401(k) PLAN AND TRUST
NOTES TO FINANCIAL STATEMENTS
December 31, 2011 & 2010

A. Description of Plan

The following summary description of A&A Maintenance Enterprise, Inc. ("the Company") 401(k) Retirement Savings Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

1. ***General.*** The plan is a defined contribution plan covering all future employees of the company who have attained three months of service and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act ERISA of 1974 and all subsequent tax acts.

2. ***Contributions.*** Each year, participants may elect to have Elective Deferral Contributions of pretax annual compensation as defined in the Plan up to a maximum of $16,500 ($22,000 catch-up) as set by federal regulations. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants who have attained age 50 before the end of the plan year are eligible to make catch up contributions. Contributions are subject to certain limitations.

3. ***Participant Accounts.*** Each participant's account is credited with the participant's contribution and an allocation of Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

   The company can make discretionary matching contributions based on a ratio of compensation allocation formula of employees' elective deferral contributions for all persons who were active participants at any time during the payroll period excluding highly compensated employees. Presently the Company is making the matching contributions. All contributions are participant directed.

4. ***Vesting.*** Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings there on is based on years of continuous service. A participant is 100% vested after six years of credited service.

5. ***Investment Options.*** Upon enrollment in the plan participants direct the investment of 100% of the contributions in accordance with Hartford Life Insurance Company's ("Plan Custodian") investment contract. Participants may change their investment options periodically.

A. Description of Plan (Continued)

6. Plan Benefits. Participants are entitled to a lump sum distribution of their accounts at normal retirement age. If a participants account is 100% vested they are entitled to normal retirement after reaching age 65.

7. Participant Loans. Participants may borrow from their fund accounts a minimum of $1,000. The funds are secured by the balance in participants account and bear interest rates that are commensurate with local prevailing rates as determined by the plan administrator. Principal and interest is paid ratably through monthly payroll deductions. Participants may withdraw a 401(k) hardship limited to the Participants elective deferral contributions.

B. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuations

The Plan's investments are stated at fair value.

Payment of Benefits

Benefits are recorded when paid.

Forfeitures

Forfeited accounts will be used to reduce future employer contributions. As of December 31, 2011, there were no forfeited accounts.

Operating Expenses

General administrative expenses are paid from participants accounts, unless employer elects to pay.

C. Fair Value

The Accounting Standards Codification establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements)

The three-tier fair value hierarchy includes the following categories:

Level 1: Quoted market prices in active markets for identical assets or liabilities. An active market for the asset or liability is a market in which the transaction for the asset or liability occurs with sufficient frequency and volume to provide pricing information on an ongoing basis.

Level 2: Observable market-based inputs or unobservable inputs that are corroborated by market data, such as quoted prices for similar assets or liabilities or model-derived valuations.

Level 3: Unobservable inputs that are not corroborated by market data. These inputs reflect a company's own assumptions about the assumptions a market participant would use in pricing the asset or liability.

Pooled separate accounts are stated at fair value as determined by observable Level 1 quoted pricing inputs or by quoted prices for similar assets in active or non-active markets. While some pooled separate accounts may have publicly quote pricing inputs (Level 1), the account values of separate accounts are not publicly quoted and are therefore classified as Level 2 investments.

Participant notes receivable are valued at cost, which approximates fair value.
