The Plan Administrator
The St. Luke Hospitals, Inc. Pension Plan

We were engaged to audit the accompanying statements of net assets available for benefits of The St. Luke Hospitals, Inc. Pension Plan as of December 31, 2011 and 2010, and the related statements of changes in net assets available for benefits for the years then ended, and the statement of accumulated plan benefits as of December 31, 2010, and the related statement of changes in accumulated plan benefits for the year ended December 31, 2010, and the supplemental schedules of assets (held at end of year) as of December 31, 2011, and reportable transactions for the year ended December 31, 2011. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, as amended, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 5, which was certified by SEI Private Trust Company and State Street Bank and Trust Company, the trustees of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustees hold the Plan's investment assets and execute investment transactions. The plan administrator has obtained certifications from the trustees as of December 31, 2011 and 2010, and for the years ended December 31, 2011 and 2010, that the information provided to the plan administrator by the trustees is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on these accompanying financial statements and supplemental schedules as a whole. The supplemental schedules are presented for the purposes of additional analysis and are not a required part of the financial statements, but are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the investment information certified by the trustees, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

The St. Luke Hospitals, Inc. Pension Plan

Notes to Financial Statements

December 31, 2011

1. Description of Plan

The following description of The St. Luke Hospitals, Inc. Pension Plan (the Plan) provides general information about the Plan's provisions. St. Elizabeth Medical Center, Inc. (St. Elizabeth Healthcare) is the plan sponsor. Participants should refer to the plan document and summary plan description for a more complete description of the provisions of the Plan, copies of which may be obtained from the plan sponsor.

General

Effective October 27, 2008, The St. Luke Hospitals, Inc. (St. Luke) merged into St. Elizabeth Healthcare. This was accomplished by a statutory merger between the two corporations with the surviving corporation being St. Elizabeth Healthcare.

St. Luke previously participated in a Joint Operating Agreement (JOA) with the Health Alliance of Greater Cincinnati (the Health Alliance). Effective February 20, 2009, St. Elizabeth Healthcare created the Plan, which covers certain former Health Alliance employees who, in conjunction with the St. Luke merger with St. Elizabeth Healthcare, became employees of St. Elizabeth Healthcare.

The Plan consists of the provisions of the existing Health Alliance Retirement Plan. Consistent with the terms of the Health Alliance Retirement Plan, all benefits accrued by the St. Luke employees and retirees under the Plan were "frozen" as of the end of December 13, 2008, and the Plan does not and shall not provide for any service after that date.

The Plan is a cash balance, defined-benefit plan. The Plan provides for retirement, death, and disability benefits and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

St. Elizabeth Healthcare's Board of Trustees has appointed an Administrative Committee of the Plan to serve as the plan administrator and fiduciary of the Plan. The investment policy of the Plan is approved by St. Elizabeth Healthcare's Finance and Investment Committee, which reports to the Board of Trustees. SEI Private Trust Company and State Street Bank and Trust Company are the trustees of the Plan. Diversified Investment Advisors, Inc. administers the benefit payments and serves as the Plan's actuary.

The St. Luke Hospitals, Inc. Pension Plan

Notes to Financial Statements (continued)

1. Description of Plan (continued)

Eligibility and Vesting

All St. Luke employees as of December 13, 2008, and former employees who were participating in the Health Alliance Retirement Plan became participants in the Plan on February 20, 2009. At the time of the spin-off, active participants became fully vested in their accrued benefits.

Benefits

Benefits are calculated in accordance with the provisions of the prior Health Alliance Retirement Plan as they applied to the St. Luke employees who participated in the Health Alliance Retirement Plan.

Participants may elect to receive the value of their accumulated plan benefits as a lump-sum distribution upon retirement or termination, or they may elect to receive their benefits as a life annuity payable monthly. If an active employee dies at age 55 or older, a death benefit equal to the value of the employee's accumulated pension benefits is paid to the employee's beneficiary. Active employees who become totally disabled receive annual disability benefits that are equal to the normal retirement benefit they have accumulated as of the time they became disabled. Disability benefits are paid until normal retirement age, at which time disabled participants begin receiving normal retirement benefits computed as though they had been employed through normal retirement age, with their annual compensation remaining the same as of the time they became disabled.

Funding

The Company contributes such amounts as are necessary to provide assets sufficient to meet the benefits to be paid to participants and satisfy the ERISA minimum funding requirements. The Plan has met the ERISA minimum funding requirements for 2011 and 2010.

Plan Termination

Although it has not expressed an intention to do so, St. Elizabeth Healthcare reserves the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Upon termination, the net assets of the Plan will be allocated for payment to the participants in an order of priority as prescribed by ERISA and its related regulations and the plan document.

The St. Luke Hospitals, Inc. Pension Plan

Notes to Financial Statements (continued)

1. Description of Plan (continued)

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated plan benefits and may also depend of the financial condition of St. Elizabeth Healthcare and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) as well as the priority of those benefits. Some benefits may be fully or partially provided for by the then-existing net assets of the Plan and the PBGC guarantee, while other benefits may not be provided for at all.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Payment of Benefits

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States (U.S. GAAP) requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes and supplemental schedules. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 4 for further discussion and disclosures related to fair value measurements.

The St. Luke Hospitals, Inc. Pension Plan

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

In accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820 (ASC 820), *Fair Value Measurements and Disclosures*, assets and liabilities measured at fair value are categorized into the following fair value hierarchy:

- Level 1 – Fair value is based on unadjusted quoted prices for identical assets or liabilities in an active market that the Plan has the ability to access at the measurement date.
- Level 2 – Fair value is based on quoted prices in markets that are not active, quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the asset or liability.
- Level 3 – Fair value is based on prices or valuation techniques that require inputs that are both significant to the fair value measurements and unobservable. These inputs reflect management's judgment about the assumptions that a market participant would use in pricing the investment and are based on the best available information, some of which may be internally developed.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net depreciation/appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

New Accounting Pronouncements

In January 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2010-06, *Improving Disclosures about Fair Value Measurements* (ASU 2010-06). ASU 2010-06 amended certain of the disclosures required under ASC 820. The guidance in ASU 2010-06 clarified that disclosures should be presented separately for each "class" of assets and liabilities measured at fair value and provided guidance on how to determine the appropriate classes of assets and liabilities to be presented. ASU 2010-06 also clarified the requirement for entities to disclose information about both the valuation techniques and inputs used in estimating Level 2 and Level 3 fair value measurements. In addition, ASU 2010-06 introduced new requirements to disclose the amounts (on a gross basis) and reasons for any significant transfers between Levels 1, 2, and 3 of the fair value hierarchy and

The St. Luke Hospitals, Inc. Pension Plan

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

present information regarding the purchases, sales, issuances, and settlements of Level 3 assets and liabilities on a gross basis. Since ASU 2010-06 only affects fair value measurement disclosures, adoption of ASU 2010-06 did not affect the Plan's net assets available for benefits or its changes in net assets available for benefits.

In May 2011, the FASB issued ASU 2011-04, *Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs* (ASU 2011-04). ASU 2011-04 amended ASC 820, to converge the fair value measurement guidance in U.S. GAAP and International Financial Reporting Standards (IFRS). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle of ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures. The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Plan management is currently evaluating the effect that the provisions of ASU 2011-04 will have on the Plan's financial statements.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits (see Note 3) represent the actuarial present value of estimated future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, and (b) present employees or their beneficiaries. Benefits payable under all circumstances — retirement, death, disability, and termination of employment — are included, to the extent they are deemed attributable to employee services rendered to the valuation date.

3. Accumulated Plan Benefits

The Plan's actuary estimated the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The actuarial cost method used to determine the target normal cost, target liability, and required contribution amounts for the Plan is the traditional unit credit actuarial cost method. Under this method, both the target normal cost and the target liability are based on the annual accrual of benefits as accruals occur each year.

The St. Luke Hospitals, Inc. Pension Plan

Notes to Financial Statements (continued)

3. Accumulated Plan Benefits (continued)

The target liability for each active Plan participant is equal to the actuarial present value of the participant's accrued benefit as of the valuation date. The total liability of the Plan is equal to the sum of such liabilities as determined for each active participant plus the actuarial present value of benefits being paid, or due to be paid, to retirees, beneficiaries, and former participants with deferred vested benefits.

The target normal cost for each active participant is equal to the actuarial present value of the benefit expected to be earned during the year, starting on the valuation date. The total target normal cost of the Plan is the sum of the target normal costs for each active Plan participant.

Significant assumptions underlying the actuarial valuation are as follows:

Target liability interest rates	2011:	
	First Segment Rate	3.78%
	Second Segment Rate	6.31%
	Third Segment Rate	6.57%
Plan expenses	A load of \$300,000 was added to the target normal cost for assumed administrative expenses in 2011.	
Assumed rate of return on investments	8.50% in 2011	
Retirement rate	Various rates ranging from 5% at age 55 to 100% at age 65	
Mortality basis	2011 static mortality table in accordance with Internal Revenue Service (IRS) Regulation 1.430(h)(3)-1 for the January 1, 2011 actuarial valuation	

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The St. Luke Hospitals, Inc. Pension Plan

Notes to Financial Statements (continued)

4. Fair Value Measurements

Fair value is defined under ASC 820 as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). To measure fair value, a hierarchy has been established that requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs. As such, the hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

- Quoted prices for similar assets and liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in markets that are not active
- Observable inputs other than quoted prices that are used in the valuation of the assets or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

The St. Luke Hospitals, Inc. Pension Plan

Notes to Financial Statements (continued)

4. Fair Value Measurements (continued)

Following is a description of the valuation methodologies used for assets measured at fair value:

Common/collective trust money market fund: valued at the original cost plus any accrued interest, which approximates fair value (Level 1).

Mutual funds: valued based on quoted market prices in an active market, which represent the net asset value of shares held by the Plan at year-end (Level 1).

Hedge fund of funds: valued at the NAV provided by the administrator of the fund. The net asset value is based on the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding (Level 3).

The following table sets forth by level, within the fair value hierarchy, the Plan's assets carried at fair value as of December 31, 2011.

Assets at Fair Value as of December 31, 2011				
	Level 1	Level 2	Level 3	Total

4. Fair Value Measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets carried at fair value as of December 31, 2010.

	Assets at Fair Value as of December 31, 2010			
	Level 1	Level 2	Level 3	Total

- ^(a) The SEI Opportunity Collective Fund Class A (SEIOCF) provides a means to diversify risk and participate in investments in various private investment funds, many of which pursue hedge investment strategies. Withdrawals may be made from SEIOCF as of a valuation date that is also the last business day of a calendar quarter (March 31, June 30, September 30, December 31), at the value of the Plan's investment on such valuation date, provided that the Plan shall deliver a written request 65 business days prior to the date of the withdrawal specifying the dollar amount to be withdrawn and the quarterly valuation date with respect to which the withdrawal shall be made. If the Plan redeems its entire investment, 10% of the value of such investment may be held in escrow until the completion of SEIOCF's annual audit.

The Level 3 asset is a hedge fund of funds (alternative investment) whose carrying value is based on valuations provided by the administrators of the specific financial instruments. The underlying investments in these financial instruments may include marketable debt and equity securities, commodities, foreign currencies, derivatives, and private equity investments. The underlying investments themselves are subject to various risks, including market, credit, liquidity, and foreign exchange risk. St. Elizabeth Healthcare believes the carrying amount of these financial instruments in the Plan's statements of net assets is a reasonable estimate of ownership interest. Because these financial instruments are not readily marketable, the estimated carrying value is subject to uncertainty and, therefore, may differ from the value that would have been used had a market for such financial instruments existed.

The St. Luke Hospitals, Inc. Pension Plan

Notes to Financial Statements (continued)

4. Fair Value Measurements (continued)

The intent is to use the alternative investment to reduce, rather than increase, market volatility risk when considered together with the Plan's assets as a whole. The Plan's fiduciaries do not anticipate any material adverse effect on the Plan's financial position as a result of its involvement in these instruments.

The table below summarizes the Plan's actual investment asset allocation as of December 31, 2011, in comparison to its target asset allocation per the Plan's Investment Policy Statement.

	<u>2011 Actual</u>	<u>Target</u>
Equity mutual funds	50%	50%

Balance, end of year	<u>\$ 3,689,794</u>	<u>\$ 3,741,493</u>

The \$(51,699) and \$38,867 changes in the carrying value of the alternative investments are included within the net (depreciation) appreciation in the fair value of investments in the Plan's statements of changes in net assets available for benefits for the years ended December 31, 2011 and 2010, respectively.

5. Investments

All investment information for the Plan disclosed in the accompanying financial statements and supplemental schedules, including investments held at December 31, 2011 and 2010, and the net (depreciation) appreciation in the fair value of investments, interest, and dividends for the years ended December 31, 2011 and 2010, were obtained or derived from information provided to the plan administrator and certified as complete and accurate by SEI Private Trust Company and State Street Bank and Trust Company, the trustees of the Plan.

The fair value of individual investments that represents 5% or more of the Plan's net assets available for benefits are as follows:

	December 31	
	2011	2010
SEI Large Cap Disciplined Equity Fund	\$ 14,812,860	\$ 13,337,078
SEI Small / Mid Cap Equity Fund	3,636,364	3,642,951
SEI World Equity Ex-US Fund	5,280,358	5,461,139
SEI Core Fixed Income Fund	14,597,523	11,739,930
SEI High Yield Bond Fund	3,506,547	3,067,851
SEI Opportunity Collective Fund Class A	3,689,794	3,741,493

During 2011 and 2010, the Plan's investments (including investments bought, sold, as well as held during the year) (depreciated) appreciated in fair value as follows:

	Year Ended December 31	
	2011	2010
Mutual funds	\$ (809,707)	\$ 3,772,974
Hedge fund of funds	(51,699)	38,867
	<u>\$ (861,406)</u>	<u>\$ 3,811,841</u>

The St. Luke Hospitals, Inc. Pension Plan

Notes to Financial Statements (continued)

6. Tax Status

The Plan has received a determination letter from the IRS dated November 21, 2011, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code, and, therefore, believes the Plan is qualified and the related trust is tax exempt.

U.S. GAAP requires Plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, currently there are no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2009.

7. Related-Party Transactions

Certain of the Plan's assets are invested in funds managed by the trustees of the Plan. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA.

8. Administrative Expenses

The Plan incurs administrative expenses directly related to the Plan, which consist primarily of investment management fees, trustee fees, PBGC fees, and actuarial fees. These expenses are reported on the statements of changes in net assets available for benefits as administrative expenses. All other administrative expenses are paid by St. Elizabeth Healthcare on behalf of the Plan.

The St. Luke Hospitals, Inc. Pension Plan

Notes to Financial Statements (continued)

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market volatility, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that those changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

10. Subsequent Events

The Plan has evaluated and disclosed any subsequent events through October 9, 2012, which is the date the Plan's financial statements were available to be issued.

A ACTUARIAL COST METHOD

The actuarial cost method used to determine the target normal cost, target liability and required contribution amounts for the plan is the Traditional Unit Credit Actuarial Cost Method. Under this method, both the target normal cost and target liability are based on the annual accrual of benefits as accruals occur each year.

The target liability for each active plan participant is equal to the actuarial present value of the participant's accrued benefit as of the valuation date. The total target liability of the plan is equal to the sum of such liabilities as determined for each active participant plus the actuarial present value of benefits being paid, or due to be paid, to retirees, beneficiaries and former participants with deferred vested benefits.

The target normal cost for each active participant is equal to the actuarial present value of the benefit expected to be earned during the year starting on the valuation date. The total target normal cost of the plan is the sum of the target normal costs for each active plan participant.

All employees who are plan participants on a valuation date are included in the actuarial valuation.

B ASSET VALUATION METHOD

The actuarial value of assets is equal to the market value of assets on the valuation date reduced by the sum of:

1. 66.67% of gains and losses of the prior year;
2. 33.33% of gains and losses of the second prior year.

Investment gains and losses are determined by the excess or deficiency of the expected return (at the third segment Target Liability interest rate) over the actual return on the market value (including employer contributions receivable for any given year).

The actuarial valuation of assets is further constrained to be not less than 90% or more than 110% of market value (including employer contributions receivable).

Part V – Summary of Plan Provisions**

**Plan Name: The St. Luke Hospitals, Inc. Pension Plan
Plan Sponsor: St. Elizabeth Medical Center, Inc.**

**E.I.N.: 61-0445850 Plan No.: 005
Plan Year: January 1, 2011 to December 31, 2011**

Background

Effective December 13, 2008, benefit accruals ceased under the Health Alliance Retirement Plan (the “HA Plan”) for The St. Luke Hospitals, Inc. employees who were participating in the HA Plan. Subsequently, assets and liabilities associated with The St. Luke Hospitals, Inc. employees and former employees who were participants in the HA Plan were “spun-off” to this new plan. The plan provisions summarized in this SECTION IX describe the provisions of the prior HA Plan as they applied to The St. Luke Hospitals, Inc. employees who participated in the HA Plan.

Plan Year

January 1 to December 31.

Covered Employee

An Employee who, as of January 1, 1999, was a participant or eligible to become a participant in one of the Old Plans and any other Employee other than (a) intern, resident, fellow or student nurse (b) independent contractor (c) active participant in PERS or STRS (d) contractor for University of Cincinnati who is an active participant in City Plan or (e) member of CBU that hasn't adopted provisions of the Plan.

Entry Date

January 1 or July 1.

Eligibility Computation Period

12-month period following date of hire and then each 12-month period from January 1 after date of hire.

Eligibility Year

An Eligibility Computation Period in which an individual is credited with at least 1,000 Hours of Service.

**Attachment to 2011 Form 5500 Schedule SB,

**Plan Name: The St. Luke Hospitals, Inc. Pension Plan
Plan Sponsor: St. Elizabeth Medical Center, Inc.**

**E.I.N.: 61-0445850 Plan No.: 005
Plan Year: January 1, 2011 to December 31, 2011**

Participation

Each Covered Employee who is not already a Participant shall become a Participant on the later of (a) the Entry Date coinciding with or following the attainment age 21 and at least one Eligibility Year or (b) if not Covered Employee on such Entry Date, first date thereafter on which become Covered Employee has completed at least one Eligibility Year.

No new participants shall enter the Plan after December 13, 2008.

Earnings

Employee's hourly rate of base pay determined as of January 15 of the Plan Year excluding overtime, incentive compensation, shift differential, disability payments, severance payments, pensions or other forms of deferred compensation multiplied by 2080.

Final Average Earnings

Average of employee's Earnings for the highest 5 Plan Years out of the current Plan Year and the 9 Plan Years beginning before the current Plan Year.

If the averaging period is less than 5 full Plan Years, then the averaging period is used.

Earnings for service after December 13, 2008 are not recognized.

Covered Compensation

The average of the Social Security taxable wages bases in effect for each calendar year during the 35 year period ending with the calendar year in which the Participant attains Social Security Retirement Age. It is assumed that the Social Security Taxable Wage in effect at the beginning of the Plan Year will remain the same for all future Plan Years.
