Independent Auditors' Report

We were engaged to audit the financial statements of the Contec, LLC 401(k) Profit Sharing Plan as of December 31, 2011 and 2010, and for the years then ended, and the supplemental schedule as of and for the year ended December 31, 2011, as listed in the accompanying index. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Notes 3 and 4, which was certified by the Hartford Life Insurance Company, the Custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that the Trustee holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained certifications from the Trustee as of and for the years ended December 31, 2011 and 2010, that the information provided to the Plan Administrator by the Trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for the purpose of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1: Description Of Plan

The following description of Contec, LLC 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all employees of Contec, LLC (the Company) who are eligible. Eligible employees become participants in the Plan following six months of continuous service and attainment of age 21. The Plan's entry dates are the first day of the month following the date in which an employee meets the eligibility requirements. The Plan is subject to the requirements of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Each year, participants may contribute a percentage of pretax eligible compensation not to exceed a certain dollar limit, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company may make discretionary matching contributions. During the years ended December 31, 2011 and 2010, the Company made matching contributions equal to 25% of actual deferrals not to exceed 25% of the first 7% of eligible employees' salaries. In addition, the Company has the option of making additional discretionary contributions. Contributions are subject to certain dollar limitations.

Participants' accounts - Each participant's account is credited with the participant's contributions and allocations of (a) the Company's discretionary contributions, if any, (b) the Company's matching contributions on their deferrals, if any, (c) plan earnings, and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided by the participant's vested account.

Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching contributions and related plan net earnings are based on years of continuous service. A participant is 100% vested after three years of credited service. Participant accounts become fully vested upon attainment of the normal retirement age of 65.

Participant loans - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 3.25% to 8.25%, which are commensurate with local prevailing rates as determined by the Plan Administrator. Principal and interest is paid ratably through weekly payroll deductions.

Payment of benefits - On termination of service, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or elect to defer payment until a later date.

Note 1: Description Of Plan (Continued)

Plan termination - Although it has not expressed any intention to do so, the Company has the right, under the Plan, to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, participants would become 100% vested in their employer contributions.

Forfeited accounts - At December 31, 2011 and 2010, forfeited non-vested accounts were considered immaterial. Forfeitures shall be applied to reduce future employer contributions.

Note 2: Summary Of Significant Accounting Policies

Investment valuation - Accounting principles generally accepted in the United States of America establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs are used only when Level 1 or Level 2 inputs are not available. The three levels of the fair value hierarchy in accordance with accounting principles generally accepted in the United States of America are described below:

(a) Level 1: Unadjusted quoted prices in active markets for identical, unrestricted assets, or liabilities that the Plan has the ability to access at the measurement date;

(b) Level 2: Quoted prices which are not active, quoted prices for similar assets or liabilities in active markets, or inputs other than quoted prices that are observable (either directly or indirectly) for substantially the full term of the asset or liability; and

(c) Level 3: Significant unobservable prices or inputs (including the Plan's own assumptions in determining the fair value of investments) where there is little or no market activity for the asset or liability at the measurement date.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 2: Summary Of Significant Accounting Policies (Continued)

The preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America require investment contracts held by a defined contribution plan to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required, the statement of net assets available for benefits presents the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis. The objective of the Stable Asset Fund is to provide for the collective investment of assets of participating tax qualified pension and profit sharing plans and related trusts in guaranteed investment contracts and readily marketable assets in accordance with the investing criteria established by the Declaration of Trust.

The Plan's investments are held by an independent trust company. Investments, except for the SEI Stable Asset Fund, are valued at quoted market prices reported on the last day of the Plan year. Purchases and sales of securities are recorded on a trade-date basis with the gain or loss based upon the average-cost method. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

The Plan's investment in the SEI Stable Asset Fund is reported at fair value and adjusted to contract value based on information provided in the audited financial statements of the Fund.

Notes receivable from participants - Loans to participants are reported at their unpaid principle balances plus any accrued but unpaid interest.

Income taxes - The Plan is exempt from Federal income tax under the Internal Revenue Code. Tax positions are evaluated and recognized in the financial statements when it is more-likely-than-not the position will be sustained upon examination by the tax authorities.

The Plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Note 2: Summary Of Significant Accounting Policies (Continued)

Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The application of these accounting principles involves the exercise of judgment and use of assumptions as to future uncertainties and, as a result, actual results could differ from these estimates. The Plan periodically evaluates estimates and assumptions used in the preparation of the financial statements and makes changes on a prospective basis when adjustments are necessary.

Presentation - Certain reclassifications, when applicable, are made to the prior year financial statement presentation to correspond to the current year's format. Reclassifications, when made, have no effect on net assets available for benefits or net increase in net assets available for benefits.

Note 3: Investments

The statements of net assets available for benefits for the years ended December 31, 2011 and 2010, the investment activities included on the statements of changes in net assets available for benefits for the years ended December 31, 2011 and 2010, and the accompanying notes to the financial statements were prepared in part or entirely from information certified by the Hartford Life Insurance Company (the Hartford), the Custodian in accordance with 29 CFR 2520.103-5(c) of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The information certified includes total investments of $5,268,811 and $5,612,680 at December 31, 2011 and 2010, respectively, and related investment income (loss) of $(359,360) and $557,493 for the years ended December 31, 2011 and 2010, respectively.

The following presents investments that represent 5% or more of the Plan's net assets at:

December 31, 2011

SEI Stable Asset Fund	$1,094,609
Oppenheimer Developing Markets	689,809
Oppenheimer International Bond	455,324
Alger Mid-Cap Growth Fund	305,129
Oppenheimer Small and Mid-Cap Value Fund	281,440

Note 3: Investments (Continued)

December 31, 2010

SEI Stable Asset Fund	$1,195,437
Oppenheimer Developing Markets	989,078
Oppenheimer International Bond	479,847
Oppenheimer Small and Mid-Cap Value Fund	309,275

During the years ended December 31, 2011 and 2010, the Plan's investments in pooled separate accounts with an insurance company (including investments bought, sold, and held during the years) appreciated (depreciated) in value by $(378,382) and $521,507, respectively.

Note 4: Fair Value Measurements

The following is a description of the valuation methodology used for assets at fair value at December 31, 2011 and 2010.

Pooled separate accounts with insurance company: Valued at quoted market prices in active markets, other than the SEI Stable Asset Fund which remains at a constant $1 per share.

The preceding method may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurements at the reporting date.

All assets have been valued using a market approach. There were no changes in the valuation techniques during the current year.

Fair Value Measurements At Reporting Date Using:

	Quoted Prices In Active Markets For Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total Fair Value
December 31, 2011				
Pooled Separate Accounts With Insurance Company	$4,174,202	$1,094,609	$ -	$5,268,811

Note 4: Fair Value Measurements (Continued)

	Quoted Prices In Active Markets For Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total Fair Value
December 31, 2010				
Pooled Separate Accounts With Insurance Company	$4,417,243	$1,195,437	$ -	$5,612,680

The Plan maintains an investment contract with the Hartford. The Hartford holds the contributions in pooled separate accounts. The accounts are credited with earnings associated with the underlying investments and charged for Plan withdrawals and administrative expenses.

The stable value contract is included in the financial statements at fair value and contract value (which represents contributions made under the contract, plus earnings, less withdrawals and administrative expenses) because it is fully benefit-responsive. For example, participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. However, the contract generally provides that withdrawals associated with certain events which are not in the ordinary course of fund operations, and are determined by the issuer to have a material adverse effect on the issuer's financial interest, will be paid with a market value adjustment to the contract value amount of such withdrawal as defined in the contract. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

The crediting interest rate is set at the start of the contract and typically resets every quarter. The initial crediting interest rate is established based on the market interest rates at the time the initial asset is purchased and it will have an interest crediting rate of no less than 0%.

Average Yields	2011	2010
Based on actual earnings	1.36%	1.63%
Based on interest rate credited to participants	0.71%	0.89%

Note 5: Related Party Transactions

Certain fees for administrative services may be paid by the Company.

Note 6: Reconciliation Of Financial Statements To Form 5500

The following is a reconciliation of the net assets available for benefits per the financial statements to Form 5500 for the year ended December 31:

	2011	2010
Net assets available for benefits per the financial statements	$5,473,666	$5,774,306
Adjustment from fair value to contract value for fully benefit-responsive investment contracts	(5,038)	(19,127)
Net Assets Available For Benefits Per Schedule H Of Form 5500	$5,468,628	$5,755,179

The following is a reconciliation of changes in net assets per the financial statements for the year ended December 31:

	2011	2010
Amount per the financial statements	$ (300,640)	$ 659,403
Adjustment from fair value to contract value for fully benefit-responsive investment contracts	14,090	30,525
Adjustment for contributions receivable	-	4,150
Amount Per Schedule H Of Form 5500	$ (286,550)	$ 694,078

Note 7: Concentrations Of Credit Risk

The Plan maintains an account with the investment arm of an insurance company. The account contains pooled separate accounts. Balances are insured up to the Securities Investor Protection Corporation limits for securities and Federal Deposit Insurance Corporation limits for cash.

Note 8: Risks And Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9: Commitments And Contingencies

The Plan follows the guidance for uncertainty in income taxes. As of December 31, 2011, the Plan believes that it has appropriate support for the income tax positions taken and to be taken on its returns based on an assessment of many factors including experience and interpretations of tax laws applied to the facts of each matter. The Plan has concluded that there are no significant uncertain tax positions requiring disclosure, and there are no material amounts of unrecognized tax benefits. The Plan is no longer subject to federal, state, or local income tax examination by tax authorities for years before 2008.

Note 10: Subsequent Events

Subsequent events have been evaluated through October 15, 2012, which is the date the financial statements were available to be issued.

Fee and Compensation Disclosure Report

This document is intended to assist a plan administrator ("you") in completing the Form 5500 Schedule C[1] by identifying different types of compensation paid with respect to the Hartford product utilized by your plan.

As permitted under the Schedule C rules, compensation is disclosed in the attached report as an actual dollar amount, an estimate or a formula or rate.

- Where an actual dollar amount of compensation is disclosed, no further notation regarding compensation calculations is generally provided.
- Where an estimate of the compensation amount is disclosed, we have used a reasonable method to arrive at the estimate and we have described the method used to arrive at the estimated amount.
- Where a formula or rate is provided to report compensation, we have used a reasonable method to arrive at the estimate and we have described the method used to arrive at the estimated amount. This formula or rate may be disclosed to describe the compensation to which it applies under the Schedule C rules. Alternatively, for purposes of Schedule C disclosure or in connection with your fiduciary review of the compensation paid with respect to the services, products and investment options utilized by the plan, you may calculate and disclose an actual or estimated dollar amount by multiplying the rate by the total assets to which it applies.

Please note that, unless otherwise indicated in the descriptions contained in this report, direct compensation is presented on a plan year basis 01/01/2011 - 12/31/2011 and indirect compensation is presented on a calendar year basis ending 12/31/2011.

This report includes compensation actually paid to or by the Hartford within the indicated plan year as part of your Hartford product. *(Note: If the plan year period or plan year end indicated in this Schedule C reporting package is incorrect, please notify your Hartford customer service representative immediately).* This report does not include amounts deducted from plan assets and paid to third parties (other than Hartford). In addition, the report does not include compensation related to investments held by the plan that are not serviced on our recordkeeping system. You should contact your other service providers for reportable compensation information. You may also receive information on the compensation reported here from other service providers as is described below.

Please note that we have provided suggested service codes with respect to services provided through our Hartford product. Please review all Schedule C and other Form 5500 materials with your experienced benefits counsel and other professionals to determine the most appropriate codes for your plan. In addition, please note that because plans with fewer than 100 participants (as of the beginning of the plan year) are generally not required to file Schedule C, you should refer to the instructions provided by the IRS for Schedule C and/or review the applicability of Schedule C to your plan with your experienced tax/benefits counsel, to determine whether it is necessary for the plan to report the information contemplated by this report.

Please contact your Hartford Service Team should you require additional information regarding the compensation paid to or by Hartford with respect to your plan.

****

Information provided in this document and related materials we provide are not intended to be and shall not be deemed tax advice, tax form preparation services, legal advice, advice to plans regarding compliance with ERISA reporting compliance, or accounting or other professional services. As described above, the information contained in this report may not cover all of the compensation received by the plan's service providers. We strongly encourage you to review all Schedule C and other Form 5500 materials with experienced benefits counsel and other professionals.

---

[1] Please refer to the Schedule C of the Form 5500 and its instructions (available at: http://www.dol.gov/ebsa/5500main.html), and please confer with experienced benefits counsel and other professionals, to determine the applicability of Schedule C to your plan.

Please note that, unless otherwise indicated in the descriptions contained in this report, direct compensation is presented on a plan year basis 01/01/2011 - 12/31/2011 and indirect compensation is presented on a calendar year basis ending 12/31/2011.

For use with lines 2(h), 3(c), 3(d), 3(e)

Total Direct Compensation Paid **$1,601.00**

The total amount identified above reflects all fees deducted from plan assets at the plan administrator's direction for the plan year. Service providers which have received portions of these direct fees are listed below, along with the amount of fees they received. Please note that if there is a discrepancy between the total direct fees reported above and the sum of the direct fees reported below, you should contact your other service providers or your plan records to identify the recipient(s) of the fees and any other information relevant to your Schedule C filing.

Recipient: Hartford Life Insurance Company EIN: 06-0974148

Service Codes: 15, 23, 37, 38, 54, 55, 59, 60, 62, 63, 64, 65, 66, 99, 50 (if direct compensation amount reflected below)

Direct Compensation **$1,601.00**

The total amount identified above reflects fees deducted from plan assets at the plan administrator's direction for the 2011 plan year for the above named recipient. Please review other service providers, below, to determine whether direct fees were also paid to them. Also, please review your records to determine whether other service providers may have received any compensation not reported below (e.g., a reimbursement paid to any plan fiduciary, your employee benefits counsel, or a plan auditor).

Note: Due to system accounting protocols (including 'cash basis' accounting), amounts reported as Direct Compensation and amounts reported as paid to Hartford Life Insurance Company are the net result of aggregating direct compensation after the effects of adjustments processed in 2011, some of which may have pertained to prior years.

Please review the detailed breakdown at the end of the report for further information.

Indirect Compensation

Float compensation **$1.77**

Bank accounts and investments associated with short-term investment pool, 200 Hopmeadow Road, Simsbury, CT 06089

This is an estimate based on the annual average rate of float (0.01% for 2011) earned on the bank accounts and investments associated with the short-term investment pool for the 2011 calendar year multiplied by an estimate of the assets related to uncashed checks.* This estimate does not include float earned for any other reason (e.g., if amounts remitted to The Hartford cannot be immediately invested because they are not in good order). Please review or request a copy of the current float disclosure for more information about the other circumstances in which float is earned.

* A complete listing of distribution checks that remain outstanding is available on the Retirement Plan Access web site under the Standard Reports section (Report R03998-Outstanding Distribution Checks). Uncashed check assets will continue to remain in a float-earning bank account until such time direction is received from the Plan Sponsor. The Plan Sponsor should consult with their tax advisor or benefits counsel to determine if assets attributable to uncashed checks should be included on the Form 5500 filing.

Non Monetary Compensation

Please note that items of nonmonetary compensation need to be reported for Schedule A or C (Form 5500) purposes if they exceed certain *de minimus* amounts. Transactions generating nonmonetary compensation may include gifts, gratuities, or certain types of in-kind benefits. Hartford's Code of Ethics and Business Conduct generally restricts Hartford employees from giving to or receiving gifts from customers and/or business partners having a value of over $100, in any individual situation, without prior approval. However, it is possible that one or more of your service providers for the calendar year, including Hartford, engaged in transactions generating nonmonetary compensation. Information concerning reportable transactions undertaken between or among non-Hartford parties may not be available to The Hartford.

Please consult with your legal or tax advisors if you have any questions.

Under the variable investment options available through your plan's group annuity contract or funding agreement, contract values are invested in Hartford Life Insurance Company separate accounts that, in turn, invest in underlying registered investment companies (i.e., mutual funds) and collective investment funds.

The list includes any investment option held by the plan on at least one month end during the 2011 calendar year. To arrive at an estimate of the dollar amount that Hartford received from each investment option, multiply the rate of fees received from each investment option by your plan's year-end balance (or if the investment option was liquidated prior to year end, the balance on the liquidation date) and, if applicable, the per participant fee by the number of participants in the investment option at year end (or the liquidation date if earlier). This will be an estimate because your plan's balance and number of participants will vary over the course of the year, so the year-end balance and number of participants may be higher or lower than the daily balance. In addition, these fees are calculated on a daily basis.

* This amount is the sum of the fund's distribution, management and other fees, which are also identified in the fund's prospectus. Please note that affiliates of Hartford Life Insurance Company act as advisor to the Hartford funds. Such affiliates are identified in the fund's prospectus' and receive management fees in the following amounts:

Hartford Balanced Allocation A	0.13% x assets
Hartford Conservative Allocation A	0.15% x assets
Hartford Equity Growth Allocation A	0.15% x assets
Hartford Growth Allocation A	0.14% x assets
Hartford Total Return Bond A	0.50% x assets

To The Trustees Of
Contec, LLC 401(k) Profit Sharing Plan
Schenectady, New York

Independent Auditors' Report

We were engaged to audit the financial statements of the Contec, LLC 401(k) Profit Sharing Plan as of December 31, 2011 and 2010, and for the years then ended, and the supplemental schedule as of and for the year ended December 31, 2011, as listed in the accompanying index. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Notes 3 and 4, which was certified by the Hartford Life Insurance Company, the Custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that the Trustee holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained certifications from the Trustee as of and for the years ended December 31, 2011 and 2010, that the information provided to the Plan Administrator by the Trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for the purpose of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1: Description Of Plan

The following description of Contec, LLC 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all employees of Contec, LLC (the Company) who are eligible. Eligible employees become participants in the Plan following six months of continuous service and attainment of age 21. The Plan's entry dates are the first day of the month following the date in which an employee meets the eligibility requirements. The Plan is subject to the requirements of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Each year, participants may contribute a percentage of pretax eligible compensation not to exceed a certain dollar limit, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company may make discretionary matching contributions. During the years ended December 31, 2011 and 2010, the Company made matching contributions equal to 25% of actual deferrals not to exceed 25% of the first 7% of eligible employees' salaries. In addition, the Company has the option of making additional discretionary contributions. Contributions are subject to certain dollar limitations.

Participants' accounts - Each participant's account is credited with the participant's contributions and allocations of (a) the Company's discretionary contributions, if any, (b) the Company's matching contributions on their deferrals, if any, (c) plan earnings, and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided by the participant's vested account.

Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching contributions and related plan net earnings are based on years of continuous service. A participant is 100% vested after three years of credited service. Participant accounts become fully vested upon attainment of the normal retirement age of 65.

Participant loans - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 3.25% to 8.25%, which are commensurate with local prevailing rates as determined by the Plan Administrator. Principal and interest is paid ratably through weekly payroll deductions.

Payment of benefits - On termination of service, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or elect to defer payment until a later date.

Note 1: Description Of Plan (Continued)

Plan termination - Although it has not expressed any intention to do so, the Company has the right, under the Plan, to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, participants would become 100% vested in their employer contributions.

Forfeited accounts - At December 31, 2011 and 2010, forfeited non-vested accounts were considered immaterial. Forfeitures shall be applied to reduce future employer contributions.

Note 2: Summary Of Significant Accounting Policies

Investment valuation - Accounting principles generally accepted in the United States of America establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs are used only when Level 1 or Level 2 inputs are not available. The three levels of the fair value hierarchy in accordance with accounting principles generally accepted in the United States of America are described below:

(a) Level 1: Unadjusted quoted prices in active markets for identical, unrestricted assets, or liabilities that the Plan has the ability to access at the measurement date;

(b) Level 2: Quoted prices which are not active, quoted prices for similar assets or liabilities in active markets, or inputs other than quoted prices that are observable (either directly or indirectly) for substantially the full term of the asset or liability; and

(c) Level 3: Significant unobservable prices or inputs (including the Plan's own assumptions in determining the fair value of investments) where there is little or no market activity for the asset or liability at the measurement date.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 2: Summary Of Significant Accounting Policies (Continued)

The preparation of the financial statements in accordance with accounting principles generally accepted in the United States of America require investment contracts held by a defined contribution plan to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required, the statement of net assets available for benefits presents the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis. The objective of the Stable Asset Fund is to provide for the collective investment of assets of participating tax qualified pension and profit sharing plans and related trusts in guaranteed investment contracts and readily marketable assets in accordance with the investing criteria established by the Declaration of Trust.

The Plan's investments are held by an independent trust company. Investments, except for the SEI Stable Asset Fund, are valued at quoted market prices reported on the last day of the Plan year. Purchases and sales of securities are recorded on a trade-date basis with the gain or loss based upon the average-cost method. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

The Plan's investment in the SEI Stable Asset Fund is reported at fair value and adjusted to contract value based on information provided in the audited financial statements of the Fund.

Notes receivable from participants - Loans to participants are reported at their unpaid principle balances plus any accrued but unpaid interest.

Income taxes - The Plan is exempt from Federal income tax under the Internal Revenue Code. Tax positions are evaluated and recognized in the financial statements when it is more-likely-than-not the position will be sustained upon examination by the tax authorities.

The Plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Note 2: Summary Of Significant Accounting Policies (Continued)

Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The application of these accounting principles involves the exercise of judgment and use of assumptions as to future uncertainties and, as a result, actual results could differ from these estimates. The Plan periodically evaluates estimates and assumptions used in the preparation of the financial statements and makes changes on a prospective basis when adjustments are necessary.

Presentation - Certain reclassifications, when applicable, are made to the prior year financial statement presentation to correspond to the current year's format. Reclassifications, when made, have no effect on net assets available for benefits or net increase in net assets available for benefits.

Note 3: Investments

The statements of net assets available for benefits for the years ended December 31, 2011 and 2010, the investment activities included on the statements of changes in net assets available for benefits for the years ended December 31, 2011 and 2010, and the accompanying notes to the financial statements were prepared in part or entirely from information certified by the Hartford Life Insurance Company (the Hartford), the Custodian in accordance with 29 CFR 2520.103-5(c) of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The information certified includes total investments of $5,268,811 and $5,612,680 at December 31, 2011 and 2010, respectively, and related investment income (loss) of $(359,360) and $557,493 for the years ended December 31, 2011 and 2010, respectively.

The following presents investments that represent 5% or more of the Plan's net assets at:

December 31, 2011

SEI Stable Asset Fund	$1,094,609
Oppenheimer Developing Markets	689,809
Oppenheimer International Bond	455,324
Alger Mid-Cap Growth Fund	305,129
Oppenheimer Small and Mid-Cap Value Fund	281,440

Note 3: Investments (Continued)

December 31, 2010

SEI Stable Asset Fund	$1,195,437
Oppenheimer Developing Markets	989,078
Oppenheimer International Bond	479,847
Oppenheimer Small and Mid-Cap Value Fund	309,275

During the years ended December 31, 2011 and 2010, the Plan's investments in pooled separate accounts with an insurance company (including investments bought, sold, and held during the years) appreciated (depreciated) in value by $(378,382) and $521,507, respectively.

Note 4: Fair Value Measurements

The following is a description of the valuation methodology used for assets at fair value at December 31, 2011 and 2010.

Pooled separate accounts with insurance company: Valued at quoted market prices in active markets, other than the SEI Stable Asset Fund which remains at a constant $1 per share.

The preceding method may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurements at the reporting date.

All assets have been valued using a market approach. There were no changes in the valuation techniques during the current year.

Fair Value Measurements At Reporting Date Using:

	Quoted Prices In Active Markets For Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total Fair Value
December 31, 2011				
Pooled Separate Accounts With Insurance Company	$4,174,202	$1,094,609	$ -	$5,268,811

Note 4: Fair Value Measurements (Continued)

	Quoted Prices In Active Markets For Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total Fair Value
December 31, 2010				
Pooled Separate Accounts With Insurance Company	$4,417,243	$1,195,437	$ -	$5,612,680

The Plan maintains an investment contract with the Hartford. The Hartford holds the contributions in pooled separate accounts. The accounts are credited with earnings associated with the underlying investments and charged for Plan withdrawals and administrative expenses.

The stable value contract is included in the financial statements at fair value and contract value (which represents contributions made under the contract, plus earnings, less withdrawals and administrative expenses) because it is fully benefit-responsive. For example, participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. However, the contract generally provides that withdrawals associated with certain events which are not in the ordinary course of fund operations, and are determined by the issuer to have a material adverse effect on the issuer's financial interest, will be paid with a market value adjustment to the contract value amount of such withdrawal as defined in the contract. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

The crediting interest rate is set at the start of the contract and typically resets every quarter. The initial crediting interest rate is established based on the market interest rates at the time the initial asset is purchased and it will have an interest crediting rate of no less than 0%.

Average Yields	2011	2010
Based on actual earnings	1.36%	1.63%
Based on interest rate credited to participants	0.71%	0.89%

Note 5: Related Party Transactions

Certain fees for administrative services may be paid by the Company.

Note 6: Reconciliation Of Financial Statements To Form 5500

The following is a reconciliation of the net assets available for benefits per the financial statements to Form 5500 for the year ended December 31:

	2011	2010
Net assets available for benefits per the financial statements	$5,473,666	$5,774,306
Adjustment from fair value to contract value for fully benefit-responsive investment contracts	(5,038)	(19,127)
Net Assets Available For Benefits Per Schedule H Of Form 5500	$5,468,628	$5,755,179

The following is a reconciliation of changes in net assets per the financial statements for the year ended December 31:

	2011	2010
Amount per the financial statements	$ (300,640)	$ 659,403
Adjustment from fair value to contract value for fully benefit-responsive investment contracts	14,090	30,525
Adjustment for contributions receivable	-	4,150
Amount Per Schedule H Of Form 5500	$ (286,550)	$ 694,078

Note 7: Concentrations Of Credit Risk

The Plan maintains an account with the investment arm of an insurance company. The account contains pooled separate accounts. Balances are insured up to the Securities Investor Protection Corporation limits for securities and Federal Deposit Insurance Corporation limits for cash.

Note 8: Risks And Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9: Commitments And Contingencies

The Plan follows the guidance for uncertainty in income taxes. As of December 31, 2011, the Plan believes that it has appropriate support for the income tax positions taken and to be taken on its returns based on an assessment of many factors including experience and interpretations of tax laws applied to the facts of each matter. The Plan has concluded that there are no significant uncertain tax positions requiring disclosure, and there are no material amounts of unrecognized tax benefits. The Plan is no longer subject to federal, state, or local income tax examination by tax authorities for years before 2008.

Note 10: Subsequent Events

Subsequent events have been evaluated through October 15, 2012, which is the date the financial statements were available to be issued.
