Note 1 - Description of Plan

The following description of the Lifecare Home Services of N.W. Pa Retirement Plan ("the Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General
The Plan is a defined contribution plan covering all eligible employees of Lifecare Home Services of N.W. Pa., d/b/a Great Lakes Home Healthcare Services, (the "Company"). Employees must be 18 years of age to participate in the plan and have completed one year of eligible service. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Administrative expenses of the Plan are paid by the Company.

Contributions
Participants may contribute up to 100% of eligible compensation, up to the amount allowed by applicable law, as defined in the Plan agreement. Participants may also make roll-over contributions to the plan from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan offers mutual funds as investment options. The Plan permits the employer to make a discretionary matching contribution for each plan year as defined in the Plan document. For the year ended June 30, 2012, the employer's discretionary contribution totaled $9,000. This contribution will be funded by forfeitures therefore, no current contribution is required by the Company.

Participant's Accounts
A separate record keeping account is maintained for each participant to record contributions, payments, and investment direction. Each contribution is allocated at the time it is received by the trustee.

Participant's Loans
Participants may borrow from their accounts. Generally, participants must repay his or her loan in full within five years. The maximum loan amount is the lesser of one-half of the participant's vested account balance or $50,000. The minimum amount is $1,000. Principal and interest are paid through periodic payroll deductions. The interest rate equals the prime rate as printed in the Wall Street Journal at the time of the loan.

Vesting
Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contributions is based on years of service, as defined in the Plan document. A participant is 100% vested in the matching contributions after five years of service. A participant is considered fully vested upon death, disability or satisfaction of the conditions for early retirement age.

Payment of Benefits
Benefits are payable to participants upon termination of employment, retirement, death, disability or on account of hardship as defined within the Plan document. Benefits are paid in the form of a lump sum.

Forfeited Accounts
At June 30, 2012, $9,090 of accumulated forfeited balances are included in plan assets, of which $3,569 were forfeitures made in the current year. Accumulated forfeited balances will be used by the Company to fund the employer's discretionary matching contribution for the year ended June 30, 2012.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting
The financial statements of the Plan are prepared using the accrual method of accounting.

Estimates
The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Payment of Benefits
Benefits are recorded when paid.

Subsequent Events
Management has evaluated subsequent events through December 10, 2012, the date the financial statements were available to be issued.

Note 3 - Investments

Investments consist of registered investment companies (e.g. mutual funds). FASB ASC 820, *Fair Value Measurements*, defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. FASB ASC 820 also established a hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that observable inputs be used when available. Observable inputs are inputs that market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the Plan. Unobservable inputs are inputs that reflect the Plan's assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. The hierarchy is broken down into three levels based on the reliability of inputs as follows:

Level 1- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date.
Level 2- Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
Level 3- Level 3 inputs are unobservable inputs for the asset or liability.

The Plan's investments are measured at fair value and are classified as Level 1, per above.
