Statement by Enrolled Actuary
To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

TRW Automotive U.S. LLC,
Plan Administrator of the
TRW Automotive Lebanon Hourly Plan C
Livonia, MI

We were engaged to audit the accompanying statements of net assets available for benefits of TRW Automotive Lebanon Hourly Plan C as of December 31, 2011 and 2010, and the related statement of changes in net assets available for benefits for the year ended December 31, 2011, and the supplemental schedule of assets (held at end of year) as of December 31, 2011. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 4, which was certified by The Bank of New York Mellon/BNY Mellon, N.A., the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2011 and 2010, and for the year ended December 31, 2011, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on these accompanying financial statements and supplemental schedule as a whole. The supplemental schedule is presented for purposes of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the investment information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

TRW Automotive Lebanon Hourly Plan C

Notes to Financial Statements

As of December 31, 2011 and 2010, and
for the Year Ended December 31, 2011

1. Description of the Plan

The following description of the TRW Automotive Lebanon Hourly Plan C (the Plan) provides general information about the Plan's provisions. TRW Automotive U.S. LLC (the Company) is the plan sponsor. Participants should refer to the plan document and summary plan description for a more complete description of the Plan's provisions, copies of which may be obtained from the plan sponsor.

General

The Plan is a defined benefit plan, established through collective bargaining, which covers substantially all hourly employees of the Commercial Steering Division, Lebanon Plant of the Company hired prior to September 4, 2008, and provides pension benefits for such employees. The Plan provides for retirement benefits and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

The Bank of New York Mellon/BNY Mellon, N.A., is the trustee of the Plan.

Funding

The Company periodically contributes amounts necessary to provide assets sufficient to meet the benefits to be paid to the Plan's members. For any plan year, the Company's contributions to the Plan are, at a minimum, equal to the amounts required to fund the Plan's actuarial normal cost and to amortize the Plan's unfunded actuarial liability in accordance with the minimum amortization requirements of the Pension Protection Act of 2006 (PPA). Contributions to the Plan have met the minimum funding requirements of ERISA, as amended by the PPA.

Plan Termination

Although it has not expressed an intention to do so, the Company has the right under the Plan to discontinue such contributions for future periods and to terminate the Plan provided that such discontinuance or termination will not be undertaken in such a manner as to constitute a violation of any applicable provision of a collective bargaining agreement between the Company and a union. Should the Plan terminate at some future time, its net assets will generally not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) at that time.

TRW Automotive Lebanon Hourly Plan C

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guarantee, while other benefits may not be provided for at all.

Eligibility and Vesting

New hires have not been allowed to participate in the Plan since September 4, 2008. Benefit accruals are frozen and shall be calculated based on service and the benefit rate in effect as of such date in accordance with the terms of the Plan for all "B" contract employees hired by the Company on or after November 1, 1997. However, service will continue to accrue for purposes of eligibility for early retirement and vesting.

Information about the plan agreement, the vesting and benefit provisions, and the PBGC's benefit guarantee is contained in the summary plan description, which is available from the Company.

2. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes and supplemental schedule. Actual results could differ from those estimates.

2. Summary of Significant Accounting Policies (continued)

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits (see Note 3) are those estimated future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to services rendered by the employees on the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries and (b) present employees or their beneficiaries. Benefits for retired, terminated, and active employees or their beneficiaries are determined on the basis of fixed benefit rates stipulated in the Plan and on the number of years of credited service at termination of employment. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included to the extent they are deemed attributable to employee service rendered to the valuation date.

Investment Valuation and Income Recognition

The Plan's investment and those investments held in the TRW Automotive Master Trust (Master Trust) are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 5 for further discussion and disclosures of fair value measurements.

Interest-bearing cash consists of funds that were transferred from The Bank of New York Mellon/BNY Mellon, N.A., the trustee, on December 27, 2011, to the plan administrator, Fidelity, for the purpose of funding January 1, 2012, benefit payments.

Investments are stated at fair value. Investments consist primarily of units of the Master Trust at December 31, 2011 and 2010. The cost of securities sold is determined by the average cost method for purposes of determining realized gains and losses. All losses and expenses incurred with regard to the purchase, sale, or transfer of investments and other assets are borne by the Master Trust.

The Plan's interest in the Master Trust is based upon the combined market value of the Plan's proportionate share of assets in the Master Trust.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

2. Summary of Significant Accounting Policies (continued)

Relevant Accounting Pronouncements

In January 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2010-06, *Improving Disclosures about Fair Value Measurements*. ASU 2010-06 amended Accounting Standards Codification (ASC) 820, *Fair Value Measurement*, to clarify certain existing fair value disclosures and require a number of additional disclosures. The requirement to present changes in Level 3 measurements on a gross basis is effective for reporting periods beginning after December 15, 2010. Since ASU 2010-06 only affects fair value measurement disclosures, adoption of ASU 2010-06 did not have an effect on the Plan's net assets available for benefits or its changes in net assets available for benefits.

In May 2011, the FASB issued ASU 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs*. ASU 2011-04 amended ASC 820 to converge the fair value measurement guidance in U.S. generally accepted accounting principles (GAAP) and International Financial Reporting Standards (IFRSs). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management is currently evaluating the effect that the provisions of ASU 2011-04 will have on the Plan's financial statements.

Subsequent Events

Management had evaluated and concluded that there were no subsequent events for the Plan through October 11, 2012, the date the financial statements were available to be issued.

Notes to Financial Statements (continued)

3. Accumulated Plan Benefits

The actuarial present value of accumulated plan benefits as calculated by the Plan's actuary, Mercer Human Resource Consulting, for the years ended December 31, 2011 and 2010, is the amount that results from applying actuarial assumptions to plan participant data to determine the accumulated plan benefits earned to date by the participants. The present value reflects the time value of money (through discounts for interest) and the probability of payment recognizing decrements such as for death, disability, withdrawal, or retirement between the valuation date and the expected dates of payment.

The accumulated plan benefit information follows:

	December 31	
	2011	2010
Actuarial present value of accumulated plan benefits:		
Vested benefits:		
Participants currently receiving payments	\$ 56,309,538	\$ 54,631,131
Other participants	14,865,600	11,887,842
Total vested benefits	71,175,138	66,518,973
Non-vested benefits	1,925,740	1,661,560
Total actuarial present value of accumulated plan benefits	<u>\$ 73,100,878</u>	<u>\$ 68,180,533</u>
Changes in accumulated plan benefits:		
Actuarial value of accumulated plan benefits at beginning of year		\$ 68,180,533
Change in actuarial assumptions		5,696,655
Benefits accumulated, including net gains or losses		620,748
Increase for interest due to the decrease in discount period		3,612,176
Benefits paid		(5,009,234)
Net increase		4,920,345
Actuarial value of accumulated plan benefits at end of year		<u>\$ 73,100,878</u>

TRW Automotive Lebanon Hourly Plan C

Notes to Financial Statements (continued)

3. Accumulated Plan Benefits (continued)

The more significant assumptions underlying the actuarial computations are as follows:

	December 31	
	2011	2010
Interest rate	4.75%	5.50%
Mortality basis	UP-94 Mortality Table (projected to 2017)	UP-94 Mortality Table (projected to 2017)
Employee turnover	Rates varying by age and gender	Rates varying by age and gender
Retirement	Rates varying by age and service with 100% by 65 with ten years or more of service	Rates varying by age and service with 100% by 65 with ten years or more of service
Actuarial cost method	Unit credit	Unit credit

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

4. Investments

All investment information for the Plan and Master Trust disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2011 and 2010, and net appreciation in fair value of investments, interest, and dividends from the Master Trust for the year ended December 31, 2011, was obtained or derived from information supplied to the Company and certified as complete and accurate by The Bank of New York Mellon/BNY Mellon, N.A., the trustee of the Plan.

The Master Trust was established on February 28, 2003, to hold the investment assets of plans sponsored by TRW Automotive U.S. LLC and affiliates. Each participating retirement plan has an undivided interest in the Master Trust. The Plan's interest in the net assets of the Master Trust was approximately 5.9% and 6.2% at December 31, 2011 and 2010, respectively

TRW Automotive Lebanon Hourly Plan C

Notes to Financial Statements (continued)

4. Investments (continued)

The Master Trust assets are allocated among the participating plans by assigning to each plan those transactions (primarily contributions, benefit payments, and plan-specific expenses) that can be specifically identified and by allocating among all plans, in proportion to each plan's beneficial interest in the Master Trust, income and expenses resulting from the collective investment of the assets of the Master Trust.

The following table presents the fair values of net assets for the Master Trust:

Long-term capital gain	<u>335,079</u>
	<u><u>\$ 18,987,739</u></u>

5. Fair Value Measurements

In accordance with ASC 820, assets and liabilities measured at fair value are categorized into the following fair value hierarchy:

Level I – Fair value is based on unadjusted quoted prices for identical assets or liabilities in an active market that the Plan has the ability to access at the measurement date. The Company utilizes the market approach to determine the fair value of its assets under Level I of the fair value hierarchy.

TRW Automotive Lebanon Hourly Plan C

Notes to Financial Statements (continued)

5. Fair Value Measurements (continued)

Level 2 – Fair value is based on quoted prices in markets that are not active, quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the asset or liability. Classified within the Level 2 hierarchy are investments by the Plan in other investments through common/collective trust funds held by the trustee, Bank of New York Mellon/BNY Mellon, N.A. Also included in the Level 2 hierarchy are investments in structured equity holdings.

Level 3 – Fair value is based on prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable. These inputs reflect management's judgment about the assumptions that a market participant would use in pricing the investment and are based on the best available information, some of which may be internally developed. There were no investments in the Master Trust that were classified within Level 3 of the hierarchy.

The following methods and assumptions were used to determine the fair value of investments recorded at fair value in the statements of net assets available for benefits.

Common stock: Valued at the quoted market price reported on the active market on which the individual securities are traded on the last business day of the plan year.

Common/collective trust fund: The common/collective trust fund invests in commingled cash equivalent funds, commingled U.S. equity funds, and commingled U.S. debt funds. This fund is designed to deliver safety and stability by preserving principal and accumulating earnings. The Plan may be required to provide a one-year redemption notice to withdraw assets from the fund. The fair value of the fund has been estimated based on the fair value of the underlying investments, which are valued at the net unit value, as reported in the audited financial statements of the fund.

TRW Automotive Lebanon Hourly Plan C

Notes to Financial Statements (continued)

5. Fair Value Measurements (continued)

Synthetic equities: Investments in over-the-counter equity call and put option “collar” structures that reduce the exposure to falls in levels of underlying equity markets. The fair value of the fund has been estimated based on a Black Scholes options model.

Corporate bonds/U.S. treasuries: Fixed income securities of companies from diversified industries and collateral assets held in governmental bonds for structured equity. The fair value of the fund has been estimated based on the net unit value of such investments.

The following table sets forth by level, within the fair value hierarchy, the plan assets held outside of the Master Trust at fair value:

Assets at Fair Value as of December 31, 2011				
	Level 1	Level 2	Level 3	Total

6. Derivatives

In the normal course of operations, the Plan's assets and liabilities may include derivative financial instruments (futures, options, and foreign currency contracts). These derivatives involve, in varying degrees, elements of credit and market volatility risks in excess of more traditional investment holdings such as equity and debt instruments. The contract or notional amounts provide a measure of the Plan's involvement in such instruments but are not indicative of potential loss. The intent is to use derivative financial instruments as economic hedges to manage market volatility risk, foreign currency exchange rate risk, or credit risk associated with the Plan's investment assets. The Plan's fiduciaries do not anticipate any material adverse effect on the Plan's financial position resulting from its involvement in these instruments. The Plan only holds one type of derivative as of December 31, 2011. There were no derivatives held as of December 31, 2010.

Option Contracts

The primary risk managed by the Plan using option contracts is the price risk associated with investments. On behalf of the Plan, investment managers have purchased and written various option contracts, which are agreements between two parties giving the buyer the right, but not the obligation, to buy or sell a specified item at a fixed price (exercise or strike) during a specified period, and giving the seller the obligation to sell or buy a specified item at a fixed price. These option contracts are intended by the Plan to economically hedge and manage its price exposures with respect to investments in foreign and domestic securities. When the investment manager buys or writes an option contract, a nonrefundable fee (the premium) is paid or received by the Plan and is recorded as an asset or liability and is subsequently adjusted to the current market value of the option purchased or written. The premiums paid or received from buying or writing options are recorded as realized gains or losses when the options expire. The difference between the premium and the amount paid or received on affecting a closing purchase or sale transaction is also treated as a realized gain or loss. If an option is exercised, the premium paid or received is recorded as a realized gain or loss if sold or an adjustment to cost of the underlying if acquired upon exercise.

The following tables present the total number of purchased options and written options held by the Plan at December 31, 2011.

7. Securities Lending

The Master Trust is authorized to engage in the lending of certain investments. Securities lending is a temporary exchange of portfolio assets for acceptable collateral between a lender and an approved borrower. The market value of securities on loan in the Master Trust was approximately \$166.6 million and \$32.4 million, and the collateral held was approximately \$170.1 million and \$33.5 million at December 31, 2011 and 2010, respectively. In return for the loaned securities, the agent, prior to or simultaneous with delivery of the loan securities to the borrower, received collateral in the form of cash, U.S. government securities, or letters of credit as a safeguard against possible default of any borrower on the return of the loan. Each loan is initially collateralized in the case of (a) loaned securities denominated in U.S. dollars or whose primary trading market is located in the U.S. at 102% of the market value of the loaned securities or (b) loaned securities not denominated in U.S. dollars or whose primary trading market is located in the U.S. to the extent of 105% of the market value of the loaned securities. The collateral is marked to market on a daily basis. The Master Trust maintains full ownership rights to the securities loaned (except for the right to vote proxy whereas the customer can request that the security be returned at a best efforts basis and consideration of normal settlement cycle) and, accordingly, classifies loaned securities as investments. Securities lending income earned by the Master Trust was approximately \$0.2 million for the year ended December 31, 2011.

8. Administrative Expenses

The Plan incurs administrative expenses directly related to the Plan that consist primarily of benefit administration, advisory, actuarial, and auditing fees. These expenses are reported on the statement of changes in net assets available for benefits as administrative expenses. Investment-related expenses for the Master Trust are allocated to the Plan and are reflected in the net investment gains/losses from the Master Trust. All other costs of administering the Plan are paid by the Company.

9. Party-in-Interest Transactions

Party-in-interest transactions included the purchase and sale of short-term investments and Master Trust units through the trustee and the payment of services and expenses of the Master Trust by the Plan. Party-in-interest transactions also include transactions between the Plan and Fidelity, the plan administrator. Such transactions are exempt from being prohibited transactions.

There were no party-in-interest transactions that were prohibited under the Department of Labor regulations.

Other than those described above or pursuant to a certain trust agreement (see Notes 1, 3, and 4), the Plan has had no agreements or transactions with related parties.

10. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated June 1, 2009, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the IRC) and, therefore, the related trust is exempt from taxation. Subsequent to this determination by the Internal Revenue Service (IRS), the Plan was amended. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualified status. The plan sponsor believes the Plan is operating in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended, is qualified and the related trust and Master Trust are tax-exempt.

TRW Automotive Lebanon Hourly Plan C

Notes to Financial Statements (continued)

10. Income Tax Status (continued)

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

11. Risks and Uncertainties

The Plan and the Master Trust invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market volatility, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and those changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

Actuarial methods**Asset methods**

The asset valuation method is an average of the adjusted market value for each year during the last two years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110 percent and no less than 90 percent of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Minimum funding method

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- This plan provides benefits that are not a function of a participant's accrued benefit or years of service. This benefit is allocated to funding target based on the ratio of the participant's service at the beginning of the plan year to their service at each decrement age and is allocated to target normal cost based on the proportionate benefit attributable to the increase in the participant's service and compensation during the plan year.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Maximum deductible contribution method

Calculations of maximum deductible contributions include the excess of the funding target computed using the projected unit credit method over the minimum funding target. The objective of the projected unit credit method is to fund each participant's benefits under the plan as they accrue, taking into consideration expected future benefit increases. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- An individual's **projected funding target** is the present value of benefits based on credited service as of the beginning of the plan year and projected benefit that would be used in the calculation of the benefit on each expected separation date. If multiple decrements are used, the projected funding target for an individual is the sum of the component projected funding targets associated with the various anticipated separation dates.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

- The plan's **projected funding target** is the sum of the projected funding targets for all participants under the plan. The excess of the plan's projected funding target over the plan's funding target is included in the "cushion amount."

Schedule SB, Part V — Summary of Plan Provisions

Plan provisions

Benefits included or excluded

Unless noted below, all benefits provided by the plan, as restated and amended through the valuation date are included in this valuation.

- **Plan amendments:** Amendments, if any, adopted after the valuation date are not reflected.
- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
 - *Plan amendments:* See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Scheduled benefit increases:** Scheduled benefit increases effective after the end of the current plan year are excluded from minimum funding requirements.
- **Late retirement increases:**
 - *Active participants:* The plan provides benefit suspension notices to participants who work beyond normal retirement; therefore, late retirement actuarial increases only apply to participants who defer retirement beyond age 70½. This valuation does not include increases for current participants over age 70.
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued with their accrued benefit as of normal retirement age.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.
- **IRC Section 415(b) benefit limitations:** The limitations of Internal Revenue Code Section 415(b) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60 percent of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Effective January 1, 2009, for employees hired on or after November 1, 1997, benefit service is frozen as of January 1, 2009.						
Normal retirement							
▪ Eligibility	First of month following the attainment of age 65 with five years of vesting service (NRD).						
▪ Benefit	Accrued benefit determined as of NRD.						

Schedule SB, Part V — Summary of Plan Provisions

▪ Special age 65 benefit	\$60.00 per month, effective for 2004, payable after age 65 to all retired employees or surviving spouses unless the participant had retired from deferred vested status; \$65.00 effective for 2005; \$70.00 effective for 2006; \$75.00 effective for 2006.
Early retirement	
▪ Eligibility	Retirement before NRD and on or after attaining age 55 and completing ten years of benefit service, or after attaining age 55 and the sum of age and benefit service equals or exceeds 85.
▪ Benefit	Accrued benefit determined as of early retirement date, reduced by 7.2% for each year of payment before age 60. There is no reduction for employees who retire with age plus years of benefit service greater than or equal to 85 ("85 points").
▪ Supplemental benefit	A supplemental benefit of \$500 (\$475 prior to January 1, 2005) per month is payable between age 55 and 62, reduced 3.3% for each year less than 30 years. There is no reduction for employees with more than 30 years of benefit service.
Late retirement	
▪ Eligibility	Retirement after NRD
▪ Benefit	Accrued benefit determined as of actual retirement date.
Deferred vested	
▪ Eligibility	Termination for reasons other than death or retirement after completing five years of vesting service.
▪ Benefit	Accrued benefit determined as of termination date and deferred to age 65. If a participant elects to receive benefit after early retirement age, it will be reduced 7.2% per year under age 62.
Disability	
▪ Eligibility	Totally and permanently disabled, after ten years of benefit service.
▪ Benefit	Accrued benefit determined as of disability date, payable immediately.
Pre-retirement death	
▪ Eligibility	Death while eligible for normal, early, late, or deferred vested retirement benefits having been married at least one year.

Schedule SB, Part V — Summary of Plan Provisions

▪ Benefit	If an employee dies after attaining age 55 with ten years of benefit service, his spouse receives the spouse benefit assuming the employee had retired early and elected the 50% joint and survivor option the day before his death. If an employee dies before age 55 plus 10, the benefit is calculated as if the employee terminated his employment on his date of death, survived to his earliest retirement date and elected the 50% joint and survivor option.
Form of benefits	
▪ Automatic form for unmarried participants	Life annuity
▪ Automatic form for married participants	66-2/3% joint and survivor annuity. However, if termination is due to disability prior to age 55, benefits are paid in the form of a 50% joint and survivor annuity.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
