Note 1 - Description of Plan

The following brief description of the FHR Renewables 401(k) Plan (Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Flint Hills Resources Renewables, LLC (Company) and its affiliates. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility

Employees are eligible to participate in the Plan if they have completed one month of service and are 18 years of age.

Entry Date

Employees may enter the Plan on the first day of the month coinciding with or next following the date on which the eligibility requirement is met.

Contributions

The participant’s contributions are made through a salary reduction under which the participant may defer up to 100% of pretax annual compensation, as defined by the Plan, not to exceed dollar limitations imposed by the Internal Revenue Service. The Plan allows participants to designate contributions as Roth 401(k) contributions. The Plan instituted automatic enrollment for those employees hired on or after September 8, 2010, in which the Plan Sponsor will automatically withhold 3% of the employee’s compensation upon becoming eligible to participate unless otherwise elected by the participant. Participants may also contribute amounts representing distributions from other qualified plans. The Company contributes a matching amount equal to 100% of the first 1% of elective deferral contributions, plus 50% of elective deferral contributions greater than 1% up to 6% of Plan compensation.

Investment Options

Upon enrollment in the Plan, a participant may direct employee and employer contributions to any of the funds offered by the Plan. When a participant does not make an investment election, contributions are directed into a life path fund based upon their projected retirement date. Participants may change their investment options daily.

Participant Accounts

Each participant’s account is credited with the participant’s contribution, an allocation of the employer’s contributions and Plan earnings and losses. Allocations are based on participant’s compensation or account balances, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Vesting

Participants are immediately vested in all contributions plus actual earnings thereon.

Plan Benefits

A participant is entitled to benefits as soon as administratively possible after one of the following events:

a. Retirement
b. Death
c. Disability
d. Termination or separation from service
e. In-service distribution after age 59 1/2

Vested account balances under $1,000 are automatically distributed in a lump sum payment. Any terminated participants with a balance between $1,000 and $5,000 can still be automatically paid out if their balance is rolled into a qualified Individual Retirement Account.

Death Benefit

The designated beneficiary is entitled to 100% of the participant's account balance if the participant was employed at the time of death. If the participant was not employed at the time of death, the designated beneficiary is entitled to a death benefit distribution equal to the participant's vested account balance.

Notes Receivable from Participants

Notes may be made from the participants' accounts upon written application. Participants may borrow up to 50% of their vested account balance up to a maximum of $50,000, with a minimum of $1,000. All notes are repaid in equal amounts over the repayment term. Repayment terms range from one to five years except for notes to acquire a residence, in which case the loan may be longer. The notes are secured by the balance in the participant's account and bear interest at a commercially reasonable rate as predetermined by the Administrative Committee. Principal and interest are repaid ratably through weekly payroll deductions.

Note 2 - Significant Accounting Policies and Use of Estimates

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair Value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 8 for discussion of fair value.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statements of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Purchases and sales of securities are recorded on the trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable are reclassified as distributions based upon the terms of the loan policy.

Payments of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Fees

Administrative expenses of the Plan are paid by the Plan, as provided in the Plan document, and by the Plan sponsor.

Subsequent Events

The Plan has evaluated subsequent events through November 13, 2012, the date which the financial statements were available to be issued.

Note 3 - Investments

The individual investments that represent 5% or more of the net assets available for benefits as of January 12, 2012 and December 31, 2011, are as follows:

	2012	(Unaudited) 2011
Investments in pooled separate accounts, at fair value		
Principal Lifetime 2020	*	$ 203,555
Principal Lifetime 2025	*	142,836
Principal Lifetime 2030	*	268,567
Principal Lifetime 2035	*	364,003
Principal Lifetime 2040	*	323,363
Principal Lifetime 2045	*	277,043
Principal Lifetime 2050	*	197,348

* Investment balance less than 5% of the Plan's net assets for the applicable year.

The following represents the net appreciation (depreciation) in fair value of investments (including gains and losses on investments bought and sold, as well as held during the period) for the period January 1, 2012 through January 12, 2012:

	2012
Pooled separate accounts	$ 49,823
Mutual funds	2,661
Common collective fund	9
Net appreciation fair value of investments	$ 52,493

Note 4 - Information Certified by the Plan Custodian

The Plan administrator has elected the method of compliance permitted by Section 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Accordingly, as permitted under such election, no independent audit procedures were performed with respect to the information certified by the Delaware Charter Guarantee & Trust Company d/b/a Principal Trust Company (Principal Trust Company), the custodian, as of and for the period ended January 12, 2012.

The Plan custodian has certified its statement of accounts as of and for the period ended January 12, 2012. The statement of accounts includes beginning and ending balances of investments held and notes receivable from participants and detail of all transactions during the period, including investment earnings (losses) and interest income on notes receivable from participants.

Note 5 - Tax Status

The Plan uses a prototype plan document sponsored by Principal Life Insurance Co. The Principal Life Insurance Co. received an opinion letter from the Internal Revenue Service (IRS), dated March 31, 2008, which states that the prototype document satisfies the applicable provisions of the Internal Revenue Code (IRC). The Plan itself has not received a determination letter from the IRS. However, the Plan's management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income tax has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of January 12, 2012, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress.

Note 6 - Related Party and Party-in-Interest Transactions

For the period ended January 12, 2012 and the year ended December 31, 2011, certain Plan investments are shares of pooled separate accounts managed by Delaware Charter Guarantee & Trust Company d/b/a Principal Trust Company. Delaware Charter Guarantee & Trust Company d/b/a Principal Trust Company is the custodian to the Plan; and therefore, these transactions qualify as exempt party-in-interest transactions.

Note 7 - Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2011 to Form 5500:

Net assets available for benefits per financial statements	$ 2,206,415
Adjustment from contract value to fair value for fully benefit-responsive investment contract	400
Net assets per the form 5500	$ 2,206,815

The following is a reconciliation of investment income (loss) per the financial statements for the period ended January 12, 2012 to Form 5500:

Investment income per financial statements	$ 52,501
Net change in adjustment from contract value to fair value	(400)
Earnings on investments per 5500	$ 52,101

Note 8 - Fair Value Measurements

Topic ASC 820, "Fair Value Measurements and Disclosures", establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to valuation methodology include: • Quoted prices for similar assets or liabilities in active markets; or • Quoted prices for identical or similar assets or liabilities in inactive markets; or • Inputs other than quoted prices that are observable for the asset or liability; or • Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at January 12, 2012 and December 31, 2011.

Mutual funds: Valued at the quoted net asset value (NAV) of shares held by the plan at year end.

Pooled separate accounts: Valued at fair value based on the net asset value (NAV) of the observable market prices of the underlying assets within that account.

Common collective fund: Valued at fair value based on the net asset value (NAV) of the observable market prices of the underlying assets in the fund.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011.

The Plan adopted Financial Accounting Standards Board Update (FASB ASU) 2009-12, “Fair Value Measurement and Disclosure (Topic 820): Investments in Certain Entities that Calculate Net Asset Value per Share (or its Equivalent)”. The FASB ASU requires disclosures of the attributes of investments such as the nature of any restrictions on the redemption at the measurement date, any unfunded commitments, and the investment strategy of the investee, in certain entities that calculate a net asset value per share and do not have a readily determinable fair value.

The following table sets forth the disclosures of attributes for the fair value measurement of investments in certain entities that calculate net asset value per share (or its equivalent) at December 31, 2011:

	2011 (Unaudited)			
	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Common collective fund				
Stable value fund	$ 17,432	$ -	Daily*	Daily*
Multi-Strategy				
Pooled separate accounts	$ 2,043,233	$ -	Daily	Daily

* Withdrawals from the Fund for benefit payments and participant transfers to noncompeting options to be paid to Plan participants shall be made within 30 days after written notification has been received and are considered as made immediately after the next valuation date subsequent to the custodian's approval. Withdrawals, other than for benefit payments and participant transfers to noncompeting options, require a 12-month (one year) advance written notice. The custodian may choose to disburse withdrawals in less than the required one-year period if, in the custodian's discretion, it determines that such a disbursement is in the best interest of the Fund as a whole.

The objective of the stable value fund is to provide preservation of capital, relatively stable returns consistent with its comparatively low risk profile, and liquidity for benefit-responsive payments. The stable value fund seeks to achieve this objective by investing primarily in a variety of high quality stable value investment contracts (the performance of which may be predicated on underlying fixed income securities), as well as cash and cash equivalents. It is intended that the stable value fund's stable value investment contracts will maintain a minimum weighted average credit quality rating of A or better. The underlying fixed income securities must be rated investment grade and meet issuer diversification guidelines. The duration of the Fund will not exceed four years.

The multi-strategy pooled separate account (PSA) is made up of sub-accounts that hold different types of investments that have a variety of investment objectives. The PSA requires advance notice and the redemption will occur on the later of the date specified in such notice or the date of receipt of such notice. The PSA reserves the right to defer any withdrawal requests if the withdrawal involves the sale of an investment for which there is not adequate market for a reasonable period not to exceed 60 days.

Note 9 - Plan Termination

The Company adopted a resolution to merge this Plan with the Koch Industries, Inc. Employees' Savings Plan. Effective January 12, 2012, all assets and participant notes receivable of the FHR Renewables 401(k) Plan were transferred out of the Plan and into the Koch Industries, Inc. Employees' Savings Plan. Flint Hills Resources Renewables, LLC is an affiliate of Koch Industries, Inc., the Plan Sponsor of the Koch Industries, Inc. Employees' Savings Plan.
