A-C ELECTRIC PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1. Plan Description

The following description of the A-C Electric ("Company") Profit Sharing Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering all employees of the Company who have one year of service and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Investment directions: The Plan's investments are directed by the trustees of the Plan.

Contributions: Each year, the Company makes discretionary contributions to the Plan at the option of the Company's board of directors. Participant contributions are not allowed. Contributions are subject to certain limitations.

Participant accounts: Each participant's account is credited with an allocation of Plan earnings or loss, and charged with their individual life insurance premiums. Active participants' accounts are credited with an allocation of the Company's contribution and forfeitures of terminated participants' non-vested accounts. Allocation of the Company's contribution and forfeitures is based upon length of service and compensation, and allocation of earnings or loss is based upon account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Vesting: Vesting is based on length of service. A participant is 100 percent vested after six years of credited service.

Payment of benefits: On termination of service a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount, or in monthly or yearly amounts as determined by the participant.

Life insurance: The Plan allows the participants to purchase life insurance with the premiums to be paid from their accounts. The maximum amount of life insurance that can be purchased is equal to the lesser of one year's compensation or $60,000.

Forfeited accounts: At March 31, 2012 and 2011, forfeited non-vested accounts totaled $7,692 and $23,994, respectively. These accounts will be reallocated to active participants in the same manner as employer contributions.

Note 2. Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared using the accrual method of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment valuation and income recognition: The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

NOTES TO FINANCIAL STATEMENTS

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: All expenses of maintaining the Plan are paid by the Company.

Subsequent Events: The Plan Administrator has evaluated subsequent events through October 26, 2012, the date the financial statements were available to be issued.

Note 3. Investments

The following presents investments that represent 5% or more of the Plan's net assets:

	2012	2011
Mutual funds		
Oakmark Equity & Income Fund	$ 2,856,455	$ 2,753,429
Bruce Fund	1,783,317	1,739,015
Guggenheim Mid Cap Value Class A	1,281,217	1,334,865
Cash surrender value of life insurance	426,932	435,714
	$ 6,347,921	$ 6,263,023

During the year ended March 31, 2012 the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $26,983 as follows:

Mutual funds	$ (4,847)
Cash surrender value of life insurance	31,830
Net appreciation	$ 26,983

Note 4. Fair Value Measurements

The Fair Value Measurements and Disclosures topic of the FASB Accounting Standards Codification establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at March 31, 2012 or 2011.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the plan at year end.

Cash surrender value of life insurance: Valued based upon the amount that would be received upon surrender.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of March 31, 2012 and 2011.

	Assets at Fair Value as of March 31, 2012

Level 3 Gains and Losses

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended March 31, 2012:

	Cash surrender value of life insurance
Balance, beginning of year	$ 435,714
Unrealized gains relating to instruments still held at the reporting date	31,830
Purchases, sales, issuances and settlements (net)	(40,612)
Balance, end of year	$ 426,932

Note 5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Company may determine.

Note 6. Tax Status

The Internal Revenue Service has determined and informed the Company, by a letter dated July 7, 2010, that the Plan and related Trust are designed in accordance with applicable sections of the Internal Revenue Code.

Accounting Principles Generally Accepted in the United State of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

Note 7. Plan Amendments

On April 1, 2010, the Plan was amended to require mandatory distributions to terminated members with account balances less than $5,000, and to allow in service distributions to active members starting at age 70 as of the first plan year beginning on or after July 1, 2007.

NOTES TO FINANCIAL STATEMENTS

Note 8. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at March 31, 2012 and 2011 to Form 5500:

Net assets available for benefits per the financial statements	$ 7,182,762	$ 8,500,214
Amounts allocated to withdrawing participants	(127,107)	(146,567)
Net assets available for benefits per the Form 5500	$ 7,055,655	$ 8,353,647

The following is a reconciliation of benefits paid to participants per the financial statements for the year ended March 31, 2012, to Form 5500:

Benefits paid to participants per the financial statements	$ 1,706,163
Add: Amounts allocated to withdrawing participants at March 31, 2012	127,107
Less: Additional amounts allocated to withdrawing participants at March 31, 2011	(340,513)
Less: Minimum required distribution paid at March 31, 2012	(1,234,390)
Less: Amounts allocated to withdrawing participants at March 31, 2011	(146,567)
Add: Reduction in amounts allocated to withdrawing participants at March 31, 2011	15,307
Benefits paid to participants per Form 5500	$ 127,107

Note 9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
