011 and 2010, forfeited non-vested accounts totaled $800,760 and $690,461, respectively. Forfeited accounts will be used to reduce future employer contributions. The 2011 employer contributions were reduced by $687,344 from forfeited non-vested accounts.

Safe harbor contributions:

Since 2011, the Plan permits contingent, non-elective "safe harbor" contributions for employees eligible to participate in the Sealed Air Corporation 401(k) Thrift Plan. Any such "safe harbor" contributions are fully vested when made and not eligible for certain in-service withdrawals.

Note 2 - Summary of accounting policies:

Basis of accounting:

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

The Plan invests in investment contracts through The Sealed Air Corporation Master Trust (the "Master Trust") by the Trustee. The Master Trust invests in investment contracts through a collective trust. The statement of net assets available for benefits presents the fair value of the investment in the Master Trust as well as the adjustment of the investment in the Master Trust from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition:

The fair value of the Plan's interest in the Master Trust is based on the beginning of the year value of the Plan's interest in the Master Trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. Investments held by the Master Trust are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Note 2 - Summary of accounting policies (concluded):

Investment valuation and income recognition (concluded):

Purchases and sales of securities are reflected on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Master Trust's gains and losses on investments bought and sold, as well as held during the year.

Payment of benefits:

Benefits are recorded when paid.

Subsequent events:

The Plan has evaluated subsequent events through October 15, 2012, the date the financial statements were available to be issued.

Note 3 - Interest in Master Trust:

The Plan's investments are in the Master Trust which was established for the investment of assets of the Plan, the Sealed Air Corporation Thrift Plan for Formpac Production Employees and the Sealed Air Corporation 401(k) Thrift Plan. Each participating retirement plan has an undivided interest in the Master Trust. The assets of the Master Trust are held by Fidelity. At December 31, 2011 and 2010, the Plan's interest in the net assets of the Master Trust was approximately 35.3% and 37.0%, respectively. Investment income and administrative expenses relating to the Master Trust are allocated to the Plan based upon the monthly balances invested by each plan.

The following table presents the investments of the Master Trust:

Note 5 - Fair value measurements:

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Note 5 - Fair value measurements (continued):

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets and liabilities in active markets that the Master Trust has the ability to access.

Level 2: Inputs to valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset and liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Common stock is valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds are valued at the net asset value of shares held by the Master Trust at year end.

Common/collective trusts are valued based on information reported by the investment advisor using the audited financial statements of the common/collective trust at year end. The net asset value is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding.

Note 5 - Fair value measurements (continued):

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Master Trust believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table summarizes by level, within the fair value hierarchy, the financial assets of the Master Trust at fair value as of December 31, 2011:

Note 6 - Related party transactions:

Certain Master Trust investments are shares of funds managed by Fidelity. Fidelity is the trustee as defined by the Master Trust and, therefore, these transactions qualify as exempt party-in-interest transactions.

The Master Trust also invests in shares of Sealed Air Common Stock Fund. Therefore, these transactions qualify as exempt party-in-interest transactions.

Note 7 - Plan termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Note 8 - Tax status:

The Internal Revenue Service (the "IRS") has determined and informed the Company by a letter dated June 20, 2008 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (the "Code"). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

Note 9 - Administrative expenses:

All administrative expenses relating to the Plan are paid by the Master Trust.

Note 10- Certification by the Trustee:

The following account balances and transactions were obtained from a statement certified by Fidelity:

Statements of net assets available for benefits:
Plan interest in Master Trust

Statement of changes in net assets available for benefits:
Plan interest in Master Trust investment loss, net

Note 11- Risks and uncertainties:

The Master Trust invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 12- Reconciliation of financial statements to Form 5500:

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2011 and 2010 to Form 5500:
