To the Board of Trustees of
Scanlon Auto Group 401(k) Plan
Ft. Myers, Florida

We were engaged to audit the accompanying statements of net assets available for benefits of the Scanlon Auto Group 401(k) Plan as of December 31, 2011 and 2010, and the related statements of changes in net assets available for benefits for the years then ended and the supplemental schedule of Schedule H, line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2011. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified by State Street Bank and Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2011 and 2010 that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for the purposes of additional analysis and is not a required part of the financial statements, but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. Description of Plan

The following description of the Scanlon Auto Group 401(k) Plan (the Plan) of Ft. Myers Lincoln Mercury, Inc. and Scanlon Imports, Inc. (collectively, the Company) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General
The Plan is a defined contribution plan covering all employees of the Company who are age 21 or older and have performed one year of continuous service, as defined in the Plan document. The Plan is subject to the provisions of the Internal Revenue Code of 1986, as amended, (the Code) and the Employee Retirement Income Security Act of 1974 (ERISA).

Participant Contributions
Participants may elect to defer up to 75% of their annual eligible compensation, not to exceed statutory limits. The Plan allows for catch-up contributions by participants age 50 or older.

Employer Contributions
Each year, the Company may make matching contributions equal to a discretionary percentage, to be determined by the employer, of the participants' elective deferral contribution to the Plan not to exceed the amount prescribed by the Internal Revenue Service. The Company did not make a matching contribution for the years ended December 31, 2011 and 2010. In addition, the Company may make a discretionary profit sharing contribution as declared by its Board of Directors. During 2011 and 2010, no such contribution was made. To be eligible for matching contributions and discretionary profit sharing contributions, the participants must be actively employed at the end of the Plan year.

Participant Accounts
Each participant's account is credited with the participant's contributions, the Company's matching contributions, the Company's discretionary profit sharing contributions, and an allocation of Plan earnings. The allocations of earnings are based on participant's account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Participant Rollovers
With the approval of the Plan administrator, the Plan may receive any amounts received by an employee as a distribution from another qualified plan provided that the receipt of such amounts does not adversely affect the qualified tax status of the Plan. Participants are fully vested in these amounts.

1. Description of Plan...continued

Notes Receivable from Participants
The Plan permits its participants to obtain loans against their account balance. Plan participants may borrow from their vested accounts a minimum of $500 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balances. With the exception of loans used to purchase a primary residence, which can have terms up to ten years, loan terms are limited to a maximum of five years. Notes receivable from participants are secured by the balance in the participant's account and bear interest at the prime rate plus 1% at the date the loan application is processed. Principal and interest are paid ratably through regular payroll deductions for actively employed participants. Upon termination of employment, any outstanding loans are due and payable following the termination date. Certain restrictions apply to notes receivable from participants, as defined in the Plan document. As of December 31, 2011 and 2010, the rates of interest on outstanding notes receivable from participants ranged from 4.25% to 10.25% with various maturities through 2015.

Vesting
Participants are immediately vested in their voluntary contributions and rollovers, plus actual earnings thereon. Participants vest in the remainder of their accounts based on years of continuous service and become fully vested after six years of credited service.

Forfeitures
Forfeitures represent the non-vested portion of terminated participants' account balances plus related earnings. The Plan allows employee forfeitures to reduce any employer contributions. As of December 31, 2011 and 2010, forfeitures held by the Plan totaled $6,344 and $5,487, respectively. Amounts forfeited from non-vested accounts totaled $857 and $83 for the years ended December 31, 2011 and 2010, respectively. During the years ended December 31, 2011 and 2010, no forfeitures were reallocated to reduce employer matching contributions.

Payment of Benefits
Withdrawals may be made from the participant's account at retirement, death, disability, or termination of employment. On termination of service, a participant may elect to rollover his or her balance of their account into another qualified plan, receive a lump-sum amount equal to the value of his or her account, or receive installment payments. Participants over the age of 59 ½ may elect to withdraw all or a portion of their account balance. In addition, participants who qualify for a hardship withdrawal may elect to withdraw all or a portion of their pre-tax contribution balance. All distributions are subject to the applicable provisions of the Plan. The Plan can elect to distribute the funds out of the Plan when that participant terminates employment and has less than $5,000 of a vested balance in the Plan.

Investment Elections
Each participant shall direct the investment of his or her account and shall elect among various mutual funds or a collective trust fund. Each participant has the ability to change his or her investment allocations at any time.

Administrative Expenses
For the years ended December 31, 2011 and 2010, the Company has elected to pay all significant administrative expenses associated with the Plan. Administrative expenses reflected in the accompanying statements of changes in net assets available for benefits consist primarily of fees charged to participants for certain transactions initiated by the participant, and accordingly, will vary from year to year depending on the volume of transactions.

2. Summary of Significant Accounting Policies

Basis of Presentation and Use of Estimates
The financial statements have been prepared in accordance with accounting standards set by the Financial Accounting Standards Board (FASB) and the Department of Labor (DOL). The FASB sets generally accepted accounting principles (GAAP) to ensure net assets available for benefits and changes in net assets available for benefits are consistently reported. References to GAAP issued by the FASB in these footnotes are to the FASB Accounting Standards Codification (ASC).

The preparation of financial statements in conformity with GAAP requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition
The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Interest income is recorded when earned. Dividends are recorded on the ex-dividend date. The Plan presents in the statements of changes in net assets available for benefits the net appreciation or depreciation in the fair value of investments, which consists of the realized gains or losses and the unrealized appreciation or depreciation on those investments.

Purchases and sales of investments are recorded on a settlement date basis.

Notes Receivable from Participants
Notes receivable from participants are measured at amortized cost, which represents the unpaid principal balance plus any accrued, but unpaid interest. Interest income from notes receivable from participants is recorded on an accrual basis. At December 31, 2011 and 2010, accrued but unpaid interest has been deemed insignificant to the Plan. Related fees are recorded as administrative expenses when incurred. No allowance for credit losses has been recorded as of December 31, 2011 or 2010. If a participant ceases to make loan repayments and the plan administrator deems the note receivable from the participant to be a distribution, the note receivable from participant is reduced and a benefit payment is recorded within the statement of changes in net assets available for benefits.

Payment of Benefits
Benefit payments are recorded when paid.

Fair Value Measurements
The Plan discloses the fair value of Plan investments in accordance with FASB ASC Topic No. 820 (ASC 820), *Fair Value Measurements* (see Note 4). ASC 820 establishes a single definition of fair value and a framework for measuring fair value in GAAP that is intended to result in increased consistency and comparability in fair value measurements. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). ASC 820 applies whenever other authoritative literature requires (or permits) certain assets or liabilities to be measured at fair value, but does not expand the use of fair value.

2. Summary of Significant Accounting Policies …continued

Fair Value Measurements…continued
The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access at the measurement date.

Level 2 – Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised by the Plan in determining fair value is greatest for instruments categorized in Level 3. A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Fair value is a market-based measure considered from the perspective of a market participant rather than an entity-specific measure. Therefore, even when market assumptions are not readily available, the Plan's own assumptions are set to reflect those that market participants would use in pricing the asset or liability at the measurement date. The Plan uses prices and inputs that are current as of the measurement date, including during periods of market dislocation. In periods of market dislocation, the observability of prices and inputs may be reduced for many instruments. This condition could cause an instrument to be reclassified from Level 1 to Level 2 or Level 2 to Level 3.

Valuation Techniques
Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the valuation techniques used at December 31, 2011 and 2010.

Mutual funds - Mutual funds are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year end. These securities are categorized as Level 1 as they are actively traded and no valuation adjustments have been applied.

Collective Trust Fund
Investments in the collective trust fund are based on the fair value of the collective trust fund's underlying investments. The underlying investments are money market funds that are valued at the closing prices reported in the active markets in which the individual funds are traded. This security is categorized in Level 2 as it is not actively traded.

2. Summary of Significant Accounting Policies …continued

Recently Adopted Accounting Policies
In January 2010, the FASB issued Accounting Standards Update No. 2010-06 (ASU 2010-06) *Fair Value Measurements and Disclosures: Improving Disclosures About Fair Value Measurements* which provides amendments to ASC 820 that will provide more robust disclosures regarding the different classes of assets measured at fair value, valuation techniques and inputs used, transfers of assets and liabilities between the levels of the fair value hierarchy, and the activity in Level 3 fair value measurements.

Certain new disclosures and clarifications of existing disclosures prescribed by ASU 2010-06 are effective for annual reporting periods beginning after December 31, 2009. Disclosures regarding purchases, sales, issuances, and settlements in the roll-forward of activities in Level 3 are effective for fiscal years beginning after December 15, 2010. The Plan adopted this guidance on January 1, 2010, and will include the new disclosures prospectively, as required. The adoption of this guidance had no impact on the Plan's financial statements for the years ended December 31, 2011 and 2010.

In September 2010, FASB issued ASU No. 2010-25: *Reporting Loans to Participants by Defined Contribution Pension Plans*, which provides guidance on how loans to participants should be classified and measured by defined contribution pension plans. This amendment requires that participant loans be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued, but unpaid interest. This amendment was effective for periods ending after December 15, 2010. The Plan adopted this amendment for the year ended December 31, 2010.

Recent Accounting Pronouncements
In May 2011, FASB issued ASU No. 2011-04 (ASU 2011-04), *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs*. ASU 2011-04 amended ASC 820 to converge the fair value measurement guidance in U.S. GAAP and International Financial Reporting Standards (IFRSs). Certain amendments clarify the application of existing fair value measurement requirements, while others change a particular principle in ASC 820. ASU 2011-04 also requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. The Plan's management is currently evaluating the effect that the provisions of ASU 2011-04 will have on the Plan's financial statements.

3. Investments

The following table presents Plan investments that represent 5% or more of the Plan's net assets at December 31, 2011 and 2010:

Bond funds	182,573	-	-	182,573
Total investments at fair value	$ 2,681,066	$ -	$ -	$ 2,681,066

5. Excess Contributions Refundable

Amounts contributed to the Plan from highly compensated employees in excess of the IRS approved limits during the year ended December 31, 2011 totaled $4,828. These amounts are reflected as excess contributions refundable on the accompanying statements of net assets available for benefits and were refunded to the participants during February 2012. For the year ended December 31, 2010, there were no excess contributions refundable.

6. Information Prepared and Certified by Plan's Trustee

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee of the Plan, State Street Bank and Trust Company, has certified to the completeness and accuracy of all investments and notes receivable from participants reflected on the accompanying statements of net assets available for benefits as of December 31, 2011 and 2010, and the Schedule H, line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2011, and the related investment activity reflected in the statements of changes in net assets available for benefits for the years ended December 31, 2011 and 2010.

7. Tax Status

The Plan obtained its latest determination letter on March 31, 2008, in which Internal Revenue Service (IRS) stated that the Plan, as then designed, was in compliance with the applicable requirements of the Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.

9. Form 5500 Reconciliations

The following is a reconciliation of net assets available for benefits as reported per the financial statements to the Form 5500 as of December 31, 2011 and 2010, respectively:

	2011	2010
Net assets available for benefits per financial statements	$ 2,794,153	$ 2,814,980
Employee contributions receivable	(1,473)	-
Aggregate interest on deemed distributions reported on Form 5500, not on financial statements	(2,367)	(1,131)
Aggregate deemed distributions reported on Form 5500	(12,225)	(12,225)
Excess contributions refundable	4,828	-
Net assets available for benefits per Form 5500	$ 2,782,916	$ 2,801,624

The following is a reconciliation of the net decrease in net assets available for benefits as reported per the financial statements to the Form 5500 for the years ended December 31, 2011 and 2010:

	2011	2010
Net decrease in net assets per financial statements	$ (20,827)	$ (220,002)
Change in employee contribution receivable	(1,473)	1,233
Excess contributions refundable	4,828	-
Current year distributions previously reported as deemed distributions on Form 5500	-	5,900
Current year interest on deemed distributions reported on Form 5500, not on financial statements	(1,236)	(1,131)
Net decrease in net assets per Form 5500	$ (18,708)	$ (214,000)

10. Party-in-Interest Transactions

Certain Plan investments are shares of mutual funds managed by affiliates of State Street Bank and Trust Company, the trustee of the Plan, and therefore, these transactions qualify as party-in-interest transactions as that term is defined in Section 3(14) of ERISA. In addition, the Plan issues loans to participants, which are secured by the balances in the participant's accounts, which also constitute party-in-interest transactions.

11. Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

12. Subsequent Events

The Plan has evaluated subsequent events for potential disclosure or recognition through October 10, 2012, the date the financial statements were available to be issued.
