MICRO ANALOG, INC. 401(k) PLAN
Notes to Financial Statements
For the Year Ended December 31, 2011

NOTE 1—DESCRIPTION OF PLAN

The following description of the MICRO ANALOG, INC. ("Company") 401(k) Plan ("the Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General
The Plan is a defined contribution plan covering all employees of the Company who have one year of service and have worked at least 1,000 hours during that 12-month period, and are twenty-one years of age or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan engaged American United Life Insurance Company® (AUL), a OneAmerica® company, as its plan custodian and record keeper.

Contributions
Each year, participants may contribute from 1% to 100% of their pretax annual compensation, as defined by the Plan. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers twenty-six mutual funds and a group annuity contract as investment options for the participants. The Company may make a matching contribution of up to 25% of the participant's elective deferral. The Company's matching contribution is limited to 6% of a participant's compensation. The matching Company contribution is invested directly into the plan. Additional amounts may be contributed at the option of the Company's board of directors and invested in portfolio investments as directed by the participants. Contributions are subject to certain limitations.

Participant Accounts
Each participant's account is credited with the participant's contribution and an allocations of the Company's contribution, Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined by the Plan. The participant's vested account provides the amount of benefits currently available for distribution.

Vesting
Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested with respect to the Company's matching contribution after six years of credited service.

NOTE 1—DESCRIPTION OF PLAN - Continued

Participant Loans
Participants may borrow from their fund accounts a minimum of $1,000, and up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at reasonable rates, which are commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest is paid ratably through periodic payroll deductions. There were participant loans of $14,721, and $3,424 as of December 31, 2011 and 2010, respectively.

Payment of Benefits
On termination of service due to death, disability or retirement, payments will start as soon as administratively feasible following the date on which a distribution is requested. For termination of service due to other reasons, payments will start as soon as administratively feasible following the date on which a distribution is requested.

Forfeited Accounts
At December 31, 2011, there was no forfeited non-vested accounts and inactive participant accounts. These accounts will be used to reduce future employer contributions.

NOTE 2—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting
The financial statements of the Plan are prepared on the accrual basis of accounting.

Estimates
The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition
The Plan's investments are stated at fair value. Quoted market prices are used to value investments. Shares of mutual funds are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Payments of Benefits
Benefits are generally recorded when paid.

NOTE 2—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Subsequent Events
The Plan evaluated subsequent events through September 21, 2012, the date the financial statements were available to be issued.

Reclassifications
Certain reclassifications have been made to the 2010 financial statements to conform to the 2011 presentation. These changes have no impact on the previous reported net assets available for benefits.

NOTE 3—INVESTMENTS

The following presents investments that represent 5% or more of the Plan's net assets as of December 31, 2011.

All investments are participant directed. During 2011, The Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) depreciated in fair value by $22,367 as follows:

Mutual fund, net depreciation in value	($ 22,367)

NOTE 4—FAIR VALUE MEASUREMENTS

Financial Accounting Standards (FASB) Accounting Standards Codification (ASC) 820, "Fair Value measurement and disclosures", provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1- Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2- Inputs to the Valuation methodology include:

- Quoted prices for similar assets of liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (Contractual) term, the level 2 input must be observable inputs and minimized the use of unobservable inputs.

Level 3- Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation Techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes to the methodologies used at December 31, 2011, and 2010.

- Mutual Funds. Valued at the net asset value (NAV) of shares held by the plan at year end.

- Group annuity contract. Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit- worthiness of the issuer.

NOTE 4—FAIR VALUE MEASUREMENTS – Continued

- Participant loans. Valued at amortized cost, which approximates fair value.

The preceding methods described may produce fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011, and 2010:

	Assets at Fair Value as of December 31, 2011			
	Level 1	Level 2	Level 3	Total

The Following table sets forth a summary of changes in the fair value of the plan's level 3 assets for the year ended December 31, 2011, and 2010:

NOTE 5—INVESTMENT CONTRACT WITH INSURANCE COMPANY

In 2001, the Plan entered into a group annuity contract with American United Life Insurance Company® (AUL), a OneAmerica® company, AUL maintains unallocated contributions in a general fixed interest account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the Plan by AUL. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The average quarterly yield and crediting interest rates was approximately 3.1% for 2011, and 2010. The crediting interest rate is based on an agreed-upon formula with the issuer, but may not be less than three percent. Such interest rates are reviewed periodically for resetting.

NOTE 6—INFORMATION PREPARED AND CERTIFIED BY THE PLAN CUSTODIAN

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by the plan custodian, American United Life Insurance Company® (AUL), a OneAmerica® company.

Investments, fair value as of December 31, 2011, and 2010:

	2011	2010
Mutual funds and registered securities	$978,367	$951,668
Group annuity contract	193,496	110,027
Investment gain (loss)	(22,367)	100,086
Administration expenses	42	24

NOTE 7—PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become fully vested in their employer contributions.

NOTE 8—TAX STATUS

The Company adopted a prototype plan and trust sponsored by American United Life Insurance Company® (AUL), a OneAmerica® company, on April 2, 2001, effective for the plan year starting January 1, 2001. The Internal Revenue Service has ruled that the prototype plan that the Company had adopted, qualifies under Section 401(a) of the Internal Revenue Code (IRC) and, therefore, the related trust is not subject to tax under present income tax laws. Employee contributions qualify as "cash or deferred" contributions under Section 401(k) of the IRC. Once qualified, the Company who adopted the prototype plan is required to operate in conformity with the IRC to maintain its qualification. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. The Company believes the Plan continues to qualify under IRC and the related trust is tax exempt.

NOTE 9—RISK AND UNCERTAINTIES

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect participants' account balances and the amounts reported in the statement of net available benefits.

Revenue Sharing Formula:

The investment options of the Plan include various portfolios within an AUL separate account. The separate account in turn invests in investment portfolios of certain open-end management investment companies. AUL receives indirect compensation from these investment companies for the services provided by AUL.

The compensation received by AUL is computed by each investment company by multiplying the daily account balance of the AUL separate account's interest in a particular portfolio by a predetermined percentage rate negotiated with the investment company. This indirect compensation is not charged to the plan or participants accounts but is paid directly by the investment company.
