REPORT OF INDEPENDENT AUDITORS

TO THE PLAN ADMINISTRATOR OF
QUAKER MFG 401(K) PLAN
SALEM, OHIO

We were engaged to audit the financial statements and supplemental schedule of Quaker Mfg 401(k) Plan as of and for the year ended December 31, 2011, as listed in the accompanying table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note C, which was certified by State Street Bank and Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the year ended December 31, 2011, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for the purposes of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

We have compiled the accompanying statement of net assets available for benefits of the plan, as of December 31, 2010, in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants. A compilation is limited to presenting, in the form of financial statements, information that is the representation of management. We have not audited or reviewed the accompanying statement of net assets available for benefits and, accordingly, do not express an opinion or any other form of assurance on it.

Quaker Mfg 401(k) Plan

NOTES TO FINANCIAL STATEMENTS

December 31, 2011 (audited) and 2010 (compiled)

NOTE A – DESCRIPTION OF PLAN

The following description of the Quaker Mfg 401(k) Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of Quaker Mfg Corp (the “Company”) who have attained age 21 and at least two months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Contributions

Participants may elect to contribute, on a salary-deferral basis, amounts ranging from 1% to 15% of their pretax annual compensation but not to exceed certain limitations. Roth elective deferrals, in which current income tax is paid on the deferral contribution, are also permitted.

The Company may decide to make a non-elective contribution to the Plan, although the Company is not required to do so. The non-elective contribution will be allocated to all employees eligible to participate in the Plan. The participant's share of the non-elective contribution is in proportion to his or her eligible earnings compared to the eligible earnings of the other participants who will also share in the contribution.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's matching contribution, and an allocation of the Company's non-elective contribution and the Plan earnings and losses and administrative expenses. Allocations of the Plan's earnings and losses are based on the proportion that each participant's account bears to the total of all participant accounts. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. During the years ended December 31, 2011 and 2010, no discretionary contributions were made by the Company.

Vesting

Participants are immediately fully vested in their voluntary contributions plus actual earnings thereon. A participant becomes vested in employer matching and discretionary contributions as follows:

Years of Service	Vested Percentage of Employer Contributions
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Notes Receivable from Participants

Participants may borrow from their account a minimum of \$500 up to a maximum equal to the lesser of \$50,000 or 50% of the vested balance of their account. These receivables are secured by the balance in the participant's account and must bear interest at the prime rate plus 2%. During 2011 and 2010, all of the notes had fixed rates of 5.25% for the term of the note. Principal and interest may be paid through payroll deductions or by check.

Payment of Benefits

Benefits are payable in an amount equal to the value of the participant's vested interest in his or her account, either in a lump-sum payment, installment payments, or in a direct rollover to an IRA or other employer plan. Any

NOTES TO FINANCIAL STATEMENTS

NOTE A – DESCRIPTION OF PLAN (continued)

portion of a vested benefit that is attributable to Roth Elective Deferrals or Roth Rollover Contributions may only be rolled over to a Roth IRA or other 401(k) plan or 403(b) plan that provides for Roth contributions.

Employees who terminate and have a vested balance of \$5,000 or less can have their entire vested account balance cashed out of the Plan by the Company in either an IRA rollover or a lump-sum distribution.

Forfeitures

If a participant is not vested upon termination, the nonvested portion of their account balance contributed by the employer and the earnings thereon are forfeited. Forfeited amounts are used to reduce Company contributions or to pay administrative expenses of the Plan. There were no forfeited amounts for 2011 or 2010.

Plan Termination

Although it has not expressed any intention to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants become fully vested in their accounts.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

Investment Valuation

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note E for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is accrued when earned. Dividend income is recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes are reclassified as distributions based upon the terms of the plan document.

NOTES TO FINANCIAL STATEMENTS

December 31, 2011 (audited) and 2010 (compiled)

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Accounting standards require that participant loans be classified as notes receivable from participants in the accompanying financial statements; however, the Department of Labor requires these to be classified as investments on the Form 5500 and on the schedule of assets (held at end of year).

Payments of Benefits

Benefits are recorded when paid.

Administrative Expenses

Substantially all administrative and recordkeeping fees of the Plan are paid by the Plan Sponsor.

NOTE C – INVESTMENTS

All investment information disclosed in the accompanying financial statements and supplemental schedules, including investments held at December 31, 2011 and net change in investment income and expenses for the year then ended, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the Plan's trustee.

The following presents investments that represent 5 percent or more of the Plan's net assets.

The Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) depreciated by investment type as follows:

	2011
Mutual funds	\$ (1,703)
Common/collective Trusts	(21,034)
Total	\$ (22,737)

NOTE D – INVESTMENT CONTRACTS

The Plan, through the Invesco Stable Asset ADP 85 collective trust investment (the "Fund"), holds investments in common/collective trust funds (the "Trust Funds"). Investments in the Fund were originated with the purchase of individual units; with each individual unit having a net asset value of USD \$1. To mitigate the risk of market losses on the unit investments, the Trust Fund entered into synthetic guaranteed investment contracts ("Synthetic GIC's"). Synthetic GIC's are portfolios of securities (debt securities and units of collective trusts) owned by the Trust Fund and associates. The Synthetic GIC's and associated derivative instruments ("Wrapper Contracts") are designed to minimize the risk of investment losses on a portfolio of securities. Synthetic GIC's enable

NOTES TO FINANCIAL STATEMENTS

NOTE D – INVESTMENT CONTRACTS (continued)

Participants, such as the Plan, to transact at an investments' contract value by protecting the principal amount invested over a specified period of time by utilizing a Wrapper Contract designed to minimize the risk of investment loss and maintain a constant net asset value per share or unit. The assets underlying the investment contracts are owned by the Trust Fund with the Plan owning units of the Trust Fund. These investment contracts are fully benefit-responsive and any adjustment of these investments' contract value is captured in the Statements of Net Assets Available for Benefits. Contract value represents the original cost of the contract, plus interest (based upon the underlying contract crediting rates of the underlying contracts) and deposits, reduced by administrative fees, transfers out, and withdrawals.

The Plan's investments covered by Synthetic GIC's earn interest at interest crediting rates that typically reset on a monthly or quarterly basis in accordance with the terms of each contract. These interest crediting rates are based on the characteristics of the underlying fixed income portfolio. The minimum interest crediting rate for an investment contract is zero percent. Factors that influence the future average crediting rates include (i) the level of market interest rates; (ii) the amount and timing of Participant contributions, transfers and withdrawals into or out of the investment (Wrapper Contract); (iii) the investment return generated by the fixed income investments that underlie the investment (Wrapper Contracts); and (iv) the duration of the underlying fixed income investments backing the investment (Wrapper Contracts).

The crediting rate formula, in effect, amortizes the market value inclusive of realized and unrealized gains and losses on the underlying investments over the duration of the underlying investments through adjustments to the future contract interest crediting rate (the rate earned by Participants or the Plan on the underlying investments). The resulting gains and losses in the fair value of the underlying investments relative to the contract value are captured in the Statements of Net Assets Available for Benefits as an adjustment from fair value to contract value for fully benefit responsive investment contracts. If the adjustment from fair value to contract value is positive, this indicates that the investment (Wrapper Contract) value is greater than the market value of the underlying investments. The embedded market value losses are amortized into the value of the underlying investment in future periods through a lower interest crediting rate. If the adjustment from fair value to contract value is negative, this indicates that the Wrapper Contract value is less than the market value of the underlying investments. The amortization of the embedded market value gains are amortized into the value of the underlying investment in future periods through an increase in the interest crediting rate.

Plan investments covered by Synthetic GIC's average yield earned by the Plan and the average yield earned by the Plan adjusted for actual interest credited to Participants at December 31, 2011 and 2010 as follows:

Average yields:	2011	2010
Based on actual earnings	1.29%	1.10%
Based on interest rate credited to participants	1.72%	1.85%

Under certain circumstances, amounts withdrawn from investments (Wrapper Contracts) could be payable at fair value rather than contract value. These events include (i) termination of the Trust Fund, (ii) a material adverse change to the provisions of the Trust Fund, (iii) if the investment participants elect to withdraw from an investment contract in order to switch to a different provider, or (iv) if terms of a successor Trust Fund do not meet the contract issuer's criteria for the issuance of a similar contract. In some cases, an investment (Wrapper Contract) issuer may terminate a contract with the Trust Fund and settle at an amount different than the contract value.

NOTES TO FINANCIAL STATEMENTS

December 31, 2011 (audited) and 2010 (compiled)

NOTE D – INVESTMENT CONTRACTS (continued)

While it is possible other parties contracting with the Trust Fund could cause or suffer events that would trigger fair value payouts under the Trust Fund's investment (Wrapper Contracts), based on prior experience, the Trust Fund's management believe it is not probable that such events would be of sufficient magnitude to limit the ability of the Trust Fund to transact at contract value with all remaining Participants in the Trust Fund. Given such events are beyond the control of the Trust Fund and Plan management, there can be no guarantee that this will be the case.

Additionally, certain circumstances or events would permit an investment (Wrapper Contract) issuer to terminate an investment (Wrapper Contract) upon short notice to include (i) the Trust Fund's loss of its qualified status, (ii) material breaches by the Trust Fund of its responsibilities that are not cured, or (iii) material and adverse changes to the provisions of the Trust Fund. If one of these events were to occur, the investment (Wrapper Contract) issuer could terminate the wrapper contract at the market value of the underlying investments (or in the case of a traditional Synthetic GIC, at the hypothetical market value based upon a contractual formula).

NOTE E – FAIR VALUE MEASUREMENTS

Financial accounting standards establish a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 fair values are based on unadjusted quoted prices in active markets for identical assets or liabilities.

Level 2 fair values are based on inputs other than quoted prices within Level 1 that are observable for the asset, either directly or indirectly.

Level 3 fair values are based on at least one significant unobservable input for the asset.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Mutual funds: Valued at quoted market prices which represent the net asset value (NAV) of shares held by the Plan at year end.

Common/collective trusts: Units held in collective investment trusts are valued using the NAV of the fund. The NAV is based on the fair value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of units outstanding. The NAV of a collective investment fund is calculated based on a compilation of primarily observable market information. The number of units of the fund that are outstanding on the calculation date is derived from observable purchase and redemption activity in the fund. Accordingly, the unit value for a collective investment fund is classified within level 2 of the valuation hierarchy.

The estimated fair value of the collective trust fund is net asset value. The use of net asset value as fair value is deemed appropriate as the collective trust funds do not have finite lives, unfunded commitments relating to these types of investments, or significant restrictions on redemptions.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to

determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE F – TAX STATUS

The Internal Revenue Service issued an opinion letter dated March 31, 2008 indicating that the prototype adopted by the Plan, as then designed, was in compliance with applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE G – PARTY-IN-INTEREST

The Plan allows participants to borrow funds against their account balances. These transactions qualify as party-in-interest transactions.

The Plan invests in shares of common/collective trusts managed by an affiliate of State Street Bank and Trust Company, who acts as trustee of the Plan. Transactions in such investments qualify as party-in-interest transactions.

NOTES TO FINANCIAL STATEMENTS

December 31, 2011 (audited) and 2010 (compiled)

NOTE H – RISKS AND UNCERTAINTIES

The Plan provides various investment options which are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of the investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE I – RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits between the financial statements and the Form 5500 as of December 31, 2011:

	<u>2011</u>
Net assets available for benefits per financial statements	<u>\$ 341,230</u>
Deemed distributions for participant loans	(1,133)
Adjustment for contributions receivable	<u>(5,213)</u>
Net assets per Form 5500	<u><u>\$ 334,884</u></u>

The following is a reconciliation of the net change in assets available for benefits between the financial statements and the Form 5500 as of December 31, 2011:

	<u>2011</u>
Net change in net assets available for benefits per financial statements	<u>\$ 217,446</u>
Adjustment for contributions receivable	(548)
Deemed distributions of participant loans	<u>(1,133)</u>
Net income per Form 5500	<u><u>\$ 215,765</u></u>

NOTE J – SUBSEQUENT EVENTS

Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through October 10, 2012, which is the date the financial statements were available to be issued.
