Independent Auditor's Report

To the Plan Administrator and Participants
GTE Inc. 401(k) Profit Sharing Plan
Orlando, Florida

We were engaged to audit the accompanying statements of net assets available for benefits of GTE Inc. 401(k) Profit Sharing Plan (the "Plan") as of April 1, 2012, and December 31, 2011 and 2010, and the related statements of changes in net assets available for benefits for the period from January 1, 2012 through April 1, 2012, and for the year ended December 31, 2011, and the supplemental schedule H, line 4i – schedule of assets (held at end of year) as of December 31, 2011. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified or provided by State Street Bank and Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that the trustee holds the Plan's assets and executes transactions. The Plan Administrator has obtained certifications from the trustee regarding the completeness and accuracy of the information summarized in Note 3 that was provided to the Plan Administrator by the trustee as of April 1, 2012, and December 31, 2011 and 2010, and for the period from January 1, 2012 through April 1, 2012, and for the year ended December 31, 2011.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The supplemental schedule is presented for purposes of additional analysis and is not a required part of the financial statements but is required by the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified or provided by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

As discussed in Note 6 to the financial statements, the Plan was merged into Wood Group 401(k) Plan and all Plan assets were transferred to Wood Group 401(k) Plan on April 1, 2012.

GTE Inc. 401(k) Profit Sharing Plan

Notes to Financial Statements

Note 1. Description of Plan

The following description of the GTE Inc. 401(k) Profit Sharing Plan (the "Plan") provides only general information. The Plan was merged into the Wood Group 401(k) Plan ("Wood Plan") and all Plan assets were transferred on April 1, 2012 (see Note 6). Participants should refer to the Plan document for a more complete description of the Plan provisions.

General: The Plan was a defined contribution plan covering substantially all employees of GTE Inc. (the "Company" or "Plan Sponsor") who met the eligibility requirements. Employees became eligible to participate in the Plan on the first day of the payroll period immediately following attaining age 21 and completion of four months of employment. Employees covered by a collective bargaining agreement were not eligible to participate in the Plan. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions: Prior to January 1, 2012, participants were permitted to contribute up to 50% of their pretax annual compensation, as defined in the Plan document, subject to maximum dollar limitations established by the Internal Revenue Service ("IRS"). Participants who had attained age 50 before the end of the Plan year were eligible to make catch-up contributions. Participants were also allowed to make after tax "Roth" contributions and rollover amounts representing distributions from other eligible retirement plans. The Sponsor could, at its discretion, contribute matching contributions and discretionary non-elective employer contributions as determined at the end of each year. Contributions were subject to certain IRS limitations. There were no employer contributions for the period from January 1, 2012 through April 1, 2012, and for the year ended December 31, 2011.

Participant accounts: Prior to the merger (see Note 6), individual accounts were maintained for each Plan participant. Each participant's account was credited with the participant's voluntary contribution, the Plan Sponsor's matching and discretionary contributions, if any, and an allocation of Plan earnings and charged with withdrawals and allocations of Plan losses and administrative expenses. Allocations were based on the participants' compensation or account balances, as defined, in the Plan document. The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account.

Vesting: Participants' were immediately vested in their voluntary contributions plus or minus actual earnings and losses. The Company's discretionary contributions (and earnings or losses thereon) vested according to the following schedule:

Years of Service	Vesting Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Participant accounts became fully vested regardless of the above vesting schedule upon, death, disability, attainment of normal retirement age (65), or upon termination of the Plan.

GTE Inc. 401(k) Profit Sharing Plan

Notes to Financial Statements

Note 1. Description of Plan (Continued)

Payment of benefits: Prior to the merger (see Note 6), benefits were payable to any participant who had attained the Plan's normal retirement age of 65 or older, regardless of years of service. Benefits were also payable if a participant terminated employment before normal retirement age, death or disability, attained the age of 59.5 and were 100% vested were eligible for an in-service distribution of all or a portion of their vested balance. A participant could elect to receive the value of the vested interest in his or her account as a single lump-sum payment. In the event a terminated participant's vested accrued benefit was less than \$5,000, the Plan Administrator could make a lump-sum payment without the election or request of the participant.

Investment options: Upon enrollment in the Plan, a participant was able to direct contributions to a variety of investment choices. Participants could have changed their contribution percentages and their investment options on a daily basis.

Notes receivable from participants: Prior to the merger (see Note 6), participants could borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested balance. Loan terms were a maximum of 5 years except for the purchase or construction of a primary residence, which could have been more than five years. The loans were secured by the vested balance in the participant's account and bore interest at a reasonable fixed rate as determined by the Plan Administrator at the date of each loan. Principal and interest was paid ratably through payroll deductions.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The Plan's financial statements are prepared using the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Investment contracts in common collective trusts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measure attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statement of net assets available for benefits presents the fair value of common collective trusts as well as the adjustment of the fully benefit-responsive fund from fair value to contract value. The statements of changes in net assets available for benefits is prepared on a contract value basis with respect to fully benefit-responsive investment contracts.

Use of estimates: The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of Plan assets and liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Contributions: Contributions from Plan participants and the matching contribution, if any, from the Plan Sponsor are recorded in the year in which the participant contributions are withheld from amounts paid.

GTE Inc. 401(k) Profit Sharing Plan

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Interest income is recorded on the accrual basis as earned. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year. Purchases and sales of securities are recorded on a trade-date basis.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based on the terms of the Plan document.

Payments of benefits: Benefits are recorded when paid.

Administrative expenses: Administrative expenses which were not paid by the Plan Sponsor were paid directly from the Plan assets. Administrative expenses paid by the Plan included investment management services incurred in connection with the administration of the Plan. Other administrative expenses were paid directly by the Sponsor and include audit and legal fees.

Income taxes: U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan, and recognize a tax liability (or asset) if the Plan had taken any uncertain tax positions that more likely than not would not be sustained upon examination by a tax authority. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. The Plan is not subject to income tax examinations by the U.S. federal, state, or local tax authorities for years before 2008.

Accounting pronouncements adopted: In January 2010, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2010-06, *Fair Value Measurements and Disclosures – Improving Disclosures about Fair Value Measurements*, which required new disclosures about transfers of financial assets and liabilities between Levels 1 and 2. ASU 2010-06 also clarified that fair value measurement disclosures were required for each class of financial assets and liabilities, and disclosures about inputs and valuation techniques were required for both Level 2 and Level 3 measurements. These requirements were implemented in 2010. It further clarifies that the reconciliation of Level 3 measurements should separately present purchases, sales, issuances, and settlements instead of netting these changes. The guidance related to Level 3 reconciliation measurements is effective for periods beginning on or after December 15, 2010, and has been adopted.

Subsequent events: The Plan administrator has evaluated subsequent events through October 18, 2012, the date the financial statements were available to be issued.

Note 3. Information Certified and Provided by Trustee

The following is a summary of the Plan's asset information, as of April 1, 2012, and December 31, 2011 and 2010, and for the period from January 1, 2012 through April 1, 2012, and the year ended December 31, 2011, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by State Street Bank and Trust Company ("State Street"), the trustee under the Plan, and furnished to the Plan administrator. The Plan administrator has obtained certifications from the trustee that information provided to the Plan administrator by the trustee related to the following assets and asset activity is complete and accurate to the best of their knowledge. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to this information, except for comparing such certified information to information included in the Plan's financial statements and supplemental schedule.

The following table presents the assets held by the Plan as of December 31, 2011 and 2010, that were certified by the trustee. Due to the merger of the Plan, there were no assets held by the Plan as of April 1, 2012 (see Note 6). Single assets representing 5% or more of the Plan's net assets are separately identified:

Note 3. Information Certified and Provided by Trustee (Continued)

During the period from January 1, 2012 through April 1, 2012 and for the year ended December 31, 2011, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value as follows:

	April 1, 2012	December 31, 2011
Shares of registered investment companies (mutual funds)	\$ 200,693	\$ (188,183)
Common collective trusts	15,155	1,357
	<u>\$ 215,848</u>	<u>\$ (186,826)</u>

Note 4. Fair Value Measurements

FASB Accounting Standards Codification ("ASC") 820, *Fair Value Measurements*, established the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 – Inputs to the valuation methodology include:
 - Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Shares of registered investment companies (mutual funds): Valued at the closing market price of the fund, which represents the net asset value ("NAV") of shares held by the Plan at year end.

Common collective trusts: Valued at NAV, based on the fair value of the underlying investments.

GTE Inc. 401(k) Profit Sharing Plan

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods were appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. There have been no changes in the methodologies used at December 31, 2011 and 2010.

The following table set forth by major type and level, within the fair value hierarchy, the Plan's assets measured at fair value as of December 31, 2011 and 2010:

- (a) The investment objectives of these funds were to preserve principal while maintaining a rate of return comparable to other similar fixed income investments without market value fluctuations. The Stable Value Fund attempts to achieve these objectives by investing in principally guaranteed investment contracts (GICs) issued by insurance companies, investment contracts issued by banks, synthetic investment contracts (SICs) issued by banks, insurance companies and other issuers and securities supporting such SICs, as well as other similar instruments that were intended to maintain a constant net asset value while permitting participant-initiated benefit responsive withdrawals for certain events.

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

- (b) The objective of this fund is to preserve principal while maintaining a rate of return comparable to other similar fixed income investments without market value fluctuations.

Note 5. Tax Status

Effective January 1, 2009, the Plan adopted a non-standardized form of a prototype plan sponsored by ADP Inc. The prototype plan had received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan's opinion letter had been relied upon by this Plan. The Plan administrator believes the Plan was designed and was operated in compliance with the applicable provisions of the Internal Revenue Code.

Note 6. Plan Merger and Termination

Effective April 1, 2012, the Plan was merged into the Wood Group 401 (k) Plan and all Plan assets were transferred to the Wood Group 401(k) Plan.

Plan participants' prior years of service will be recognized under the Wood Plan for vesting, eligibility and matching purposes and there will be no reduction in the vested portion of any participants' accounts as a result of the merger. Subsequent to the merger, the Plan, which had no remaining net assets available for benefits, ceased to exist.

Note 7. Parties-In-Interest

Section 3(14) of ERISA defines a party-in-interest to include, among others, fiduciaries or employees of the Plan, any person who provides services to the Plan, or an employer whose employees were covered by the Plan. Certain Plan investments were managed by State Street. State Street was the trustee as defined by the Plan and, therefore, these transactions qualified as party-in-interest transactions. Fees paid directly by the Plan for investment management services were not significant for the period from January 1, 2012 through April 1, 2012 and for the year ended December 31, 2011.

Certain employees of the Company provided administrative services for the Plan and were not reimbursed for their services from the Plan. Certain other administrative expenses were paid by the Company on behalf of the Plan. These amounts are not material to the financial statements.

Note 8. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of the net assets available for benefits per the financial statements to the net assets per the Form 5500 as of April 1, 2012, and December 31, 2011 and 2010:
