We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2011 and 2010, and the changes in net assets available for benefits for the year ended December 31, 2011 in conformity with accounting principles generally accepted in the United States of America.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year) is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

MUIR ORTHOPAEDIC SPECIALISTS MEDICAL GROUP, INC.
PROFIT SHARING 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2011 AND 2010

NOTE 1 - DESCRIPTION OF THE PLAN

The following brief description of the Muir Orthopaedic Specialists Medical Group, Inc. Profit Sharing 401(k) Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for more specific provisions.

A. General

The Plan is a defined contribution plan established in 2001 by Muir Orthopaedic Specialists Medical Group, Inc. (the "Company") to provide benefits to eligible employees as defined in the Plan document. The Plan was amended and restated in its entirety effective January 1, 2010 to comply with the Economic Growth and Tax Relief Reconciliation Act (EGTRRA) and other legislative changes. The Plan administrator believes the Plan is designed and operated in compliance with the applicable requirements of the Code and provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

B. Administration

The Company has appointed three officers to serve as trustees and manage the operation and administration of the Plan. The trustees designated Pension One Advisors to serve as third-party administrator. Fees and expenses charged to participant accounts consist of contract administration, recordkeeping and investment fees, commissions and transaction fees not paid by the Company.

C. Eligibility

All employees of the Company are eligible to participate upon completing one year of service and attaining age 21.

D. Participant Elective Contributions

Eligible participants may elect to make pre-tax contributions, Roth after-tax contributions or a combination of both to the Plan up to the maximum amount permitted under the Plan document and Code regulations. Participants of age 50 or older may elect to make additional catch-up contributions of up to $5,500 for the year ended December 31, 2011. Participants who make pre-tax contributions to the Plan receive an equivalent reduction in taxable compensation. Participants are also allowed to make rollover contributions of amounts received from other tax-qualified retirement plans. Such contributions are invested in accordance with participant directions and Plan provisions.

E. Matching Contributions

The Company may make discretionary matching contributions on behalf of eligible participants as defined in the Plan. For 2011, the Company did not make matching contributions.

F. Profit Sharing Contributions

The Company may make a discretionary profit sharing contribution on behalf of participants as defined in the Plan. For 2011, the Company profit sharing contribution was equal to 5.4%

NOTE 1 - DESCRIPTION OF THE PLAN (Continued)

F. Profit Sharing Contributions (Continued)

of each eligible staff person's compensation and $32,500 for each eligible doctor. Generally, participants must complete a minimum of 1,000 hours during the year and be employed on the last day of the Plan year to share in Company profit sharing contributions.

G. Participant Accounts

Each participant's account is credited with the participant's contributions, rollovers, plan earnings or losses and expenses, and an allocation of Company contributions, if any. Participants may direct their investments among different investment portfolios offered under the Plan, or they may elect to establish a self-directed brokerage account. Assets of the Plan are invested based solely on instructions received from participants.

Contributions allocated to participants who decline to make an investment election are invested in the Moderate Life Style Portfolio which consists of a portfolio of mutual funds.

H. Vesting and Forfeitures

Participants are immediately vested in their contributions, rollovers and related earnings. Participants' vested percentage in accounts attributable to Company matching and profit sharing contributions is determined under a schedule that provides for full vesting after six years of credited service. Forfeitures of terminated participants' non-vested accounts are used to pay Plan administrative costs or to reduce Company contributions. Forfeitures totaling approximately $6,000 were used to pay plan expenses in 2011. Unapplied forfeitures totaled approximately $19,000 and $5,000 at December 31, 2011 and 2010, respectively.

I. Notes Receivable from Participants

The Plan allows participants to borrow up to the lesser of $50,000 or 50% of their vested account balance. A loan is secured by a participant's vested account balance, bears interest at a rate equal to the prevailing interest rate charged for loans made by commercial lenders under similar circumstances, and must be repaid to the Plan in five years unless the loan is used for the purchase of a principal residence in which case the maximum repayment period may be extended. Principal and interest are paid ratably through payroll deductions. Notes receivable from participants at December 31, 2011 carried interest rates ranging from 5.25% to 10.00%.

J. Payment of Benefits

Normal retirement age under the Plan is age 65. Upon termination of service, death, disability, attainment of age 59 ½ or retirement, a participant may choose to maintain his or her account in the Plan or to receive vested benefits in a lump sum or installment payments. In certain limited circumstances benefits may be paid in an annuity. Hardship distributions are permitted under certain limited circumstances subject to the approval of the Plan administrator. Benefits are recorded when paid.

NOTE 1 - DESCRIPTION OF THE PLAN (Continued)

K. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. The accounts of participants affected by a partial or complete termination of the Plan are non-forfeitable and will be determined as of the termination date, which will be treated as the valuation date.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

B. Notes Receivable from Participants

The Financial Accounting Standards Board (FASB) issued ASU 2010-25 Loans to Participants by Defined Contribution Pension Plans – a consensus of FASB Emerging Issues Task Force, clarifying the classification and measurement guidance on participant loans of a defined contribution pension plan. The ASU requires participant loans to be classified as notes receivable from participants. This guidance is a change to the requirement to classify participant loans as investments recognized in accordance with ASC 820, Fair Value Measurements and Disclosures. The Plan adopted this guidance for the Plan year ended December 31, 2010.

Notes receivable from participants are measured at their unpaid principal balance plus accrued unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based on the terms of the Plan document.

C. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect reported amounts and disclosures. Actual results may differ from those estimates.

D. Risks and Uncertainties

Plan investments include a variety of securities that are exposed to various investment risks such as interest rate, credit, and overall market volatility. Due to the level of risk associated with investment securities, it is at least reasonably possible that changes in equity markets, interest rates or other factors in the near term would materially affect participant accounts and the amounts reported in the statements of net assets available for benefits and statement of changes in net assets available for benefits.

The Plan holds limited partnerships which include investments containing derivative instruments including trades futures contracts, options on futures contracts, and forward

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Risks and Uncertainties (Continued)

contracts on physical commodities and/or other commodity interests. Futures and forwards represent contracts for delayed delivery of an instrument at a specified date and price. There are numerous factors, which may significantly influence the market value of these contracts, including interest rate volatility.

E. Investment Valuation and Income Recognition

Plan investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (Note 6).

Purchases and sales of investments are recorded on the trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Distributions received from limited partnerships are included in dividends and interest. Mutual fund capital gains distributions are included in net depreciation. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

F. Subsequent Events

Management has evaluated subsequent events through October 5, 2012, the date on which the financial statements were available to be issued. There are no subsequent events that require recognition or additional disclosure in the Plan's financial statements.

NOTE 3 - INCOME TAX STATUS

The Plan has been amended since receiving its latest favorable determination letter from the Internal Revenue Service dated October 13, 2011. The Company believes the Plan is operated in accordance with, and continues to qualify under, the applicable requirements of the Code and related state statutes, and that the trust, which forms a part of the Plan, is exempt from Federal income and state franchise taxes.

The Plan has adopted guidance on accounting for uncertainty in income taxes issued by the FASB. The Plan administrator believes the Plan has taken no uncertain tax positions that require adjustment to the financial statements to comply with provisions of this guidance. Information returns for tax years for which the applicable statutes of limitations have not expired are subject to examination by authorities.

NOTE 4 - RELATED PARTY TRANSACTIONS

Certain Plan investments are managed by affiliates of the custodians. Any purchases and sales of these funds are performed in the open market at fair value. Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.

Certain Plan investments are managed by an affiliate of the Plan record keeper. In the year ended December 31, 2011, approximately $78,000 in investment fees were paid by the Plan to the affiliated company.

NOTE 5 - 5% INVESTMENTS

The following table presents the fair values of investments and investment funds that represent 5% or more of the Plan's net assets available for benefits at December 31:

	2011	2010
DFA Two-Year Global Fixed-Income Fund	$ 1,149,814	$ 2,022,230
Other Investments, Individually Less than 5% of Net Assets Available for Benefits	19,286,902	17,538,938
	$ 20,436,716	$ 19,561,168

Plan investments (including investments bought, sold and held during the year) depreciated in value as follows for the year ended December 31, 2011:

Investments at Fair Value:	
Cash Surrender Value of Life Insurance and Annuities	$ (51,242)
Common Stock	(146,880)
Mutual Funds	(644,083)
U.S. Government Bonds/Municipal Bonds	(9,301)
Corporate Bonds	(17,657)
Investments at Estimated Fair Value - Limited Partnership Interests and Other	(8,613)
TOTAL	$ (877,776)

NOTE 6 - FAIR VALUE MEASUREMENTS

Accounting guidance establishes a hierarchy that prioritizes valuation inputs into three levels based on the extent to which inputs used in measuring fair value are observable in the market. Under the fair value hierarchy Level 1 inputs are quoted prices in an active market. Level 2 inputs are quoted prices for similar instruments and model-based valuation techniques for which all significant assumptions are observable in the market or can be corroborated by observable market data. Level 3 inputs are generally unobservable and typically reflect management's estimates of assumptions that market participants would use in pricing the asset or liability.

Mutual funds are valued at the net asset value (NAV) of shares held by the Plan at year end. Common stocks are valued at the closing price reported on the active market on which the securities are traded. Corporate and government bonds are valued based on yields currently available on comparable securities of issuers with similar credit ratings. Annuities are valued at fair value at year end based on closing market prices of the accounts' underlying securities. Life insurance is valued at cash surrender value of each policy which is generally equal to accumulated dividends and unearned premiums paid into the policy. Limited partnership interests are reported at the estimated fair value per unit of participation based on the most recent estimate of fair value provided to the trustees by the general partner.

NOTE 6 - FAIR VALUE MEASUREMENTS (Continued)

The Plan holds an investment in a private investment fund which primarily holds collateralized real estate loans. As of December 31, 2011, a majority of the fund's loan investments are in default. The loans are carried at fair market value unless in default in which case they have been adjusted to reflect the fair market value of the existing collateral as determined by valuations performed by outside appraisers.

The following tables summarize the Plan's investments at December 31 based on the inputs used to value them:
