NOTES TO FINANCIAL STATEMENTS

NOTE 1: PLAN DESCRIPTION

General

The Allied Mineral Products, Inc. Employees' Stock Ownership Plan and Trust (the "Plan") was formed on April 1, 1976 by Allied Mineral Products, Inc. (the "Plan Sponsor" or the "Company"). The Plan is a noncontributory defined contribution plan and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Information concerning benefits, allocations, forfeitures, and other provisions under the Plan is included in the Allied Mineral Products, Inc. Employees' Stock Ownership Plan and Trust Agreement which is available for review by participants. Participants should refer to this document for more complete information.

ESOP Contributions

Contributions to the Plan are determined at the discretion of the Board of Directors of the Plan Sponsor and are subject to Internal Revenue Service limitations.

Participant Accounts

Individual accounts are maintained for each plan participant to reflect the participant's entire interest under the Plan. Each participant's account is credited with the Plan Sponsor's contribution, net gains and losses on investments, and reduced by distributions from the participant's account. As of each valuation date, the Plan allocates earnings (losses) into each participant's account so that the total of all participant account balance equals the fair market value of the ESOP trust fund as of each valuation date. The Company's contributions are allocated to eligible participants' accounts based on the ratio of each eligible participant's compensation for the year to the total compensation for all participants. A participant is entitled to that benefit which his or her account can provide.

Eligibility

A non-leased employee of the Company becomes eligible as a participant in the Plan upon reaching age 18 and completing 500 hours of service. Participation commences on the entry date, which is the first day of the plan year in which you first become eligible.

Voting Rights

The Plan Administrator has the right to direct the Trustee as to the voting of allocated and unallocated shares of Company Stock in any matter which any other shares of the Company may be voted, except that the Participants shall have the right to direct the Trustee as to the voting of stock allocated to their account in certain matters.

Vesting

Employer contributions to the Plan vest 20% at the end of the second year of participation and an additional 20% each year thereafter until fully vested.

Forfeitures

Forfeitures are allocated to participant accounts as provided by the Plan document. There were no unallocated forfeitures as of March 31, 2012 and 2011.

ALLIED MINERAL PRODUCTS, INC.
EMPLOYEES' STOCK OWNERSHIP PLAN AND TRUST

NOTES TO FINANCIAL STATEMENTS

Payment of Benefits

Upon termination of service, a participant whose vested account balance is under \$25,000 is eligible for immediate withdrawal. If the participant's vested account balance exceeds \$25,000 there is a five year waiting period for withdrawal. Distributions due to death, disability or retirement are eligible for immediate withdrawal of 80% of their vested account balance, with remaining balance payable upon the next stock valuation.

The accompanying financial statements have been prepared on the accrual basis of accounting.

Accounting standards require that investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statements of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures. Actual results could differ from those estimates. The Plan relies significantly on the use of estimates in determining the valuation of the Allied Mineral Products, Inc. common stock, which is the primary Plan investment.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investments in money market funds are valued at cost, which approximates market. Investments in mutual funds are stated at fair value as determined by quoted market prices. The fair value of the investment in common collective trust is equal to the sum of the fair market value of all of the fund's investments. Investments in Allied Mineral Products, Inc. common stock are stated at the estimated fair value based on valuation reports prepared by an independent appraiser as of March 31, 2012 and 2011, and dated September 2012 and 2011, respectively.

During 2012, the Plan was invested in The Morley Stable Value Fund, a collective trust, which invests in fully benefit responsive investment contracts. There are currently no redemption restrictions on these investments. These investment contracts are recorded at contract value, which approximates fair value. The contract value represents contributions plus earnings, less participant withdrawals and administrative expenses. The fair value of the investments was determined based on the quoted market values of the underlying investments, as the collective trust itself is not actively traded on an exchange.

During 2011, the Plan was invested in the Charles Schwab Stable Value fund, a collective trust, which invests in fully benefit responsive investment contracts which are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan.

Benefit Payments

Benefit payments are recorded when paid.

Administrative Expenses

Trustee expenses are paid by the Plan and administrative expenses are paid by the Plan Sponsor as provided by the Plan document.

Subsequent Events

In evaluating events that may have a material impact on the financial statements, the Company has considered activities through December 20, 2012, the date the financial statements were available to be issued.

NOTE 3: INFORMATION PREPARED AND CERTIFIED BY NORTHSTAR TRUST COMPANY

The following is a summary of the Plan's asset information as of March 31, 2012 and 2011, and for the years then ended, included throughout the Plan's financial statements and supplemental schedules, that was prepared by or derived from information provided by the custodian and furnished to the Plan administrator. The Plan Administrator has obtained certifications from the custodian that information provided to the Plan Administrator by the custodian is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations of Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets:

	2012	2011
Investments, at fair value:		
Mutual Funds	\$ 4,599,036	\$ 1,832,961
Collective Investment Trust	\$ 2,395,019	\$ 3,771,462
Money Market Fund	\$ 3,232,042	\$ 624,037
Allied Mineral Products, Inc. Common Stock	\$123,083,454	\$107,634,666

NorthStar Trust Company also certified to the completeness and accuracy of the \$15,586,681 and \$21,571,891 of net appreciation in fair value of investments and \$9,372,289 and \$2,573,924 of interest, distributions and dividends related to the aforementioned assets for the years ended March 31, 2012 and 2011.

NOTE 4: INVESTMENTS

The Plan's investments, which exceeded five percent of net assets available for benefits as of March 31, 2012 and 2011, are as follows:

	2012	2011
Common stock - Allied Mineral Products, Inc.	\$123,083,454	\$107,634,666

NOTE 5: FAIR VALUE MEASUREMENTS

Accounting standards establish a framework for measuring fair value by providing a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities ("Level 1 inputs") and the lowest priority to unobservable inputs ("Level 3 inputs"). The three levels of the fair value hierarchy are described below:

- Level 1 – quoted prices in active markets for identical assets.

ALLIED MINERAL PRODUCTS, INC.
EMPLOYEES' STOCK OWNERSHIP PLAN AND TRUST

NOTES TO FINANCIAL STATEMENTS

NOTE 5: FAIR VALUE MEASUREMENTS (Continued)

- Level 2 – other significant inputs (including quoted prices of similar securities, interest rates, prepayment speeds, credit risk, etc.)
- Level 3 – significant unobservable inputs (which may include the Plan's own assumptions in determining the fair value of investments).

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes to the methodologies used at March 31, 2012 and 2011.

Common stocks: Valued by independent valuation.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the plan at year end.

Collective investment trust: Valued at unit price as determined by the custodian at year end.

Money market fund: Valued at cost which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of March 31:

NOTE 6: RELATED PARTY TRANSACTIONS

Certain Plan investments include shares of the Plan Sponsor. Allied Mineral Products, Inc. is the Plan Sponsor and therefore, these transactions qualify as related party transactions.

NOTE 7: PLAN TERMINATION

The Plan was adopted with the expectation that it will continue indefinitely; however, the Plan Sponsor reserves the right to terminate the Plan in whole or in part or suspend contributions thereto. In the event of the termination of the Plan or suspension of contributions, each participant will be immediately entitled to full vesting in the entire amount of their respective account.

NOTE 8: TAX STATUS

The Plan obtained its latest determination letter dated October 18, 2002, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter; however, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require management of an organization to evaluate tax positions taken by the organization and recognize a tax liability if the organization has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. Plan management has analyzed the tax positions taken by the Plan, and has concluded that as of March 31, 2012, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements.

There are currently no audits for any tax periods in progress. Plan management believes it is no longer subject to income tax examinations for years prior to 2009.

NOTE 9: RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
