Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Independent Auditor's Report

To the U.S. Foodservice, Inc.
Retirement Administration Committee
Rykoff-Sexton, Inc. Pension Plan

We were engaged to audit the Rykoff-Sexton, Inc. Pension Plan (the "Plan") statements of net assets available for benefits and statements of changes in net assets available for benefits as of and for the years ended April 30, 2012 and 2011, and the statements of accumulated plan benefits and statements of changes in accumulated plan benefits as of and for the years ended May 1, 2011 and 2010. These financial statements are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Notes E and F, which was certified by The Northern Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the Trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the Trustee as of and for the year ended April 30, 2012 and 2011 that the information provided to the plan administrator by the Trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements taken as a whole. The form and content of the information included in the financial statements, other than that derived from the information certified by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTE A - DESCRIPTION OF THE PLAN

The following brief description of the Rykoff-Sexton, Inc. Pension Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

General

The Plan is a defined benefit plan that became effective on December 5, 1983. Effective April 30, 1998, the Plan was amended and all benefit accruals under the Plan were closed and all accrued benefits were frozen. Accordingly, no employee will become a participant in the Plan after April 30, 1998. The Plan covers substantially all non-union salaried and clerical employees of Rykoff-Sexton, Inc. (a wholly-owned subsidiary of US Foods, Inc., the “Employer”, formerly U.S. Foodservice, Inc.), and its wholly owned subsidiaries as of April 30, 1998, and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Trustee Agreement

The Plan operates under a trustee agreement with The Northern Trust Company (the “Trustee”).

Participation

Employees became participants under the Plan on the first day of the month when they attained age 21 and completed 1 year of eligible service, as defined by the Plan.

Benefits

Participants employed on December 5, 1983, or thereafter, with 5 or more years of vested service are entitled to monthly pension benefits beginning at normal retirement age 65 equal to 1% of the average of the highest 5 years of annual compensation times years of participation through April 30, 1998, as defined by the Plan.

The Plan permits normal early retirement at age 55 and after, at reduced benefits. The Plan also contains provisions for late retirement, total and permanent disability, surviving

spouse, termination, and death benefits, all of which may affect the calculation of the amount of the participant's benefit payments. Participants may elect to receive their pension benefits in the form of an annuity for a 10 or 15-year term or until the participant's death, as a joint and survivor annuity or a lump-sum amount upon retirement or termination.

Death and Disability Retirement Benefits

If an active participant dies, a death benefit equal to the value of the participant's accumulated pension benefit is paid to the participant's beneficiary at normal retirement age. Active participants who become totally and permanently disabled and have 5 years of vesting service will be entitled to receive a monthly disability pension benefit after reaching age 55 or the date the participant becomes disabled, whichever is later.

NOTE B - PLAN MERGER

During the Plan's 2012 fiscal year, US Foods, Inc. adopted a plan to merge all its frozen defined benefit pension plans into a single plan. The former Allen Foods Pension Plan was chosen to be the successor plan and its name was changed to Pension Plan for Legacy Companies of US Foods ("Legacy Plan"). Effective April 30, 2012, the Plan was merged into the Legacy Plan. At the end of the day on April 30, 2012 participants in the Plan began participating in the Legacy Plan, resulting in a transfer of their total plan assets of approximately \$131 million into the Legacy Plan. The Statement of Accumulated Plan Benefits presented in the financial statements includes approximately \$112 million of accumulated plan benefit associated with the Plan as of May 1, 2011 which was transferred to the Plan effective April 30, 2012.

NOTE C - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the Plan's significant accounting policies applied in the preparation of the accompanying financial statements follows.

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

NOTE C - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The fair value of the Plan's interest in the US Foods, Inc. Master Defined Benefit Pension Trust ("Master Trust") is based upon the beginning of year value of the Plan's interest in the Master Trust plus actual contributions and allocated investment income less actual distributions and administrative expenses (See Note F).

Administration Expenses

During 2012 and 2011, the Employer paid certain administrative expenses of the Plan.

Payment of Benefits

Benefit payments are recorded upon distribution to participants.

Subsequent Events

The Plan has evaluated subsequent events through November 20, 2012 the date the financial statements were available to be issued.

NOTE D - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated Plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated Plan benefits include benefits expected to be paid to retired or terminated employees or their beneficiaries, beneficiaries of employees who have died, and present employees and their beneficiaries.

Benefits payable under retirement, death, disability, and termination of employment are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated Plan benefits is determined by MERCER Human Resource Consulting, the Plan's actuary, and is that amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and expected date of payment.

The significant actuarial assumptions used in the valuations as of May 1, 2011, 2010, and 2009 were:

a. Healthy and Disabled Mortality: Effective May 1, 2011:

2011 PPA static annuitant and nonannuitant mortality

Effective May 1, 2010:

2010 PPA static annuitant and nonannuitant mortality

Effective May 1, 2009:

2009 PPA static annuitant and nonannuitant mortality

b. Retirement Age Assumptions:

Participants are assumed to retire in accordance with the following table:

<u>Age</u>	<u>Percent</u>
55	15%
56-64	10%
65	100%

c. Assumed Rate of Return:

NOTE D - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS - Continued

Significant changes in actuarial assumptions included changes to interest discounts and mortality rates in accordance with PPA, as well as the expected investment rate of return to better reflect expected future returns based on assets held by the Plan.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

NOTE E - INFORMATION CERTIFIED BY THE TRUSTEE

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee has certified that the following information included in the accompanying financial statements is complete and accurate:

- Investments, as shown in the statements of net assets available for benefits as of April 30, 2012 and 2011.
- Investment income, as shown in the statements of changes in net assets available for benefits for the years ended April 30, 2012 and 2011.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements.

NOTE F - INTEREST IN US FOODS MASTER TRUST

The Plan is a member of the Master Trust, which was established for the investment of assets of the Plan and several other US Foods, Inc. sponsored retirement plans. Each participating retirement plan has a specified divided interest in the Master Trust. The assets of the Master Trust are held by the Trustee. At April 30, 2012 and 2011, the Plan's interest in the net assets and investment income of the Master Trust was a specified allocation by investment type. Administrative expenses relating to the Master Trust are directly charged or allocated to the individual plans.

Immediately prior to the plan merger effective April 30, 2012, as disclosed in Note B, the Plan made up approximately 21% of total Master Trust Assets. At April 30, 2011, the Plan made up approximately 22% of total Master Trust assets.

The Master Trust follows current guidance which defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Master Trust has the ability to access.

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or

NOTE F - INTEREST IN US FOODS MASTER TRUST - Continued

liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at April 30, 2012 and 2011.

Cash: Valued at original cost plus accrued interest.

Collective trust funds: Valued at the net asset value of the shares held at the end of the reporting period. This class represents investments in actively managed common collective trust funds that invest primarily in equity securities which may include common stocks, options and futures. Investments are valued at the net asset value per share multiplied by the number of shares held as of the measurement date.

Mutual funds: Valued at the closing price reported on the active market where the individual fund is traded.

Long-term debt securities: Valued at the estimated price a dealer will pay for the individual securities, which is often the principal amount invested.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Master Trust believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE G - FUNDING POLICY

The Employer is the sole contributor to the Plan. The Employer's funding policy is to contribute the minimum amount required to be funded for each Plan year pursuant to the provisions of ERISA based on actuarial calculations. The Employer's contributions for 2012 and 2011 have met the minimum funding requirements.

Although it has not expressed any intention to do so, the Employer has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions set forth in ERISA.

NOTE H - PLAN TERMINATION AND PENSION BENEFIT GUARANTY CORPORATION

The Employer reserves the right to amend or terminate the Plan subject to the provisions of ERISA. The Pension Benefit Guaranty Corporation ("PBGC") reserves the right to terminate the Plan if the Employer fails to meet the minimum funding standards or is unable to pay benefits when due.

If the Plan is terminated, the Plan assets will be distributed among the Plan participants based upon a priority allocation procedure and the Employer shall be liable for any unfunded vested benefits to the extent required by law. If there are any assets remaining after all the plan's liabilities to participants have been satisfied, such remaining assets shall revert to the Employer.

If the Plan terminates, a portion of the benefits under the Plan is insured by the PBGC, a U.S. Government agency. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor benefits. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

NOTE I - TAX STATUS

The Internal Revenue Service has determined and informed the Employer by a letter dated January 8, 2003, that the Plan and related trust, as amended, are designed in accordance with the applicable sections of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. However, the plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax position and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The plan administrator believes it is no longer subject to tax examinations for years prior to 2009.

NOTE J - TRANSACTIONS WITH PARTIES-IN-INTEREST

Plan investments are managed by the Plan's Trustee and, as such, these transactions qualify as party-in-interest transactions. Fees paid during the year for legal, accounting, actuarial and other professional services rendered by parties-in-interest were based on customary and reasonable rates for such services.

NOTE K - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated Plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could be material to the financial statements.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Actuarial methods****Asset methods**

We used financial data submitted by the trustee as of May 1, 2011 without further audit. Customarily, this information would not be verified by a plan's actuary. We have reviewed the information for internal consistency and we have no reason to doubt its substantial accuracy.

The asset valuation method is an average of the adjusted market value for each year during the last 2 years preceding the valuation date with semi-annual determination date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110 percent and no less than 90 percent of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant methods

We used the participant data supplied by the plan sponsor. We have reviewed the data and have no reason to doubt its substantial accuracy. Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all potential plan participants as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Minimum funding methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Maximum deductible contribution method

Calculations of maximum deductible contributions include the excess of the funding target computed using the projected unit credit method over the minimum funding target. The objective of the projected unit credit method is to fund each participant's benefits under the plan as they accrue, taking into consideration expected future benefit increases. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- An individual's **projected funding target** is the present value of benefits based on credited service as of the beginning of the plan year and projected benefit that would be used in the calculation of the benefit on each expected separation date. If multiple decrements are used, the projected funding target for an individual is the sum of the component projected funding targets associated with the various anticipated separation dates.
- The plan's **projected funding target** is the sum of the projected funding targets for all participants under the plan. The excess of the plan's projected funding target over the plan's funding target is included in the "cushion amount".

Schedule SB, Part V — Summary of Plan Provisions**Benefits included or excluded**

Unless noted below, all benefits provided by the plan, as restated and amended through May 1, 2009 are included in this valuation.

- **Most recent plan amendments included:** None.
- **Plan amendments excluded:** Amendments adopted after the valuation date or effective after the current plan year are excluded from the valuation.
- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
 - *Plan amendments:* See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Scheduled benefit increases:** Scheduled benefit increases effective after the end of the current plan year are excluded from minimum funding requirements.
- **Late retirement increases:**
 - *Active participants:* Current active participants over normal retirement age are valued including late retirement actuarial increases.
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.
- **IRC Section 415(b) benefit limitations:** The limitations of Internal Revenue Code Section 415(b) have been incorporated into our calculations.

Schedule SB, Part V — Summary of Plan Provisions

- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60 percent of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Schedule SB, Part V — Summary of Plan Provisions**Summary of major plan provisions**

Following is a summary of the major plan provisions used to determine the plan's financial position. It should not be used in determining plan benefits.

Plan Provisions – Rykoff Sexton, Inc.

Effective date and plan year	Original plan: April 30, 1989 Restated plan: May 1, 2009 Plan year: May 1 to April 30
Status of the plan	The plan is frozen; there are no ongoing accruals and new employees are not eligible to participate in the plan.
Significant events that occurred during the year	None
Definitions	
Employees eligible for participation	Employees become plan participants on the first day of the month following completion of one Year of Service and attainment of age 21. The plan is closed to new entrants.
Compensation	Prior to April 30, 1998, Compensation was defined as all wages, salaries, and fees for professional services received, but excluding deferred compensation and some other earnings as defined in the plan document. Compensation is not considered after April 30, 1998.
Average Compensation	The monthly average of the highest five calendar years of compensation during the 15-year period ending on the earliest of termination, early retirement, or normal retirement dates, but no later than April 30, 1998.
Year of service	For purposes of plan participation, a 12-consecutive-month period during which the employee completes not less than 1,000 hours of service, measuring the beginning of the first 12-month period from the employment commencement date.
Year of Vesting service	Any plan year during which an employee completes at least 1,000 hours of service.
Year of Participation	<ol style="list-style-type: none"> On or after April 30, 1989: An employee receives one Year of Participation for each plan year during which the employee completes at least 1,000 hours of service. No Years of Participation are earned after April 30, 1998. Prior to April 30, 1989: Employees of John Sexton & Company received credit for Years of Participation as provided in the John Sexton & Co. Supplement.
Actuarial Equivalence	GAR 94 projected to 2002 with 7.5% interest.

Schedule SB, Part V — Summary of Plan Provisions

Normal retirement age	Attainment of age 65 and the earlier of the completion of 5 years of vesting service or the 5th anniversary of plan participation.																								
Normal retirement																									
Eligibility	All participants attaining Normal Retirement Age.																								
Benefit	a. Pension Benefit – 1% of Average Compensation times Years of Participation. Accrued benefits were frozen on April 30, 1998. b. Minimum benefit – Accrued benefit under the John Sexton & Company Pension Plan as of April 29, 1989.																								
Early retirement																									
Eligibility	Participants who reach the first month on or next following attainment of age 55 and complete 10 Years of Vesting Service.																								
Benefit	Pension benefit – The participant's benefit at Normal Retirement described above, based on Years of Participation and Average Compensation at separation from service, reduced in accordance with the following table based on age at commencement.

Schedule SB, Part V — Summary of Plan Provisions

Late retirement	
Eligibility	Employees may remain in service beyond attainment of Normal Retirement Age.
Benefit	Normal Retirement Benefit inclusive of late retirement actuarial increases
Deferred vested	
Eligibility	All participants who terminate employment after completing five or more Years of Vesting Service.
Benefit	Vested pension benefit – Benefit at age 55, based on Years of Participation and Average Compensation at termination, actuarially reduced if payments commence before the participant's Normal Retirement Age. If the participant has 10 years of Vesting Service at termination his or her pension will be reduced as for early retirees.
Pre-retirement death	
Benefit	<p>If a vested participant dies prior to commencement of benefit payments, the surviving spouse, if any, shall receive a monthly benefit equal to the benefit payable to the spouse under the 50% Joint and Survivor option assuming the participant retired the day before his death. Benefit payments commence on the later of the day before his death or the first day the participant would have been eligible to retire.</p> <p>Notwithstanding the above, spouses of active participants who die after completing ten Years of Vesting Service are entitled to the spouse' benefit detailed below:</p> <p>a. Spouse's benefit – 50% of the amount of the benefit at Normal Retirement described above, based on Years of Participation and Average Compensation on the date of death. In the event the participant's date of birth precedes the date of birth of the surviving spouse by more than 120 months, the benefit will be reduced by 0.2% for each month in excess of 120 months. Monthly payments will begin as of the first day of the month following the participant's death and will continue for the spouse's life.</p>

Schedule SB, Part V — Summary of Plan Provisions

Miscellaneous	
Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2011, the limit is \$195,000.

Schedule SB, Part V — Summary of Plan Provisions**Plan Provisions – Former White Swan, Inc.**

Following is a brief summary of the major plan provisions for the former participants of the Retirement Plan for White Swan, Inc which was merged into the Rykoff-Sexton, Inc. Pension Plan on April 30, 1998.

Effective date and plan year	Original plan: October 18, 1989 Restated plan: December 1997 Plan Year: A Plan Year is a 12-month period beginning on May 1 and ending on April 30.
Status of the plan	The plan is frozen; there are no ongoing accruals and new employees are not eligible to participate in the plan.
Significant events that occurred during the year	None
Definitions	
Employees eligible for participation	Employees become plan participants on the first day of the month following completion of one Year of Service. The plan is closed to new entrants.
Compensation	Prior to November 17, 1993, Compensation was defined as all wages, salaries, and fees for professional services received (including 401(k) contributions by the employer), but excluding deferred compensation, fringe benefits and some other earnings as specified in the plan document. Compensation is not considered after November 17, 1993.
Average Compensation	The monthly average of the highest five consecutive calendar years of compensation during the 10-year period ending on the earliest of termination, early retirement, or normal retirement dates, but no later than November 17, 1993.
Accrued Benefit	A Participant's benefit as of June 30, 1998 under the White Swan Plan
Year of Vesting service	Any plan year during which an employee completes at least 1,000 hours of service in a Plan Year.
Year of Benefit service	An employee receives one Year of Benefit Service for each Plan Year during which the employee completes at least 1,000 hours of service. No Years of Benefit Service are earned after November 17, 1993.
Actuarial Equivalence	GAR94 projected to 2002 with 7.5% interest.

Schedule SB, Part V — Summary of Plan Provisions

Normal retirement	
Eligibility	The first day of the month coincident with or next following the attainment of the participant's Social Security retirement age.
Benefit	Benefit determined under the provisions of the Retirement Plan for White Swan, Inc as of November 17, 1993 when the plan was frozen. In no event shall a Participant's Normal Retirement Benefit increase after November 17, 1993.
Early retirement	
Eligibility	The first day of any month after the participant has both attained age 55 and completed at least 10 Years Vesting of Service.
Benefit	Early retirement benefit – A participant may elect to have his pension commence prior to normal retirement as a reduced pension equal to his accrued benefit at early retirement reduced by 0.5% for each month, in excess of 36 months, that his early retirement date precedes his normal retirement date.
Late retirement	
Eligibility	The first day of any month after the participant's Normal Retirement Date.
Benefit	Normal Retirement Benefit inclusive of late retirement actuarial increases
Deferred vested	
Eligibility	Participants who have completed 5 years of vesting service.
Benefit	The amount equal to his Accrued Benefit determined as of the earlier of the date the Participant terminated employment and November 17, 1993, actuarially reduced for commencement prior to the participant's Normal Retirement Date and after age 55.

Schedule SB, Part V — Summary of Plan Provisions

Death	
Eligibility	Participants who die prior to retirement while married for at least one year and after completing 5 years of vesting service.
Benefit	The benefit the spouse would have received if the participant had retired on the day before death having elected a 50% qualified joint and survivor annuity or, if the participant was not yet eligible for early retirement, the benefit which the spouse would have been able to receive if the participant had terminated employment on the earlier of his date of death or date of termination of employment, had survived to his earliest retirement date and elected to retire on that date having elected a 50% qualified joint and survivor annuity.
Post-retirement spouse's benefit	None, except as provided by the election of the form of payment
Form of benefits	
Automatic married form of payment	If a participant is married at the time of retirement, the pension will be paid in the form of an actuarially reduced joint and survivor monthly annuity with payments continuing to the spouse for life, if surviving at the participant's death, at a reduced amount equal to 100% of the amount payable to the participant.
Automatic unmarried form of payment	If a participant is unmarried at the time of retirement, the pension will be paid in the form of a single life annuity, with payments to be made in equal monthly installments until the participant's death.
Optional forms	Actuarially equivalent 100% joint and survivor annuity or 5, 10 or 15 years' certain and continuous annuities.
Miscellaneous	
▪ Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2011 the limit is \$195,000.

Schedule SB, Part V — Summary of Plan Provisions

Plan provision changes since prior valuation

Maximum benefits were updated from 2010 to 2011. For 2011, the limit is \$195,000, which is unchanged from 2010.

Schedule SB, Line 24 — Change in Actuarial Assumptions

- Interest discounts and mortality rates were updated from 2010 to 2011 in accordance with PPA.
- The expected investment return for 2011 was changed from 7.75% to 7.50% to reflect the allocation of assets held in the master trust.

Schedule SB, Line 25 — Change in Method

This plan was converted to the new Mercer valuation system for the 2011 plan year, resulting in a change in the funding method for 2011. This change in valuation software satisfies the requirements of Announcement 2010-3 for automatic IRS approval for changes in funding method.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Actuarial methods****Asset methods**

We used financial data submitted by the trustee as of May 1, 2011 without further audit. Customarily, this information would not be verified by a plan's actuary. We have reviewed the information for internal consistency and we have no reason to doubt its substantial accuracy.

The asset valuation method is an average of the adjusted market value for each year during the last 2 years preceding the valuation date with semi-annual determination date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110 percent and no less than 90 percent of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant methods

We used the participant data supplied by the plan sponsor. We have reviewed the data and have no reason to doubt its substantial accuracy. Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all potential plan participants as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Minimum funding methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Maximum deductible contribution method

Calculations of maximum deductible contributions include the excess of the funding target computed using the projected unit credit method over the minimum funding target. The objective of the projected unit credit method is to fund each participant's benefits under the plan as they accrue, taking into consideration expected future benefit increases. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- An individual's **projected funding target** is the present value of benefits based on credited service as of the beginning of the plan year and projected benefit that would be used in the calculation of the benefit on each expected separation date. If multiple decrements are used, the projected funding target for an individual is the sum of the component projected funding targets associated with the various anticipated separation dates.
- The plan's **projected funding target** is the sum of the projected funding targets for all participants under the plan. The excess of the plan's projected funding target over the plan's funding target is included in the "cushion amount".

Schedule SB, Part V — Summary of Plan Provisions**Benefits included or excluded**

Unless noted below, all benefits provided by the plan, as restated and amended through May 1, 2009 are included in this valuation.

- **Most recent plan amendments included:** None.
- **Plan amendments excluded:** Amendments adopted after the valuation date or effective after the current plan year are excluded from the valuation.
- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
 - *Plan amendments:* See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Scheduled benefit increases:** Scheduled benefit increases effective after the end of the current plan year are excluded from minimum funding requirements.
- **Late retirement increases:**
 - *Active participants:* Current active participants over normal retirement age are valued including late retirement actuarial increases.
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.
- **IRC Section 415(b) benefit limitations:** The limitations of Internal Revenue Code Section 415(b) have been incorporated into our calculations.

Schedule SB, Part V — Summary of Plan Provisions

- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60 percent of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Schedule SB, Part V — Summary of Plan Provisions**Summary of major plan provisions**

Following is a summary of the major plan provisions used to determine the plan's financial position. It should not be used in determining plan benefits.

Plan Provisions – Rykoff Sexton, Inc.
