As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by State Street Bank & Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certification from the trustee as of December 31, 2011 and 2010 and for the year ended December 31, 2011 that the information provided to the plan administrator by the trustee is complete and accurate.

As noted in Note 7, the majority of plan assets were liquidated and transferred to the Reliance Trust Company, the succeeding trustee, on December 30, 2011. As a result, the statement of net assets available for benefits as of December 31, 2011 includes \$3,383,023 composed of cash and notes receivable from participants of \$3,233,950 and \$149,073, respectively, the amount transferred to Reliance Trust Company.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental as a whole. The information included in the supplemental schedule is presented for the purpose of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

COMMERCIAL SAVINGS BANK 401(k) RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2011 and 2010

NOTE 1 - DESCRIPTION OF PLAN

The following description of the Commercial Savings Bank 401(k) Retirement Plan ("the Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering substantially all employees of The Commercial Savings Bank and Advantage Finance, Inc. (collectively, the "Company") who have completed one month of service. Eligible employees may enter the Plan on the first day of the month coinciding with or next following the date this eligibility requirement was met.

Contributions: Each year, participants may contribute up to the maximum allowed by law to the Plan. The Plan allows participants who attained age 50 by the end of the Plan year to make catch-up contributions in accordance with Code Section 414(v). Participants may also contribute to the Plan in the form of a direct rollover of amounts representing distributions from other qualified defined benefit or defined contribution plans.

A matching contribution equal to 50% of the eligible employees' pretax contributions, which do not exceed 6% of compensation, is made to the Plan each year. An additional discretionary employer contribution may also be made. There was no additional discretionary employer contribution made for the plan year ended December 31, 2011.

Participant Accounts: Each participant's account is credited with the participant's own contribution and an allocation of (a) the Company's contribution, (b) forfeitures of discretionary employer contributions and (c) Plan earnings. Allocations are based on participant contributions, participant earnings or account balances, as defined. The benefit to which a participant is entitled is the vested benefit from the participant's account. Each participant directs the investment of their account to any of the investment options available under the Plan.

Retirement, Death, and Disability Benefits: A participant is entitled to a distribution of 100% of his or her account balance upon retirement, death, or disability.

Vesting: Participants are immediately vested in their 401(k) contributions plus actual earnings thereon. Vesting in the remainder of their account plus earnings thereon is based on years of credited service. Participants are fully vested after three years of credited service.

Notes Receivable from Participants: Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Only one outstanding loan per participant is permitted. The maximum loan term allowed is five years, unless the loan is for the purchase of the participant's principal residence in which case the loan term may not exceed ten years. The loans are collateralized by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the trustee and range from 4.00% to 10.50% at December 31, 2011. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits: All benefit payments are made in the form of either a lump sum payment or installment payments.

Forfeitures: Per the Plan document, the forfeitures attributable to matching contributions will be used to reduce any employer contributions. At December 31, 2011 and 2010, \$10 and \$10, respectively, were available to reduce future employer contributions. During the year ended December 31, 2011, \$64 was used to reduce employer contributions.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principles and policies that significantly affect the determination of net assets available for plan benefits and results of operations are summarized below.

Basis of Accounting: The financial statements of the Plan are prepared using the accrual basis of accounting.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Participant Notes Receivable: Participant notes receivables are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayment of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balances.

Risks and Uncertainties: The Plan provides for various investment securities. Investment securities are exposed to various risks, such as interest rate, liquidity, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits and participants' individual account balances.

Payment of Benefits: Benefits are recorded when paid.

Investment Valuation and Income Recognition: The investments of the Plan are stated at fair value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend basis.

Fair value is defined as the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. A fair value hierarchy allows the Plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

- Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.
- Level 2: Significant other observable inputs other than level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that is observable or can be corroborated by observable market data.
- Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following are descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of its investments.

Mutual Funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (level 1 inputs).

Collective Trusts: The fair values of participation units held in collective trusts are based on the net asset values reported by the fund managers as of the financial statement dates and recent transaction prices (level 2 inputs). Each collective trust provides for daily redemptions by the Plan at reported net asset values per share, with no advance notice requirement.

Money Market Deposit Account: Fair values of money market deposit account balances have been determined based upon their quoted redemption prices and recent transaction prices of \$1.00 per share (level 2 inputs), with no discounts for credit quality or liquidity restrictions. The objective of the fund provides the safety of principal and current income offered by short term U.S. Government Securities.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments measured at fair value on a recurring basis are summarized below:

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan subject to the provisions of ERISA. In the event of a plan termination, participants will become 100% vested in their accounts.

NOTE 5 - INCOME TAX STATUS

The Internal Revenue Service issued an opinion letter dated March 31, 2008 indicating that the prototype Plan Document adopted by the Plan, as then designed, was in compliance with applicable requirements of the Internal Revenue Code. Although the Plan has been amended from the original prototype document, Plan management believes that the Plan is currently being operated in accordance with the Internal Revenue Code.

NOTE 6 - PARTIES-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor Regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer and certain others. Certain professional fees for the administration and audit of the Plan are paid by the Company on behalf of the Plan. As of December 31, 2010 the Plan invested in collective trusts and a money market fund managed by State Street Global Advisors, an affiliate of State Street, the trustee of the Plan. These investments and related investment income represent parties-in-interest transactions to the Plan. Participant notes receivable of \$149,073 and \$144,798 as of December 31, 2011 and 2010, respectively, constitute party-in-interest investments. The Plan paid administrative fees to State Street totaling \$2,350 for the year ended December 31, 2011.
