CENTURY ALUMINUM OF WEST VIRGINIA, INC. HOURLY EMPLOYEES' PENSION PLAN

NOTES TO FINANCIAL STATEMENTS AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2011 AND 2010

1. DESCRIPTION OF THE PLAN

The following brief description of the Century Aluminum of West Virginia, Inc. Hourly Employees' Pension Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General — The Plan is a noncontributory defined benefit pension plan and covers substantially all employees of Century Aluminum of West Virginia, Inc. (the "Company") who are represented by the United Steel, Paper and Forestry, Rubber, Manufacturing, Energy, Allied Industries and Service Workers International Union, AFL-CIO-CLC (the "Union"). The Plan is a "spin-off" of all active employees at the Ravenswood facility who were participants in the Kaiser Aluminum and Chemical Corporation Pension Plan ("KAPP"). In connection with the spin-off, the Company is responsible for the benefits of active participants of the Company who were formerly in the KAPP. The spin-off met applicable government regulations. Represented employees hired after February 7, 1989, are eligible to participate in the Plan in accordance with the Plan's provisions.

In accordance with the Plan and the February 7, 1989 Asset Purchase Agreement between the Company and Kaiser Aluminum and Chemical Corporation ("KACC"), the Plan grants credit for service under KAPP for purposes of eligibility, vesting, and benefit accruals. The Plan is subject to the requirements of the Employee Retirement Income Security Act of 1974 ("ERISA").

Retirement Benefits — Retirement benefits under the Plan are based upon age attained and years of service. The collective bargaining agreement between the Company and the Union specifies the pension factors by job class which are utilized in the determination of monthly benefits. Eligibility for normal retirement requires the participant to attain the age of 62 and have 10 years of service or to have 30 or more years of continuous service, but not to have attained age 62. The Plan permits early retirement at age 60 provided the participant has completed at least 10 years of continuous service. The Plan also provides for death and disability benefits. Participants become vested following the completion of five years of service.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting — The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Accounting Estimates — The preparation of financial statements in accordance with GAAP requires Plan management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties — The Plan invests in various investment securities including mutual funds and corporate stocks. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Valuation of Investments and Income (Loss) Recognition — The Plan's investments are reported at fair value as determined from market quotations and other independent sources as reported to the Plan by Frank Russell Trust Company (the "Trustee"). Purchases or sales of securities are recorded on the trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Expenses — For the Plan years ended December 31, 2011 and 2010, administrative expenses consist of Trustee fees, Retiree Service expenses and Pension Benefit Guaranty Corporation ("PBGC") expenses paid by the Plan. The Company has paid all other Plan administrative expenses.

Payment of Benefits — Benefit payments are recorded upon distribution.

Contributions — Contributions to the Plan are made solely by the Company. The Company's funding policy is to make contributions to the Plan as determined by the Plan's actuary. The Company's minimum required contributions for the 2011 and 2010 plan years were approximately \$3,299,000 and \$1,192,881, respectively. The Plan is in compliance with applicable ERISA minimum funding requirements as of December 31, 2011 and 2010.

New Accounting Standards Issued or Adopted — There have been no new accounting standards issued or adopted during the period of the financial statements that affected the statements of net assets available for benefits or the statement of changes of net assets available for benefits or the disclosures within the notes to the financial statements.

3. FAIR VALUE MEASUREMENTS

Fair value measurements are based on an established framework under Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820 Fair Value Measurements for measuring and disclosing the fair value for the various financial instruments within the Plan. In accordance with ASC 820, fair value is defined as the price that the Plan would receive upon selling an investment in a timely transaction to an independent buyer in the principal or most advantageous market of the investment. ASC 820 established a three-tier hierarchy based on the use of observable market data and unobservable inputs to establish the classification of fair value measurements for disclosure purposes. Inputs refer broadly to the assumptions that market participants would use in pricing the asset, including assumptions about risk, for example, the risk inherent in a particular valuation technique used to measure fair value including a pricing model and/or risk inherent in the inputs to the valuation technique. Inputs may be observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the Plan's assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. The three-tier hierarchy of inputs is summarized in the three broad levels listed below:

Level 1 — quoted prices in active markets for identical investments

Level 2 — other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, etc.)

Level 3 — significant unobservable inputs (including the Trustee's own assumptions in determining the fair value of investments)

Inputs used in valuing the Plans' investments carried at fair value for the year or period ended December 31, 2011 and 2010 were as follows:

**4. SUMMARY OF FINANCIAL INFORMATION CERTIFIED BY THE TRUSTEE
(UNAUDITED)**

The following is a summary of the 2011 and 2010 unaudited information included in the Plan's financial statements and supplemental schedule that was prepared by or derived from information prepared by the Trustee of the Plan and furnished to the Plan administrator. The Plan administrator has obtained certifications from the Trustee that such information and investment information in the financial statements and supplemental schedule is complete and accurate as of and for the years ended December 31, 2011 and 2010:

	2011	2010

The fair value of the Plan's investments in common/collective trust funds has been determined by the Trustee; see Note 3 Fair Value Measurements for additional information. The Plan's investments in common/collective trust funds as of December 31, 2011 and 2010, consist of the following:

The Plan's common trust funds (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value for the years ended December 31, 2011 and 2010, as follows:

	2011	2010
Equity securities common/collective trust funds investment appreciation	\$ (965,997)	\$3,909,511
Fixed income common/collective trust fund investment appreciation	<u>1,093,238</u>	<u>1,386,344</u>
Common/collective trust funds	<u>\$ 127,241</u>	<u>\$5,295,855</u>

5. ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the services employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations are as follows:

- Life expectancy of participants in accordance with the RP-2000 Mortality Tables for males and females, projected to 2025 with a blue collar adjustment.
- Average rate of return used in the calculation of the present value of accumulated plan benefits is 8.0%.
- Early retirement age assumptions beginning at age 55 with full retirement at age 70.

The actuarial present value of accumulated plan benefits as of January 1, 2012 and 2011 (for the years ended December 31, 2011 and 2010, respectively), are as follows:

	2011	2010
Vested benefits:		
Participants currently receiving payments	\$37,104,262	\$32,426,108
Other participants	9,980,280	12,190,208
Non-vested benefits	<u>2,073,851</u>	<u>2,034,555</u>
Total	<u>\$49,158,393</u>	<u>\$46,650,871</u>

The changes in accumulated plan benefits for the years ended December 31, 2011 and 2010 are as follows:

	2011	2010
Actuarial present value of accumulated plan benefits — beginning of year	<u>\$46,650,871</u>	<u>\$38,828,903</u>
Increase (decrease) during the year attributable to:		
Change in the assumptions	1,272,024	92,857
Benefits accumulated — net	1,681,892	7,805,616
Benefits paid	(4,020,729)	(3,062,667)
Increase of interest due to the decrease in the discount period	<u>3,574,335</u>	<u>2,986,162</u>
Net increase	<u>2,507,522</u>	<u>7,821,968</u>
Actuarial present value of accumulated plan benefits — end of year	<u>\$49,158,393</u>	<u>\$46,650,871</u>

The foregoing actuarial assumptions are based on the presumption the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

6. FEDERAL INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated August 20, 2009, that the Plan and related trust are designed in accordance with applicable regulations of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Company and the Plan administrator believe that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC and the Plan and related trust continue to be tax exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to December 31, 2008.

7. PLAN TERMINATION

The Plan can be terminated by the Company in certain limited situations. If the Plan is terminated, the net assets of the Plan will be distributed to the participants in an order of priority determined in accordance with ERISA and its applicable regulations, and with the Plan document.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested, normal-age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide these benefits, the priority of those benefits to be paid, and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the existing assets and the PBGC guarantee, while other benefits may not be provided for at all.

8. PARTY-IN-INTEREST TRANSACTIONS

All Plan investments are shares of common trust funds managed by the Trustee. Frank Russell Trust Company is the Trustee, as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions.

9. PLAN TRANSFERS

During 2010, the Plan received \$5,854 from the Century Aluminum Employees Pension Plan (the "Salary Plan") related to operational errors associated with the benefit payments for certain participants that transferred between the Plan and the Salary Plan.

11. SUBSEQUENT EVENTS

We have evaluated all subsequent events through October 15, 2012, the date the financial statements were available to be issued.

Effective September 2012, the Company changed the Trustee of the Plan from Frank Russell Trust Company to SEI Investment Company. Frank Russell Trust Company will continue to process benefit payments for the Plan through December 31, 2012.

In September 2012, all the assets of the Plan were transferred from Frank Russell Trust to SEI Investment Company, except for approximately \$1,880,000 which was retained by Frank Russell Trust Company to make benefit payments for the Plan through December 31, 2012.

Schedule SB, Part V - Statement of Actuarial Assumptions/Methods

Statement of Actuarial Methods (continued)

1. Actuarial Cost Method

The actuarial cost method is the Unit Credit Actuarial Cost Method.

Under this cost method, the actuarial accrued liability is defined as the present value of the accrued benefits on the valuation date. The unfunded actuarial accrued liability is the excess, if any, of the amount by which the accrued liability exceeds the actuarial value of plan assets.

The normal cost, determined on the valuation date, is the amount required to fund the benefit expected to be earned in the current year plus expected expenses.

2. Asset Valuation Method

Smoothed value method. Under this method the smoothed value is equal to the average of the fair market value on the valuation date and the adjusted fair market value on each of the preceding two valuation dates, but not less than 90% nor more than 110% of the Fair Value of Assets. The adjusted fair market value as of any preceding valuation date is equal to the fair market value as of such date increased for contributions reflected in the fair market value of assets on the current valuation that were not reflected in the fair market value of assets as of such preceding valuation date, decreased for benefit payments and expenses reflected in the fair market value of assets on the current valuation that were not reflected in the fair market value of assets as of such preceding valuation date, and adjusted for expected earnings (not in excess of the third segment rate with no phase-in applicable to the corresponding valuation date). Because the expected earnings are determined based on an investment return that is limited to the third segment rate, the resulting actuarial value of assets is more likely to be less than the fair value of assets over an extended period of time.
