HOSPICE OF THE COMFORTER 401(K) RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2011 AND 2010

NOTE 1 DESCRIPTION OF PLAN

The following description of the Hospice of the Comforter 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan originally effective January 1, 2006. The Plan has been amended throughout the years to comply with tax legislation and most recently amended effective July 1, 2009. All employees of Hospice of the Comforter (Company) are eligible to participate in the Plan after 90 days of service and have attained the age of eighteen. Participants are eligible to participate in matching contributions after 1 year of service and 1,000 hours. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan includes an automatic enrollment feature of 1%. The employee enters the salary deferral portion of the Plan on the first day of the month following the completion of the eligibility requirement.

Contributions

The Plan includes a salary deferral arrangement allowed under Section 401(k) of the Internal Revenue Code. Eligible participants are permitted to elect to have a percentage, limited by Plan provisions, of their compensation contributed as pre-tax 401(k) contributions to the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions.

The Company may, at its discretion, may elect to make a qualified profit sharing contribution or matching contribution to the Plan. For the year ended December 31, 2011, the Company elected to make a profit sharing contribution that was 100% of deferrals up to 1.5% of eligible compensation. For the year ended December 31, 2010, the Company elected to make a profit sharing contribution that was 100% of deferrals up to 9% of eligible compensation. The actual percentage allocated to eligible employees was based on their tenure and position with the Company. There were no Company matching contributions for the years ended December 31, 2011 and 2010.

Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans or conduit IRA's. Participants direct the investment of contributions into various investment options offered by the Plan. The Plan currently offers various pooled separate accounts and an insurance company general account as investment options for participants. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's profit sharing and matching contributions and an allocation of Plan earnings or losses. Allocations are based on participant earnings or account balances, as defined. Income is allocated daily based on the shares in the participant's account.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2011 AND 2010**

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company matching and profit sharing contribution portion of their accounts, plus actual earnings thereon, is based on years of continuous service. A participant is 100 percent vested after six years of credited service. A participant is fully vested upon reaching normal retirement age, death, or permanent disability.

Payment of Benefits

Upon retirement, death, disability, or resignation of a participant, or upon termination of the Plan, a participant or beneficiary may elect to receive a distribution under one of the following methods: (a) lump sum or (b) periodic installment payments. In-service withdrawals of employee contributions for reasons of hardship (as defined in the Plan agreement) or attaining age 59½ are allowed. A hardship withdrawal results in a suspension of employee contributions to the Plan for six months. If a participant terminates employment and the participant's account balance does not exceed \$1,000, the Plan Administrator will authorize the benefit payment without the participant's consent.

Forfeitures

The unvested portion of a participant's account to which he or she is not entitled upon termination of participation is deemed a forfeiture. Forfeitures are used to offset future Company contributions. Forfeited non-vested accounts as of December 31, 2011 and 2010 totaled \$29,045 and \$60,097, respectively. There were \$60,730 and \$27,956 of forfeitures used to offset Company contributions during years ended December 31, 2011 and 2010, respectively.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balance. Principal and interest is paid ratably through payroll deductions. Note terms are up to five years, except for notes to fund the purchase of a principal residence, for which the note may be repaid over a reasonable period that may exceed five years. The notes are secured by the balance in the participant's account and bear interest at a rate of prime plus 1%. At December 31, 2011, interest rates ranged from 4.25 percent to 8.75 percent.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Fair Value of Financial Instruments

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair market value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. There have been no changes in the valuation methodologies used at December 31, 2011 and 2010.

During 2010, FASB released ASU 2010-06 Fair Value Measurements and Disclosures (Topic 820): Improving Disclosures about Fair Value Measurements. This guidance changes the requirements to reflect Level 3 changes (purchases, sales, issuances, and settlements) from a net basis to require separate disclosure for each type and is effective for fiscal years ending after December 15, 2011. This guidance does not require the change to be retrospectively applied to prior periods presented. The Plan adopted this guidance effective for the Plan year ending December 31, 2011.

Investment Valuation and Income Recognition

The Plan's investments are valued at fair value based on quoted market prices. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2011 AND 2010

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Valuation and Income Recognition (Continued)

Investments in the pooled separate accounts are valued using the net asset value of units, which are based on observable market prices for the underlying assets, held by the Plan at year-end. Investments in the insurance company general account are valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit worthiness of the issuer.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Purchases and sales of securities are recorded on a trade-date basis. Interest and dividend income is recorded on the accrual basis. Net (depreciation) appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The Company pays certain administrative expenses on behalf of the Plan.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable are reclassified as distributions based upon the terms of the plan documents.

Subsequent Events

In preparing these financial statements, the Company has evaluated events and transactions for potential recognition or disclosure through October 9, 2012, the date the financial statements were available to be issued.

NOTE 3 CERTIFICATION OF INVESTMENT INFORMATION

Transamerica Life Insurance Company, the custodian of the Plan, has supplied the Plan Administrator with a certification as to the completeness and accuracy of all investment information and the notes receivable from participants reflected on the accompanying statements of net assets available for benefits as of December 31, 2011 and 2010, the statements of changes in net assets available for benefits for the years then ended, and the supplemental schedules of assets (held at end of year) as of December 31, 2011.

NOTE 4 FAIR VALUE OF INVESTMENTS (CONTINUED)

The following table sets forth additional disclosures for the fair value measurement of investments in certain entities that calculate net asset value per share (or its equivalent) as of December 31:

Investment Type	2011			
	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Pooled Separate Accounts:				
Blend Funds	\$ 1,975,850	\$ -	Daily	Daily
Growth Funds	658,692	-	Daily	Daily
Value Funds	474,679	-	Daily	Daily
Bond Funds	513,242	-	Daily	Daily

Investment Type	2010			
	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Pooled Separate Accounts:				
Blend Funds	\$ 1,891,563	\$ -	Daily	Daily

Value Funds	483,962	-	Daily	Daily
Bond Funds	381,331	-	Daily	Daily
Index Funds	297,685	-	Daily	Daily

Blend funds seek to maximize total return, consisting of capital appreciation and current income. The funds normally invest at least 80% of assets in equity securities of US companies. They may invest in equity securities of large- and mid-capitalization companies but is permitted to invest up to 15% of assets in small capitalization companies. The funds may maintain both long positions and short positions in equity securities and securities with equity-like characteristics. In addition, up to 20% of the fund's net assets may be invested in securities of foreign companies in developed countries.

Growth funds include investments that invest in companies the account believes have above-average growth potential (stocks of these companies are often called "growth" stocks".) Most underlying holdings are in domestic common stocks. The accounts may make limited use of futures and/or options for the purpose of maintaining equity exposure. These accounts may participate in securities lending.

Value funds seek long-term capital growth; income is a secondary consideration. The funds invest at least 80% of assets in securities of medium size companies whose market capitalization is within the range of the Russell 3000 Index, excluding the largest 100 such companies. Equity securities include common stock, preferred stock, and equity-equivalent securities, such as convertible securities, stock futures contracts or stock index futures contracts.

DECEMBER 31, 2011 AND 2010**

NOTE 4 FAIR VALUE OF INVESTMENTS (CONTINUED)

Bond funds seek the highest current income consistent with low risk to principal and liquidity. The funds normally invest 80% of net assets in a diversified portfolio of bonds that primarily limited maturity debt securities. They invest in non-government securities, issued by companies of all sizes that are rated investment-grade. The dollar-weighted average maturity of the Portfolio generally will not exceed five years and in periods of rising interest rates may be shortened to one year or less.

Index Funds include investments that seek to approximate the risk and return characterized by the Russell 2000 Growth and S&P 500 Indexes. Most underlying holdings are in domestic common stocks. To achieve their objective, the accounts employ a replication technique. The accounts may make limited use of futures and/or options for the purpose of maintaining equity exposure. These accounts may participate in securities lending.

NOTE 5 INVESTMENTS

The following presents investments that represent 5 percent or more of the Plan's net assets as of December 31:

	2011	2010
Transamerica Stable Value Advantage Option	\$ 1,576,689	\$ 1,450,543
Vanguard Target Retirement 2025	445,185	447,785
Vanguard Target Retirement 2035	465,328	444,144
SSgA Bond Index Return Option	393,651	324,847

* Does not exceed 5% of net assets available for benefits

During 2011 and 2010, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) in pooled separated accounts (depreciated) appreciated by \$(198,965) and \$483,173, respectively.

NOTE 6 INVESTMENT CONTRACT WITH INSURANCE COMPANY

Investments in the insurance company investment contract are stated at contract value which is equal to the principal balance plus accrued interest. An investment contract is generally permitted to be valued at contract value, rather than fair value, to the extent it is fully benefit-responsive. The fair value of the contract is calculated by discounting the related cash flows based on current yields of similar instruments with comparable durations. The fair value of the investment contract approximates contract value. The contract provides for withdrawals associated with certain events which are not in the ordinary course of plan operations, and what the insurance company determines will have a material adverse effect on its financial interest, will be paid with a fair value adjustment to the contract value amount of such withdrawal as defined in such contracts. Such events include the following: (i) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan) (ii) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions; (iii) bankruptcy of the Plan sponsor or other Plan sponsor event (e.g. divestitures or spin-offs of a subsidiary, etc.) which cause a significant withdrawal from the Plan or (iv) failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA.

HOSPICE OF THE COMFORTER 401(K) RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2011 AND 2010

NOTE 6 INVESTMENT CONTRACT WITH INSURANCE COMPANY (CONTINUED)

The Plan administrator does not believe that the occurrence of any such value event which would limit the Plan's ability to transact at contract value with the participants is probable. The contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date. For the Transamerica Stable Value Advantage Fund, the average yield during 2011 and 2010 was 2.81% and 2.98%, respectively.

NOTE 7 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of the investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 8 PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, the participants would become 100 percent vested in their Company contributions.

NOTE 9 PARTY-IN-INTEREST

Plan investments are managed by the Transamerica Life Insurance Company and, therefore, these transactions qualify as party-in-interest. Fees paid to the custodian during 2011 and 2010 were \$18,092 and \$22,037, respectively.

NOTE 10 TAX STATUS

The Plan is operating under a prototype plan designed by the Trustee. The Trustee has received a determination letter from the Internal Revenue Service dated March 31, 2008, which indicates that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since the Trustee received the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.
