Midtex Oil, L.P. Profit Sharing Plan
Notes to Financial Statements
December 31, 2011 and 2010

Note 1: Description of the Plan

The following description of Midtex Oil, L.P. Profit Sharing Plan (Plan) provides only general information. Participants should refer to the Plan document and *Summary Plan Description* for a more complete description of the Plan's provisions, which are available from the Plan administrator.

General

The Plan is a defined contribution plan sponsored by Midtex Oil, L.P. (Company) for the benefit of its employees who have at least one year of service and are age 20 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Hartford Life Insurance Company (Hartford) serves as Plan custodian. Effective March of 2012, the Company has terminated (Hartford) as custodian and replaced Hartford with the John Hancock Life Insurance Company as custodian.

Contributions

The Plan permits eligible employees through a salary deferral election to have the Company make annual contributions of up to the maximum permitted by law. Employee rollover contributions are also permitted. For 2011, the Company made matching contributions of 100% of employees' salary deferral amounts on the first 2% of employees' compensation. Company profit-sharing contributions are discretionary as determined by the Company's Board of Directors. Contributions are subject to certain limitations. No discretionary contributions were made in 2011. Effective January 1, 2012, the Company will match 100% of employees' salary deferral amounts on the first 3% of compensation and 50% of the amount of the employee's 401(K) contributions that exceed 3%, but do not exceed 4% of employee's compensation.

Participant Investment Account Options

Investment account options available include various funds. Each participant has the option of directing his contributions into any of the separate investment accounts and may change the allocation daily.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's contribution and Plan earnings and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefits to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions plus earnings thereon. Vesting in the Company's contribution portion of their accounts plus earnings thereon is based on years of continuous service. A participant is fully vested after six years of continuous service. The non-vested balance is forfeited upon termination of service.

Payment of Benefits

Upon termination of service, an employee may elect to receive a lump-sum amount equal to the value of his account. In certain circumstances, participants may make hardship withdrawals as defined. Participants who make hardship withdrawals are not allowed to make elective contributions to the Plan for the six-month period following the withdrawal.

Forfeited Accounts

At December 31, 2011 and 2010, the Plan had no forfeited non-vested accounts. These accounts are used to reduce future employer contributions. In 2011, employer contributions were reduced by $638 from forfeited non-vested accounts.

Notes Receivable From Participants

The Plan document includes provisions authorizing loans from the Plan to active eligible participants. Loans are made to any eligible participant demonstrating a qualifying need. The minimum amount of a loan shall be $1,000. The maximum amount of a participant's loans is determined by the available loan balance restricted to the lesser of $50,000 or 50% of the participant's vested account balance. All loans are covered by demand notes and are repayable over a period not to exceed five years (except for loans for the purchase of a principal residence) through payroll withholdings unless the participant is paying the loan in full. Interest on the loans is based on rates charged on loans made under similar circumstances as determined by the Plan administrator.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan document.

Plan Termination

Although it has not expressed an intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

The Plan's investments are stated at fair value. The Plan's investments in registered investment company funds are valued at quoted prices in active markets for identical assets at the measurement date and represent the net asset value of shares held by the Plan.

Plan Tax Status

The Plan operates under a non-standardized adoption agreement in connection with a prototype retirement plan and trust/custodial document sponsored by Thompson Hine, LLP. This prototype plan document has been filed with the appropriate agency. The Plan has not obtained or requested a determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code (IRC) and that the Plan was qualified and the related trust was tax exempt as of the financial statement date.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses may be paid by the Company or the Plan, at the Company's discretion.

Note 3: Change in Accounting Principle

During 2010, the Plan adopted the provisions of ASU 2010-25, *Reporting Loans to Participants by Defined Contribution Pension Plans*. The ASU requires loans to participants to be reported as notes receivable from participants at unpaid principal plus accrued but unpaid interest, instead of being reported as a part of investments at fair value as they were under previous guidance.

The following financial statement line items for fiscal year 2010 were affected by the change in accounting principle.

	2010 Statement of Net Assets Available for Benefits		
	As Computed Under Previous Guidance	As Computed Under ASU 2010-25	Effect of Change
Investments	$ 2,105,666	$ 1,974,622	$ 131,044
Notes receivable from participants	$ -	$ 131,044	$ (131,044)

	2010 Statement of Changes in Net Assets Available for Benefits		
	As Computed Under Previous Guidance	As Computed Under ASU 2010-25	Effect of Change
Interest and dividends	$ 17,941	$ 13,578	$ (4,363)
Interest income from notes receivable from participants	$ -	$ 4,363	$ 4,363

Net assets available for benefits were not affected by the adoption of this new guidance.

Note 4: Certification by Plan Custodian

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the custodian has certified that the following information included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments and notes receivable from participants as shown in the statements of net assets available for benefits, and related disclosures as of December 31, 2011 and 2010.
- Investment income and interest income from notes receivable from participants as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2011.
- Investment information included in the accompanying schedule of assets (held at end of year) as of December 31, 2011.

The Plan's independent auditors did not perform auditing procedures with respect to this information except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 5: Investments

The fair value of individual investments that represented 5% or more of the Plan's net assets available for benefits were as follows:

	2011	2010
Registered investment companies		
Alliancebernstein	$ 187,466	$ 237,999
Davis New York Venture	$ 208,800	$ 238,940
The Hartford Capital Appreciation	$ 307,543	$ 411,215
Columbia Seligman Global Technology	$ 96,259	$ 108,699
American Funds Growth Fund	$ 147,543	$ 182,946
American Funds Washington Mutual	$ 109,513	$ 117,324
The Hartford Money Market	$ 261,391	$ 292,746

During 2011, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) depreciated in value as follows:

Registered investment company funds	$ (154,048)

Note 6: Party-in-interest Transactions

The Plan's investments are held and invested by The Hartford Life Insurance Company as Plan custodian and, therefore, these transactions qualify as party-in-interest transactions. Hartford received fees for its services provided to the Plan which were paid by the Plan.

The Company paid certain professional and administrative expenses related to the Plan during the year ended December 31, 2011.

Note 7: Fair Value of Plan Assets

ASC Topic 820, *Fair Value Measurements*, defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Topic 820 also specifies a fair value hierarchy which requires a plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

Level 1	Quoted prices in active markets for identical assets
Level 2	Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full-term of the assets
Level 3	Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets and liabilities pursuant to the valuation hierarchy.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. Level 1 securities include registered investment company funds. If quoted market prices are not available, then fair values are estimated by using pricing models, quoted prices of securities with similar characteristics or discounted cash flows. In certain cases, where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy. There have been no changes in valuation techniques used to measure their value for the years ended December 31, 2011 and 2010.

The following table presents the fair value measurements of assets recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2011 and 2010.

Note 8: Significant Estimates and Concentrations

Current Economic Conditions

The current protracted economic decline continues to present employee benefit plans with difficult circumstances and challenges, which in some cases have resulted in large and unanticipated declines in the fair value of investments. The financial statements have been prepared using values and information currently available to the Plan.

Given the volatility of current economic conditions, the values of assets recorded in the financial statements could change rapidly, resulting in material future adjustments in investment values that could negatively impact the Plan.

Note 9: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 10: Subsequent Events

Subsequent events have been evaluated through October 5, 2012, which is the date the financial statements were available to be issued.
