As permitted by Regulation 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), we have instructed you not to perform any auditing procedures with respect to information prepared and certified to by Wells Fargo Bank, N.A., the trustee, in accordance with DOL Regulation 2520.103-5, except for comparing the information with the related information included in the financial statements and supplemental schedules. Because of the significance of the information which you did not audit, we understand that you will not express an opinion on the financial statements and supplemental schedules taken as a whole.

We are responsible for the fair presentation in the Plan's financial statements of net assets available for benefits and changes in net assets available for benefits in conformity with U.S. generally accepted accounting principles and for the fair presentation of the accompanying supplemental schedules in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Certain representations in this letter are described as being limited to matters that are material. Items are considered material if they involve an omission or misstatement of accounting information that, in light of surrounding circumstances, makes it probable that the judgment of a reasonable person relying on the information would be changed or influenced by the omission or misstatement. An omission or misstatement that is monetarily small in amount could be considered material as a result of qualitative factors.

1. DESCRIPTION OF PLAN

The following description of National Dentex Corporation Dollars Plus Plan ("the Plan") is provided for general purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan covering full-time employees of National Dentex Corporation ("the Company" or "Employer"). Employees become eligible to participate in the Plan on January 1 or July 1 following the completion of one year of service and the attainment of age twenty-one. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

In May 2012, all participants became participants in the National Dentex Corporation Plan ("NDC Plan") and all contributions to the Plan ceased. The Plan was merged with the NDC Plan effective May 15, 2012. A total of $30,405,306 was transferred to the NDC Plan consisting of investments of $29,162,599 from participant accounts and participant loans of $1,242,707. The amounts transferred are reflected as a transfer on the statement of changes in the net assets available for benefits.

Contributions – Participants may contribute up to 10% of pre-tax eligible compensation, as defined in the Plan, subject to certain limitations. Participants may change the percentage of their contribution each January 1 or July 1, and may suspend contributions at any time. Participants who have attained age 50 may also make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

The Company matches participants' contributions to the Plan by contributing 100% of the first 1% of each participant's eligible compensation, and 50% of the next 3% of eligible compensation, provided that the participant is an employee on the last day of the plan year. The Company funds the match contribution annually, within 120 days subsequent to year end.

Discretionary profit-sharing contributions may be made as determined by the Company. No profit-sharing contributions were made in 2012 or 2011.

Participants direct the investment of their contributions and Company contributions into a selection of mutual funds and a common/collective trust offered by Wells Fargo Institutional Retirement and Trust.

Participant accounts – A separate account is established and maintained on behalf of each participant. Each participant's account is credited with the participant's contributions and withdrawals, and allocations of the Company's contribution and Plan earnings and expenses. The benefit to which a participant is entitled is the vested portion of the participant's account.

1. DESCRIPTION OF PLAN (CONTINUED)

Participant loans – Participants may borrow from their accounts a minimum of $750 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Principal and interest are repaid through payroll deductions. Loans have a maximum term of five years or up to ten years if the proceeds are used for the purchase of a primary residence. Each loan is secured by the vested balance in the participant's account. Loans bear a fixed interest rate equal to the prime rate at the inception of the loan.

Vesting – Participants are at all times fully vested in their voluntary contributions and the actual earnings thereon. Participants vest in employer contributions in accordance with the following schedule or upon reaching the age of 65, at which time participants are fully vested in their employer contributions.

Years of Employment	Vested Percentage
Less than 2 years	0%
Greater than 2 years but less than 3 years	20%
Greater than 3 years but less than 4 years	40%
Greater than 4 years but less than 5 years	60%
Greater than 5 years but less than 6 years	80%
After 6 years	100%

Forfeitures – Upon termination of a participant from the Plan before being fully vested, the non-vested portion of the participant's account is forfeited. The Plan allows the Company to offset Company contributions with participant forfeitures. Forfeitures of $127,000 were used to offset the matching contribution for the year ended May 15, 2012. At May 15, 2012 there were no unused forfeited balances. At December 31, 2011 unused forfeited balances amounted to $127,336.

Withdrawals and distributions – Hardship withdrawals are permitted from a participant's account, and are limited to the balance in the account attributable solely to employee deferrals. Hardship withdrawals are permitted only after exhausting the maximum amount available to the participant as a loan under the Plan, and are limited to the amount of the financial hardship. In addition, in-service withdrawals from that portion of the participant's total vested account balance representing salary deferrals, matching contributions and profit-sharing contributions, are permitted upon reaching age 59½.

Participants or their beneficiaries are entitled to a lump-sum distribution equal to their total vested account balance upon death, disability, retirement or termination of employment.

Other Income – The Plan earns service credits from investment managers which are recorded as other income. These credits are available to pay administrative expenses.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting – The financial statements of the Plan are prepared on the accrual basis of accounting. Investment contracts held by a defined-contribution plan, including those held in a common/collective trust, are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Investment valuation and income recognition – The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Participant loans – Loans receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of benefits – Benefits are recorded when paid.

Risk and uncertainties – The Plan provides for various investment options in mutual funds and a common/collective trust. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Use of estimates – The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Subsequent Events – The Plan has evaluated subsequent events through December 10, 2012, the date the financial statements were available to be issued.

3. INFORMATION CERTIFIED BY THE TRUSTEE (UNAUDITED)

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The following is a summary of the investment information regarding the Plan as of May 15, 2012 and December 31, 2011, and for the periods then ended, included in the Plan's financial statements and supplemental schedule, that was prepared by or derived from information prepared by Wells Fargo Bank, N.A., the trustee of the Plan, and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that such information is complete and accurate. Incorporation of this financial information in the accompanying financial statements and supplemental schedule is based solely on those certifications.

5. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures,* establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- Level 2: Inputs to the valuation method include: quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets and liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, or inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3: Inputs to the valuation method are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at May 15, 2012 and December 31, 2011:

Mutual funds – valued at the net asset value of shares held by the Plan at year end as reported on the active market on which the shares are traded.

Commingled mutual funds – valued at the net asset value calculated by the fund manager based on the underlying investments.

Common/collective trust – valued at the net asset value calculated by the fund manager based on the underlying investments.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. FAIR VALUE MEASUREMENTS (CONTINUED)

The following table sets forth, by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2011:

	Level 1	Level 2	Level 3	Total
Mutual funds:				
Value funds	$ 7,913,029	$ 450,171	$ -	$ 8,363,200
Growth funds	6,961,997	-	-	6,961,997
Blended funds	4,564,740	-	-	4,564,740
Government funds	-	1,990,120	-	1,990,120
Bond funds	-	1,906,331	-	1,906,331
Other funds	78,096	-	-	78,096
Common collective trust	-	5,282,454	-	5,282,454
Total assets at fair value	$ 19,517,862	$ 9,629,076	$ -	$ 29,146,938

As a result of the transfer of the Plan assets to the NDC Plan, fair value measurements are not applicable to the Plan as of May 15, 2012.

6. TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated June 7, 2007, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of May 15, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

7. RELATED PARTY TRANSACTIONS

The Plan invests in shares of certain registered investment companies, and a common trust fund, managed by Institutional Retirement and Trust, an affiliate of the trustee of the Plan, Wells Fargo Bank, N.A. Additionally, participant loans also qualify as party-in-interest transactions. Trustee fees paid to Wells Fargo Bank, N.A. for custodial services amounted to $37,113 and $78,446 in 2012 and 2011, respectively.
