NOTE 1 - DESCRIPTION OF PLAN

The following description of **Sigma Electric Manufacturing Corp. Employees Profit Sharing Plan** provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution, safe harbor, 401(k) Plan covering substantially all employees of the Company. It is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Contributions

Each participant enters into a salary reduction agreement with the employer. The employee may elect to defer up to 100% of defined compensation not to exceed the annual deferral dollar limit. In safe harbor plan years, the employer will make a matching contribution equal to 100% of employee salary deferrals that do not exceed 3% of compensation plus 50% of salary deferrals between 3% and 5% of compensation. The Company may make discretionary contributions each year. Contributions may be subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contribution and Plan earnings and charged with an allocation of applicable administrative expenses. Allocations are based on participant earnings or account balances, as defined. Each participant self directs their individual account in various fund company investments. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Vesting

Participants are 100% vested at all times in their deferral accounts and safe harbor matching contributions. For the Company’s discretionary contributions the vesting schedule is 0% at less than 2 years, 20% at 2 years, 40% at 3 years, 60% at 4 years, 80% at 5 years and 100% at 6 or more years of service.

Payment of Benefits

Benefits are recorded when paid. On termination of service, a participant may elect to receive either a lump-sum amount equal to the value of his or her accounts or delay receipt of benefits, if the vested account balance is greater than $5,000.

Forfeited Accounts

At March 31, 2012 and 2011, forfeited non-vested accounts totaled $19,051 and $11,155, respectively. Forfeited non-vested accounts are used to pay administrative expenses and reduce future employer contributions. For the year ending March 31, 2012, no forfeitures were used to pay administrative expenses or to reduce employer contributions.

Participant Loans

Participants may borrow from their fund account a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant’s account and bear interest at a rate of 3.25%, which is commensurate with local prevailing rates as determined quarterly by the Plan’s management. Principal and interest are paid ratably through biweekly payroll deductions. Participant loans are reported at unpaid principal balance. Delinquent loans are classified as distributions based upon the terms of the Plan document.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting
The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Investment Valuation and Income Recognition
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Operating Expenses
The employer pays a portion of the administrative expenses of the Plan.

Subsequent Events
The Plan has evaluated subsequent events through September 27, 2012, the date the financial statements were available to be issued.

NOTE 3 - INVESTMENTS

The following presents investments that represent 5% or more of the Plan's net assets:

		2012	2011

		2012	2011
Mutual Funds	$	**6,977**	205,530

NOTE 4 - FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board *(FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include - • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at March 31, 2012 and 2011.

Mutual Funds
Valued at the net asset value (NAV) of shares held by the Plan at year end.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of March 31, 2012 and 2011:

NOTE 5 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

NOTE 6 - RELATED-PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

NOTE 7 - TAX STATUS

The IRS has determined and informed the Company that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan's management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt.

NOTE 7 - TAX STATUS (continued)

Accounting principles generally accepted in the United States of America require the Plan's management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan's management believes it is no longer subject to income tax examinations for years prior to March 31, 2009.

NOTE 8 - CERTIFICATION
