Independent Auditors' Report

The Administrator of
Westlake Services, Inc. Employee Stock Ownership and 401k Plan
Los Angeles, CA

We were engaged to audit the financial statements and supplemental schedules of Westlake Services, Inc. Employee Stock Ownership and 401k Plan as of December 31, 2011 and 2010, and for the year ended December 31, 2011, as listed in the accompanying index. These financial statements and schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 7, which was certified by Singer Lewak, LLP, the appraiser of the common shares of Wetlake Services Holding Company, and Wells Fargo Bank, the custodian of the remaining Plan assets, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the custodian as of December 31, 2011 and 2010 and for the year ended December 31, 2011, that the information provided to the plan administrator by the custodian is complete and accurate.

As described in Note 2, these financial statements were prepared on a modified accrual basis of accounting, which is a comprehensive basis of accounting other than generally accepted accounting principles.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedules taken as a whole. The supplemental schedules are presented for the purpose of additional analysis and are not a required part of the financial statements but are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the custodians, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

WESTLAKE SERVICES, INC. EMPLOYEE STOCK OWNERSHIP AND 401K PLAN

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED DECEMBER 31, 2011

1. Description of the plan:

The following description of the Westlake Services, Inc. Employee Stock Ownership and 401k Plan (the "Plan") provides general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan set up to cover all employees of Westlake Financial Services, Inc., a corporation (the "Company") and its affiliates: Toyota of North Hollywood, Inc. , Midway Rent-A-Car, Inc., Nowcom Corporation, Hankey Investment Company, LP, HFC Acceptance, LLC, Molino and Associates, and Knight Management Insurance Services, LLC. The Plan began on January 1, 2001.

Contributions:

It is the intention of the Company to make discretionary contributions to the Plan in such amounts determined by resolutions of the Board of Directors. Participants must contribute a minimum of 2% of their annual compensation. The maximum allowable deferral by a participant is the lesser of the statutory maximum for the year or 20% of the participant's annual compensation, subject to the contribution limitations of the Internal Revenue Code. The percentage amount limits specified above should be calculated by taking into account both the elective employer contributions made to this Plan, as well as the elective contributions made to the HG 401(k) Plan, a related Plan.

Allocations of Company contributions and Plan earnings are made only to those participants who are employed on the Plan Anniversary Date. New entrants, and those who were not participants on the prior anniversary date, are excluded from forfeiture allocations.

Income taxes:

The Plan obtained its latest determination letter on December 20, 2001, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

1. **Description of the plan (continued):**

Participant accounts:

Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's contribution, (b) Plan earnings, and (c) forfeitures of terminated participants' non-vested accounts for those eligible for each allocation, respectively. Allocations are made proportionately to participants' annual compensation.

Vesting:

Participants are immediately vested in their plan deferral contributions. Vesting in their basic employee stock ownership and 401(k) employer matching accounts is based on years of continuous service. A participant is 100% vested after six years of credited service. The vesting schedule is as follows:

Vesting years of service	Vested percentage
0 - 1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Payment of benefits:

The normal retirement age is a participant's 65th birthday or, if later, the 10th anniversary of the first day of the Plan year in which his/her participation commenced. Upon death, disability or retirement (at or after normal retirement age or date) of a participant who has not incurred a separation from service, his/her account balance is 100% vested. A participant who incurs a termination of employment prior to his normal retirement age is entitled to that portion of his basic employee stock ownership and 401(k) account balance earned to date, with vesting based upon the years of service credited as of the date of termination of employment.

1. **Description of the plan (continued):**

Payment of benefits (continued):

On termination of service, a participant may receive a lump-sum amount equal to the value of his or her account.

In general, unless a participant elects to have his/her benefits under the Plan paid at a later date, the payment of benefits to him/her will begin no later than the 60th day after the close of the Plan year in which the latest of the following events occurs:

- the date on which the participant attains the earlier of age sixty-five;
- the 10th anniversary of the year in which the participant commenced participation in the Plan; or
- the participant terminates his/her employment.

Loans to participants:

The Plan does not permit participant loans.

Forfeitures:

Forfeitures are first applied to administrative expenses of the Plan. Any remaining forfeitures are used to reduce employer contributions. No forfeiture amount was available for distribution as of December 31, 2011.

2. **Summary of accounting policies:**

Basis of accounting:

The financial statements of the Plan are prepared under the modified accrual basis of accounting. That is, the asset amounts are reflected on a cash basis except for the contributions receivable. The contributions are reported on a Plan year accrual basis.

2. **Summary of accounting policies (continued):**

Basis of accounting (continued):

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of estimates:

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amount of assets, liabilities, and change therein, and disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

Investment valuation and income recognition:

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See "Basis of accounting:" for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits:

Benefits are recorded when paid.

2. Summary of accounting policies (continued):

Date of Management's review:

Subsequent events were evaluated through June 15, 2012, which is the date the financial statements were available to be issued.

Plan expenses:

The employer has elected to absorb part of the Plan's operating and administrative expenses.

3. Concentration of credit risk:

Financial instruments, which potentially subject the Plan to concentrations of credit risk, consist primarily of cash contributed and investment funds.

Since all cash is allocated to investment funds within a diversified portfolio, there are no significant concentrations of risk. In addition, the contributions and funds are owned by individual participants, therefore limiting any risk of loss.

4. Plan termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan at anytime subject to the provisions of ERISA. In the event of Plan termination, participants will be 100% vested in their accounts. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Company may determine.

5. Risk and uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amount reported in the Statement of Net Assets Available for Benefits.

6. Related-party transactions:

During the year ended December 31, 2011, there were no related-party transactions which are prohibited by ERISA and for which there are no statutory or administrative exemptions.

7. Investments:

The following table presents the fair value of investments:

Employer stock	Fair value at 12/31/11	Fair value at 12/31/10
Westlake Services, Inc.		
45,240/42,240 common shares	$ 76,817,520	$ 59,431,680
Other investments		
Preferred stock	333,550	225,155
Common stock	4,956,710	1,583,315
	$ 82,107,780	$ 61,240,150

8. Reportable transactions:

There were no aggregate transactions that represented 5% or more of the fair market value of net assets available for Plan benefits for the year ended December 31, 2011.

9. Reconciliation of financial statements to Form 5500:

The discrepancy between benefits paid to participants per Form 5500 and amount per financial statements is due to the difference in accounting basis. Under the modified accrual basis of accounting used to prepare the financial statements, liabilities, such as benefits paid to participants, are recorded in the period they are paid. Consequently, the net assets available for benefits reported on the financial statements are higher by $903.

9. Reconciliation of financial statements to Form 5500 (continued):

	Benefits paid to participants
Form 5500	$ 7,060,913
Add: liabilities per Form 5500 as of December 31, 2010	7,350
Less: liabilities per Form 5500 as of December 31, 2011	(903)
Financial statements	$ 7,067,360

10. Fair value measurements:

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefit. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Total	$ 61,240,150	$ 1,808,470	$ 0	$ 59,431,680

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 inputs were only used when Level 1 inputs were not available, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 1 inputs

The fair value of the investments in common and preferred stock is based on quoted net asset values of the shares held by the Plan at year-end. The fair values of common stock, corporate bonds, and U.S. Government securities are based on quoted market prices.

Level 3 inputs

Westlake common stock is not actively traded and significant other observable inputs are not available. Thus, the fair market value of Westlake Holding Company common stock is equal to the amount reported on the appraisal prepaired and certified by Singer Lewak, LLP. The following table provides further details of the Level 3 fair value measurements.

10. Fair value measurements (continued):

Effect of level 3 inputs on net assets or liabilities

	Westlake common stock
December 31, 2011	
Beginning balance	$ 59,431,680
Total gains or losses	13,164,840
