NOTE 1 — DESCRIPTION OF PLAN

The following brief description of the Commerce Technologies, Inc. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

The Plan, sponsored by Commerce Technologies, Inc., is a defined contribution plan covering substantially all employees of Commerce Technologies, Inc. (the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The purpose of the plan is to enable eligible employees to save for retirement. The Plan was adopted on January 1, 2000 and amended periodically with the last amendment as of January 1, 2012.

On March 12, 2012, the Plan was merged and all Plan assets were transferred into a plan sponsored by the Parent Company of Commerce Technologies, Inc. The following plan terms were in effect prior to Plan merger:

Eligibility

Generally, all employees of the Company are eligible to participate in the Plan, with the exception of employees covered by a collective bargaining agreement (if any) and nonresident aliens. To participate in the Plan, eligible employees must attain the age of twenty-one and complete three consecutive months of service. Eligible employees may begin to participate in the Plan on the first day of each quarter after meeting the age and service requirements.

Contributions

The Plan allows employees to make pre-tax contributions from between 1% and 100% of compensation, subject to certain limitations, under the Internal Revenue Code (IRC). Each participant in the Plan may defer the maximum percentage of their compensation and dollar amount permissible under the IRC as a basic contribution to the Plan. Participants who are projected to be age 50 or older by the end of the calendar year are eligible to make catch-up contributions up to the dollar amount permissible under the IRC.

Employees who are qualifying contributing participants are eligible for certain contributions to the Plan by the Company. The Plan provides for the following Company contributions:

Safe-Harbor Matching Contributions: The Plan was amended to revoke/discontinue the Safe Harbor basic match effective January 1, 2012. During 2011, the Company made safe harbor matching contributions equal to 100% of the participants deferrals that does not exceed 3% of the employees compensation for the plan year, plus 50% of the elective deferrals that exceeds 3% of compensation for the Plan year but does not exceeds 5% of the participants compensation for the plan year. Matching contributions are not made on catch-up contributions.

Matching Contributions: The Company may make matching contributions, including qualified matching contributions, to be determined according to a discretionary formula in an amount, if any, to be determined by the Company. This matching contribution will be determined as a percentage of salary deferrals made during the Plan year or as a uniform dollar amount.

Other Contributions: The Company may make other contributions determined according to a discretionary formula in an amount, if any, to be determined by the Company. This contribution may be determined as a uniform percentage of compensation or as a uniform dollar amount. The Company may also make qualified non-elective contributions at their discretion. Any qualified non-elective contribution will be allocated to non-highly compensated participant's accounts based on a percentage of Plan Compensation.

NOTE 1 — DESCRIPTION OF PLAN (Continued)

Participant Accounts

Each participant's account is credited with the participant's contribution and increased or decreased by allocations of (a) the Company's contribution, if any and, (b) Plan earnings and losses, and c) administrative expenses. Allocations are based on participant contributions or account balances, as defined in the Plan document. The benefit to which a participant is entitled is based on a participant's vested account.

Vesting

Participants are 100% vested in their contributions, rollover contributions, safe harbor matching contributions, qualified non-elective contributions, qualified matching contributions and any earnings thereon. Other discretionary employer and matching contributions made to the Plan follow a six year graded vesting schedule.

Investment Options

The Plan Administrator has elected to fund the Plan investments through a group deferred variable annuity contract ("Annuity Contract") issued by AXA Equitable Life Insurance Company. Participants have the right to direct the investment of Plan assets held under the Plan on their behalf. Investment options include a guaranteed interest option (non-benefit responsive) and several mutual funds including private, non-exchange traded mutual funds held in a separate account available to Plan participants under the Annuity Contract.

Participant Loans

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of 50% of the vested account balance. Under no event will the loan amount exceed \$50,000. The \$50,000 will be reduced by the excess, if any, of the participant's highest outstanding balance of loans from the Plan during the one year period ending on the day before the date on which such loan is made, over the participant's outstanding balance of loans from the Plan as of the date such loan is made. Up to 50% of the employee's vested account balance may be used as collateral for any loan. All loans shall bear interest based on the prime rate plus 1%. The loan rate will be determined on the date the loan is requested and shall remain fixed throughout the duration of the loan. A participant may have only one loan outstanding at any time.

All loans must be repaid through after-tax payroll deductions on a per payroll basis.

In-service Withdrawals

In-service withdrawals are allowed at age 59½ against profit sharing and matching contributions.

Payment of Benefits

On termination of service due to death, disability, or retirement, a participant may take a distribution of his/her entire vested account balance in a single lump sum. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeitures

If a participant who is not fully vested terminates employment with the Company, the participant's non-vested portion is forfeited and used to pay the expenses of the plan and to offset the employer match. For the period from January 1, 2012 through March 12, 2012, approximately, \$9,000 was used to pay the expenses of the plan and to offset the employer match.

NOTE 2 — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following are the significant accounting policies followed by the Plan:

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition

Investments are reported at fair value based upon methodologies as described in Note 3. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Net appreciation in the fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year. Gains or losses on Plan investments are determined on a daily basis. Participants receive an allocation of gains or losses under the Plan at the end of each business day during which the New York Stock Exchange is open.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The Plan absorbs all costs of administration of the Plan.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Subsequent Events

The Plan has evaluated subsequent events through December 20, 2012, the date the financial statements were available for issuance.

NOTE 2 — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Loans Receivable from Participants

Loans receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

NOTE 3 — INFORMATION CERTIFIED BY AXA EQUITABLE

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and regulations for Reporting and Disclosure under ERISA. Accordingly, the Plan administrator has obtained a certification from AXA Equitable that such information is complete and accurate. The following is a summary of the information regarding the Plan as of March 12, 2012 and December 31, 2011, and for the period from January 1, 2012 through March 12, 2012, included in the Plan's financial statements that were prepared by or derived from information certified by AXA Equitable:

NOTE 4 — INVESTMENTS

The Plan follows guidance issued by the Financial Accounting Standards Board (FASB) regarding the reporting of financial assets. The guidance establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. The three levels of the fair value hierarchy are described below:

- Level 1 - Inputs are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access;
- Level 2 - Inputs are observable inputs other than quoted market prices in active markets for identical assets and liabilities; and
- Level 3 - Inputs are unobservable and cannot be corroborated by observable market data.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at March 12, 2012 and December 31, 2011.

Guaranteed interest option: Valued at contract value which equals contributions and transfers in, plus interest, minus withdrawals, transfers out and charges, which approximates the cash surrender and fair value.

Pooled separate account: Valued daily at net unit value (NUV) which represents the net asset values (NAV) of the underlying mutual funds less daily charges. Underlying mutual funds, including private, non-exchange traded mutual funds, represents the daily per share value of the portfolio of investments of the mutual funds, at which sufficient volumes of transactions occur.

The methods described above may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 7 — TAX STATUS

The Internal Revenue Service has determined and informed the company by a letter dated April 18, 2008, that the plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the plan has been amended since receiving the determination letter, the plan administrator believes that the plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

The Plan administrator has analyzed the tax positions taken by the Plan as required by generally accepted accounting principles, and has concluded that as of March 12, 2012, there were no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is not subject to income tax examinations for years prior to 2009.

NOTE 8 — PARTY-IN-INTEREST TRANSACTIONS

Plan investments are managed by AXA Equitable and held by JPMorgan Chase Bank, N.A., as custodian. DST is the record keeper as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions, which are exempt from prohibited transaction rules.
