Report of Independent Auditors

To the Administrative Committee
Avaya Government Solutions Inc. 401(k) Plan

We were engaged to audit the Statements of Net Assets Available for Benefits of the Avaya Government Solutions Inc. 401(k) Plan as of August 18, 2011 and December 31, 2010, and the Statement of Changes in Net Assets Available for Benefits for the period ended August 18, 2011, and the supplemental schedule of Summary of Net Assets as of August 18, 2011 as listed in the accompanying index. These financial statements and schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5 which was certified by Fidelity Management Trust Company (FMTTC), the trustee of the Plan, except for comparing the information with the related information included in the financial statements and the supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the period ended August 18, 2011 and year ended December 31, 2010, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedule taken as a whole. The form and content of the information included in the financial statements and schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Avaya Government Solutions Inc. 401(k) Plan
Notes to Financial Statements

1. Description of Plan

The following description of the Avaya Government Solutions Inc. 401(k) Plan provides only general information. Participants should refer to the Plan agreement for the complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering employees of Avaya Government Solutions Incorporated. The Plan was established in December 1985 and has been amended from time to time including January 1, 2007.

All full-time employees and part-time employees, excluding interns, residents of Puerto Rico, leased employees, and those covered by a collective bargaining agreement, are eligible to participate in the Plan. Eligibility is restricted for new employees, who are not permitted to participate until the first day of the first calendar quarter following the date of hire. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Administration of Plan Assets

The Plan is administered under a service agreement with Fidelity Management Trust Company (the Trustee).

Contributions

Participants may contribute up to 60% of their annual compensation to the extent that their contributions comply with Internal Revenue Code (IRC) limitations. These contributions are not subject to Federal income taxes until withdrawn, in accordance with section 401(k) of the IRC. Catch-up contributions are also permitted for participants who reach 50 years of age by the end of the year, but are not eligible for matching contributions.

The Plan provides for Company matching and discretionary profit sharing contributions. Both of these contributions are at the Company's discretion. The Company's matching contribution is based on the amount and rate of salary-deferral contributions. In 2011, the Company matching is 100% of the first 2% and 50% of the next 1%.

Each year the Company decides the amount, if any, of its discretionary profit sharing contribution. The Company profit sharing contribution is calculated as a percentage of eligible gross pay. For 2011 and 2010, the Company made no discretionary profit sharing contributions.

Avaya Government Solutions Inc. 401(k) Plan
Notes to Financial Statements

1. Description of Plan (Continued)

Contributions (Continued)

The Plan also allows participants to make rollover contributions from other tax qualified plans, which will always be fully vested and nonforfeitable. Rollover contributions are included in the accompany financial statements as a component of participant contributions.

Participants direct the investment of their contributions, Company matching contributions, and Company discretionary contributions into various investment options offered by the Plan. The Plan currently offers mutual funds as core investment options and over 150 funds in the Mutual Fund Window for participants.

Participants Accounts

A separate account is maintained for each investment option of a participant by type of contribution. Each participant's account is credited with the participant's salary-deferral contributions, rollovers, employer matching contributions, employer profit sharing contributions, and Plan earnings (losses). Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their salary-deferral contributions, employer matching and rollovers plus actual earnings thereon.

Participant Loans

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to 50% of their vested account balance. Loan transactions are treated as transfers between the investment funds and the participant loan fund. The loans are collateralized by the balance in the participant's account and bear interest at the prime rate plus 1% on the date of the loan. Principal and interest are paid ratably through payroll deductions over a period not to exceed five years or up to 10 years for loan related to the purchase of a Participant's primary resident.

Forfeiture Provisions

Forfeitures may be used to offset either future employer contributions and/or administrative expenses of the Plan. During 2011 and 2010, employer contributions were reduced by \$432.91 and \$263,818 respectively, from forfeited non-vested accounts.

**Avaya Government Solutions Inc. 401(k) Plan
Notes to Financial Statements**

1. Description of Plan (Continued)

Payment of Benefits

On termination of service or retirement, a participant may elect to receive payment of their account balance in a lump sum amount from the trust fund. Participants with vested balances in excess of \$1,000 may postpone payments of benefits until required by law to receive minimum required distributions. In the event that a participant dies before retirement, the participant's beneficiary will receive the entire account balance in a lump sum. Participants qualifying for hardship withdrawal may receive portion of their contributions, plus investment returns earned thereon.

Plan Termination

Although it has not expressed any intentions to do so, the Company has the right under the Plan to discontinue its contributions at any time, and to terminate the Plan subject to the provision set forth in ERISA. In the event of Plan termination, participants become fully vested in their account balances.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

As described in Financial Accounting Standards Board Staff Position, FSP AAG INV-1 and SOP 94-4-1, *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans* (the FSP), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required by the FSP, the Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a fair value basis.

2. Summary of Accounting Policies (Continued)

Basis of Accounting (Continued)

The financial statements of the Plan are prepared under the accrual method of accounting.

As described in Financial Accounting Standards Board Staff Position, FSP AAG INV-1 and SOP 94-4-1, *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans* (the FSP), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required by the FSP, the Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a fair value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and, if any, disclosure of contingent assets and liabilities. Such estimates include those regarding fair value. Actual results may differ from those estimates.

Risks and Uncertainties

The Plan provides for various investment options. Investment securities are exposed to various risks, such as interest, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

Avaya Government Solutions Inc. 401(k) Plan
Notes to Financial Statements

2. Summary of Accounting Policies (Continued)

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Quoted market prices are used to value investments. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year-end. Participant loans are valued at their outstanding balances, which approximate fair value. The fair value of the guaranteed investment contract is calculated by discounting the related cash flows based on current yields of similar instruments with comparable durations.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Administrative Expenses

During the period ended August 18, 2011 and year ended December 31, 2010, administrative expenses totaling \$12,833 and \$23,333, respectively.

Payment of Benefits

Benefits are recorded when paid.

3. Tax Status

The Company adopted a Prototype non-standardized Profit Sharing Plan (Prototype Plan), which received a favorable opinion letter from the Internal Revenue Service (IRS) on December 31, 2001. The letter stated that the Prototype Plan is designed in accordance with applicable standards on the Internal Revenue Code. The Company believes that the Plan is currently designed and being operated in compliance with the applicable requirements. Therefore, earnings on contributions to the Plan are not subject to tax under present income tax laws and contributions to the Plan are not subject to Federal income tax to the employees until distribution from the Plan. Management believes that amendments adopted since receipts of the determination letter do not affect the tax status of the Plan.

4. Investments

Single investments that represent 5% or more of the Plan's net assets available for benefits are identified as follows:

	<u>8/18/11</u>	<u>12/31/10</u>
Dodge & Cox Stock	\$ 0	\$ 6,877,444
FID Contrafund	\$ 0	\$ 6,890,205
Fidelity Retire MMKT	\$ 0	\$ 7,178,792

5. Financial Information Certified by the Trustee

The Company has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee has certified that the following items in the accompanying financial statements are completed and accurate: investment balances at August 18, 2011 and December 31, 2010, interest and dividends and net appreciation in fair value of mutual funds for the period ended August 18, 2011 and all related financial information provided in the notes and supplemental schedule.

6. Related Party Transaction

Certain Plan investments are shares of mutual funds managed by the Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee, as defined by the Plan, therefore, these transactions qualify as party-in-interests transactions.

7. Reconciliation of Financial Statements to Form 5500

There are no significant differences between net assets and changes in net assets per Form 5500, Schedule H and these financial statements for the period ended August 18, 2011.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

9. Fair Value Measurements

The plan adopted the provisions of FASB ASC 820 (formerly SFAS No. 157, "Fair Value Measurements"), effective January 1, 2009. Under FASB ASC 820, fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (i.e., the "exit price") in an orderly transaction between market participants at the measurement date.

In determining fair value, the Plan uses various valuation approaches. FASB ASC 820 established a fair value hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are those that market participants would use in pricing the assets or liability based on market data obtained from sources independent of the Plan. Unobservable inputs reflect the Fund's assumption about the inputs market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. The fair value hierarchy is categorized into three levels based on the inputs as follows:

Level 1 – Valuation based on unadjusted quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access. Valuation adjustments and block discounts are not applied to Level 1 securities. Since valuations are based on quoted prices that are readily and regularly available in an active market, valuation of these securities does not entail a significant degree of judgment.

Level 2 – Valuations based on quoted prices in markets that are not active or for which all significant inputs are observable, either directly or indirectly.

Level 3 – Valuations based on inputs that are unobservable and significant to the overall fair value measurement.

9. Fair Value Measurements (Continued)

The availability of valuation techniques and observable inputs can vary from security to security and is affected by a wide variety of factors, including the type of security, whether the security is new and not yet established in the marketplace, and other characteristics particular to the transaction. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Those estimated values do not necessarily represent the amounts that may be ultimately realized due to the occurrence of future circumstances that cannot be reasonably determined. Because of the inherent uncertainty of valuation, those estimated values may be materially higher or lower than the values that would have been used had a ready market for the securities existed. Accordingly, the degree of judgment exercised by the Plan in determining fair value is greatest for securities categorized in Level 3. In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety is determined by the lowest level input that is significant to the fair value measurement.

Fair value is a market-based measure considered from the perspective of a market participant rather than an entity-specific measure. Therefore, even when market assumptions are not readily available, the Plan's own assumptions are set to reflect those that market participants would use in pricing the asset or liability at the measurement date. The Plan uses prices and inputs that are current as of the measurement date, including during periods of market dislocation. In periods of market dislocation, the observability of prices and inputs may be reduced for many securities. This condition could cause a security to be reclassified to a lower level within the fair value hierarchy.

The Plan's assets recorded at fair value have been categorized based on a fair value hierarchy in accordance with FASB ASC 820.

Input Levels by Investment Category:

<u>Investment Category</u>	<u>Fair Value</u>	<u>Level 1 Inputs</u>	<u>Level 2 Inputs</u>	<u>Level 3 Inputs</u>
Mutual Funds	\$ 0	\$ 0	\$ 0	\$ 0
Participant Loans	0	0	0	0
Total	<u>\$ 0</u>	<u>\$ 0</u>	<u>\$ 0</u>	<u>\$ 0</u>

10. Subsequent Event

Management has adopted ASC 855, subsequent events (formerly SFAS No. 165) effective for interim and annual periods ending after June 15, 2010. Management has evaluated events occurring after the Balance Sheet date through September 15, 2012, and determined that no material transactions have occurred that would impair the financial position or results of operations as of August 18, 2011.

11. Merger of Plan Assets

This is the final report and tax return for this plan. All assets of this plan were merged into the Avaya Savings Plan for Salaried Employees on August 18, 2011, and will report hereafter under that plan.
