REPORT OF INDEPENDENT AUDITORS

Plan Administrator
Third Federal Savings Bank Retirement Plan and Trust

We were engaged to audit the accompanying statement of net assets available for benefits of the Third Federal Savings Bank Retirement Plan and Trust (the "Plan") as of December 31, 2011 and 2010, and the related statement of changes in net assets available for benefits for the years then ended; the statement of accumulated plan benefits as of December 31, 2010, and the related statement of changes in accumulated plan benefits for the year then ended; and the supplemental schedules of Schedule H, Line 4i-Schedule of Assets (Held at End of Year), and schedule H, Line 4j-Schedule of Reportable Transactions, as of or for the year ended December 31, 2011. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted in 29 CFR 2520.103-8 of the United States Department of Labor ("DOL")'s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 7, which was certified by Wilmington Trust, the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. The Plan Administrator has informed us that the custodian holds the Plan's investment assets and executes investment transactions. As disclosed in Note 7, the Plan Administrator has obtained certifications from the custodian regarding the completeness and accuracy of the information summarized in Note 7 that was provided to the Plan Administrator by the custodian as of and for the years ended December 31, 2011 and 2010..

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The supplemental schedule is presented for the purposes of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and schedules, other than that derived from the information certified or provided by the Trustee, have been audited by us in accordance with U.S. generally accepted auditing standards and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

THIRD FEDERAL SAVINGS BANK RETIREMENT PLAN AND TRUST
NOTES TO FINANCIAL STATEMENTS

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the Third Federal Savings Bank Retirement Plan and Trust (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General

The Plan is a defined benefit pension plan covering substantially all employees of Third Federal Bank (the “Bank”), which is a wholly owned subsidiary of TF Financial Corporation. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Pension Benefits

Employees are eligible to become participants after completing one year of service and attaining 21 years of age. The normal form of pension payable to an unmarried participant is a single life annuity. A participant is 100 percent vested upon attainment of his/her early or normal retirement date; otherwise, the participant becomes vested in his/her accrued benefit after five years of service.

Death and Disability Benefits

If a vested, married, active employee dies, a death benefit equal to 50 percent of the value of the employee’s accumulated pension benefits is paid to the employee’s spouse. No death benefits are payable to unmarried employees under this Plan, except when necessary requirements are met. Active employees who become totally and permanently disabled receive annual disability benefits that are equal to the normal retirement benefits they have accumulated as of the time they became disabled.

The following are the significant accounting policies of the Plan:

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Valuation of Investments and Income Recognition

Investments of the Plan are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Note 3-Fair Value Measurements provides additional disclosure related to valuation methodologies.

Purchase and sales of securities are recorded on a trade date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's losses and gains on investments bought and sold, as well as held during the year.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated Plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to services employees have rendered. Accumulated Plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. The accumulated Plan benefits are based on career average compensation. Benefits payable under all circumstances--retirement, death, disability, and termination of employment--are included to the extent they are deemed attributable to employee service rendered as of the valuation date.

Beyer-Barber Company (the "Actuary") estimates the actuarial present value of accumulated Plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment by means of decrements such as for death, disability, withdrawal, or retirement between the valuation date and the expected date of payment.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Significant assumptions underlying the actuarial computations as of December 31, 2010, are as follows:

Actuarial cost method	• Unit Credit Actuarial Cost Method
Assumed average rate of return on investment	• 8 percent per year pre-retirement compounded annually
Mortality scale	• IRS 2011 Combined Static Mortality Table
Retirement	• Retirement is assumed at normal retirement age

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Income Tax Status

The Internal Revenue Service has determined and informed the Bank by a letter dated July 28, 2002, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. However, the Plan Administrator and tax counsel believe that the Plan is in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for the years prior to 2008.

Administrative Expenses

Administrative expenses of the Plan relating to investment management and recording fees are paid by the Plan. Fees relating to accounting, miscellaneous administrative expenses, and the insurance premium of the Pension Benefit Guaranty Corporation are paid by the Plan's sponsor. Such expenses amounted to \$32,278 for the year ended December 31, 2011.

NOTE 3 - FAIR VALUE MEASUREMENTS

U.S. generally accepted accounting principles establishes a fair value hierarchy which requires the Plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value. A financial instrument's level within the fair value hierarchy is based on the lowest level of input significant to the fair value measurement.

The three levels of the fair value hierarchy are described below:

- Level I: Quoted prices are available in active markets for identical assets or liabilities as of the reported date.
- Level II: Pricing inputs are other than the quoted prices in active markets, which are either directly or indirectly observable as of the reported date. The nature of these assets and liabilities includes items for which quoted prices are available but traded less frequently and items that are fair-valued using other financial instruments, the parameters of which can be directly observed.
- Level III: Valuations are derived from valuation techniques in which one or more significant inputs or significant value drivers are unobservable.

The following table sets forth by level, within the fair value hierarchy, the Plan's fair value measurements as of December 31, 2011 and 2010, respectively;

December 31, 2011				
	Level I	Level II	Level III	Total
Assets:				
Investment in collective trusts	\$ -	\$ 8,010,857	\$ -	\$ 8,010,857
Total assets at fair value	<u>\$ -</u>	<u>\$ 8,010,857</u>	<u>\$ -</u>	<u>\$ 8,010,857</u>
December 31, 2010				
	Level I	Level II	Level III	Total
Assets:				
Investment in collective trusts	\$ -	\$ 7,765,323	\$ -	\$ 7,765,323
Total assets at fair value	<u>\$ -</u>	<u>\$ 7,765,323</u>	<u>\$ -</u>	<u>\$ 7,765,323</u>

NOTE 3 - FAIR VALUE MEASUREMENTS (Continued)

The following is a description of the valuation methodologies used for assets measured at fair value: There have been no changes in the methodologies used at December 31, 2011 and 2010.

Collective investment trust funds	The collective investment trust funds fair value is classified in Level II using the asset fair value provided by Wilmington Trust, the custodian of the fund. Net asset value unit price is quoted on a private market that is not active; however, the unit price is based on underlying investments which are traded on an active market.
-----------------------------------	--

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. The Plan custodian engages a third-party pricing agent as well as an internal pricing service to determine fair value. Furthermore, although the Plan believes the valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value measurement at the reporting date.

NOTE 4- FAIR VALUE OF FINANCIAL INSTRUMENTS

Financial instruments are defined as cash, evidence of ownership interest in an entity, or a contract which creates an obligation or right to receive or deliver cash or another financial instrument from/to a second entity on potentially favorable or unfavorable terms. Fair value is defined as the amount at which a financial instrument could be exchanged in a current transaction between willing parties other than in a forced liquidation or sale. If a quoted market price is available for a financial instrument, the fair value would be calculated based upon the market price per trading unit of the instrument.

Investments in collective investment trusts, equities, accrued interest and dividends receivable, and cash would be considered financial instruments. At December 31, 2011, the carrying amounts of these financial instruments approximate fair value.

NOTE 5 - FUNDING POLICY

The Bank's funding policy is to make annual contributions to the Plan that are between the minimum amount required to satisfy the funding standards of ERISA and the maximum tax-deductible contribution for federal income tax purposes, such that all employees' benefits will be fully provided for by the time they retire.

NOTE 6 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Bank has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- (1) To that portion of participant Accrued Benefit which is derived from participant contributions made to the Plan.
- (2) Equally among:

NOTE 6 - PLAN TERMINATION (Continued)

- (a) Retired participants and their beneficiaries to whom payment commenced at least three years prior to the date of termination.
- (b) Participants who could have retired and received payment of their benefits at least three years prior to the date of termination.
- (3) To all benefits guaranteed and insured by the Pension Benefit Guaranty Corporation.
- (4) To all other vested accrued benefits not insured by the Pension Benefit Guaranty Corporation.
- (5) To all other accrued benefits provided under the Plan.

Any excess funds shall revert to the employer.

NOTE 7 - INFORMATION CERTIFIED BY THE CUSTODIAN

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520-103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The custodian of Plan, Wilmington Trust, has certified that the data included in the following financial statements and supplemental schedules is complete and accurate:

- Investments at fair value as shown in the statements of net assets available for benefits, December 31, 2011 and 2010
- Investment activity (interest and dividend income, net appreciation (depreciation) in fair value of investments) as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2011 and 2010
- Schedule of assets (held at end of year), December 31, 2011
- Schedule of reportable (5 percent) transactions, December 31, 2011

		2011	2010
(Depreciation) appreciation			
Collective investment trust	\$	(76,378)	\$ 847,490
Other assets		-	(40,427)
Total	\$	<u>(76,378)</u>	\$ <u>807,063</u>

Interest and dividend income for 2011 and 2010 was \$306 and \$544, respectively.

NOTE 8- RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

NOTE 8- RISKS AND UNCERTAINTIES (Continued)

Plan contributions are made and the actuarial present value of accumulated Plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTE 9 - SUBSEQUENT EVENTS

The Plan assessed events occurring subsequent to December 31, 2011 through October 15, 2012, for potential recognition and disclosure in the financial statements. No other events have occurred that would require adjustment to or disclosure in the financial statements which were issued October 15, 2012.

ACTUARIAL VALUATION METHODS

I. ACTUARIAL COST METHOD

The method used to determine the costs of this Plan is the Unit Credit Actuarial Cost Method. Under this method, the annual cost of the Plan consists of two parts: (1) Amortization of Funding Shortfall and (2) Target Normal Cost.

An individual's accrued benefit for valuation purposes on any date (i.e., a valuation date) related to a particular separation date is the accrued benefit described under the Plan, using the credited service as of the determination date.

The benefit deemed to accrue for an individual during a plan year is the excess of the accrued benefit for valuation purposes at the end of the plan year over the accrued benefit for valuation purposes at the beginning of the plan year.

An individual's Funding Target is the present value of the accrued benefit for valuation purposes at the beginning of the plan year, and the Target Normal Cost is the present value of the benefit deemed to accrue in the plan year.

II. ASSET VALUATION METHOD

Assets shall be valued using their current fair market price.

Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
