## Digital Receiver Technology, Inc. 401(k) Plan

### Notes To Financial Statements

---

#### Note 1. Description of Plan

The following description of the Digital Receiver Technology, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan was a defined contribution plan covering all employees of Digital Receiver Technology, Inc. (the Company), hired prior to July 17, 2009, who were age eighteen or older other than those covered by a collective bargaining agreement, leased employees, interns, and nonresident aliens without U.S. earned income. It was subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

On December 18, 2008, The Boeing Company (Boeing) purchased the Company, the Plan's sponsor. Effective July 17, 2009, the Plan was frozen, and the Company's employees became employees of Boeing, began participation in The Boeing Company Voluntary Investment Plan (VIP), and were no longer able to make contributions to the Plan.

Effective December 1, 2009, sponsorship of the Plan was transferred to Boeing, and administrative and amendment authority over the Plan was delegated to Boeing's Employee Benefit Plans Committee (EBPC).

On June 14, 2012, the assets of the Plan were merged into the VIP.

Contributions: Participants could contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (i.e., rollover contributions). Since the Plan was frozen on July 17, 2009, no other types of contributions had been permitted. Participants could direct the investment of contributions into various investment options offered by the Plan on a daily basis. The Plan offered mutual funds and a money market account as investment options for participants.

Participant accounts: Each participant's account was credited with any rollover contributions and allocations of Plan earnings/losses, and charged with an administrative fee for any loans processed to their account, if applicable. Allocations were based on participant earnings, account balances, or specific transactions, as defined. The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account.

Vesting: Participants were immediately vested in all contributions, plus actual earnings thereon.

Notes receivable from participants: Participants could borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance, reduced by any outstanding loan balance. Participants could only have one loan outstanding at any time. Loans needed to be repaid within 5 years, or 10 years if taken for purchase of a principal residence. The loans were secured by the balance in the participant's account and bore interest at the current prime rate as of the effective date of the loan. The interest rates ranged from 3.25% to 8.25% for loans outstanding prior to the asset transfer on June 14, 2012 and as of December 31, 2011. Principal and interest was paid ratably through bi-weekly payroll deductions.

Payment of benefits: On termination of service due to death, disability, retirement, or other reasons, a participant could elect to receive an amount equal to the value of the participant's vested interest in his or her account.

Distributions could be in the form of a lump sum or installment payments. If the total benefit was \$1,000 or less, the entire amount could be paid in a lump sum distribution, unless the participant elected otherwise. If the total benefit was greater than \$1,000, but less than \$5,000, the balance could be automatically rolled into an individual retirement account, unless the participant elected otherwise. Withdrawals for financial hardship (as defined by the Plan) were permitted. In-service distributions were also permitted for participants who were at least 59 ½ years of age.

#### Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual method of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and uncertainties: The Plan utilized various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it was reasonably possible that changes in the values of investment securities would occur in the near term and such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Investment valuation and income recognition: Shares of registered investment companies (mutual funds) were reported at fair value based on the quoted market price of the fund, which represented the net asset value of the shares held by the fund at year-end. The money market account was valued at cost, which approximated fair value.

Purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded on the accrual basis. Dividends were recorded on the ex-dividend date. Net appreciation included the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Notes receivable from participants: Notes receivable from participants were measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants were recorded as a distribution based upon the terms of the plan document.

Benefits: Benefits were recorded when paid.

Administrative expenses: Necessary and proper expenses of the Plan were paid from the Plan assets, except for those expenses the Company was required by law or chose to pay.

#### Recent Pronouncements:

In May 2011, the Financial Accounting Standards Board issued ASU 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs*, which changes certain fair value measurement principles and enhances the disclosure requirements, particularly for Level 3 fair value measurements. This update is effective for reporting periods beginning on or after December 15, 2011, with early adoption prohibited, and requires prospective application. Adoption of ASU 2011-04 did not have any impact on the financial statements as of June 14, 2012 and for the period January 1, 2012 to June 14, 2012.

Subsequent events: The Plan evaluated subsequent events that occurred after the date of the financial statements but before the statements were available to be issued through January 8, 2013.

#### Note 3. Fair Value of Financial Assets and Financial Liabilities

The Plan has adopted the provisions of ASC 820, *Fair Value Measurements and Disclosures*, which establishes a fair value hierarchy that prioritizes the investments to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable investments (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 for financial assets and financial liabilities are described below:

## Notes To Financial Statements

|         |                                                                                                                                                                                                                                                                                                                                 |
|---------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Level 1 | Values are based on quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities. An active market is a market in which transactions for the asset or liability occur with sufficient frequency and volume to provide pricing information on an ongoing basis. |
| Level 2 | Values are based on (a) quoted prices for similar assets or liabilities in active markets; (b) quoted prices for identical or similar assets or liabilities in non-active markets; or (c) valuation models whose inputs are observable, directly or indirectly, for substantially the full term of the asset or liability.      |
| Level 3 | Values are based on prices or valuation techniques that require estimates that are both unobservable and significant to the overall fair value measurement. These investments may reflect estimates of the assumptions that market participants would use in valuing the financial asset or financial liability.                |

Pursuant to ASC 820, fair value is a market-based measure, considered from the perspective of a market participant who owns an asset or owes a liability. Accordingly, when market observable data is not readily available, assumptions are set to reflect those that market participants would be presumed to use in pricing the asset or liability at the measurement date. Prices and inputs are used that are current as of the measurement date, including during periods of market disruption. In periods of market disruption, the ability to observe prices and inputs may be reduced for many instruments. This condition could cause an instrument to be reclassified from Level 1 to Level 2 or from Level 2 to Level 3.

The following table sets forth by level within the fair value hierarchy a summary of the Plan's investments measured at fair value on a recurring basis at December 31, 2011. As required by ASC 820, assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

#### Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the period January 1, 2012 to June 14, 2012, there were no significant transfers in or out of Levels 1, 2 or 3.

### **Notes To Financial Statements**

#### **Note 6. Tax Status**

Effective September 2002, the Plan adopted a non-standardized prototype plan sponsored by Fidelity Management and Research Company (FMRC). The Internal Revenue Service (IRS) has determined and informed FMRC by a letter dated November 30, 2005, that the prototype plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). As a result of the IRS five-year rolling amendment period and determination letter cycle, an application was filed with the IRS on February 2, 2010 for a determination as to whether the Plan continues to meet the qualification requirements of section 401(a) of the IRC with respect to the Plan's amendments. The IRS determined and informed Boeing by a letter dated August 22, 2011, that the Plan meets the requirements of the applicable sections of the IRC.

The implementation of ASC 740-10 did not result in any uncertain tax positions that would require adjustments to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements. Generally, the Plan is no longer subject to income tax examination by federal, state, or local authorities for years before 2009.

#### **Note 7. Related Party Transactions**

Certain Plan investments were shares of mutual funds and a money market fund managed by Fidelity. Fidelity was the trustee as defined by the Plan, and therefore those transactions qualified as party-in-interest transactions.
