LIST INDUSTRIES, INC. 401(K) RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2011 AND 2010

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of List Industries, Inc. 401(k) Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement and amendments for a more complete description of the Plan's provisions.

General – The Plan was formed effective January 1, 1997 by List Industries, Inc. (the "Employer" and "Plan Administrator"). The Plan is subject to some, but not all, of the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan is a defined contribution plan.

Eligibility – The Plan covers all employees, as defined in the Plan, who have completed three months of service and attained the age of 21.

Employee Contributions – Participants may elect to contribute from 1% to 50% of their eligible pre-tax compensation for the years ended December 31, 2011 and 2010, as defined in the Plan, up to a maximum of $16,500. Participants who have attained age 50 during the Plan year may make an additional elective deferral contribution of $5,500 for the years ended December 31, 2011 and 2010. The percentage may be changed as of any subsequent Plan entry date. Any such change will apply only after its effective date, and after it is executed and filed with the Plan Administrator. Fund allocation may be changed at anytime without a charge.

Employer's Contributions – Discretionary matching contributions equals 50% of the first 4% of the participant's elective deferral for the period from January 1, 2011 to October 9, 2011 and for the year ended December 31, 2010.

The Employer elected to cease the matching contribution for the period from October 10, 2011 to December 31, 2011.

The total of Employer and employee contributions is limited to the lesser of $49,000 or 100% of the participant's compensation for the years ended December 31, 2011 and 2010.

Participant Accounts – Each participant's account is credited with the participant's contribution and Employer-provided matching contributions, Plan earnings, and charged with management or service fees. Allocations are based on participant earnings or account balances, as defined by the Plan. Additional administrative fees are charged by the custodian upon fund withdrawal. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participant contributions and discretionary Employer-provided matching contributions are 100% vested. Employer's discretionary non-elective contributions, if any, are 20% vested after one year of service and 20% for each additional year of service. Automatic 100% vesting occurs upon attainment of normal retirement age (65), upon retirement due to disability, upon death, and upon termination of the Plan.

NOTE 1 - DESCRIPTION OF THE PLAN (Continued)

To have a year of service for vesting purposes, employees must complete at least 1,000 hours of service during the 12 months beginning on the day they start to work for the Employer. If they do not, they must complete at least 1,000 hours of service in any Plan year. They complete a year of service only upon working for a full 12 months, regardless of when during the applicable 12 month period they complete 1,000 hours of service.

Investment Options – Participants may direct contributions in 1% increments to any of the investment options offered by the Plan. The investment options include money market funds and various stock and bond funds. The fund values are computed daily by the custodian and reflect changes in the unit values of the investments.

Notes Receivable from Participants – Participants can borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000, reduced by the excess (if any) of (1) the highest outstanding balance of any other notes from the Plan during the one-year period prior to the date of the new note, over (2) the aggregate outstanding balance of any other notes from the Plan on the date of the new note, or 50% of their vested account balance. Note terms range from one to five years or up to 15 years for the purchase of a principal residence. Participants can only have one note outstanding at any time. The notes are secured by the balance in the participant's account and bear interest at a fixed rate commensurate with local prevailing rates at the time the note is approved by the Plan Administrator. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits – Upon retirement or separation from service with the Employer, the participant may elect to receive a single lump-sum cash payment. Also, upon reaching age 59½, participants may receive a lump-sum cash payment for any portion of their vested accounts on a yearly basis. Until a participant actually retires from the employment of the employer, the participant shall continue to be treated in all respects as a participant.

Hardship Withdrawal – A participant can withdraw from the Plan, part or all of the participant's contributions for a financial hardship. The trustee shall determine what portion of all of such account balance is necessary to alleviate the hardship. A financial hardship must be one of the reasons specified below:

1. Medical expense incurred by the participant, the participant's spouse, or any dependents of the participant;

2. The purchase (excluding mortgage payments) of a principal residence of a participant;

3. Certain educational expenses for the participant, his or her spouse, or dependents of the participant;

4. The need to prevent the eviction of the participant from his or her principal residence or foreclosure on the mortgage of his or her principal residence; or

NOTE 1 - DESCRIPTION OF THE PLAN (Continued)

5. Other events as may be prescribed by the Internal Revenue Service Commissioner in revenue rulings, notices, and other documents of general applicability.

Forfeited Accounts – As of December 31, 2011 and 2010, forfeited nonvested accounts totaled $14 and $12,301, respectively. These accounts can be used to reduce future Employer matching contributions. During the year ended December 31, 2011, $19,932 was paid from forfeited nonvested accounts for discretionary Employer-provided matching contributions.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES AND OTHER MATTERS

Date of Management Review – The Plan has evaluated subsequent events through September 19, 2012, the date the financial statements were available to be issued.

Basis of Accounting – The accompanying financial statements have been prepared on the accrual basis of accounting, except that benefits are recorded when paid.

Use of Estimates – The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of additions and deductions to net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Withdrawals and Exchanges – Withdrawals and exchanges between investment fund options by participants are recorded based upon the specific proceeds and cost of the investment at the date of withdrawal or exchange.

Investment Valuation – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements. Unrealized gains or losses as a result of changes in fair value are recorded in income of the current period.

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassed as distributions based on the terms of the Plan document.

Administrative Expenses – Certain plan administrative expenses are paid by the Plan Administrator. Management fees, asset fees, and account administrative fees are paid by the participants.

NOTE 3 - INVESTMENTS

The fair market values of individual assets that represent 5% or more of the Plan net assets are as follows:

Vanguard Money Market Prime	257,165	N/A
Vanguard Total Stock Market Index Signal	188,137	174,814

NOTE 4 - FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were used only when Level 1 or Level 2 inputs were not available. The three levels of the fair value hierarchy are described as follows:

- Level 1 inputs to the valuation methodology are quoted prices (unadjusted) for identical assets or liabilities in active markets that the plan has the ability to access at the measurement date.

- Level 2 inputs to the valuation methodology include the following:

  - Quoted prices for similar assets or liabilities in active markets.

NOTE 4 - FAIR VALUE MEASUREMENTS (Continued)

- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly.
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year end.

		Fair Value Measurements at Reporting Date Using:		
	Fair Value	Quoted Prices In Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
December 31, 2011				
Shares of registered investment companies	$2,088,914	$2,088,914	$ 0	$ 0
December 31, 2010				
Shares of registered investment companies	$2,076,086	$2,076,086	$ 0	$ 0

NOTE 5 - TAX STATUS

Effective January 1, 2004, the Plan adopted a non-standardized form of a prototype plan sponsored by Slavic Integrated Administration, Inc. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2008.

NOTE 6 - PLAN TERMINATION

Although they have not expressed any intent to do so, the Employer has the right under the Plan to discontinue their contributions at any time. In addition, although they have not expressed any intent to do so, the trustee has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 7 - RELATED PARTY TRANSACTIONS

Slavic Mutual Funds Management Corporation (SMF) is the investment advisor to the Plan. Participants, if they elect this service, are charged a management fee.

Slavic Integrated Administration (SIA), the Plan's Third Party Administrator, receives annual administrative and asset fees per participant.

Slavic Investment Corporation (SIC), an SEC, registered securities broker/dealer, collects from mutual fund companies, any 12b-1 commissions, SubTa and SSF recording fees paid by the funds held in plan accounts, and credits them on a quarterly basis directly to participant accounts holding those funds. Only participants actually holding the funds at the crediting date receive a proration of this fund revenue; those trading out of the funds before that date are not credited any prorated 12b-1, SubTa and SSF payments.

The shareholders of SMF, SIC and SIA are the same.

NOTE 8 - RISK AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 9 - SUBSEQUENT EVENTS

Effective January 1, 2012, the Employer implemented a discretionary matching contribution of 50% of the first 4% of the participant's elective deferral.
