(1) Description of the Plan

The following brief description of the Teichert, Inc. Retirement Savings Plan (the Plan) is provided for general information purposes. Participants should refer to the plan agreement for a more comprehensive description of the Plan's provisions.

(a) General

The Plan is a defined contribution plan which covers substantially all employees of Teichert, Inc. and certain wholly owned subsidiaries (the Company and the Sponsor) except those whose compensation and conditions of employment are established by the terms of collective bargaining agreements. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

(b) Contributions

Eligible employees can contribute as much as 100% of their pretax earnings up to limits as established by the Internal Revenue Service (IRS) for the fiscal years ended March 31, 2012 and 2011. For participants age 50 or older, an additional "catch up" contribution was allowed up to limits as established by the IRS. These contribution elections may be changed at any time by the participant. The Company provides a discretionary matching contribution which is determined each year. For the year-ended March 31, 2011, the participants' first 5% of contributions is matched 50% by the Company and vests immediately. The "catch up" contribution is not eligible for a match. The Company suspended matching contributions during fiscal year ended March 31, 2012.

Effective April 1, 2009, the Plan allowed the automatic enrollment of eligible employees who have no prior plan participation.

The Company may also make a profit sharing contribution on behalf of each participant who was an eligible employee and was credited with at least 1,000 hours of service for the Plan year. Such profit sharing contribution shall also be made on behalf of each participant who was an eligible employee at any time during the period but who ceased employment within the Plan year after having attained age 65, age 55 with 10 years of vested service, or by reason of permanent disability or death. No profit sharing contributions were made by the Company for the years ended March 31, 2012 and 2011. Contributions of cash to the Plan for the employees are discretionary and determined on an annual basis by the Board of Directors of Teichert, Inc.

(c) Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of the Company's match and profit sharing contributions, and plan earnings. Allocations are based on participant earnings or account balances, as defined. Following the earlier of: the date a terminated employee receives a complete distribution of their vested account, or the date a terminated participant incurs five consecutive one-year breaks in service, forfeited balances of terminated participants' nonvested accounts can be used to pay Plan expenses or may increase the amount allocated as profit sharing contributions as directed by the Plan administrator. An employee rehired prior to five consecutive one-year breaks in service is credited with the balance in their suspense account along with any gains or losses. Profit sharing forfeitures amounted to $98,547 and $132,190

for the years ended March 31, 2012 and 2011, respectively, all of which were allocated to participants as additional profit sharing contributions. There were no unallocated forfeitures as of March 31, 2012 and 2011. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(d) Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan transactions are treated as a transfer to (from) the investment funds from (to) notes receivable from participants. The loans are secured by the balance in the participant's account. The interest rate charged will be set by reference to the "bank prime rate plus 1%" as reported by the U.S. Federal Reserve on the last business day of a calendar quarter effective for loans made on and after the first business day of the subsequent quarter. The participant may choose the loan repayment period, not to exceed 5 years, except that the repayment period may be for any period not to exceed 15 years if the purpose of the loan is to acquire the participant's principal residence. Participant loans are reported at unpaid principal plus accrued interest. As of March 31, 2012, the Plan had 146 participant notes receivable outstanding with interest rates ranging from 4.25% to 9.25% and maturity dates ranging from August 15, 2012 to December 20, 2026. Principal and interest are paid ratably through payroll deductions.

(e) Vesting

Participants are immediately vested in their voluntary contributions and employer match plus actual earnings thereon. Vesting in the Company profit sharing contribution is based on years of continuous service. Vesting on profit sharing contributions prior to April 1, 2007 is as follows:

Vesting service	Percentage
Less than three years	0%
Three years	30
Four years	40
Five years	60
Six years	80
Seven years or more	100

Vesting on profit sharing contributions on or after April 1, 2007 is as follows:

Vesting service	Percentage
Less than two years	0%
Two years	20
Three years	40
Four years	60
Five years	80
Six years or more	100

(Continued)

(f) Payment of Benefits

On termination of service, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or periodic installments over a period not to exceed the life expectancy of the participant and his or her beneficiary. On March 21, 2005, the Plan was amended to allow terminated participants with vested balances less than $1,000 to be paid in a single lump-sum. If the vested account balance is greater than $1,000 and less than $5,000 and the participant has failed to elect a lump-sum payment or rollover, the vested account balance shall be automatically rolled over to an individual retirement account.

(g) Investment Options

Upon enrollment in the Plan, a participant may direct contributions in any of 15 funds comprised of various mutual funds and a group insurance annuity contract fund. Contributions must be made in whole percentages and allocations can be changed at any time.

(h) Excess Employee Deferrals

Excess employee deferrals represent amounts deferred by participants in excess of limits established by the IRS, and represent liabilities of the Plan. Excess deferrals are returned to participants and offset participant contributions in the statement of changes in net assets available for benefits. There were no excess employee deferrals as of March 31, 2012 or 2011.

(2) Summary of Accounting Policies

(a) Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting.

(b) Investment Contracts

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The investment contract is presented on the face of the statement of net assets available for benefits at contract value (which approximates fair value).

(c) Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 5 for discussion of fair value measurements.

The Prudential Guaranteed Income Fund includes investments in investment contracts and is included in the financial statements at contract value (which represents contributions made under the contract plus earnings, less withdrawals and administrative expenses), because the investment is fully benefit-responsive. Participants may ordinarily direct the withdrawal or transfer of all or a

portion of their investment at contract value. There are no reserves against contract value for credit risk of the contract issuer or otherwise. At March 31, 2012 and 2011, the contract value and fair value of the Prudential Guaranteed Income Fund were considered to be equal. The Prudential Guaranteed Income Fund had an average yield of approximately 2.90% and 3.15% for the years ended March 31, 2012 and 2011, and the underlying assets had a crediting interest rate of 2.90% and 3.15% as of March 31, 2012 and 2011.

In the event the Guaranteed Income Fund Investment Agreement is terminated, fund assets will be disbursed if the amount to be paid from the fund plus any transfer or disbursement amounts that were previously paid within the same calendar year does not exceed 10% of the total assets on January 1 of the year in which the disbursement amount is computed in the Guaranteed Income Fund pool. If the 10% threshold is exceeded certain withdrawal restrictions apply.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

(d) Payment of Benefits

Benefits are recorded when paid.

(e) Administrative Expenses

Teichert, Inc. pays substantially all of the Plan's administrative expenses. Such payments on behalf of the Plan are made at the discretion of the Sponsor, and are not reflected in the Plan's financial statements.

(f) Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(g) Risks and Uncertainties

The Plan may invest in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

(3) Information Certified by Trustee and Custodian

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

The Plan assets are invested in investment funds, which were held by the Trustee and Custodian of the Plan. Prudential Trust Company, the Trustee, and Prudential Retirement Insurance and Annuity Company, the Custodian, acted as Trustee and Custodian of certain assets of the Plan for the years ended March 31, 2012 and 2011. The Trustee and Custodian of the Plan execute transactions pursuant to discretionary authority they have been granted concerning purchases and sales of Plan investments and collection of related investment income. The Plan's Trustee and Custodian have provided the Plan administrator with certifications as to the completeness and accuracy of investment assets and related investment income on such assets. The Plan's Trustee certified the Non-Prudential issued investments and the Custodian certified the Prudential issued investments. Investment balances and investment income included in the accompanying financial statements and all of the investment data in the supplemental schedule are based on those certifications as of and for the years ended March 31, 2012 and 2011.

(4) Investments

The following presents investments that represent 5% or more of the Plan's net assets:

Total mutual funds	76,620,528	84,978,632
Total investments	$ 97,729,634	$ 103,483,298

*Greater than 5% of the Plan's net assets in 2011.

During the years ended March 31, 2012 and 2011, the Plan's mutual fund investments (including gains and losses on investments bought, sold, and held during the year) appreciated in value by $831,315 and $9,152,852, respectively.

(5) Fair Value Measurements

The Plan follows Accounting Standards Codification (ASC) Topic 820, *Fair Value Measurements and Disclosures*, for financial assets and liabilities and any other assets and liabilities carried at fair value. ASC Topic 820 establishes a framework for measuring fair value which provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1

(Continued)

measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC Topic 820 are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at March 31, 2012 and 2011.

Mutual funds – Valued at quoted market prices on the last business day of the Plan year.

Group insurance annuity contracts – Value represents deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees.

The methods described above may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of March 31, 2012:

	Investments at fair value as determined by quoted prices in active markets (Level 1)	Valuation techniques incorporating information other than observable market data (Level 3)	Total

(6) Tax Status

The IRS has informed Prudential Insurance Company of America, the prototype plan sponsor of the Plan, in an opinion letter dated March 31, 2008, that the form of the Plan is acceptable under the requirements of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the opinion letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of March 31, 2012 and 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for Plan years ending before March 31, 2009.

(7) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

(8) Related Party Transactions

Certain Plan investments are units in a group insurance annuity contract fund managed by Prudential Retirement Insurance and Annuity Company. Prudential Trust Company and Prudential Retirement Insurance and Annuity Company are wholly owned subsidiaries of Prudential Financial. Prudential Trust Company is the Trustee as defined by the Plan and, therefore, Prudential Retirement Insurance and Annuity Company qualifies as a party-in-interest.

(9) Subsequent Events

The Company has evaluated subsequent events through December 18, 2012, the date at which the financial statements were available to be issued.
