We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes its investment transactions. The plan administrator has obtained a certification from the custodian as of December 6, 2010 and June 30, 2010 and for the period of July 1, 2010 through December 6, 2010 that the information provided to the plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements taken as a whole. The form and content of the information included in the financial statements, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 6, 2010

NOTE 1 - PLAN DESCRIPTION

The following description of the University Group Medical Associates, P.C. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan, which is contributory, covering all eligible employees of University Group Medical Associates, P.C. (the "Company"). Employees become eligible to participate and contribute to the Plan upon completing one year of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Board met on October 27, 2010 and ratified the termination of the Plan. Effective December 6, 2010, the Plan was terminated subject to the provisions of ERISA. Upon termination participants became 100% vested in their accounts and all funds were transferred to a new plan.

Contributions - For each plan year, the Company shall contribute an amount to the total amount of contributions made by it pursuant salary reduction agreements entered into between the Company and participants for such plan year. The Company may make matching contributions for any plan year as determined by appropriate action. In addition, for each plan year the Company may contribute an additional amount if the Company determines the amount of such contribution by appropriate action and announces the amount in writing to the employees before the close of the plan year or the Company designates such amount in writing to the Trustees as payment on account for such plan year. A participant may elect a salary reduction not to exceed the lesser of: (i) 20% of compensation (as defined), or (ii) the amount by the Company for such year for income tax purposes. In no event shall the amount exceed total annual additions (employee contributions, the Company's contributions, forfeitures and other allocated amounts) to a participant's account. The amount shall not exceed the lesser of: (i) the defined contribution dollar limitation (currently \$49,000) or (ii) 25% of the participant's compensation (as defined) for the plan year. The Company's contributions for 2010 met ERISA minimum funding requirements. Upon enrollment in the Plan, a participant may direct the Company contribution to various investment options. Participants may transfer funds among the investment options.

For the period July 1, 2010 through December 6, 2010, the employer has determined that they will not be making contributions to the Plan.

Participant accounts - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution, and (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Years of service for vesting purposes under the Plan shall exclude all service with the employer prior to attaining age 18 and shall include all years prior to adoption of this Plan.

Notes receivable from participants- Participants may borrow from their account balance in the following order: (i) first, from the employer contribution account; then (ii) from the salary reduction account; and then, if necessary (iii) from the remaining account balances. The participants may borrow to meet emergency conditions in financial affairs, to purchase a principal residence, to provide education to the borrower's children or for such other purposes considered acceptable by the Trustee of the Plan. A participant may borrow from a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or one-half of the present value of the nonforfeitable accrued benefit of the participant or, if greater, the total accrued benefit up to \$10,000. All loans bear interest at the prime rate plus 1% and are to be repaid within five years (longer for a purchase of a principal residence), not less frequently than quarterly. All loans to participants shall be secured by the pledge of 50% of the participant's vested interest in his or her account. Interest rates varied between 4.25% and 9.25%.

Payment of benefits - Upon termination of service by retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account, payments in the form of a qualified joint or survivor annuity (based on the vested portion of his or her account) or one of several other options described in the plan document. For termination of service due to death, the amount of death benefit shall be the participant's account balance less the amount of any pre-retirement survivor annuity, as described in the plan document. For termination of services due to disability, the amount of disability benefit shall be equal to the salary reduction account, plus the nonforfeitable percentage of the participant's employer and matching contribution accounts.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 6, 2010

NOTE 1 - PLAN DESCRIPTION (continued)

Forfeited accounts - The Plan allows for forfeitures of nonvested account balances to be used to reduce employer contributions and cover the cost of administration. There were forfeitures used during the year ended June 30, 2011 in the amount of \$19,378. There were no remaining balances in the forfeiture accounts at December 6, 2010 and June 30, 2010.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting - The financial statements of the Plan are prepared under the accrual basis of accounting.

Use of estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Investment valuation and income recognition - The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 7 for a discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recognized on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits - Benefit payments are recorded when paid.

Administrative expenses - Certain Plan expenses, including investment management fees and loan administration fees, are paid by the Plan. Other Plan expenses are paid by the Company, such as accounting fees.

Notes receivable from participants - The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Uncertainty in income taxes - The Plan has determined that there are no material uncertain tax positions that require recognition or disclosure in the financial statements. Periods ending June 30, 2008 and subsequent remain subject to examination by applicable taxing authorities.

Subsequent events - Subsequent events have been evaluated through January 23, 2012, which is the date the financial statements were available to be issued.

Fair Value Measurements and Disclosures

Fair Value Measurements and Disclosures, ASC Topic 820, establishes a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below. Level 1 inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. Level 2 inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability. Level 3 inputs to the valuation methodology are unobservable and significant to the fair value measurement. The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 6, 2010 as compared to those used at June 30, 2010.

Cash - Valued at the closing price reported on the active market.

NOTE 3 - INVESTMENTS AT FAIR VALUE CERTIFIED BY WACHOVIA BANK
(continued)

For the period July 1, 2010 through December 6, 2010, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

Mutual funds	\$ <u>1,728,300</u>
--------------	---------------------

NOTE 4 - TAX STATUS

The Plan obtained its latest determination letter in June 2002 in which the Internal Revenue Service has ruled that the Plan qualifies under Section 401 of the Internal Revenue Code and, therefore, is not subject to income tax under present income tax laws. The Plan's administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code. There have been no plan amendments since the determination letter.

NOTE 5 - PLAN TERMINATION

Effective December 6, 2010, the Plan was terminated subject to the provisions of ERISA. Upon termination, participants became 100% vested in their accounts, and all funds were transferred to a new Plan.

NOTE 6 - RISKS AND UNCERTAINTIES

The Plan offers a number of investment funds available for participants, which invest in various types of investment securities. Investment securities, in general, are exposed to various risks such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, based on the markets' fluctuations, and that such changes could materially affect participants' account balances and the amounts reported in the Plan's statement of net assets available for benefits.
